If you would like more information, please contact
Diana Baltazar at 661-546-8904

The Kern County Children's Dental Health Network, operated under the Kern County Superintendent of Schools, understands that during these uncertain times safety is of great concern and is our first priority. We are committed to maintaining current and effective infection control procedures to ensure the safety of your students. We have modified our processes in hopes of continuing to serve children in their school settings.

During the 2022- 2023 school year we are offering:

- * Free dental services for preschool, transitional kindergarten and kindergarten students.
- *Dental screening for decay and/or abnormalities.
- *Application of fluoride to prevent future decay.
- *Referral for FREE dental treatment with a local pediatric dentist (if decay identified).
- *Free dental services even if your student has insurance.
