2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

The mission of Kern County Juvenile Court School is to meet the unique educational, social, and emotional needs of our diverse student population in a safe and nurturing environment to encourage students to develop an enthusiasm for life-long learning and pursue post-high school opportunities. We empower students to develop skills necessary for success in a 21st century global society. The program focuses on developing the "whole student," by emphasizing transferable skills leading to academic success and productive citizenship along with career and college readiness preparation.

The Juvenile Court School programs are operated by the Kern County Superintendent of Schools Office. All juveniles served by Court Schools are placed by the juvenile justice system. Court School operates five separate year-round programs including four residential programs (Central School, Erwin Owen High School, Redwood High School, and the Jamison Children's Shelter School) and one non-residential program (Bridges Academy).

Central School provides educational services to students in all grades who are wards of the court and either reside in the Youth Detention Center; Pathways Academy, a female treatment camp housed in the facility; or the Furlough Treatment and Recovery Program, a short-term intervention program for wards arrested for violations of furlough.

Erwin Owen High School is a residential treatment camp that provides educational and vocational services to male juvenile offenders for average periods of four to six months. In addition to traditional academic instruction, ROP auto shop, forestry work, and animal husbandry provide work experience, vocational training, and career pathway development. Weekly pre-release conferences are conducted to ensure the student and parent aware of all supports that are in place to help the student as he transitions out of the institution.

Redwood High School is located at the Larry J. Rhodes Crossroads Facility and provides educational services to Kern County's most delinquent male youth in a boot camp-like setting. Students are committed to either a 24 or 36-week program. A construction technology class is available for students to obtain high-quality vocational training. Weekly pre-release conferences are conducted to ensure the student and parent are aware of all supports that are in place to help the student as he transitions out of the institution. Also located on the Redwood campus is APEX, a Kern County Secure Youth Treatment Facility that was established to transition California Division of Juvenile Justice youth to local custody.

A. Miriam Jamison Children's Center School is housed on the grounds of a 24-hour emergency shelter for neglected and

abandoned children. The program offers short-term educational services to students in transition to foster care or other home placements.

Bridges Academy is a school-based collaborative involving Court School, the Kern County Probation Department, mental health providers, and other agencies. This program offers a structured and supervised school environment where high school students can receive vocational education and enrichment while working to complete high school requirements.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

In conjunction with the Kern County Probation Department, Court School provides safe environments for student learning. Policies and procedures are in place to ensure communication and coordination between educators and probation staff. School facilities are well maintained and provide adequate space for students and staff. KCSOS and probation maintenance and operations departments continuously monitor Court School sites to ensure that classrooms and facilities are in good repair and conducive to a productive learning environment. Emergency maintenance needs are given the highest priority. A Williams Settlement notice is posted in all classrooms describing the procedures to be taken if any student, parent, staff, or community member determines a facility has not been adequately maintained.

All Court School programs are located within probation-run facilities with the exception of Bridges Academy, which is located on the Kelly F. Blanton Student Education Center.

Central School is housed within probation's Youth Detention Center, which provides classroom space to serve groups of students. The facility provides a school office for administration, space for counseling and testing services, a large day room for activities which require additional space, and a Learning Center for the delivery of Special Education services.

Erwin Owen High School is housed within probation's Camp Owen facility, which has classrooms that are utilized by the school to provide the departmentalized educational program. Space is also dedicated to the auto shop program and a Learning Center for the delivery of Special Education services. Additionally, the facility provides a school office for administration and a school library.

Redwood High School is housed within probation's Crossroads facility, which has classrooms that are available to support the education of students. The facility provides a school office for administration, space for the delivery of counseling services, a school library, and a Learning Center for the delivery of Special Education services.

Bridges Academy is housed at the Kelly F. Blanton Student Education Center and provides classrooms that are used to provide educational services, a Construction Technology classroom, a recreational room, and one computer lab classroom. Additionally, there is a large multi-office room for probation and one for education staff.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2022-23 Career Technical Education Programs

During the 2022-23 school year, Kern Youth @ Work offered Career Readiness courses aligned with the CTECS (Career & Technical Education Consortium of States) job readiness exam. All Court School students take this course, which is paced so that students can change facilities/schools and continue the curriculum where they left off. ServSafe certification is embedded into this course. KCSOS also offers a WIOA-funded JobsPlus! course for transitioning juniors and seniors to build soft skills, earn industry certifications, and allow students to participate in paid work-based learning. Automotive classes are offered at both Redwood and Erwin Owen High Schools. Career courses linked to a wide range of pathways are available to all students through the Edmentum online learning platform. These courses are supported by the academic teaching staff who work together to ensure linked learning opportunities and connections. Additional instructional support is provided to resource students per their IEP and to English Learners, as needed. CTE construction staff offer trades skills instruction at two court sites aligned with the NCCER Core Construction curriculum. These classes include OSHA-10 for Construction and Forklift Safety certifications. Trades workshops also provide CTE instruction for in-custody youth on weekends. Workshops include logistics, welding, electrical, furniture building, and culinary arts. OSHA forklift safety, ServSafe, and CPR certification courses are offered multiple times throughout the year to interested students. KCSOS students earned 387 industry-recognized certifications in 2022-23. CTE certifications earned are entered into Aeries when received. Articulated college credits earned are entered directly into the CATEMA college data system. KCSOS is part of the Alliance for College and Career Pathways collaborative and the Central/Mother Lode Regional Consortium that provide forums to connect with industry representatives, secure CTE funding, and to coordinate pathways between traditional high school districts, KCSOS, and the Kern Community College District. Kern Youth @ Work is also represented on the Bakersfield College Child Development Collaborative, Kern High School District's Regional Occupational Center Partners, and on the KCSOS Kern Pledge College and Career Ready inter-agency work group. Habitat for Humanity, Kern Family Healthcare, Kern Behavioral Health, Kern County Aging & Adult Services, KCSOS Transportation, KCSOS Central Kitchen, KCSOS Maintenance & Operations, and Kern County Juvenile Probation all provide pathway support and guidance as valued industry partners. Students enrolled in Court School do not complete full CTE pathways while attending school due to the short duration of the average enrollment. Students can, however, continue with their chosen pathway at their home district and/or transition to the pathway at a local college.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Due to the nature of the Court School programs and the confidentiality laws that apply to them, parent and community involvement is restricted. The students enrolled in residential Court School programs have limited and supervised contact with family members. Taking into consideration the possible obstacles and realizing the necessity of parent involvement, weekly pre-release conferences at Redwood and Erwin Owen help students transition from residential programs to non-residential programs. At these conferences, pertinent information regarding the student is shared with the student, parent, aftercare probation officer, institution staff, and mental health counselors. The school's role is to review the student's academic credit standing. A collaborative decision is made as to the next school placement taking into consideration any extenuating circumstances. The group makes the parent and student aware of all resources that are in place to support and help the student transition out of the institution. The Court School program considers parental involvement an essential component of the total educational process and critical to ensuring that all students achieve their fullest potential and become life-long learners.

Non-residential Court School programs require parent participation in a student and parent orientation upon enrollment. The Court School programs have established procedures for advising parents and guardians of their student's progress, school policies and program information, conferences, open-house activities, and other opportunities for parent involvement. Non-residential programs are open to parents interested in visiting classrooms and consulting with educational staff. In all Court Schools, parents of students who receive Special Education services are encouraged to participate in their student's Individual Education Plan (IEP) meetings.

Parents are able to access information related to their child's attendance and performance through the Parent Portal. Annual Back to School Night events provide opportunities for parents to visit and meet with school staff. Town Hall meetings provide an opportunity for parents to learn about the LCFF/LCAP process. Parents are able to provide feedback through the electronic LCAP survey. Hard copies of the survey are made available to those that need it.

2023-24 School Safety Plan

Court School campuses are in good repair and maintenance is scheduled when deficiencies are noted. School sites are neat, clean, and reflect the care that has been taken to provide facilities that are conducive to teaching and learning. A safety planning committee reviews the components of Court Schools' Comprehensive School Safety plan. The School Safety Plan is reviewed, updated, and discussed with school staff annually.

Professional Development

The Alternative Education program regularly conducts needs assessments to determine the professional development needs of instructional staff. Input is gathered from a variety of sources including, but not limited to, surveys, observations, and student achievement data. This input is used to help guide the planned professional development each school year. During the 2022-23 school year, professional development was focused on supporting teachers and paraprofessionals with implementing Common Core State Standards-aligned curriculum, utilizing technology in the classroom, Universal Design for Learning, ELD supports, and trauma informed practices. Professional development for the 2023-24 school year will focus on providing support related to academic coaching, Project Based Learning, ELD supports, and trauma informed practices.

The Alternative Education program utilizes a variety of methods to deliver professional development and support implementation of curriculum and instructional strategies. Instructional staff attend workshops/trainings lead by the program's teacher specialists and members of the KCSOS Instructional Support division. In addition, staff may attend conferences/trainings presented by outside agencies. Follow-up and support is provided to instructional staff through formal and informal observations, coaching, mentoring, and collaboration with peers.
