

## Stockdale Elementary School

Frequent CFUs include foundational execution, core execution, to deep execution. This chart is an example of the deep dive the teachers go through with the academic coach and principal. This higher order of thinking for the adult learners is an example of how Stockdale Elementary keeps the students' progress at the forefront ([see resources](#)).

The Structure and Sequence is a follow up to the previous chart. The sequence includes objective, preview/review, explain, model, guided practice, closure, and intervention through independent practice, reteach, and small groups.

The principal of Stockdale Elementary School is very proud of his staff and the accomplishments of the students. This is an example of the generous contribution from the student body to the community by way of raising over \$2,000 for the health services fund. This teaches students at an early age, the importance of giving.
