The image shows two STAR rubric charts. The top chart is for STAR Early Literacy, with columns for 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. The bottom chart is for STAR Reading, also with columns for 1st through 5th grades. Both charts include student names and corresponding scores.

Reading rubrics were created by the principal and teachers at Kendrick Elementary School and are followed by every teacher. Running records and guided reading are used for dialing in on student performance tasks and individualized help. This reading rubric was created utilizing STAR scaled scores and adopted by all teachers.

Oral presentations through Google are required from each student to improve speaking, listening, and vocabulary. The presentations are expected at every grade level. A presentation rubric is applied to all grade levels and adopted by each teacher. The principal watches the presentations.

Assessment flow charts are similar at every grade level. Much thought and research has been applied to the flow chart. Teachers and parents understand the next steps within their child's learning.
