reporting must exist before a vendor will be taken into consideration when determining whether a 1099 will be printed.

Be advised that even though you adjust the vendor's 1099 flag with the Vendor Maintenance module, when you view the purchase order payment screen, the 1099 flag will not have changed. The purchase order payment screen always indicates the status of the 1099 flag at the time of payment and does not change. The vendor record 1099 flag must be set on and one or more payments to the vendor that have been flagged for 1099

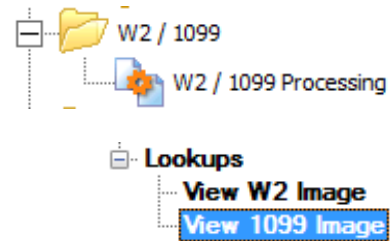

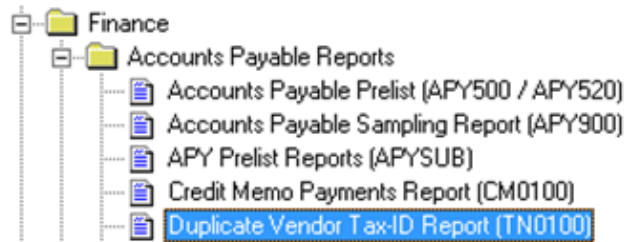

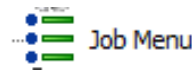

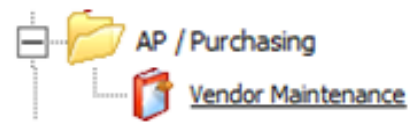

Print the Duplicate Vendor Tax-Id Report (TN0100)

Run at any time to clear up discrepancies of vendors who are entered with the same TIN under multiple vendor numbers. This report will allow you to begin resolving some of the 1099 issues prior to January 1.

Add and Adjust 1099-Misc. Additional Data

Create adjustments or add records for vendors who had reportable transactions that were not processed through the accounts payable system. Records created with this program show up on the 1099-MISC prelist report with a reference type of 'FD' (meaning Foreign Data)
