

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Lakeside Union School District

CDS Code: 15-63552-0000000

School Year: 2021-22

LEA contact information:

Ty Bryson

District Superintendent

tbryson@lakesideusd.org

661-836-6658

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2021-22 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Lakeside Union School District expects to receive in the coming year from all sources.

The total revenue projected for Lakeside Union School District is \$15,918,175, of which \$13,941,666 is Local Control Funding Formula (LCFF), \$558,845 is other state funds, \$840,083 is local funds, and

\$577,581 is federal funds. Of the \$13,941,666 in LCFF Funds, \$2,234,801 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Lakeside Union School District plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

Lakeside Union School District plans to spend \$15,901,533 for the 2021-22 school year. Of that amount, \$4,209,000 is tied to actions/services in the LCAP and \$11,692,533 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General Fund Budget Expenditures not included in the LCAP include employee benefits, some books and supplies, services and other operating expenditures, county and district taxes.

Increased or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, Lakeside Union School District is projecting it will receive \$2,234,801 based on the enrollment of foster youth, English learner, and low-income students. Lakeside Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Lakeside Union School District plans to spend \$4,187,000 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2020-21

This chart compares what Lakeside Union School District budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Lakeside Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, Lakeside Union School District's Learning Continuity Plan budgeted \$1,123,201 for planned actions to increase or improve services for high needs students. Lakeside Union School District actually spent \$1,123,201 for actions to increase or improve services for high needs students in 2020-21.

Annual Update for Developing the 2021-22 Local Control and Accountability Plan

Annual Update for the 2019–20 Local Control and Accountability Plan Year

LEA Name	Contact Name and Title	Email and Phone
Lakeside Union School District	Ty Bryson District Superintendent	tbryson@lakesideusd.org 661-836-6658

The following is the local educational agency's (LEA's) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

Goal 1

Provide for a coherent rigorous curriculum.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 1: Basic (Conditions of Learning)
 Priority 2: State Standards (Conditions of Learning)
 Priority 7: Course Access (Conditions of Learning)

Local Priorities:

Annual Measurable Outcomes

Expected	Actual
Metric/Indicator STATE PRIORITY 1 BASIC SERVICES Priority 1A: Teachers appropriately assigned and fully credentialed for assignment. Priority 1B: Pupil access to standards aligned materials. Priority 1C: School Facilities maintained in good repair. STATE PRIORITY 2 IMPLEMENTATION OF STATE STANDARDS Priority 2A: Implementation of CA academic and performance standards. Priority 2B: Prorgams/services that enable ELs to access CCSS and ELD content knowledge and EL proficiency.	STATE PRIORITY 1 BASIC SERVICES Priority 1A: 95% of the teachers are appropriately assigned and fully credentialed in the grades/subject area(s) they are assigned to teach. Socio-economically disadvantaged and minority students are not taught at disproportionate rates than non-poor and non-minority students by inexperienced, out-of-field, or ineffective teachers. Priority 1B: All students have access to and use standards-aligned instructional materials for all content areas. English learners, students with disabilities, and students receiving intervention services have appropriate and sufficient materials to support their learning. 100% compliance on Williams. Priority 1C: Schools meet state and federal standards for safety, cleanliness, and adequacy, including facilities that are in good repair and receive regular maintenance. Processes exist, are understood, and well-implemented to actively track and respond to deficiencies, which may include directing funding to purchase, hire, and/or contract for assistance. Lakeside School and Suburu School facilities ratings are in Good Repair.

Expected	Actual
<p>STATE PRIORITY 7 COURSE ACCESS</p> <p>Priority 7A: Extent to which pupils have access to a broad course of study.</p> <p>Priority 7B: Extent to which pupils have access to and are enrolled in services for unduplicated pupils.</p> <p>Priority 7C: Extent to which pupils have access to and are enrolled in services for pupils with exceptional needs.</p>	<p>STATE PRIORITY 2 IMPLEMENTATION OF STATE STANDARDS</p> <p>Priority 2A: 100% full implementation of all state content and performance standards for all pupils. Teachers use instructional strategies and materials designed to address the academic, cultural, social, physical, and emotional well-being of all students including English learners, socioeconomically disadvantaged students, students with exceptional needs, as well as homeless and foster youth; as measured by administrative classroom observations. English learners have full access to an intellectually rich and comprehensive curricula, via appropriately designed instruction.</p>
<p>19-20</p> <p>STATE PRIORITY 1 BASIC SERVICES</p> <p>Priority 1A: Strive for 100% of teachers appropriately assigned and fully credentialed.</p> <p>Priority 1B: Maintain student access to instructional materials: 100% compliance with Williams Act.</p> <p>Priority 1C: Strive for Lakeside and Suburu School Facilities rating of Exemplary Repair.</p>	<p>Priority 2B: 100% of EL students receive daily instruction in designated and integrated ELD in all content areas. The CA ELD standards are substantially implemented. English learners have full access to a comprehensive curricula, via appropriately designed instruction. To foster steady and accelerated progress, EL programs and services successfully enable ELs to access student content and English language development (ELD) standards for purposes of gaining academic content knowledge and English language proficiency: as measured by administrative classroom observations.</p>
<p>STATE PRIORITY 2 IMPLEMENTATION OF STATE STANDARDS (determined by the Academic Program Survey Tool)</p> <p>Priority 2A: Maintain expected level of 100% full implementation of all state content and performance standards for all pupils.</p>	<p>STATE PRIORITY 7 COURSE ACCESS</p> <p>Priority 7A: 100% of students that have access to a broad course of study offered by district. Programs and services supporting access to and enrollment in a broad course of study are developed and provided to students in grades 1 – 8 that account for the needs of individual students, including unduplicated students (i.e. English learners, low-income students, and foster youth) and students with exceptional needs.</p>

Expected	Actual
<p>Priority 2B: 100% of EL students will receive daily instruction in designated and integrated ELD in all content areas. The CA ELD standards will be fully implemented.</p> <p>STATE PRIORITY 7 COURSE ACCESS</p> <p>Priority 7A: Maintain 100% of students that have access to a broad course of study offered by and district.</p> <p>Priority 7B: Maintain 100% of unduplicated pupils that are provided with programs and services based on state standards and student needs as indicated by local assessments.</p> <p>Priority 7C: 100% of students with exceptional needs are provided programs and services that are based on IEP, state standards, and student needs as indicated by local assessments.</p> <p>Baseline</p> <p>STATE PRIORITY 1 BASIC SERVICES</p> <p>Priority 1A: 95% of teachers are appropriately assigned and fully credentialed for assignment.</p> <p>Priority 1B: 100% of pupils have access to standards aligned materials.</p> <p>Priority 1C: Overall rating is Good for Lakeside, Exemplary for Suburu</p> <p>STATE PRIORITY 2 IMPLEMENTATION OF STATE STANDARDS</p>	<p>Priority 7B: 100% of unduplicated pupils that are provided with programs and services based on state standards and student needs as indicated by local assessments.</p> <p>Priority 7C: 100% of students with exceptional needs are provided programs and services that are based on IEP, state standards, and student needs as indicated by local assessments.</p>

Expected	Actual
<p>Priority 2A: 100% Implementation of CA academic and performance standards.</p> <p>Priority 2B: Programs/services that enable ELs to access CCSS and ELD content knowledge and EL proficiency.</p> <p>STATE PRIORITY 7 COURSE ACCESS</p> <p>Priority 7A: 100% of pupils have access to a broad course of study.</p> <p>Priority 7B: 100% of pupils have access to and are enrolled in services for unduplicated pupils.</p> <p>Priority 7C: 100% of pupils have access to and are enrolled in services for pupils with exceptional needs.</p>	

Actions / Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
Purchase and implement state adopted standards-based CCSS instructional materials (textbooks, supplemental, consumables, etc.) in ELA/ELD, math, and NGSS if available, so all students have access to instructional materials and can meet grade level standards.	Instructional Materials 4000-4999: Books And Supplies Base \$120,000	Instructional Materials 4000-4999: Books And Supplies LCFF Base \$130,000
Provide ongoing professional development support for the the Common Core State Standards in ELA and math, and history-social science and science. This action will target low income students, foster youth, and English learners who may be lacking academic skills in order to improve student achievement.	Professional Development 5800: Professional/Consulting Services And Operating Expenditures Supplemental and Concentration \$50,000	Professional Development 5800: Professional/Consulting Services And Operating Expenditures LCFF Supplemental and Concentration \$50,000
Provide differentiated professional learning on strengthening PLCs; emphasizing student data analysis for low income, foster youth, and Els.	Professional Development 5800: Professional/Consulting Services And Operating Expenditures	Professional Development 5800: Professional/Consulting Services And Operating Expenditures

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>Differentiation will be used to attend to the learning needs of a particular student or small group of students rather than the more typical pattern of teaching the class as though all individuals in it were basically alike. The goal of a differentiated classroom is maximum student growth and individual success, particularly for unduplicated students.</p>	<p>Supplemental and Concentration \$20,000</p>	<p>LCFF Supplemental and Concentration \$20,000</p>
<p>Strive to maintain ten TK-3 teachers at a class size of 24:1. This service supports instructional strategies that allow for more individual attention for low income, foster youth, and English learners, so they can meet grade level expectations (CBA).</p>	<p>Certificated Salaries 1000-1999: Certificated Personnel Salaries Supplemental and Concentration \$820,000</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$322,000</p>	<p>Certificated Salaries 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$820,000</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$322,000</p>
<p>Provide for Teacher Induction Program through the COE, as a means for preliminary credentialed teachers to fulfill requirements for the California Clear Multiple Subjects, Single Subject, and Education Specialist credentials. This action will provide all students with high quality teachers which will improve student achievement.</p>	<p>Contracted Services 5800: Professional/Consulting Services And Operating Expenditures Base \$20,000</p>	<p>Contracted Services 5800: Professional/Consulting Services And Operating Expenditures LCFF Base \$22,000</p>
<p>Maintain a Computer Teacher/Technician at each site for additional use of technology with an emphasis to support low income, foster youth, and English Learners that may not have access to internet or wi-fi.</p> <p>Ended</p> <p>Due to the district possibly not meeting the required 3% budget reserves, and not having a positive budget certification for the multi-year projection, the district choose to eliminate two Technology Teacher positions.</p>	<p>Certificated Salary 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$138,000</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$60,000</p>	<p>Certificated Salary 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$0</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$0</p>
<p>Expand and support wireless network to accommodate technological devices, to provide for all students, but especially those who would not have access to wi-fi at home, with the intent to improve student achievement.</p>	<p>Contracted Services 5800: Professional/Consulting Services And Operating Expenditures</p>	<p>Contracted Services 5800: Professional/Consulting Services And Operating Expenditures</p>

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
	Supplemental and Concentration \$75,000	LCFF Supplemental and Concentration \$75,000
Continue to maintain and provide for fine arts music program that enhances ELA and math skills for all students.	Certificated Salary 1000-1999: Certificated Personnel Salaries Base \$90,800 Certificated Health and Welfare 3000-3999: Employee Benefits Base \$36,000 Equipment 4000-4999: Books And Supplies Base \$10,000	Certificated Salary 1000-1999: Certificated Personnel Salaries LCFF Base \$61,260 Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Base \$29,600 Equipment 4000-4999: Books And Supplies LCFF Base \$8,000
Maintain five Special Education Teacher(s) hired in previous years to teach various subjects, such as reading, writing, and math, to students with mild and moderate disabilities. Continued implementation of this action will improve student achievement for Special Education students.	Certificated Salaries 1000-1999: Certificated Personnel Salaries Special Education \$370,000 Certificated Health and Welfare 3000-3999: Employee Benefits Special Education \$180,000	Certificated Salaries 1000-1999: Certificated Personnel Salaries Special Education \$370,000 Certificated Health and Welfare 3000-3999: Employee Benefits Special Education \$180,000
For at-risk students, giving priority to socio-economically disadvantaged, foster youth, and ELs who are Special Education students: provide extended learning through Extended School Year (ESY). Providing ESY will improve academic skills and prepare them for the next grade level.	Certificated Salaries 1000-1999: Certificated Personnel Salaries Supplemental and Concentration \$3,500 Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$450 Classified Salaries 2000-2999: Classified Personnel Salaries Supplemental and Concentration \$2,700 Classified Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$250	Certificated Salaries 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$0 Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$0 Classified Salaries 2000-2999: Classified Personnel Salaries LCFF Supplemental and Concentration \$0 Classified Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$0

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
Implement a Standards-Based STEM Learning System (web-based) for Engineering, Science, and Technology Education classrooms, grades 7 and 8, with emphasis of engaging low income, foster youth, and English Learners. Continued implementation will enable students to extend grade level standards.	Curriculum and Materials 5000-5999: Services And Other Operating Expenditures Supplemental and Concentration \$3,000	Curriculum and Materials 5000-5999: Services And Other Operating Expenditures LCFF Supplemental and Concentration \$3,000
Improve and/or maintain school facilities. Ensure that all schools are modernized, safe, clean, and in good repair. Maintain a multi-year plan enhance facilities in order to foster academic achievement. Maintaining safe facilities will improve student achievement.	Facilities 5800: Professional/Consulting Services And Operating Expenditures Base \$1,500,000	Facilities 5800: Professional/Consulting Services And Operating Expenditures LCFF Base \$150,000

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Action 8 Continue to maintain and provide for fine arts music program that enhances ELA and math skills for all students was not implemented (\$136,800). The Music/Band teacher resigned effective June 30, 2020, and due to the uncertainty of the pandemic and the means to provide music instruction, the district decided not to fill this vacancy.

Action 10 Provide extended learning through Extended School Year (ESY) Special Education students was partially implemented (\$6,495).

The funds for these Actions were redirected toward purchasing needed Chromebooks and hotspots to support students, particularly for low-income, English learner, or foster youth students and families to mitigate the impacts of COVID-19.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Using available state and local data, and stakeholder feedback, the overall effectiveness of the Actions and Services were deemed to be effective and having a positive impact on students, with the exception of Action 8 which was not implement, and described above.

SUCESSESS

- With the exception of Actions 8 and 10, the overall effectiveness of the Actions since the onset of the pandemic are deemed to have been effective; having a positive impact on students.
- At the beginning of the school year, the expansion and support of a wireless network that supports all students was a challenge, but as time passed it evolved to become a success. During the first days of school the district struggled to provide

hotspots for wi-fi access for low-income students and families, but within a couple weeks we were able to provide every student with needed technology for distance learning.

- With the unfortunate school closure, our maintenance workers were able to accomplish many facility projects that would have been normally delayed to the summer months.

CHALLENGES

- Implementing differentiated instruction to attend to the learning needs of specific students is an ongoing challenge. Teachers continue to strive to engage students and provide differentiated instruction for specific students, however, some students were not fully engaged while learning from home.
- Prioritize student learning by accelerating their exposure to grade level appropriate content so students can get back to grade level. This won't happen in one year, but will remain our primary goal.
- Students will enter school with more variability in their academic skills. We need to consider ways to further differentiate instruction or provide opportunities for individualized learning.

Goal 2

Provide for increased student achievement.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 4: Pupil Achievement (Pupil Outcomes)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

Annual Measurable Outcomes

Expected	Actual

<p>Maintain a data management system to analyze student assessment data. Data management tools will be used to break down student data and inform instruction.</p> <p>The system will help create, upload, and administer standards-based assessments at the teacher, district, or state level.</p> <p>Assessment results can be received immediately and use data for flexible grouping of students, Response to Intervention (RtI) protocol, and judging how to pace and plan lessons. Instant formative feedback can be used mid-lesson to ascertain lesson plan success and inform next steps.</p>	<p>Student Data Analysis Management System 5000-5999: Services And Other Operating Expenditures Supplemental and Concentration \$7,400</p>	<p>Student Data Analysis Management System 5000-5999: Services And Other Operating Expenditures LCFF Supplemental and Concentration \$7,400</p>
<p>Educational technology access will be supported by providing all low income, foster youth, and English Learners with digital resources such as chromebooks. Promote home to school technology using Google Apps.</p>	<p>Technology Access 5000-5999: Services And Other Operating Expenditures Supplemental and Concentration \$70,000</p>	<p>Technology Access 5000-5999: Services And Other Operating Expenditures LCFF Supplemental and Concentration \$70,000</p>

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
<p>Maintain a Director of Special Education to provide services to students with IEPs, 504s, home and hospital students, other students with specialized needs and/or at-risk behaviors. This position is essential in providing services that are principally directed toward unduplicated pupils, and are intended to go above and beyond what is provided for not only Special Education students, but for all students.</p> <p>Essential functions of this position include, but are not limited to:</p> <ul style="list-style-type: none"> • Supervising the nurse, psychologists, counselor, and other student support services staff to assure coordination of services delivered to unduplicated students. • Implement and monitor programs such as restorative justice, Positive Behavior Interventions and Supports, and Multi-Tiered System of Supports. • Coordinates the actions and activities of other agencies that collaborate with the schools of the district in support of student learning. • Serves as the Foster Youth Liaison for the district. • Monitors student records, and assures compliance for special education programs in support of educational programs. 	<p>Certificated Salary 1000-1999: Certificated Personnel Salaries Supplemental and Concentration \$110,000</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$48,000</p>	<p>Certificated Salary 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$110,000</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$48,000</p>

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The following Actions were not implemented:

Action 3 Hire a Teacher on Special Assignment or Director of Academic Programs (\$119,000).

Action 4 Hire one additional, for a total of two Intervention Specialists (\$238,000).

Action 5: Provide for after-school Targeted Intervention supports in ELA and math for all students (\$13,500). Due to the Covid-19 pandemic, the district implemented a 100% distance learning schedule for all students at the beginning of the year; then moved to a hybrid instructional model in the winter and for the remainder of the year. Teachers taught in virtual classrooms via Zoom in the mornings and afternoons, and were available for office hours in the afternoons. During office hours, teachers met with small groups

and individual students to provide needed extra support. By the end of the regular school day, both students and teachers were wary of on-line learning. Additionally, students were on electronic devices for several hours per day, exceeding healthy screen time guidelines recommended by The American Academy of Pediatrics'. For these reasons, Action 5 was not implemented.

The total funds that were budgeted for Actions 3, 4, and 5 (\$370,000) were used to purchase needed Chromebooks and hotspots to support students, including low-income, English learner, or foster youth students and families to mitigate the impacts of COVID-19. In addition, funds were used for purchasing laptops, speakers, monitors, cameras, and Windows 10 computers to support teachers during distance learning.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Using available state and local data, and stakeholder feedback, the overall effectiveness of the Actions and Services were deemed effective and having a positive impact on students. However, Actions 3, 4, 5 were not implemented, and described above.

SUCESSESS

- Due to Covid-19, and subsequent distance learning, school staff was able to continue to provide for English Language Development services for English learners. Teachers continued to assist EL students who lack academic skills, and help them meet grade level standards.
- The district was able to provide all students with educational technology such as Chromebooks and hotspots for wi-fi access so students could use Google Apps and Canvas, our learning management system. This is especially true for low-income and foster youth students and families.

CHALLENGES

- The district continues to strive to provide services students with IEPs and 504s with specialized needs and/or at-risk behaviors, particularly for unduplicated pupils. Engaging students and scheduling IEP meetings while distance learning is a struggle for parents and staff.

Goal 3

Provide for engaging and nurturing environments that are safe, healthy, and conducive to learning.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities:

Annual Measurable Outcomes

Under the umbrella of social/emotional learning, including Positive Behavioral Intervention and Supports (PBIS) and Multi-Tiered Systems of Support (MTSS), is restorative justice, which is interwoven in these approaches	Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$12,000	Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$12,000
Restorative justice is an effective alternative to punitive responses to wrongdoing. It brings together persons harmed with persons responsible for harm in a safe and respectful space, promoting dialogue, accountability, and a stronger sense of community.		
Hire a Behavior Specialist to provide leadership in creating suitable educational environment for students with challenging educational and behavioral needs.	Student Engagement 1000-1999: Certificated Personnel Salaries Supplemental and Concentration \$85,000	Student Engagement 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$0
The Behavior Specialist will assist individuals and groups through the application of positive behavior supports. He/she will coordinate Functional Assessments of Behavior and Behavior Intervention Plans that address students' inappropriate behaviors and provide a means to help the students become more academically successful. The specialist also provides classroom and school-wide behavior management strategies.	Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$33,000	Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$0

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
Maintain two Psychologists to apply psychoeducational principles and knowledge in the assessment, classification, prevention and treatment/education of children with school-related learning, social and emotional difficulties. This is for all students, including foster youth, low income, and Els.	<p>Student Engagement 1000-1999: Certificated Personnel Salaries Supplemental and Concentration \$171,200</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits Supplemental and Concentration \$74,600</p>	<p>Student Engagement 1000-1999: Certificated Personnel Salaries LCFF Supplemental and Concentration \$174,600</p> <p>Certificated Health and Welfare 3000-3999: Employee Benefits LCFF Supplemental and Concentration \$70,000</p>

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Due to the district's response at the onset of the Covid-19 pandemic in March 2019, Actions 3 and 4 were implemented at varying degrees, depending if students were distance learning or attending school in-person.

Action 3 Continue to implement Positive Behavioral Interventions and Supports (PBIS) in efforts to improve student engagement particularly with low income, foster youth, and Els.

Action 4 Maintain/expand an incentive & reward program that promotes school attendance, with emphasis for low income, foster youth, and Els.

The following Actions were not implemented.

Action 5 Maintain a used school bus (diesel) to increase attendance to after-school programs, directed toward unduplicated students; low income, foster youth, and Els (\$12,000).

Action 7 Hire a Behavior Specialist to provide leadership in creating suitable educational environment for students with challenging educational and behavioral needs (\$118,000).

The total funds that were budgeted for Actions 5 and 7 (\$130,000) were used to purchase needed Chromebooks and hotspots to support students, including low-income, English learner, or foster youth students and families to mitigate the impacts of COVID-19. In addition, funds were used for purchasing laptops, speakers, monitors, cameras, and Windows 10 computers to support teachers during distance learning.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Using available state and local data, and stakeholder feedback, the overall effectiveness of the Actions and Services were deemed effective and having a positive impact on students. However, Actions 5 and 7 were not implemented, and described above.

SUCESSESS

- Our counselor became instrumental with sharing strategies to help teachers focus on those social and emotional needs of their students. The counselor sent weekly emails with social/emotional lessons and strategies teachers can use with their students. These lessons covered a variety of SEL topics like responsibility, kindness, and making good choices.
- Virtual counseling is also available to some students. Face to face interaction was much more effective than phone calls for many students. It's not clear yet what long-term impacts those services are having on students' well-being.
- Empowering and educating parents. While most students were completing all of their learning from home for the majority of this year, the was counselor able to work with some parents to help them come up with strategies to increase their children's academic engagement. So while the counselor is normally focused on working directly with students, this year she was able to spend more time supporting parents and empowering them to support their children at home in the virtual learning environment.

CHALLENGES

- No in-person interaction with the counselor. While zooms definitely helped, it was harder to develop rapport with students over a screen rather than in person with the counselor.
- Harder for the counselor to monitor progress. While the counselor would contact teachers and parents for input on how the student was progressing in their area of need, it was not the same as being able to personally observe them on campus and monitor their growth/development in the areas of need.
- Student engagement which affects academic performance is a challenge for teachers who struggle with ways to help their students stay engaged and perform well in class while distance learning. Poor academic performance is not just about academics, and there's no clear path combating education loss. Family dynamics and responsibilities during the pandemic also play a big part in a student's success. Efforts are underway to repair some of the emotional toll on students as well, especially for socioeconomically disadvantaged, English learners, and students with disabilities.

Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency's (LEA's) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

In-Person Instructional Offerings

Actions Related to In-Person Instructional Offerings

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Sanitizing stations [District-wide]	\$1,240	\$1,590	No
Hands free bottle refilling stations [District-wide]	\$20,000	\$0	No
Point of Use water filters at Lakeside School	Procured from State of CA	\$0	No
Plexiglas to separate working stations [District-wide]	\$2,354	\$44,434	No
Medical Supplies (hand sanitizer, thermometers, latex gloves, masks) [District-wide]	\$10,000	\$11,589	No
Head rest couch for student health room at Lakeside School	\$629	\$752	No
Partitions for health room at Lakeside School	\$1,461	\$1,461	No
Signage [District-wide]	\$734	\$365	No
Cleaning Supplies [District-wide]	\$3,061	\$39,253	No
Illuminate Education DNA (Assessments and Instructional Strategies) [District-wide]	\$7,500	\$10,425	No
One school counselor and two school psychologists provide social-emotional support, particularly for English learners, low-income, foster youth, and homeless [District-wide]	\$178,040	\$262,444	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

At the beginning of the 2020/2021 school year the district partnered with Self-Help Enterprises to apply for the Drinking Water for Schools Grant Program. The program was established for the purpose of improving access to, and the quality of, drinking water in public schools. Through the State Water Board Division of Financial Assistance (DFA), funding is available to eligible applicants for this purpose. The application process was started, but we are still waiting for further guidance from Self Help Enterprises, and we continue to follow-up with them. Therefore, hands free bottle refilling stations and point of use water filters are pending projects at Lakeside School. Expenditures for plexiglass to separate work stations and cleaning supplies are significantly higher than originally budgeted, due both to increased need and a longer duration than originally planned. Expenditures for a school counselor and two psychologists were also underbudgeted.

Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing in-person instructional offerings in the 2020-21 school year.

SUCCESSSES

- The district successfully dispersed needed PPE for all students and staff for use when they return to in-person instruction.
- Weekly surveillance testing for staff to help keep them safe was implemented.
- Implementing safety protocols to keep all students and staff safe, including but not limited to: physical distancing, requiring masks to be worn, implementing smaller student groups, increased access to hand washing, daily health screenings and temperature checks, and developing an isolation room for anyone showing symptoms of illness.

CHALLENGES

- Writing several safety plans to meet the state's evolving response to the Covid-19 pandemic.
- Meeting the changing program requirements for specialized services and instruction.
- Safety protocol training for all students and staff. Trainings were done virtually.

Distance Learning Program

Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Canvas - Learning Management System [District-wide]	\$7,885	\$7,885	No
Laptops for Teachers - improve audio/visual for distance learning [District-wide]	\$86,169	\$86,169	No
Hotspots for internet access. (English learners, low income, foster youth, homeless). Unduplicated students may need access to the internet. [District-wide]	Procured from KCSOS	\$14,000	Yes
Cameras for laptops - improve visual quality for distance learning [District-wide]	\$329	\$329	No
Microphones for laptops - improve audio quality for distance learning [District-wide]	\$69	\$69	No
Windows 10 computers (Teacher work stations) - improve internet access for distance learning [District-wide]	\$35,824	\$35,824	No
Extra Duty Pay, Professional Learning for teachers to learn Canvas [District-wide]	\$30,000	\$15,141	No
Extra Duty Pay for office staff to prepare student schedules and help with Chromebook distribution [District-wide]	\$3,600	\$2,684	No
Zoom Meeting Licensing Plan [District-wide]	\$8,000	\$3,588	No
Portable Evaporative Cooler for Lunch Service at Suburu School	\$2,680	\$2,680	No
Licensing for 350 Chromebooks	\$9,126	\$9,126	No

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

While the district was able to procure hotspots for internet access from KCSOS, additional hotspots had to be purchased in order to keep up with demand, replacements, and to meet the needs of families with multiple students in the home. Expenditures for extra-duty pay for professional development for teachers and the licensing plan for Zoom meetings were underbudgeted.

Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing a distance learning program in the 2020-21 school year.

CONTINUITY OF INSTRUCTION

Successes

- Since the beginning of the pandemic, the district has been successful at adjusting to alternative instructional models, including paper packets at the beginning of the pandemic, then transitioning to online distance learning, and currently to an in-person hybrid model.

Challenges

- Due to the state's constantly evolving response to COVID-19, writing and updating new safety plans, along with implementing new procedures that impacts nearly all Actions and Services in the LCAP and LCP, has been a challenge.
- Getting teachers to agree to use Canvas, a learning management platform that is specifically designed for distance learning. After several meetings, the teachers understood and agreed that Canvas can be utilized to effectively track student progress.
- Scheduling services for SpEd students. The constantly evolving response to COVID-19 and subsequent changing schedules and procedures has been very challenging for the SpEd department.

ACCESS TO DEVICES AND CONNECTIVITY

Successes

- Every student that wanted a Chromebook received one for online learning.

Challenges

- Some Chromebooks broke down, and getting them repaired or replaced took time, which meant the student didn't have access to on-line distance learning.
- Reliable internet and wi-fi service at students' homes.
- Supporting technology for teachers in order to successfully teach online, including providing reliable computers, cameras, and microphones.

PUPIL PARTICIPATION AND PROGRESS

Successes

- Tracking daily live interaction using the CDE Student Engagement form. The district measures participation and time value of work using daily participation with synchronous learning activities while on Zoom, and asynchronous learning while completing assignments in Canvas.
- Student engagement forms shared at PLC meetings so teachers can identify and reach out to students with poor attendance.

Challenges

- Daily live interaction for those who regularly aren't seen in zoom, when teachers are calling they are finding it more and more difficult to get in touch with families.
- The ability of students to complete assignments for participation until late into the evening; this makes it difficult for teachers to keep on top of attendance.
- Teachers don't have access to the same information in Canvas that administration does (list of all logins with timestamp; teachers only have access to view last login).
- Lack of parental involvement with distance learning.
- Multiple family households make it difficult to engage students when they need to remain muted/ no video in order to keep their classmates from being distracted.
- Lack of student participation in small group/teacher office hours for those who would benefit from interventions.
- Teachers and students continuously modifying daily routines to adhere to a 'new' schedule.
- Confusion as to when a 'new' schedule should be implemented.
- Miscommunications between teachers and parents in regards to schedule changes.
- Difficult to keep parents updated when schedules vary within a grade level or between school sites.

DISTANCE LEARNING PROFESSIONAL DEVELOPMENT

Successes

- The district offered many professional development opportunities facilitated through Kern County Superintendent of Schools, focusing on on-line distance learning; including but not limited to Canvas training and analyzing student progress while distance learning.

Challenges

- All professional development was on-line, which lacked the face-to-face contact that strengthens engagement.

STAFF ROLES AND RESPONSIBILITIES

Successes

- Vice principals, bus drivers, and library clerks worked well in adapting to new roles during the district's response to the pandemic. VP's coordinated their school's distribution of Chromebooks, paper, packets and supplemental materials. The job description for bus drivers includes utility worker, therefore, these employees performed predominantly utility worker task. Although some busing was still needed to bring in SpEd students to in-person instruction as required by IDEA.

Challenges

- Hiring new employees for in-person instruction in a hybrid model. Finding qualified candidates for temporary supervision aides to provide support when students return to school is challenging.

SUPPORT FOR PUPILS WITH UNIQUE NEEDS

Successes

- The district has had great success with returning Special Education students to their home campuses and providing services that include mainstream instruction into general education. These students would have otherwise not had access to mainstream classes and would have not had the same opportunity as their general education peers.

Challenges

- Due to COVID 19 scheduling services for students has become very difficult to provide all of the services that are needed to gain adequate growth.
- With COVID 19, many special education students are limited to receiving live instruction from only their Special Education teacher. In other cases, students are unable to receive in-person services from their Special Education teacher. This dynamic makes it difficult to plan and provide services and still maintain stable groups.
- Although many students are able to excel using video instruction, many others find it difficult to maintain attention without physical prompting that would be available using in person instruction.

Pupil Learning Loss

Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
<p>After School Intervention and other extended learning opportunities based on the needs of students that are struggling, particularly for English learners, low income, foster youth, homeless. [District-wide]</p> <p>Provide for after-school Targeted Intervention supports in ELA and math, with emphasis on English learners, low-income, foster youth, and homeless who are not at grade level.</p>	\$4,500	\$9,000	Yes
<p>Special Education and English Learner Supports [District-wide]</p> <p>Stakeholder feedback voiced a concern for learning loss and the ability to provide appropriate services for our SpEd student group. To address this we will provide time for teachers to collaborate to discuss and solve issues such as: transportation, extended School Year, health and nursing services, classified and certificated staff, school psychologists, instructional materials, testing materials, and equipment.</p>	\$710,000	\$786,816	Yes

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

Due to the Covid-19 pandemic, the district implemented a 100% distance learning schedule for all students at the beginning of the year; then moved to a hybrid instructional model in the winter and for the remainder of the year. Teachers taught in virtual classrooms via Zoom in the mornings and afternoons, and were available for office hours in the afternoons. During office hours, teachers met with small groups and individual students to provide intervention and needed extra support for students that are struggling, particularly for English learners, low income, foster youth, homeless. By the end of the regular school day, both students and teachers were wary of on-line learning. Additionally, students were on electronic devices for several hours per day, exceeding healthy screen time guidelines recommended by The American Academy of Pediatrics'. For these reasons, after school intervention and extended learning opportunities were offered during the months of April and May. Expenditures exceeded budgeted funds both for after school intervention and special education and EL supports.

Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing Actions related to pupil learning loss in the 2020-21 school year.

SUCSESSES

- The district had success with returning ELs, low income, foster youth, and Special Education students to their school sites, and providing services that include mainstream instruction into general education. These student would have otherwise not had access to mainstream classes and would have not had the same opportunity as their general education peers.

CHALLENGES

- Students will be substantially behind, especially in mathematics. Teachers of different grade levels should coordinate in order to determine where to start instruction.
- Prioritize student learning by accelerating their exposure to grade level appropriate content so students can get back to grade level. This won't happen in one year, but will remain our primary goal.
- Students will enter school with more variability in their academic skills. We need to consider ways to further differentiate instruction or provide opportunities for individualized learning; especially for ELs, low income, foster youth, and Special Education students.
- Addressing learning loss was a challenge due to the fact that the administration of assessments did not allow to ensure controlled environments.

The overall the effectiveness of our efforts is yet to be determined. Bringing back students to in-person instruction and scheduling classes was implemented, however, measuring the learning effects of our efforts are yet to be seen.

Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing Actions for mental health and social and emotional well-being in the 2020-21 school year.

SUCSESSES

- Sending out weekly Social/Emotional lessons each week. These lessons covered a variety of SEL topics like responsibility, kindness, and making good choices.
- Zoom counseling sessions with students. While we much prefer seeing kids in person, our counselor is able to hold counseling sessions using zoom. She found that this "face to face" interaction was much more effective than phone calls for many students.
- Empowering and educating parents. While most students were completing all of their learning from home for the majority of this year, the counselor able to work with some parents to help them come up with strategies to increase their children's academic engagement. So while the counselor is normally focused on working directly with students, this year she was able to spend more time supporting parents and empowering them to support their children at home in the virtual learning environment.

CHALLENGES

- No in-person interaction with the counselor. While zooms definitely helped, it was harder to develop rapport with students over a screen rather than in person with the counselor.
- Harder for the counselor to monitor progress. While the counselor would contact teachers and parents for input on how the student was progressing in their area of need, it was not the same as being able to personally observe them on campus and monitor their growth/development in the areas of need.

Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing pupil and family engagement and outreach in the 2020-21 school year.

SUCSESSES

- Mass messaging to parents via telephone, email, and text. The district uses Blackboard to send important updates and information so parents and students are kept up-to-date with any new information.

- Students' daily live interaction classes with their teachers via Zoom teleconferencing. This helps to bring some structure and normalcy to students' lives.
- Encouraging good attendance. Daily live interaction that engages students so they feel connected and know that someone notices, in a caring manner, when they miss school.

CHALLENGES

- Chronic absenteeism. There are many reasons that some students are not engaged during distance learning, including family dynamics and responsibilities during the pandemic.
- Early outreach to families and students who are missing too many days of school. Without the face to face interaction, it can be difficult to identify students who are missing school due to barriers such as hunger, homelessness, and transportation.

Analysis of School Nutrition

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, the following successes and challenges were experienced in implementing school nutrition in the 2020-21 school year.

SUCSESSES

- Adapting our school nutrition programs' normal operating procedures from in-school to out-of-school students and families. Every family that wanted a meal got one.
- Implementing a Grab and Go model that allows parents to pickup meals for their children, without the child needing to be present.

CHALLENGES

- Considering the needs of our staff and families when making decisions about the frequency, timing, and documentation required for food pickup.
- Trying to avoid distributing too many meals to one person by limiting the number of meals that each person can pick up, and by monitoring pickups across several school sites. However, our main priority for distribution is easing families' access to food, and minimizing burden on staff.

Additional Actions and Plan Requirements

Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
N/A	N/A	N/A	N/A	

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

N/A

Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

Several lessons were learned during the pandemic, many through trial and error. The most important lesson learned was how to stay safe and be successful in supporting all stakeholders. It's important to reflect on our practices moving from distance to in-person instruction. It's clear that continued collaboration is needed to support teacher and student success and growth in any setting virtual or in person. The time to review and discuss successes and challenges related to student performance is important to teachers and students. It's also clear that the technology gap, and creating equal opportunities for all students must continue to be addressed moving forward. This will support student academic and social emotional well-being, and boost our efforts to increase communication and outreach with all stakeholders. Attempts to create connections with students, parents, and families must continue to be a priority moving forward. One of the most apparent needs is in the area of mental health and wellbeing. The isolation and sheltering at home have exposed a need for continuing attention in this area. All the aforementioned lessons have been identified as needs, and will be included in the future LCAP.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

Learning loss will continue to be addressed in the 2021-2024 LCAP. We will emphasize initial screening and diagnostic data, as well as monitor progress of students. English learners, low-income, foster youth, as well as students with disabilities will be prioritized for increased support and expanded learning opportunities. Many efforts are in place such as SST's and English Language Development assessments, and others will be implemented including access to technology, tutoring, one on one with teachers, and opportunities for remediation. In support of these efforts, we will continue to offer professional development supporting the use of summative and formative assessments, as well as strategies for in-class opportunities to identify students in need.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

Expenditures were significantly higher than originally budgeted for plexiglass, cleaning supplies, and a counselor and two psychologists that provided services to meet increased or improved services for all pupils, particularly unduplicated students, This was due to both increased need and a longer duration than originally planned. Funds for Actions that were under budgeted were used to support distance learning when and where possible - related to each Action.

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

The district's response to the ongoing pandemic has informed the development of goals and actions in the 2021-24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being, and engaging pupils and families. The goals and actions of the 2021-24 LCAP will support student learning by focusing on a solid curriculum, having a commitment to grade-level teaching, and implementing strategies to engage students.

School closure and current hybrid instructional models have added to the time that most students already spend at home during the summer months without explicit face-to-face instruction from teachers. Teachers are scrambling to adapt content for an online platform and parents are juggling work responsibilities (if not joblessness) with caring for and educating their own children. Students themselves are faced with isolation, anxiety about a deadly virus, and uncertainty about the future. As we plan for the development of the 2021-22 through the 2023/24 LCAP, we will consider the following:

- Students may be substantially behind, especially in mathematics. Teachers of different grade levels should coordinate in order to determine where to start instruction. We'll also need to find ways to assess students early, either formally or informally, to understand exactly where students are academically.
- Students are likely to enter school with more variability in their academic skills than under normal circumstances. Therefore, we should consider ways to further differentiate instruction or provide opportunities for individualized learning.

Lastly, one of the more pressing issues we need to consider is the emotional well-being of our students. Many students may face depression, food insecurity, loss of family income, loss of family members to the coronavirus, and fear of catching the virus themselves. Understanding and addressing these impacts and how best to support students' social and emotional needs after the huge disruption of COVID-19 will be essential.

Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year

Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.

- If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

- Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan

Annual Update

The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

Actions Related to In-Person Instructional Offerings

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

Actions Related to the Distance Learning Program

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
 - Continuity of Instruction,
 - Access to Devices and Connectivity,

- Pupil Participation and Progress,
- Distance Learning Professional Development,
- Staff Roles and Responsibilities, and
- Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

Actions Related to Pupil Learning Loss

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.
- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.

Analysis of Mental Health and Social and Emotional Well-Being

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

Analysis of Pupil and Family Engagement and Outreach

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

Analysis of School Nutrition

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

Analysis of Additional Actions to Implement the Learning Continuity Plan

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
 - As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.
- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).
- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

Annual Update for the 2019–20 Local Control and Accountability Plan Year

Expenditure Summary

Total Expenditures by Funding Source		
Funding Source	2019-20 Annual Update Budgeted	2019-20 Annual Update Actual
All Funding Sources	5,310,200.00	3,251,160.00
Base	1,788,800.00	0.00
LCFF Base	0.00	412,860.00
LCFF Supplemental and Concentration	198,000.00	2,288,300.00
Special Education	550,000.00	550,000.00
Supplemental and Concentration	2,773,400.00	0.00

* Totals based on expenditure amounts in goal and annual update sections.

Total Expenditures by Object Type		
Object Type	2019-20 Annual Update Budgeted	2019-20 Annual Update Actual
All Expenditure Types	5,310,200.00	3,251,160.00
1000-1999: Certificated Personnel Salaries	2,349,500.00	1,842,860.00

Plan Summary [2021-22]

General Information

A description of the LEA, its schools, and its students.

THE IMPACT THE COVID-19 PANDEMIC HAS HAD ON OUR DISTRICT

The Lakeside Union School District LCAP describes the goals, actions, services, and expenditures to support positive student outcomes that address state and local priorities. This is a very unique year, and development of this plan must account for the serious impacts the COVID-19 pandemic is having with varying degrees on our students, parents, and staff. Below is a list of major impacts the COVID-19 pandemic is having on our school community.

- Student learning outcomes going into 2020/2021 year are uneven and vary broadly. The disadvantages are disproportionate for under-privileged learners who tend to have fewer educational opportunities beyond school.
- Distance Learning resulted in an overall decline of student engagement. Since going to online distance learning in the March of 2020, the percentage of student participation varied by grade span.
- Challenges to launching and sustaining our Distance Learning platform.
- Lack of access to technology or reliable internet access creates challenges for some students in rural areas and from disadvantaged families to participate in distance learning via internet, which is an obstacle to continued learning, especially for students from disadvantaged families.
- Challenges to providing English Learners required integrated and designated instruction, including assessment of English language proficiency, supports to access curriculum and the ability to reclassify as fully proficient.
- Special Education Services required by the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 continued via the internet. Individual Education Program (IEP) meetings and Speech and Language services are conducted online.
- The district has approximately 70% of its students on free or reduced priced meals. With school closure, student nutrition and regular meals are compromised.
- Services for students' social emotional well-being essentially stopped without the counselor or psychologist able to meet in-person with students. There is an increase chance of exposure to violence and exploitation. The impact of this is unknown at this time.

DISTRICT OVERVIEW

The Lakeside Union School District (LUSD) is located in the southwest part of Bakersfield. The district currently has two schools and serves an enrollment of approximately 1,413 students. Lakeside School was built in 1941 and serves students in Kindergarten - 8th grade. It is located in an agricultural area approximately five miles southwest of Bakersfield. A full-size pool, gym, and auditorium are some of the amenities that make this school unique. Suburu School was built in 1996 and serves Transitional Kindergarten - 5th grade students. It is located in the Silver Creek residential development. Most of the district is comprised of large agriculture, with residential areas comprised of single family homes that range socioeconomically from low to medium.

The district is proud of its diverse population which includes approximately 12% English Learner (EL), approximately 70% Low Income (also our Local Control Funding Formula Unduplicated), 3% Homeless, less than 1% Foster Youth, and 10% Students with Disabilities. The district serves many ethnicities with 62% identifying as Hispanic Latino, 17% White, 6% Asian, 5% African American, 1% Filipino, and 4% Two or more races. We serve students in TK through 8th grade at two schools: Suburu School serves students in TK-5th Grade, and Lakeside School serves students in K-8th grade. (Data taken from Kern Integrated Data System 2020-2021)

VISION

To inspire a passion for learning, by empowering all students to acquire, understand and value the knowledge for success in an ever-changing world.

MISSION

The Lakeside Union School District is committed to a quality educational program, embracing Common Core State Standards and 21st Century Skills, and responsive to the needs of its students within a safe nurturing environment. The staff, students, parents, and community assume responsibility for each student's academic and personal success. Recognizing the worth and dignity of each student, the Lakeside Union School District prepares all students to achieve their fullest potential. Our goal is to produce students who make informed decisions, as they become responsible citizens and productive members of society.

CORE VALUES

1. All children can learn, and deserve a quality education in a safe environment
2. Provide excellent service for increased student achievement and educational opportunities
3. Preserve the trust relationship between the district and the community we serve
4. Value and respect diversity
5. Promote collaboration throughout the educational community
6. Protect the fiscal integrity and condition of the district

SHARED BELIEFS

* all students can learn * all students deserve a safe, secure, nurturing environment * students deserve positive role models * students respond to positive reinforcement of desired behaviors * students learn better with family support * all students want to learn and be successful * students develop at different paces and as a result are at different learning stages * students come from different backgrounds and their cultural, emotional, and physical differences shall be respected * all learning styles are valid and shall be addressed by our school

system * instruction shall be based upon state adopted curriculum

LUSD has a well defined tradition that strongly correlates student achievement with classroom instruction. State adopted curriculum is delivered by high quality teachers who receive professional development designed to enhance their instructional skills to improve student achievement. The certificated and classified employees of the district respect and enjoy working with students, and are dedicated to making their lives better.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

CALIFORNIA SCHOOL DASHBOARD, STATE INDICATORS

Due to the COVID-19 pandemic, state law has suspended the reporting of state and local indicators on the 2020 Dashboard.

Data That Cannot Be Reported:

- Academic Indicator: No reports due to suspension of California's English language arts and mathematic assessments.
- English Learner Progress Indicator: No reports due to the suspension of the English Language Proficiency Assessments for California (ELPAC) assessments.
- Chronic Absenteeism Rate: No reports due to the determination by the CDE that the data are not valid and reliable for the 2019–20 academic year. This is due to the manner in which absenteeism data are collected in the California Longitudinal Pupil Achievement Data System (CALPADS) that impacts the integrity of the data and related calculations for any period of time other than the full academic year.
- Absenteeism Reason: No reports due to the determination by the CDE that the data are not valid and reliable for the 2019–20 academic year. This is due to the manner in which absenteeism data are collected in the California Longitudinal Pupil Achievement Data System (CALPADS) that impacts the integrity of the data and related calculations for any period of time other than the full academic year.

Using the 2019 Dashboard, and upon analysis of the State Indicators, the following were identified as making the Greatest Progress toward LCAP Goals.

The Math Indicator

All students increased +6.5% for a Yellow performance level.

Specific student groups that had an increase are: Homeless +38%, Students with Disabilities +20.3%, White +17.4%, Socioeconomically Disadvantaged +5.3%, Filipino +3%, White +17.4% and Hispanic +5.1%.

Goal 1

- Data reported from the 2019 California School Dashboard 5x5 Detailed Data Report

The English Language Arts Indicator

All students Maintained with a -1.9% for an Orange performance level.

Specific student groups that had an increase are: Homeless +48.8%

Goal 1

- Data reported from the 2019 California School Dashboard 5x5 Detailed Data Report

The English Learner Progress Indicator

Shows that 53.9% were making progress towards English language proficiency. This speaks to an increased focus on improving early literacy, providing teachers with professional learning on evidence-based instructional strategies as well as on the English Language Development (ELD) standards, and implementing systems to monitor student progress and ensure interventions are provided.

Goal 1 and Goal 3

- Data reported from the 2019 California School Dashboard English Learner Progress Indicator

Suspension Rate Placement Indicator

Specific student groups that had an decrease are: Filipino -5% and White -1.4%

Goal 2

- Data reported from the California School Dashboard 5x5 Detailed Data Report 2019

Other progress includes:

Academic programs

- All school sites maintained a Facilities Inspection Tool (FIT) rating of “good” or better.

Goal 3

- Educational online technology access

The district has provided students with digital resources such as chromebooks, tablets, and wifi hotspots.

Goal 3

CALIFORNIA SCHOOL DASHBOARD, LOCAL INDICATORS

Districts receive one of three ratings based on whether they have measured and reported their progress through the Dashboard using locally collected data. The ratings are: Met, Not Met, or Not Met for Two or More Years. Using the Self-Assessment Tools for Local

2019 Local Indicators showing great progress toward LCAP Goals

Basics: Teachers, Instructional Materials, Facilities: Met

Implementation of Academic Standards: Met

Access to a Broad Course of Study: Met

Parent and Family Engagement: Met

Local Climate Survey: Met

STAKEHOLDERS INPUT

Parent/Families and staff LCAP surveys indicated a strength in the area of teachers providing students support in the current learning model that is standards-aligned, along with the ease of using our distance learning tools, and providing different strategies and materials to support student learning. The majority of our parents stated they have reliable internet access for their child. Survey results showed schools provided opportunities for families to give input on decisions, offered parent information meetings, and communicated with families in a variety of formats. The actions supporting family engagement will be continued in order to improve in this area (Goal 2). Professional learning will continue to be offered with a focus data driven actions, and providing feedback to improve achievement for all student groups (Goal 1 and Goal 3).

Survey Results indicated that students felt safe at school and cared for by the adults on campus. Students also indicated they are confident they have good teachers who communicate to them about their grades, and that the schools make a good effort to notify them of their grades and performance on tests. Students feel they are safe from COVID due to district safety guidelines, are happy with their learning model, feel they are not struggling in most of their classes, and attend most of their zoom meetings and complete their homework.(Goal 1 and Goal 3).

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

CALIFORNIA SCHOOL DASHBOARD, STATE INDICATORS

Upon analysis of the State Indicators, the following were identified as having the Greatest Needs toward LCAP Goals. Annual stakeholder input indicated a need to provide standards-aligned instructional materials, common assessments, and professional learning for all staff. Additionally, designated staff will provide professional learning, support sites with implementing consistent discipline practices, oversee a multi-tiered system of support, and offer evidence-based interventions.

In 2020 the district met the eligibility criteria for Differentiated Assistance for our African American student group, for Chronic Absenteeism and Suspension Indicators. Due to this, the district participated in root cause analysis, and committed to a Continuous Improvement Process (CIP), with training provided by the County Office of Education (COE). The CIP will help all student outcomes, and specifically African Americans, by using multiple cycles of inquiry. We will continue to cultivate collaborative cultures to produce strong groups and individuals, develop internal accountability, and be responsible within our system. We understand that positive relationships breeds success.

Below are 2019 California School Dashboard Results identifying any state indicator for which overall performance was in the Red or Orange performance category.

English Language Arts Indicator

Student Groups in Red or Orange performance level

The English Language Arts Indicator is at the Orange performance level for all students, with six out of nine student groups performing in the

Red or Orange performance level. All Students Performance is in the Orange performance level at -7.3 points below standard. Maintained -1.9 points.

- English Learners student group (179 students) is in the Orange performance level, with a Low status of -30.9 points below standard. Declined -10.2 points.
- Socioeconomically Disadvantaged student group (607 students) is in the Orange performance level, with a Low status of -15.3 points below standard. Maintained -2.2 points.
- Students with Disabilities student group (93 students) is in the Red performance level, with a Very Low status of 110.8 points below standard. Maintained at -0.4 points.
- African American student group (50 students) is in the Orange performance level, with a Low status of -24.4 points below standard. Declined -8.9 points.
- Hispanic student group (507 students) is in the Orange performance level, with a Low status of -11.1 points below standard. Maintained -2.7 points.
- Two or More Races student group (35 students) is in the Orange performance level, with a Low status of -5.3 points below standard. Declined -6.7 points.
- located in Goal 1

Mathematics Indicator

Student Groups in Red or Orange performance level

The Mathematics Indicator is at the Yellow performance level for all students, with four out of nine student groups performing in the Orange performance level. All Students Performance is in the Yellow performance level at -43 points below standard. Increased +6.5 points.

- English Learners student group (179 students) is in the Orange performance level, with a Low status of -65.5 points below standard. Maintained +2.7 points.
- Students with Disabilities student group (93 students) is in the Orange performance level, with a Very Low status of 140.1 points below standard. Increased Significantly +20.3 points.
- African American student group (50 students) is in the Orange performance level, with a Low status of -74.0 points below standard. Maintained +2.9 points.
- Two or More Races student group (35 students) is in the Orange performance level, with a Low status of -45.3 points below standard. Maintained +1.1 points.
- located in Goal 1

Chronic Absenteeism

Student Groups in the Red or Orange performance level (Goals 2)

The Chronic Absenteeism Indicator is at the Orange performance level for all students, with five out of nine student groups performing in the Red or Orange performance level. All Students Performance is in the Orange performance level at 14.6% chronic absent. Decreased -0.1%.

- English Learners student group (22 students) is in the Orange performance level. High rate at 10.9%. Increased +0.1%.
- Socioeconomically Disadvantaged student group (1,094 students) is in the Orange performance level. High rate at 15.9%. Maintained -0.2%.

- Students with Disabilities student group (157 students) is in the Orange performance level. Very High rate of 20.4%. Decreased - 2.1%.
- African American student group (99 students) is in the Red performance level. Very High rate at 22.2%. Increased +6.8%.
- White student group (338) is in the Orange performance level. High rate of 16.0%. Increased 1.1%
- located in Goal 2

Suspension Indicator

Student Groups in the Red or Orange performance level (Goal 2)

The Suspension Indicator is in the Yellow performance level for all students, with four out of nine student groups performing in the Red or Orange performance level. All Students Performance is in the Yellow performance level at a 2.4% rate. Maintained +0.1%.

- Socioeconomically Disadvantaged student group (1,130 students) is in the Orange performance level, with a Medium status of 3%. Increased +0.4%.
- Students with Disabilities student group (161 students) is in the Orange performance level, with a High status of 4.3%. Decreased - 0.1%.
- African American student group (107 students) is in the Red performance level, with a Very High status of 10.3%. Increased +5.3%.
- Hispanic student group (915 students) is in the Orange performance level, with a Medium status of 2.1%. Increased +0.4%.
- located in Goal 2

Other identified needs include:

- Dynamic Indicators of Basic Early Literacy Skills (DIBELS) was continued, with data indicating a decline in early literacy in Transitional Kindergarten-5th grade. 2021 All Grades Status Report indicate 61% of students require additional intensive or strategic support in literacy
- located in Goal 2

Action Steps

Research by John Hattie shows that teacher effectiveness and quality instruction have the greatest impact on student growth. A focus of this plan is teacher development through focused professional learning, ensuring teachers understand and can properly utilize current instructional strategies, and that we are focusing on meeting the specific needs of our unduplicated students.

Based on state and local indicators, the district intends to take the following steps to support all students, especially student groups with the most need:

- Continue to develop a multi-tiered system of supports for all students, especially high need student groups. (Goal 2)
- Provide counseling services for students with emotional and behavioral needs. (Goal 2)
- Continue the implementation of Positive Behavioral Interventions and Supports. (Goal 2)
- Provide professional development for teachers, focusing on evidenced-based instructional strategies that enhance student engagement. (Goal 3)
- Continue to implement a robust student assessment system to improve student achievement in English Language Arts and math. Teachers will regularly collect and analyze common formative and summative assessment data, and use the data to establish instructional priorities, inform classroom instruction, and monitor student progress and achievement. (Goal 1 and Goal 3)

- Proceed with the Continuous Improvement Process to cultivate collaborative cultures, produce strong groups and individuals, develop internal accountability, and be responsible within our system. (Goal 2)

The LCAP Survey indicated that students felt like they were struggling the most in Math, Science, Reading and their ability to make friends. The area of social emotional well being and student peer relationships was also highlighted by staff and parents. Staff added that it was difficult to build student relationship with families and colleagues during distance learning and while utilizing online resources (Goal 2).

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The District strives to provide high quality support to students in the areas of academic achievement, social emotional learning, and family and community engagement. Through analysis of our state and local data, and input from stakeholders and staff, our continuing focus is to provide students opportunities that will allow them to embrace challenges and develop a passion for lifelong learning. The actions and services in this LCAP focus on improving academic achievement, and building a multi-tiered system of supports for all students; specifically for high needs students. Relationship building and on-task behavior brought on by our PBIS program will continue to be a focal point.

Our district works to meet the needs of all students, taking into account both academic and behavioral concerns. With that in mind, the 2021 LCAP is built with three overarching goals.

GOAL 1 - All students will demonstrate growth towards meeting or exceeding standards in English Language Arts, Math, Science, History/Social Science and English Language Development, as demonstrated through state assessments, local formative assessments and course grades.

GOAL 2 - The district will provide an engaging and nurturing environment where students will demonstrate a positive growth in attendance rates, decrease in student suspension and expulsion and increase in parental involvement.

GOAL 3 - The district will continue to hire the most qualified teachers and train them in the latest instructional strategies, maintain clean, safe, functional facilities that are in good repair, and provide sufficient standards aligned instructional materials in core academics to all students with a focus on Students with Disabilities, English Learners, low income, and foster youth.

Consistent with the intent of California Education Code (EC) Section 52064, the Addendum allows an LEA to complete a single LCAP to meet both state and federal requirements, align state and federal resources, and help minimize duplication of effort at the local level. It is anticipated that LEAs will be required to update and submit their Addendum every three years, consistent with the three year LCAP cycle. The Addendum addresses the required provisions of the following ESSA programs:

Title I, Part A: Improving Basic Programs Operated by State and Local Educational Agencies

Title I, Part D: Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk

Title II, Part A: Supporting Effective Instruction

Title III, Part A: Language Instruction for English Learners and Immigrant Students

Title IV, Part A: Student Support and Academic Enrichment Grants

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not applicable.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable.

Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

INTRODUCTION

The Lakeside Union School District engages stakeholders as a continuous process throughout the year. Purposeful engagement efforts were made that supports strategic planning, accountability, and improvement with the state priorities and local priorities. The district consulted with the following stakeholders in a collaborative process to support the development of the LCAP: students, parents, teachers, principals, administrators, local bargaining units, Special Education Local Planning Area administrator, and other school personnel. Input was also requested from school site councils and student advisory groups.

In the fall of 2019, presentations were made to the Board of Trustees in regular open board meetings that discussed California School Dashboard results, an LCAP Overview, and Local Indicators. In the winter, the same information was shared with, and input gathered from the LCAP Advisory Committee, district personnel, and other stakeholders. District leaders along with the District Parent Advisory Committee served to guide the development, review, and implementation of the LCAP.

COMMUNITY ENGAGEMENT

Due to the pandemic that occurred during the 2020-2021 school year, the district formed a District Advisory Committee (DAC) which met on a monthly basis. The DAC consists of parents, certificated staff, classified staff, the District Nurse, the Technology Coordinator, the Director of Maintenance and Operations, Director of Student Services, school site administrators and the District Superintendent. The DAC seeks and gathers input from all stakeholders prior to sending the plan out for public comment. All stakeholders representatives were solicited and invited to participate in the LCAP Surveys. The District Superintendent held monthly meetings with representatives from local bargaining units (CTA, CSEA), and district administrators. Site administrators met regularly with student government, parent clubs, and staff to the extent as possible. During these meetings, district leaders reviewed and discussed LCFF/LCAP, student performance outcome data, and solicited input for how Lakeside Union School District can increase or improve services for all students.

Time was allotted for reflection, and engagement continued through the entire LCAP process; which included development, review, and supporting implementation. Opportunities for input included, but was not limited to: surveys, community/parent meetings, School Site Council meetings, District English Language Advisory Committee meetings, along with ongoing verbal and written contributions. Notices were sent through District email, listserves, website updates, mailings, and flyers.

At each of the stakeholder engagement meetings, an overview was presented on LCFF/LCAP, the CA School Dashboard, and District subgroup data. Input was gathered on what's working well and what needs to be targeted in the eight state priority areas. Comments and feedback were recorded and later summarized into documents. The District website was updated to include a featured section devoted to LCFF/LCAP, which provides stakeholders with information regarding the process for its development, relevant data, and related events and activities.

District leaders viewed webinars by the California Department of Education, and attended workshops offered by the Kern County Superintendent of Schools (KCSOS). With KCSOS guidance, the district developed a timeline and needs assessment that was instrumental in the data collection process.

COMMUNITY AT LARGE

Information provided to stakeholders included, but was not limited to:

California School Dashboard

State mandated assessments and reports (CAASPP, ELPAC)

Enrollment and attendance rates

Student survey results

Parent survey results

Staff survey results

School Plan for Student Achievement

School Accountability Report Cards

Professional Development

CCSS implementation

Parent involvement efforts and results

Student attendance rates

Anecdotal evidence

STUDENTS, PARENTS, STAFF

LCAP progress was shared with stakeholders during parent club meetings, and staff meetings. Online surveys and student involvement continued to be a particular point of emphasis. Engagement strategies are always being critiqued for improvement.

District staff emphasized with stakeholders that LCAP development is about progress and not compliance and deadlines.

A summary of the feedback provided by specific stakeholder groups.

The input collected through community forums, meetings, surveys, and informal discussions was compiled and reviewed by district administrators and the DAC. This feedback along with Dashboard and LCAP data was used to identify strengths and areas of improvement, as well as to determine the effectiveness of actions/services. District administrators provided recommendations to the Board of Education regarding changes to the LCAP to address the identified needs. Input is reviewed by our superintendent to ensure the LCAP is supporting the actions in each sites School Plan for Student Achievement. Any questions or comments for the superintendent will be addressed in writing from our superintendent per Ed. Code 52062(a).

GOAL 1: All students will demonstrate growth towards meeting or exceeding standards in English Language Arts, Math, Science, History/Social Science and English Language Development, as demonstrated through state assessments, local formative assessments and course grades.

AREAS OF STRENGTHS

Parents:

Positive perception of staff, teachers supporting students accessing common core state standards, providing academic support in the current learning model, and communication from the school site and teachers. Most parents stated they have reliable internet access and have been able to easily navigate with the distance learning tools. Parents of 7th and 8th graders, felt they had a variety of access to electives.

Staff:

Teachers were satisfied with the currently learning model and providing students with effective instruction in the current learning model. Most students attended their synchronous and asynchronous learning as well as completing their homework.

Students:

Students feel their teachers help them learn and are satisfied with their current learning model. Most students attend their synchronous learning where they find ease in using the distance learning tools.

AREAS OF NEED

Parents:

Concerned about their child's student academic growth. Parents of 7th and 8th grade students want more electives.

Staff:

Staff would like to see professional development in the area of Social Emotional Learning, Individual Education Plans and Family Engagement.

Students:

Some students are struggling with their classes, specifically math, science and reading.

GOAL 2: The district will provide an engaging and nurturing environment where students will demonstrate a positive growth in attendance rates, decrease in student suspension and expulsion and increase in parental involvement.

AREAS OF STRENGTHS

Parents:

Most parents are not concerned about their child's behavior. Families feel safe sending their child to school with the COVID-19 safety protocols in place. Positive perception of incentives and rewards for students that regularly attend school, staff is welcoming to all students. Positive perception of English language development and Special Education Programs.

Staff:

Staff cares about building student relationships and understands the steps to providing students' social emotional. Staff felt they received clear communication from the district and school site about COVID-19 safety protocols. Continue with PBIS efforts to engage all students, and incentive and reward attendance programs.

Students:

Students feel their teachers are helpful and supportive. Most students are happy with the current learning model. Students felt they received clear communication from their school site about COVID-19 safety protocols. Most students are happy with the current learning model. Most students attend their synchronous/asynchronous learning. Enjoy the positive reward activities and programs that promote attendance.

AREAS OF NEED

Parents:

Concerned about their child's social-emotional well being and their child's ability to make friends during a pandemic. Schools need to communicate attendance and absenteeism concerns.

Staff:

Concerned about their student's social-emotional well being and their ability to make peer friends. Staff have had a difficult time contacting families during the pandemic. Most staff are concerned about their social-emotional well being and ability to build relationships with their colleagues. More communication with parents of at-risk students to discuss the value of education. The district needs to address chronic absenteeism and suspensions.

Students:

Students are having a difficult time making friends during the pandemic. Feel a lack of desire to attend, parents don't make them come to school, feel tired from staying up late at night, want staff to treat all students with respect.

GOAL 3: The district will continue to hire the most qualified teachers and train them in the latest instructional strategies, maintain clean, safe, functional facilities that are in good repair, and provide sufficient standards aligned instructional materials in core academics to all students with a focus on Students with Disabilities, English Learners, low income, and foster youth.

AREAS OF STRENGTHS

Parents:

Confident their child's teachers are fully competent, students are being taught the state adopted academic standards.

Staff:

Feel confident their ability to teach students, all students receive instruction in state adopted core subjects, are progressing professionally. Positive perception of ongoing professional learning, teacher induction program, and student assessment data management system.

Students:

Are confident they have good teachers that teach academic standards, schools make a good effort to notify them of their grades and performance.

AREAS OF NEED

Parents:

Concerned about their child's student academic growth. Not all facilities are in good shape. Parents of 7th and 8th grade students want more electives.

Staff:

Staff would like to see professional development in the area of Social Emotional Learning, Individual Education Plans and Family Engagement. Some facilities need to be in better repair.

Students:

Some students are struggling with their classes, specifically math, science and reading. Cafeteria food could be better.

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

Based on the input that was received from all stakeholders, we learned that we need to utilize a comprehensive assessment system to identify student's learning deficit to align specific instruction and intervention supports for our students (G1 Action 1 & 2 and G2 Action 1). Once able to address these deficits, we learned from staff input that they want to be trained on specific strategies to address student learning gaps (G1 Action 2, G3 Action 1, 3). These strategies would then be used on a regular basis, especially in our targeted student interventions such as our after-school program and our in-school math and reading intervention program (G1 Action 4 and 6).

Another area stakeholders highlighted was the social and emotional well being of our students. Parents, teachers, and students all pointed out students have struggles with the making of friends at school, feeling connected to the school and community, and the lack of social emotional support/counseling. This need has been the major influence in providing a District wide Multi-Tiered System of Supports (Goal 2 Action 6) that includes PBIS (Goal 2 Action 1), Parent and Family Nights (Goal 2 Action 3), Counseling services for social emotional support (Goal 2 Action 7), and an Alternative to suspension program (Goal 2 Action 8).

The engagement process influenced the evolution of the LCAP, with strengths and areas of need identified as a result of data analysis and stakeholder feedback from meeting discussions and surveys.

Goals and Actions

Goal

Goal #	Description
1	All students will demonstrate growth towards meeting or exceeding standards in English Language Arts, Math, Science, History/Social Science and English Language Development, as demonstrated through state assessments, local formative assessments and course grades.

An explanation of why the LEA has developed this goal.

Analysis of student performance on California School Dashboard for the California Assessment for Student Performance and Progress indicated the following student groups as struggling in English Language Arts and Mathematics (Orange Performance Level or Red Performance Level). For English Language Arts: All Students, English Learners, Socioeconomically Disadvantaged, African American, Hispanic, Two or More Races, Students with Disabilities. For Mathematics: English Learners, Students with Disabilities, African American, Two or More Races.

The California School Dashboard English Learner Progress Indicator indicates 53.9% of our English Learners made progress towards English language proficiency.

An analysis of our local assessments of March 2021 All Grade Status Report for Dynamic Indicators of Basic Early Literacy Skills (DIBELS) in grades K-5th All Grades Status Report indicate 61% of students require additional intensive or strategic support in literacy. For the 2021-2022 school year, the district will implement STAR Literacy in grades TK-2nd grade, STAR Reading in grades 2nd-8th grade, and STAR Math in grades 1st-8th grade.

Course grades report from Kern Integrated Data System (KiDS) in March 2021 indicate the following students receiving a grade D and F at 23.48% for ELA, 28.48% in Math, 31.34% in Science, and 33.19% in Social Science.

Input received from stakeholders through the LCAP development process indicates a desire to improve academic achievement for all students. We plan to improve academic performance through actions that support and improve student learning and will measure progress towards our goal using the metrics identified below (Reference LCAP Section Stakeholder Engagement: A description of the aspects of the LCAP that were influenced by specific stakeholder input). By providing additional supports through professional development, academic programs, targeted intervention, and ongoing progress monitoring using local metrics, students will demonstrate growth in these areas.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
1	Universal Assessment Tools	Implement universal assessment tools for early literacy and math: ie Dynamic Indicator of Basic Early Literacy Skills (DIBELS), Renaissance STAR Early Literacy, STAR Reading and STAR Math. The district will implement early warning systems that use individual student data to generate indicators of students who require strategic or intensive intervention and enable staff to identify and monitor progress of students falling below an identified threshold. This action will provide data needed to target low income and English Learners who are not on grade level. Then additional actions and services will be considered and designed to help each student improve.	\$100,000.00	Yes
2	Professional Learning - Assessments.	Teachers will increase their capacity through professional learning opportunities in collaboration with other teachers, to conduct informal, in-class assessments and common formative assessments in order to gauge student understanding and achievement, inform instruction, and provide real-time feedback to students, especially low income and English Learners who are not on grade level.	\$20,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3	Advancement Via Individual Determination (AVID) Program.	Expand and support for the AVID Program. This program has been proven to provide additional support for subgroup students by teaching them skills necessary for succeeding in elementary, middle, high schools and beyond. This program includes: curriculum, professional development (Conferences, workshops, collaborative planning), resources and direct feedback and monitoring of a school AVID plan.	\$5,000.00	Yes
4	After School Intervention for ELA and Math	Provide after-school targeted intervention supports in ELA and math, with emphasis on low income and English Learners who are not on grade level.	\$13,000.00	Yes
5	Student Support Services	Provide services for identified low income, English Learners and special education students. Director of Student Services oversees MTSS and Special Education, providing support to students, staff and parents. Including time for classified and certificated staff to collaborate and review instructional and testing materials. District school psychologists work with students, staff and parents to provide support and guidance to district and outside resources. Health and nursing services will be provided to all students.	\$3,500,000.00	Yes
6	Reading and Math Intervention Program	Hire three part-time credentialed Intervention Specialists to facilitate the development of an intervention program provide targeted support services for students identified by a universal screener, in ELA and/or math. Hire three part-time classified intervention support members to aide credentialed Intervention Specialists. The district will purchase supplemental resources to support the intervention program for ELA and/or math.	\$170,000.00	Yes

Goals and Actions

Goal

Goal #	Description
2	The district will provide an engaging and nurturing environment where students will demonstrate a positive growth in attendance rates, decrease in student suspension and expulsion and increase in parental involvement.

An explanation of why the LEA has developed this goal.

In 2020 the district met the eligibility criteria for Differentiated Assistance for our African American student group for Chronic Absenteeism and Suspension indicators. The Chronic Absenteeism Indicator is at the Orange performance level for All Students at 14.6%, with five out of nine student groups performing in the Red or Orange performance level. The district expects that all student groups improve their attendance with a decline in chronic absenteeism, along with no students groups in the Red performance category.

The Suspension Indicator is in the Yellow performance level for All Students at 2.4%, with four out of nine student groups performing in the Red or Orange performance level. The district expects that all student groups to decrease in suspension rates, along with no students groups in the Red performance category.

Based on CA Dashboard results and local stakeholders input, the district needs to: increase parent engagement, increase student engagement, and improve school climate. Through the actions included in this goal, the district expects that parent engagement and participation will increase. The district makes genuine efforts to seek parent input, however, participation is very low. Several actions within this goal are purposeful strategies to increase parent participation and to gather feedback. Improving parent communication efforts, implementing tiered frameworks to increase engagement, and supporting socio-emotional needs, we will achieve this goal.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Positive Behavior Interventions and Supports (PBIS).	The District will continue to provide a school-wide PBIS multi-tiered social culture and behavior support system promoting a positive and engaging learning environment for all students. School staff members will continue to implement PBIS, in efforts to improve student engagement and continue to provide a safe and caring environment, with a focus with the following student groups: African Americans, Students with Disabilities, low income, and Els.	\$5,000.00	Yes
2	Stakeholder Communication	The District will continue to solicit students, parents, staff, and community input through all available forms of communication (surveys, meetings, and events) for recommendations to improve/increase services for all students, including English learners, and low income. Implement a two-way structure for listening and communicating with stakeholders that result in meaningful feedback and building positive relationships.	\$12,000.00	Yes
3	Parent/Family Nights.	Provide for Parent/Family Nights that may include academic courses, AVID, Anti-Bullying and school safety, Digital Citizenship, and positive parenting, to engage parents and families building a positive relationship between home and school.	\$2,000.00	Yes
4	Student Incentives	The District will provide student incentives to increase student engagement which has a direct connection in promoting positive attendance, preferred behavior, and higher academic achievement with a focus on the following student groups: African Americans, Students with Disabilities, low income, and English Learners. These incentives include but are not limited to field trips, rewards, award certificates and trophies.	\$5,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
5	Translation for Parents	Provide translation for parents and families for announcements, documents and when attending meetings and school activities so parents of English Learners can fully informed of all school activities and events.	\$4,000.00	Yes
6	Multi-tiered System of Supports (MTSS).	The District will continue to implement a Multi-tiered System of Supports (MTSS) framework at school sites to offer universal supports for all students and tiered interventions for students who are struggling academically, socially and/or emotionally, with a focus on the following student groups: African Americans, Students with Disabilities, low income, and English Learners. The MTSS framework includes evidence-based practices such as positive behavior supports, social emotional learning, and restorative practices.	\$5,000.00	Yes
7	Social and Emotional Support	The District will continue to maintain a counselor that provides counseling at both school sites. The District Counselor will help students overcome problems that impede learning, assist them in educational and personal adjustment, perform Risk Assessments and guidance with outside counseling services.	\$90,000.00	Yes
8	Alternative to Suspension Program	The District will provide for an Alternative to Suspension Program and interventions for students with multiple days of suspension. The school site will offer a proactive approach to instilling the skills, habits, and behaviors necessary to be successful in school and life with a focus on the following student groups: African Americans, Students with Disabilities, low income, and English Learners..	\$5,000.00	Yes

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.

Goals and Actions

Goal

Goal #	Description
3	The district will continue to hire the most qualified teachers and train them in the latest instructional strategies, maintain clean, safe, functional facilities that are in good repair, and provide sufficient standards aligned instructional materials in core academics to all students with a focus on Students with Disabilities, English Learners, low income, and foster youth. This goal will increase the quality of instruction and have a positive impact on student growth.

An explanation of why the LEA has developed this goal.

Research shows that teacher effectiveness and quality instruction have the greatest impact on student growth. This goal focuses on teacher development through focused professional learning, ensuring teachers understand and can properly utilize current instructional strategies aligned to state standards, in order to meet the specific needs of our unduplicated students. As a result of professional development, standards aligned curriculum and efforts to improve access to technology, we anticipate the quality of teaching and learning will improve. Through the actions included in this goal the district expects the quality of teaching and learning strategies will improve, with all students improving in the English Language Arts and math state indicators on the CA School Dashboard, and no students groups in the Red performance category. This goal is aligned with expected measurable outcomes and actions.

There is a direct correlation to student success in a classroom and their performance on tests to the condition of the facilities. The District strives to provide facilities in "Good Repair" to comply with the California Education Code through the use of the Facilities Inspection Tool Report.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Professional Development in Learning Strategies	The district will provide staff, evidence based professional development to support student learning enabling all students, especially Students with Disabilities, English Learners, low income and foster youth, access to the Common Core State Standards.	\$50,000.00	Yes
2	Standards-based CCSS instructional materials.	Purchase and implement state adopted standards-based CCSS instructional materials (textbooks, supplemental, consumables, etc.) in English Language Arts, English Language Development, Math, History/Social Science and Science.	\$130,000.00	No
3	Professional development focused on English learners.	Provide professional learning will be provided to staff focused on English Language Development (ELD) standards for designated ELD and integrated ELD implementing effective evidence-based English	\$10,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		learner instructional strategies with the primary goal to be implemented in all curricular areas.		
4	Educational online technology access	Provide educational online technology access will be supported by providing all students, especially low income, foster youth, and English Learners, and Students with Disabilities, with digital resources such as chromebooks, tablets, and wifi hotspots.	\$80,000.00	Yes
5	Standards-Based Science, Technology, Engineering, Arts and Mathematics (STEAM) Learning	Provide for Standards-Based STEAM Learning opportunities, with an emphasis of engaging low income, foster youth, and English Learners, and students with disabilities.	\$3,000.00	Yes

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

An explanation of how effective the specific actions were in making progress toward the goal.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Analysis of the 2021-22 goals will occur during the 2022-23 update cycle.

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
18.61%	\$2,234,801

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

G1 Action 3 Advancement Via Individual Determination Program (AVID)

After analyzing Kern Integrated Data System (KiDS) Core Subjects Summary Report showed that in each subject area low-income students are 3-4% higher in Ds and/or Fs and English Language Learners are 5-6% higher in Ds and/or Fs compared to all students.

In meeting with our stakeholder groups and our AVID Coordinator, it has been determined that English Learners and low-income students struggle with organization, study-skills, communication, higher-level thinking, and overall study skills resulting in increased Ds and Fs. These are all areas that are addressed by our AVID program. During the stakeholder meeting it was also determined that our English Learners and low-income students are not represented the same in the AVID program as they are in our school demographics. For example, The Lakeside School district has a population of approximately 9.8% English Learners and 60% low-income. However, only 7.7% of English Learners and 17% of our low-income students are represented in our AVID program. We believe that if we target these two groups and attempt to represent them the same in our programs as they are in the district that there will have a positive effect with our English Learners and low-income students.

In order to address this concern of our low-income and English Learners, this action will target these two student groups to ensure they are provided the opportunity to participate in the AVID program. This action is being provided on an LEA-wide basis and we expect that all students enrolled in the AVID program will benefit from additional support in organization, study-skills, communication, higher-level thinking in order to create academic habits essential to their overall success. However, because we will increase the percentage of low-income and

English Learners in the AVID program, we expect their grades to improve significantly more than all other students once they equally represented.

G1 Action 4 and Action 6

After School Intervention for ELA and Math and Reading and Math Intervention Program

Due to the pandemic, state law has suspended the reporting of state and local indicators on the 2020 CA School Dashboard. A review of the 2019 CA School Dashboard showed the following student groups were in the Orange Performance Level or Red Performance Level in English Language Arts and Mathematics. For English Language Arts: All Students, English Learners, Socioeconomically Disadvantaged, African American, Hispanic, Two or More Races, Students with Disabilities. For Mathematics: English Learners, Students with Disabilities, African American, Two or More Races. The California School Dashboard English Learner Progress Indicator indicated that 53.9% of our English Learners made progress towards English language proficiency. For our local assessment, Dynamic Indicators of Basic Early Literacy Skills (DIBELS): March 2021 All Grades Status Report, indicated 61% of K-5th grade students required additional intensive or strategic support in literacy.

Recent stakeholder survey results indicated that students, especially our English learners and low-income students, were struggling in math and reading. This is also evident in our local reading and math assessments with the following student groups scoring below the 50th percentile in reading: 69% All Students, 71% English learners and 70% low-income and for math 64% All Students, 69% English learners, and 60% low-income students. Based on the information, it was determined that English learners and low-income students tend to lack many of the basic skills required to flourish in math and reading. These students need to have a better mastery of math facts and computation skills, in addition to phonemic awareness and phonics. This action while being provided school wide, will specifically benefit the students missing these skills and will ultimately have the highest impact on English learners and low-income students

To address this concern of our low income and English earners, we will target these two student groups to ensure they are provided the opportunity to participate in the After School Intervention for ELA and Math and in school Reading and Math Intervention Program. These actions are being provided on an LEA-wide basis and we expect that all students who participate in the after school intervention for ELA and math and/or the in school reading and math intervention program will benefit from additional support focused on the foundational literacy skills of the student's understanding and working knowledge of print concepts, phonological awareness, phonics and word recognition and fluency. However, because our English Learners are identified in the Orange Performance Level for ELA and math and our low income students are identified in the Orange Performance Level for ELA and the Yellow Performance Level for math, we anticipate that our English Learners and our low income will improve in ELA and math.

G 1 Action 5, G 2 Action 1, Action 4 and Action 6-8

Student Support Services, Positive Behavior Intervention Supports (PBIS), Student Incentives, Multi-Tiered Systems of Support, Social and Emotional Support, Alternative to Suspension Program

Due to the pandemic, state law has suspended the reporting of state and local indicators on the 2020 CA School Dashboard. Therefore, a review of our 2019 CA School Dashboard results showed that English Learners were identified in the Orange Performance Level for Chronic Absenteeism and our low income students were identified in the Orange Performance Level for Chronic Absenteeism and Suspension Rate.

Input from students, parents and staff indicated it was difficult for staff to build teacher-student and family relationships, for students to make friends and parents were concerned with their child(s) social and emotional well-being. Based on this information it was determined that our students and parents feel disconnected from school, resulting in high absenteeism and negative behaviors. To address these concerns, the district will continue to implement Multi-Tiered Support System (MTSS) that includes Positive Behavior Intervention Supports (PBIS), an evidence-based multi-tiered positive, proactive and responsive school-wide behavior intervention and support strategies for all students, especially our English learners and low-income students. Research indicates students who feel connected to their school are more likely to have strong teacher-student and family relationships, perform better academically and have good attendance resulting in positive behaviors. PBIS will address the concern of building positive teacher-student and family relationships, helping students to make friends and continue to provide a counselor to support student's social and emotional well-being, therefore decreasing chronic absenteeism and negative student behavior. PBIS will also contribute to our Alternative to Suspension Program by reducing student suspensions. With a focus on low-income and English Learners, we expect both groups to decrease in chronic absenteeism and negative behaviors.

G3 Action 4 Educational Online Access

Lakeside Union School District's 2021 LCAP Parent Survey had multiple questions related to online access. Of the parents surveyed 31% did not have internet access or had unreliable internet access. Additionally, 48% of the parents surveyed, stated that their student(s) did not have access to a device such as a tablet, personal computer, or chromebook. It is also known that approximately 80% of the Lakeside Union School District's boundaries include rural addresses, where majority of our low income reside, do not have reliable or high speed internet available for connection.

Although, it is the intent to provide online at-home access to all of our students, it is known LUSD's English Learners, and low income students have the biggest struggle connecting to internet. Due to this concern, the district will continue to take extra care to make sure that we have provided multiple chromebooks to each household to ensure each student has a reliable tech device. LUSD has also provided internet hotspots that work through cellular sources to provide internet. Additionally, both school sites have provided internet wifi so students can connect anywhere while on a school campus. The district has also coordinated with the county office to provide parents with a list of locations to receive free internet access in the county.

As a result of this action, the district anticipates all students to have a greater access to common core state standards and access to a broad course of studies, especially our English Learners and low income students. All students are also able to continue remotely or in-person allowing all students to interact with the teacher and their peers, receive instruction in common core state standards, and produce quality interactive practice online.

G3 Action 5

Standards Based Science, Technology, Engineering, Arts and Mathematics (STEAM)

Lakeside Union School District's 2021 LCAP Parent Survey and Student Survey indicated the majority of parents and student's requested additional access to other subjects in school including engineering, technology, art, and foreign languages. For this reason, we will implement a STEAM program to provide additional course access for all our students, especially our low-income and English Learners. We believe hands-on and critical thinking projects will enhance their academic learning. As the education world explores strategies to equip students with the skills and knowledge they'll need to be successful innovators in a 21st century workforce, there has been a growing emphasis on STEAM — the educational discipline that engages students around the subjects of Science, Technology, Engineering, the Arts and Math.

Many education experts regard STEAM (and its predecessor STEM) as an essential component of 21st century education. According to the U.S. Department of Education, "In an ever-changing, increasingly complex world, it's more important than ever that our nation's youth are prepared to bring knowledge and skills to solve problems, make sense of information, and know how to gather and evaluate evidence to make decisions." Enhancing such skills lies at the heart of STEM and STEAM education. Additionally, STEM and STEAM graduates "play a vital role in developing meaningful solutions to societal problems, such as the (COVID-19) public health crisis we are currently facing," says Michael Milligan, CEO and executive director of ABET, a technology and engineering accreditation organization.

This action will add to the available courses that are aligned to Common Core State Standards and fill the need for additional learning opportunities that have been requested by parents and students. Additionally, STEAM courses will provide additional modes of learning to students that thrive in hands on and visual learning especially our English Learners and Low-Income. LUSD will make this program available to all students but will provide priority access to those students who are English Learners, low income students.

G 2 Action 2-4

Stakeholder Communication, Parent/Family Nights, Translation for Parents

Based on results from our Lakeside Union School District's 2021 LCAP Parent Survey and Student Survey, it was discovered that even though many of our parents were satisfied with district/school communication, a significant number of parents/guardians indicated a need for better communication and a feeling of not being comfortable communicating with school staff. The pandemic caused unforeseen hurdles in finding the best ways to communicate from staff to parents and parents to staff. In addition to improving communication with our parents/guardians, we also believe there is a need to have more items translated into home languages and to provide more opportunities for communication in parents home language.

These strategies are specifically designed to increase engagement and planning for English learners, and low-income students and families. These stakeholders will experience the greatest benefit through the alignment of these planning actions and engagement activities to prioritize the needs of English learners and low-income students. With a focus on low-income and English Learners, we expect both groups of parents/guardians will feel more comfortable communicating with staff.

G1 Action 1 and Action 2; Goal 3 Action 1 and Action 3

Universal Assessment Tools, Professional Learning- Assessments, Professional Development in Learning Strategies, Professional Development focused on English learners

In conversations with stakeholders it was discovered that across the grade levels we did not have a universal assessment for all grades or have not fully trained teachers in all grades on how to implement and analyze universal assessment data. For this reason we developed Goal 1 Action 1, Action 2, Goal 3 Action 1 and Action 3 to meet the needs of staff and students through a variety of tools, strategies and professional development. These actions will ensure universal assessments across the grade level to provide staff with the necessary information to make effective decisions on student learning. Additionally, we will train all staff on the appropriate administration of assessments to ensure accuracy and guide discussions in Professional Learning Communities.

In addition to stakeholder involvement, we also reviewed state and local data. Due to the pandemic, state law has suspended the reporting of state and local indicators on the 2020 CA School Dashboard. A review of the 2019 CA School Dashboard showed the following student groups were in the Orange Performance Level or Red Performance Level in English Language Arts and Mathematics. For English Language Arts: All Students, English Learners, Socioeconomically Disadvantaged, African American, Hispanic, Two or More Races, Students with Disabilities. For Mathematics: English Learners, Students with Disabilities, African American, Two or More Races. The California School Dashboard English Learner Progress Indicator indicated that 53.9% of our English Learners made progress towards English language proficiency. For our local assessment, Dynamic Indicators of Basic Early Literacy Skills (DIBELS): March 2021 All Grades Status Report, indicated 61% of K-5th grade students required additional intensive or strategic support in literacy.

In order to address this concern of our low-income and English Learners, these actions will target these two student groups to ensure they are provided additional academic support. This action is being provided on an LEA-wide basis and we expect that all students will benefit from additional support in research based assessments and strategies which are essential to their overall success.

The following LEA-wide actions are being carried over from the 2017-2020 LCAP into this new three-year cycle. Stakeholder feedback and analysis of data to determine the effectiveness of these actions have supported the decision to continue these actions into the next three years. While the past year and a half have been full of changes for our school community, it is the desire of stakeholders that we continue with previous actions as we attempt to return to a more stable educational environment.

The following actions in Goal #1 have been deemed to be effective academic supports per the California School Dashboard for the California Assessment for Student Performance and Progress in indicated the following student groups in the Yellow, Green and Blue Performance Levels for English Language Arts: Homeless, Whites, and Asian and in Math: Asian, Hispanic, Homeless, Socioeconomically Disadvantaged and White. While achievement gaps continue to exist, we believe the actions are promoting growth and will continue to lead to improvement in academic achievement levels.

- Maintain a data management system to analyze student assessment data. Data management tools will be used to break down student data and inform instruction. The system will help create, upload, and administer standards-based assessments at the teacher, district, or state level. Assessment results can be received immediately and use data for flexible grouping of students, Response to Intervention (RtI) protocol, and judging how to pace and plan lessons. Instant formative feedback can be used mid-lesson to ascertain lesson plan success and inform next steps.
- Provide differentiated professional learning on strengthening PLCs; emphasizing student data analysis for low income, foster youth, and Els. Differentiation will be used to attend to the learning needs of a particular student or small group of students rather than the more typical pattern of teaching the class as though all individuals in it were basically alike. The goal of a differentiated classroom is maximum student growth and individual success, particularly for unduplicated students.
- Provide for after-school Targeted Intervention supports in ELA and math for all students, with emphasis on low income, foster youth, and English learners not working at grade level. Supports may include teacher or instructional aide salaries, consumables and supplemental material.
- Hire one additional, for a total of two Intervention Specialists to provide support services for students not working at grade level in ELA and/or math, and facilitate the development of an intervention program that includes universal screening. Functions of this position include working with individuals to diagnose the nature of a student's learning challenge; then prescribe instruction that meets the needs of the student. The specialist will provide a variety of instructional resources and strategies, and refer children to professional personnel for specialized services if needed.

The following actions in Goal #2 have been deemed to be effective as per the California School Dashboard for the California Assessment for Student Performance and Progress in indicated the following student group in Green Performance Levels for Chronic Absenteeism: Asians and for Suspension Rates: Homeless, Two or More Races and White. While achievement gaps continue to exist, we believe the actions are promoting growth and will continue to lead to improvement in chronic absenteeism and suspension rates by creating a positive and safe climate.

- Continue to implement Positive Behavioral Interventions and Supports (PBIS) in efforts to improve student engagement particularly with low income, foster youth, and Els.
- Solicit students, parents, staff, and community input through all available forms of communication (surveys, meetings, and events) for recommendations to improve/increase services for all students, including English learners, low income, and foster youth.

- Maintain/expand an incentive & reward program that promotes school attendance, with emphasis for low income, foster youth, and ELs.
- Maintain a restorative justice program integrating alternative to suspension strategies, principally directed toward low income and foster youth. Under the umbrella of social/emotional learning, including Positive Behavioral Intervention and Supports (PBIS) and Multi-Tiered Systems of Support (MTSS), is restorative justice, which is interwoven in these approaches Restorative justice is an effective alternative to punitive responses to wrongdoing. It brings together persons harmed with persons responsible for harm in a safe and respectful space, promoting dialogue, accountability, and a stronger sense of community.

The following actions in Goal #3 have been deemed to be effective with students increasing in Math by 6.5 points and English Language Learners increasing by 8.5 points. As a result of professional development, standards aligned curriculum and efforts to improve access to technology, we anticipate the quality of teaching and learning will improve. Through the actions included in this goal the district expects the quality of teaching and learning strategies will improve, with all students improving in the English Language Arts and Math state indicators on the CA School Dashboard. We believe there is a direct correlation to student success in a classroom and their performance on tests to the condition of the facilities, which has been identified in "Good Repair" to comply with the California Education Code through the use of the Facilities Inspection Tool Report.

- Provide ongoing professional development support for the the Common Core State Standards in ELA and math, and history social science and science. This action will target low income students, foster youth, and English learners who may be lacking academic skills in order to improve student achievement.
- Purchase and implement state adopted standards-based CCSS instructional materials (textbooks, supplemental, consumables, etc.) in ELA/ELD, math, and NGSS if available, so all students have access to instructional materials and can meet grade level standards.
- Educational technology access will be supported by providing all low income, foster youth, and English Learners with digital resources such as chromebooks. Promote home to school technology using Google Apps.
- Implement a Standards-Based STEM Learning System (web-based) for Engineering, Science, and Technology Education classrooms, grades 7 and 8, with emphasis of engaging low income, foster youth, and English Learners. Continued implementation will enable students to extend grade level standards.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The districtwide expenditures laid out in the LCAP are available broadly, but the services are principally directed towards and are proving effective in meeting the district goals for its unduplicated students. Although available to all, it is the district's experience that those who are most at risk are more likely to need outreach efforts primarily directed at providing these districtwide services to vulnerable unduplicated students. Services noted in this plan not only have an impact on the learning environment and the climate of the district as a whole, but are targeted to have a larger impact on unduplicated students.

In Addition to the actions provided on an LEA-wide or school-wide basis described above, Goal 3 Action 3 is specifically aimed at increasing or improving service by the percentage required. 68% of the students enrolled in the Lakeside Union School District are unduplicated students. The total amount of supplemental and concentration grant funding was budgeted for expenditures detailed and described in this plan. The majority of the funding will be principally directed to meet the needs of the targeted students. All students in our district must be equitably served. By providing expenditures districtwide the Lakeside Union School District will best serve all students, especially our targeted students.

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* 52064(b)(7)).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Stakeholder Engagement

Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

Prompt 2: “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures

- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 .

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

Percentage to Increase or Improve Services: Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students: Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school

climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55%: For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55%: For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40% or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All”, or by entering a specific student group or groups.
- **Increased / Improved:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
 - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
 - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
