

STUDENT RECORDS TRAINING

March 10, 2027
8:30am- 3:00pm

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of students' personal identifiable information and education records. State law reinforces the provisions of FERPA and further provides guidance to schools on how to effectively ensure the accuracy, maintenance, and safekeeping of all student records. This workshop will cover the policies and procedures related to student records – from the gathering of student information beginning at the point of school enrollment to the destruction of records at the appropriate time.

Topics include:

- Maintenance and record keeping
- Access to, and disclosure of, records with and without parental consent
- Transfer and withholding of records
- Challenge and amendments to records
- Educational rights and custody issues
