

# CIRCUIT TRAINING

Math

---

**A TEAM-UP TO:** 2 students from each grade level.

- 7th and 8th is a combined team event of 2 students.

Each two-person team will move through 20 different stations. They will work collaboratively on estimation, spatial visualization, and interpretation of tables, charts, maps, and other interesting problems. Each team will be allowed 2-3 minutes per station (at the discretion of the proctors). Maximum: One two-person team from 4th, 5th, and 6th grade. One two-person team from 7th and 8th grades combined.

Only provided calculator use is allowed.
