Questions to Consider:

1. Reaching Your Targets:

- Acknowledging that we do not have end of the year data, how are you measuring progress and/or outcomes? Did you identify any additional information you can use in the interim?
- Did you find discrepancies between your expected and actual outcomes? If so, what do you think caused those discrepancies?

2. Change of Plans:

- Have you identified changes that will be made to your goals or actions/services/expenditures? If so, how did you determine those changes? Have you decided to add or discontinue a goal? If so, why?

3. Engagement:

- How have you engaged your stakeholders in the annual update process?
- What was the impact of the engagement?
