

# POND SCHOOL

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Pond Union Elementary School District

CDS Code: 15637196009963

School Year: 2023-24

LEA contact information:

Alex Lopez

Superintendent/Principal

[alopez@pond.k12.ca.us](mailto:alopez@pond.k12.ca.us)

(661) 792-2545

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

# Budget Overview for the 2023-24 School Year

## Projected Revenue by Fund Source

This chart shows the total general purpose revenue Pond Union Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Pond Union Elementary School District is \$4,718,283.21, of which \$2,817,778.00 is Local Control Funding Formula (LCFF), \$1,023,102.70 is other state funds, \$195,000.00 is local funds, and \$682,402.51 is federal funds. Of the \$2,817,778.00 in LCFF Funds, \$778,859.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Pond Union Elementary School District plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Pond Union Elementary School District plans to spend \$4,638,656 for the 2023-24 school year. Of that amount, \$1,106,828 is tied to actions/services in the LCAP and \$3,531,828 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Operating and personnel expenses.

## Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Pond Union Elementary School District is projecting it will receive \$778,859.00 based on the enrollment of foster youth, English learner, and low-income students. Pond Union Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Pond Union Elementary School District plans to spend \$974,582 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Pond Union Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Pond Union Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Pond Union Elementary School District's LCAP budgeted \$838,660 for planned actions to increase or improve services for high needs students. Pond Union Elementary School District actually spent \$679,890 for actions to increase or improve services for high needs students in 2022-23.

The difference between the budgeted and actual expenditures of \$-158,770 had the following impact on Pond Union Elementary School District's ability to increase or improve services for high needs students:

One time funding paid for services. There was no negative impact to high needs students.

## Plan Summary [2023-24]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Pond Union Elementary School District's Local Control and Accountability Plan (LCAP) 2021-2024 is the blueprint for building a strong foundation and improving our services to meet the challenges of a rapidly evolving post pandemic world. Above all, Pond is committed to reducing the academic opportunity gap by ensuring that all students have equal access to the opportunities, supports, and tools they need to be successful in high school and beyond.

The LCAP promises a vision to the community that “The District will provide a quality education, providing the basis for students to become lifelong learners as well as moral, ethical, and compassionate people. A partnership of staff, students, parents, and the community will prepare students to become responsible citizens and productive members of the communities in which they live.” In order to achieve this vision, Pond sees the importance of involving every member of the community.

Pond Union Elementary School District (PUESD), established in 1914, is one of the oldest single K-8 school districts in Kern County and serves 178 students as of March 22, 2023. PUESD employs 25 people (9 teachers) and operates with a budget of \$3.5 million for the year 2021-2022.

PUESD students reflect the rich cultural diversity that is the hallmark of the Central Valley. The student population is 94.38 percent Hispanic or Latino, 1.12 percent Asian, 0.56 percent Filipino, 2.25 percent White, and 0.56 percent multiple. Residents within PUESD speak more than 5 languages; 45 percent of students speak a language other than English at home. Eighty seven percent (87.64%) of students are Socioeconomically Disadvantaged. About twenty-three percent (22.47%) of our students are English Learners.

**Mission Statement:**

"Pond Union School District will provide each student the opportunity to develop intellectually, emotionally, physically, and socially in a safe and orderly environment."

## Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

While there are many small examples of successes over the course of the past few years, there are a few that we are most proud of. The Pond Union Elementary School District has remained open for in person instruction since early October of 2020 and continues to be open to this present day. For the 2020-2021 school year, flexibility has been afforded to all students as they have had the choice to learn in person or virtually. With strong safety measures in place, parents and other educational partners felt secure to start the 2021-2022 school year as 100% in-person. Another example of success is that PUESD has successfully administered academic benchmarks and the CAASPP for 2020-2021. Additionally, even with the challenges brought on by the pandemic, for CAASPP 2020-2021, we are proud to say that "All Students" group increased by 1.98 point Met/Exceeded in ELA and 0.9 point Met/Exceeded in Math in comparison to their 2019 CAASPP results. Furthermore, for CAASPP 2020-2021, our Socioeconomically Disadvantaged students scored 42.31% Met/Exceeded in ELA, a 2.66 point increase to their 2019 results, and scored 30.77% Met/Exceeded in Math, a 1.98 point increase to their 2019 results. We plan to continue with our regular benchmarks and to add curriculum based measurement screening data to our existing data platform to better inform teaching and learning and to monitor progress of students. Furthermore, we have decreased our chronic absenteeism; 14.84% were chronically absent in 2019, while only 10.7% of students were chronically absent in 2021.

For 2022-2023 school year, Pond has a very low suspension rate with 0.5% of our students suspended for at least one day. In terms of our Summative ELPAC results, Ponds shows a steady increase in the percent of students who score a Level 4. For 2021, 11.11% of English learners were classified as proficient. As for 2022, 12.00% of students were classified as proficient based on the ELPAC summative assessment. For 2023, we have reclassified 45% of our English Learners based on their ELPA Summative scores and other academic criteria, such as their Writing Benchmarks and classwork. Other than test scores, more than 80% of our students feel that Pond is a Safe and Welcomed place to learn.

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Our 2019 CA Dashboard results indicate Pond scored Orange in both English Language Arts and Mathematics. In 2021, 42.21% of All Students scored Met or Exceeded in ELA, but as of 2022, only 27.05% scored Met or Exceeded, which is approximately a 15 point decrease.

In Mathematics, 30.27% of students scored Met or Exceeded; however, 2022 CAASPP results showed that 18.03% scored Met or Exceeded, a 12.24 point decrease. Both ELA and Math scores decrease by more than 10%. For 2022-2023 school year, Pond has really increased in building up the capacity of our staff. Based on the poor CAASPP results, many of our students have been negatively affected not only emotionally through COVID, but the learning gap has also increased in each grade level. Pond has hired a Academic Coach for our teacher for both Writing and Math to offer our teachers professional development, individual one-to-one lesson planning, and in-class modeling of good teaching practices in the classroom. By building the capacity of our staff, Pond believes that our teachers will be better equipped to accelerate and fill in the academic gap of our post-pandemic students. At this time, Pond will not be able to see the results of these new actions until we receive the results for our 2023 CAASPP tests. However, based on 2022 results, Pond sees the

Another area of need is our attendance rate. In 2019, PUESD had a 97.3% attendance rate. In 2021, PUESD had a 89.3% attendance rate. As of May 2023, Pond has a 94.25% attendance rate as per local data. This shows a positive increase from 2021 to 2022. A significant reason for the positive increase from 2022 to 2023 would be the decrease of students not attending school due to COVID related illness. However, based on our baseline of 97.3% and our 98% goal, Pond still sees attendance as an area of improvement. In order to increase attendance rate, Pond has started its PBIS implementation process. However, because of COVID, Pond had not begun PBIS implementation process until 2023. This year marks the formation of our PBIS committee and the very beginning of Pond's implementation. Pond has yet to roll out PBIS schoolwide and plans full school-wide implementation by 2023-2024 school year. As a result of PBIS implementation Pond expects to increase student engagement and attendance.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The LCAP process through a thorough analysis of local and state data points and conversations with all educational partners, promises a vision to the community that “The District will provide quality education, providing the basis for students to become lifelong learners as well as moral, ethical, and compassionate people. A partnership of staff, students, parents, and the community will prepare students to become responsible citizens and productive members of the communities in which they live.” In order to achieve this vision, it is important that Pond focuses on every member of the community.

### Mission Statement:

Pond Union School District will provide each student the opportunity to develop intellectually, emotionally, physically, and socially in a safe and orderly environment.

The Pond Union Elementary School District's LCAP has 3 goals:

- 1) Accelerate student learning and mastery of state standards by providing consistent, high quality, data driven teaching practices to ensure that the needs of all students are met, and all students can thrive and are prepared to be successful in high school.

2) Ensure safe and well-maintained facilities and provide for a positive learning environment that supports the academic, social, emotional, relational, and physical needs of students.

3) Nurture strong family, school, and community relationships through meaningful school based engagement opportunities to ensure all educational partners feel welcome to participate and contribute in school related events and activities.

## **Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No schools in the Pond Union Elementary School District are eligible for Comprehensive Support and Improvement (CSI) under the Every Student Succeeds Act.

### ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

No schools in the Pond Union Elementary School District are eligible for Comprehensive Support and Improvement (CSI) under the Every Student Succeeds Act.

### ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

No schools in the Pond Union Elementary School District are eligible for Comprehensive Support and Improvement (CSI) under the Every Student Succeeds Act.

# Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

From the beginning of the school year, Pond used multiple channels, outreach strategies, and venues to engage with a diverse array of community educational partners. A special priority was made to communicate with representatives of unduplicated student populations, including the students themselves. Pond reached out to our educational partners via callouts, the Pond website, Pond Facebook, mail, and our school secretary contacted parents that she knows prefer a call. A survey was produced to solicit feedback from the community. Surveys have been sent to parents, advisory groups, teachers/staff/other personnel, and students to gather feedback from educational partners on existing needs and desired support. All meetings were held in-person at school grounds; however, Zoom and Google Meet were available for those who could not attend in-person. The majority of our educational partner meetings were held by the Superintendent/Principal at 4pm and 6pm to ensure increased parent participation.

No classified or certificated unions exist at PUSD. Telephone calls were made to follow up with parents and other educational partners. Pond also utilizes a Facebook page as a mode of communication and feedback for all community members. The Superintendent/Principal called two separate meetings at different times to accommodate our community members. We reviewed our 3 Goals, discussed our Year 2 Outcomes, and received feedback on possible improvements and changes to our LCAP to increase growth in our metrics. We held a meeting with our Parent Advisory Committee and ELAC concerning the LCAP and our three goals. They approved of our goals and provided feedback on how we can be more effective in the implementation of our actions. On June 2, 2023, PUSD consulted with the Kern County Superintendent of Schools Special Education Local Plan Area (SELPA) team to seek input regarding our LCAP to ensure that the needs of students with disabilities were addressed by the district.

Pond submitted our draft LCAP to a hearing at a meeting of our governing board on 6/13/2023. Our local governing board met on June 17, 2023 for adoption.

A summary of the feedback provided by specific educational partners.

Our Parent Advisory Committee, English Learner Advisory Committee (ELAC), School Site Council Committee, and teachers/staff agreed on the goals and approved to continue with our LCAP plan.

The significant decrease in students scoring met or exceeded in both Math and ELA for 2022 CAASPP results indicate that our students were largely impacted by distance learning and the pandemic. To reengage students and increase student learning, all educational partners agreed that more individual academic support is needed. In response, Pond has started to offer homework club before and after school in order to assist students in their homework. After school tutoring also began earlier in the school year to provide individual help to students. Pond continues to provide a 3 week summer school program in order to lessen the learning loss during summer break and offers. Alongside summer school, Pond will offer STEAM activities during one of its week-long breaks (either Spring break or Fall break). Furthermore, teachers have stated that they also desire to be reengaged in their own professional learning, as the pandemic has been difficult for our

teachers. As a result, Pond has made it a goal to send all of our teaching staff to the AVID Summer Institute to reengage them as educators. As feedback, teachers have also stated that they want their paraprofessionals to be more trained to teach their students during small group work. In response, Pond has also signed some of our full-time instructional aides to attend Avid Summer Institute.

Pond also continues to prioritize in growing the capacity of our staff in providing high-quality instruction in both Writing and Math. We have contracted a Mathematics Program Specialist and an ELA Coordinator from the district to provide professional development, lesson plan implementation, and modeling great classroom practices for both math and writing. Through this effort, teachers have increased their capacity to implement EL strategies in their writing (i.e. outlines, color-coding) and math (i.e. manipulatives and math talks).

In response to the increased socio-emotional needs of our students, we have brought in a full time social worker from KSCOS for the 2022-2023 school year. There has been positive response to our new social worker. She not only works with individual and small groups of students dealing with traumatic issues, such as grief or homelessness, but have also done whole-class lessons on dealing with anger or how to prevent bullying or other social/emotional needs that all of our students need. Pond's new social worker not only works with our students, but have given several professional development to Pond's entire staff, so that each staff and teacher are more trauma informed. Through the leadership of our social worker, we have started to begin our PBIS journey and are on schedule for full-implementation for 2023-2024 school year. PBIS is a response to the feedback from our educational partners that Pond needed a consistent language in our behavioral and academic expectations of our students.

#### A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Aspects of the LCAP that were influenced by specific input from educational partner feedback are as follows:

We have continued our contract to a psychologist to offer socio-emotional support for our students.

We have continued a full time social worker to offer socioemotional support for our students.

We have continued our contract to a KCSOS Mathematics Program Specialist to increase the math instruction capacity of our teachers.

We have continued our contract to a KCSOS Writing/ELA Coordinator to increase the writing/ELA instruction of our teachers and the implementation of Step-up-to-Writing.

We have spread out our Saturday Academies to one Saturday per month, and have contracted a STEAM coordinator and School Medical Coordinator to host our students.

We will create a more engaging library area to re-engage students in reading.

We will contract a permanent substitute teacher to ensure that teachers have the time to plan for instruction and to prevent pulling staff from their duties for 2023-2024.

# Goals and Actions

## Goal

Goal #	Description
1	Accelerate student learning and mastery of state standards by providing consistent, high quality, data driven teaching practices to ensure that the needs of all students are met, and all students can thrive and are prepared to be successful in high school.

An explanation of why the LEA has developed this goal.

Goal #1 was identified by parent groups and staff examining 2019 Dashboard results and conducting discussions. 2019 Dashboard results indicate Pond scored Orange in both English Language Arts and Mathematics. ELA declined 15.6 points from 2018 and Mathematics declined 12.6 points from 2018. After discussion, it was determined that ELA and Math, as well as progress for our English language learners, were areas of concern and will be the core of our LCAP for 2021-2024. In 2019, Pond's percentage of students making progress towards English proficiency was 38.3%. This score placed Pond in the LOW area on the Dashboard's site. Educational partners have expressed the importance of providing students additional supports in the classroom in order to mitigate these disadvantages. As a response, Pond has maintained smaller class sizes and provided additional supports within classrooms via paraprofessionals, so that students can continue to learn in smaller groups, and teachers can provide more tailored and individualized instruction to our unduplicated students' unique needs. Based on declining achievement in English Language Arts and Math, we see the need to focus on building the capacity of our staff and accelerating learning for our students in those core subjects as well as in Science and writing.

According to our 2021 CAASPP results, the percent of "All Students" who scored Met/Exceeded increased by 1.9 point in ELA and 0.9 point in Math. However, our English Learners (which make up a large part of our unduplicated group), are not showing any signs of growth based on the state data. In 2019, 3.3% of English Learners scored Met/Exceeded in ELA and it has remained at 3.3% in 2021 and 3.23 in 2022. For Math, our English Learners declined from 6.25% in 2019 to 3.3% in 2021 and 3.23% in 2022. Pond does see an increase in our English Proficiency via our Summative ELPAC scores. In 2019, 3.3% of ELs scored proficient in the 2019 Summative ELPAC. In comparison, 11.11% of ELs scored proficient in the 2021 Summative ELPAC and 15.57% in the 2022 Summative ELPAC. Therefore, there has been a positive increase each year in their English Language proficiency, but their content-area success (based on the state test) is not making the same growth.

According to our 2022 CAASPP results, Pond had a large decrease of the number of students who scored Met or Exceeded in both E.L.A. and Math. In English Language Arts, 27.05% scored Met/Exceeded, a large decrease from our 2021 score of 42.2%. In Mathematics, 15.57% of students scored Met/Exceeded, another large decrease from our 2021 score of 30.3%. These scores demonstrate the large, negative impact distance learning have had on our students. It has increased the learning gap that was already there because of their unduplicated status, and it has just widen. Although Pond was one of the very few schools that were opened by early September 2020 during the pandemic, the CDC guidelines made it difficult for students to learn most effectively and teachers were limited in their teaching engagement strategies. All of these factors led to learning loss that cannot be mitigated in a year. Therefore, the relevancy and importance of

this goal is much more now than when it was created in 2019. Pond needs to prioritize mitigating the learning gap of our unduplicated students due to these disadvantages. Goal #1's purpose is to ensure equity for all students and provide support to our unduplicated students, so that all student groups will be academically successful. We expect for this goal to help us improve teaching and learning at Pond through the actions below, which support and improve student learning and teaching practices as measured by the included metrics.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 2A: Implementation of CA academic and performance standards as per administrative observations school wide in relation to the Implementation Rubric.	CCSS Implementation Status: "Fully" as per administrative observations school wide.	CCSS Implementation Status: "Fully" as per administrative observations school wide.	CCSS Implementation Status: "Fully" as per administrative observations school wide.		Maintain CCSS Implementation Status of "Fully" as per administrative observations school wide.
Priority 2B: How programs/services enable English Learners to access CCSS and ELD standards for academic content knowledge and English Language proficiency as per administrative observations school wide.	100% of EL students are able to access the CCSS and ELD Standards for the purposes of gaining academic content knowledge and English language proficiency through designated and integrated ELD.	100% of EL students are able to access the CCSS and ELD Standards for the purposes of gaining academic content knowledge and English language proficiency through designated and integrated ELD.	100% of EL students are able to access the CCSS and ELD Standards for the purposes of gaining academic content knowledge and English language proficiency through designated and integrated ELD.		Maintain 100% of EL students are able to access the CCSS and ELD Standards for the purposes of gaining academic content knowledge and English language proficiency through designated and integrated ELD.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 4A: Statewide Assessments (CAASPP) Percent Met/Exceeded % for All Students.	CAASPP ELA: 40.23% Met / Exceeded CAASPP Math: 29.37% Met / Exceeded CAASPP Science: 11.36 Met/Exceeded	2021 CAASPP ELA: 42.2% Met / Exceeded 2021 CAASPP Math: 30.3% Met / Exceeded 2021 CAASPP Science: 12.5 % Met / Exceeded	2022 CAASPP ELA: 27.05% Met / Exceeded 2022 CAASPP Math: 18% Met / Exceeded 2022 CAASPP Science: 29.45% Met / Exceeded		4A: CAASPP ELA: 50% Met / Exceeded 4A: CAASPP Math: 40% Met / Exceeded 4A: CAASPP Science: 20% Met Exceeded
Priority 4B: % of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University;	NA	NA	NA		NA
Priority 4C: Percentage of pupils who have successfully completed courses that satisfy the requirements for CTE sequences or programs of study that align with SBE-approved career technical education	NA	NA	NA		NA

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
standards and frameworks.					
Priority 4D: % of pupils who have successfully completed both types of courses described in subparagraphs (B) and (C).	NA	NA	NA		NA
Priority 4E: Percentage of EL pupils making progress toward English Proficiency as per the CA School Dashboard.	53% of EL pupils making progress toward English Proficiency per 2019 CA School Dashboard  3.3% of EL tested Proficient per 2019 ELPAC Summative Scores (New Data Baseline; Added 2022)	No CA School Dashboard Data for 2022.  11.11% of EL tested Proficient per 2021 ELPAC Summative Scores	58.1% of EL pupils making progress toward English Proficiency per 2022 CA School Dashboard  15.57% of EL tested Proficient per 2022 ELPAC Summative Scores		60% of EL pupils will be making progress toward English Proficiency.
Priority 4F: English Learner Reclassification Rate as per local data.	20% of students were reclassified.	26% of students were reclassified	45% of students were reclassified.		25% of students will be reclassified.
Priority 4G: Percentage of pupils passing AP exam with 3 or higher.	NA	NA	NA		NA

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 4H: Percentage of pupils who participate in and demonstrate college preparedness on EAP.	NA	NA	NA		NA
Priority 7A Extent to which pupils have access to and are enrolled in a broad course of study as per master schedule.	100% of students have access to a broad course of study.	100% of students have access to a broad course of study.	100% of students have access to a broad course of study.		Maintain 100% of students have access to a broad course of study.
Priority 7B Extent to which pupils have access and are enrolled in programs/services for unduplicated pupils as per master schedule.	100% of all unduplicated students enrolled in the core subjects of ELA, Math, Social Studies and Science required by the State and District.	100% of all unduplicated students enrolled in the core subjects of ELA, Math, Social Studies and Science required by the State and District.	100% of all unduplicated students enrolled in the core subjects of ELA, Math, Social Studies and Science required by the State and District.		Maintain 100% of all unduplicated students enrolled in the core subjects of ELA, Math, Social Studies and Science required by the State and District.
Priority 7C: Extent to which pupils have access to and are enrolled in programs/services for pupils with exceptional needs as per master schedule.	100% students with special needs will participate in the regular programs with support from special education teachers and aides.	100% students with special needs will participate in the regular programs with support from special education teachers and aides.	100% students with special needs will participate in the regular programs with support from special education teachers and aides.		Maintain 100% of students with special needs will participate in the regular programs with support from special education teachers and aides.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Technology Management	Technology will be maintained at current levels and be refreshed/updated as necessary for students to meet the demands of 21st Century Learning. This action includes replacing chromebooks, wi-fi extenders, and technology troubleshooting resources as needed. Extending the effective use of technology at school and to the homes of Pond students continues to be an important and necessary option for student learning and engagement. This action will also fund a contracted technology support and related equipment for PUESD to increase the effectiveness and functionality of our technology and software in the classrooms. This action guarantees equity for all students as most of our unduplicated students do not have technology at home.	\$40,000.00	Yes
1.2	Supplemental/expanded instructional programs	Continue to extend learning time and provide supplementary supplies/materials: After school student support (Saturday School, Academy, Summer School) that allows for more individual attention for academic growth and social emotional supports for low income, foster youth, and English learners in order to mitigate learning loss and	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		reengage students. Unduplicated students are given priority for supplemental/expanded instructional program registration.  Action will continue, but funding will move to ELOP beginning 2022-2023.		
1.3	AVID Program	Continue AVID participation and Staff Development and AVID Training, increase student awareness about college requirements and articulation meetings, bring in speakers to talk to students. AVID strategies are research based and effective. This program and training address the needs of English learners and College and Career awareness. In addition, it supports the continuous building of a positive school climate.	\$15,000.00	Yes
1.4	Supplemental ELD Professional Development	A consultant (Dr. Teisinger) will assist us with supplemental ELD training/professional learning for teachers and staff. Her focus will be on enhancing ELD strategies to help meet the needs of our low income, English learners, and foster youth as well as all student in order to improve reading fluency and comprehension.	\$5,000.00	Yes
1.5	Pond Library	The Pond community does not have a public library. Therefore, Pond School's library is the only viable option for students to be able to check out and interact with books and literature regarding topics of interest and enjoyment of reading. Through this action, we will continue to expand our literary collections in classrooms and within our library. We will provide class sets of books in fiction and nonfiction texts and Spanish selections to promote family literacy and learning together. This action will also include any updates to our library as needed, such as furniture, and technology to run our library smoothly and cultivate a love of reading for our students. For 2023, Pond will	\$50,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		update the furniture to include flexible seating and modernize the aesthetic of the library to reengage the students in reading. Flexible seating will be used to better engage students and parents collaboratively. By modernizing the furniture and library environment, students will be reengaged in reading. Students will be able to spend time reading during recess and after school.		
1.6	Maintain smaller class sizes	Many of our students begin their academic careers without the benefit of having experienced early childhood education. There are no preschools in the Pond area, so Pond students enter ill-prepared for Kindergarten. Additionally, many of our students come to school to learn English as well as academic content. Furthermore, many of our unduplicated student lack academic supports at home for various reasons. Therefore, we will maintain smaller classroom sizes in grades 4-8. We expect that this principally directed action will result in continued growth in local assessment outcomes as well as state testing in ELA and Math.	\$169,291.00	Yes
1.7	Instructional aides assist teachers	Due to various factors, our students tend not to receive effective individual one on one time to learn and practice academic skills outside of school. Additionally, our students tend to come to school without the basic skills needed to succeed at school (without a kindergarten experience). We will maintain our Instructional Aides in order to provide supplemental individual and small groups targeted academic supports. We expect this principally directed action to support our unduplicated students first in succeeding on both local and state assessments.	\$200,000.00	Yes
1.8	Data assessments - IO Assessments	Supplemental data management system contract to warehouse local assessment data. We will work with consultants to analyze data and to inform instruction in order to meet the needs of unduplicated students as well as all students. We will also continue with IO assessments within this system.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Action retired 2022.		
<b>1.9</b>	ELD CURRICULUM	We will purchase supplemental ELD curriculum and replace consumables yearly as needed.	\$6,000.00	Yes
<b>1.10</b>	Supplemental Math Programs and Professional Development	Math common core professional development, focusing on response to intervention students. Continue to purchase additional intervention math materials as needed as per formative assessment data and teacher/parent feedback to support the additional needs of our EL and SED students. Pond will build the capacity of our staff by contracting a Math Coach for the year. They will support teachers by modeling effective Math lessons and help/guide teachers to plan and assess students using the Math framework. This action will also provide substitutes for our teachers as they work with the Math Teacher Trainer for planning and other professional development.	\$70,000.00	Yes
<b>1.11</b>	Supplemental ELA Programs and Professional Development	Our students tend to not have access to writing assistance at home. This action will enable the purchase of additional supplemental writing material (Step-up To Writing) for students to use at school and at home to practice and master writing skills and strategies. This action will also purchase supplemental ELA/Writing materials that our students need for more personalized instruction and in order to provide more practice in language and vocabulary. Also, this action will increase the capacity of our staff to implement writing strategies in the classroom. Pond has contracted a Step-up To Writing Teacher Trainer to assist in the implementation of Step-up to Writing by modelling lessons and guiding teachers in planning. We expect this action to improve student writing outcomes on local assessments as well as improve CAASPP ELA and Math outcomes. This action will also provide for substitutes for teachers to provide professional development during instructional hours.	\$35,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.12	Purchase Science Core Curriculum	Looking to pilot NGSS science text books core curriculum.	\$0.00	No
1.13	Supplemental Academic Tutoring	Pond students live in a remote area and so the school becomes the learning hub for the community. Supplementary services will be provided to students in need of academic acceleration based on unduplicated status and need first, but all students in need will be served. A supplementary services company, such as SYLVAN, will be identified to provide direct services to the identified students.	\$10,000.00	Yes
1.14	Data Analysis/Needs Management	Pond understands the importance of having a data warehouse for needs management and data analysis. This action will be used for the KiDS platform, a unique data warehouse that was specifically created for schools in Kern. Through KiDS, teachers and faculty will be able to access student data across all areas: academic, attendance, and behavior. Through KiDS, we will specifically be able to see the needs of our unduplicated students and provide needed support. This action will also allow Pond to work with an individual for data analysis and needs management.	\$10,000.00	Yes
1.15	Transitional Kindergarten Coaching	Many of our students lack any pre-Kindergarten education, and so they enter our Kindergarten class ill-prepared to handle many skills from fine motor skills to social-behavioral skills. Through this action, Pond will build on the capacity of our transitional kindergarten teacher and provide support through individual coaching on a monthly basis.  Retired 2023-2024.	\$0.00	No
1.16	Common Core State Standards Mastery	Additional staff for evidence based interventions serving students that have not achieved mastery on CAASPP (met or exceeded).	\$132,246.00	No

Action #	Title	Description	Total Funds	Contributing
		Additional training and PD for teachers to elevate the quality of instruction for students.		
1.17	Additional Staff	Post-pandemic has seen an increase of demands for substitute teachers, and has been difficult to hire them as needed throughout the year. Having permanent additional staff that could also act as substitutes in the classroom will allow our teachers to attend individual lesson plan development with our Mathematics Program Specialist and ELA Coordinator. Having additional staffing will also prevent pulling other credentialed teachers from their classroom, ensuring that crucial, instructional time with students will not be impeded. The additional staff can also act as instructional aides in the classroom to provide individual support in the upper elementary classrooms that do not have full-time instructional aides.	\$75,000.00	Yes

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Pond had substantive differences in planned actions and actual implementation of the following actions:

Action 1.4 Dr. Teisenger, our ELD consultant, did not offer professional development for our ELD curriculum for 2022-2023. Therefore, Pond was not able to implement the planned action at all.

Action 1.5 Due to short staffing complications, Pond had to pull out our librarian more frequently out of the library and was not able to make purchases and updates to the library as needed. Therefore, this action was only partially implemented.

Action 1.12 Piloted science curriculum during the summer, and District has yet to decide on the curriculum.

Pond had fully implemented the following actions:

Action 1.1 District provided 1:1 device to every student. New chromebooks were purchased for Kinder and 5th grade. Teacher desktops were updated.

Action 1.2 Pond held summer school, Saturday academies, and homework club throughout the school year.

Action 1.3 All new teachers were sent to AVID Summer institute.

Action 1.6 Hired a full time 8th grade teacher to prevent a 7/8th combo class.

Action 1.7 Hired full time instructional aides for K-2, and part-time instructional aides to work in 3-8th.

Action 1.8 Retired

Action 1.9 Purchase ELD Curriculum for K-8th for 2023.

Action 1.10 Hired out a KCSOS Math Coordinator for K-8th students and purchased supplemental math programs (ALEKS and Reflex)

Action 1.11 Hire out a KCSOS ELA Coordinator for K-8th students and purchased supplemental ELA programs (Step-up-to-Writing, Phonics, i-Ready, Grammar)

Action 1.13 After school tutoring was offered every Tuesday and Thursday from September 2022 to March 2023.

Action 1.14 Data Analyst work on needs management for the school using KiDs platform and LCAP.

Action 1.15 TK/Kinder combo teacher completed classes during the year to earn her TK certification.

Action 1.16 A full time reading intervention teacher was hired using Title I. Technology was updated using Title IV. Teacher PD was given using Title II.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Pond had material differences between budgeted expenditures and actual expenditure in the following actions:

Action 1.1 Pond spent only \$1,600 from our budgeted expenditure in our LCAP. However, Pond still implemented the action 100%. We updated our chromebooks and other technologies in the classroom, such as new desktops for teachers. The money used for these expenditures came from our Title IV and REAP Grant that we received for 2022-2023. This is the reason why only 3% of the budgeted expenditures for Action 1.1 was spent in our LCAP for 2022-2023.

Action 1.2 Forty-two percent of the budgeted expenditure was spent. However, the remaining 48% were not spent. For the 2022-2023 LCAP year, the forty-two percent covers for AVID Summer Institute Conference fee for 2023. While the budgeted expenditure was only partially met, Pond did 100% implement this action as all teachers (K-8th), resource teachers (SPED and Reading) and full-time paraprofessionals will be attending the AVID Summer conference for 2023, in contrast to only 3 teachers from 2022.

Action 1.4 Zero percent of the budgeted expenditures for this goal was spent because our ELD consultant did not offer professional development for this year.

Action 1.5 Forty-seven percent of the budgeted expenditure was spent this year. This covers the technology needed to run the Pond library, but due to short staffing complications, Pond had to pull out our librarian more frequently out of the library and was not able to make purchases and updates to the library as needed.

Action 1.13 Zero percent of the budgeted expenditures were spent on this action, but it was 100% implemented. Pond offered supplemental academic tutoring at the start of the school year and continued to offer it until March 31st of 2023. The tutoring services were given by the

classroom teachers after school and Pond did not need to hire outside services from SLYVAN or another tutoring company. ELOP funding was used to fund the after school tutoring, instead of the appropriated funds from this action.

Action 1.14 Seventy percent of the budgeted expenditures were not spent. The thirty percent was spent on Pond's needs management and data analysis personnel. However, the remaining seventy percent was budgeted for our data management warehouse (KIDS); however, this year, KIDS remain free for use and so, Pond did not need to spend the other seventy percent of the budgeted expenditure.

Action 1.15 Zero percent of the budgeted expenditures were spent on this action, although it was 100% implemented. Pond received the "Effectiveness Educator Grant" for 2022-2023 and so, was able to use that grant to pay for our transitional kindergarten coaching instead of our LCAP funds.

#### An explanation of how effective the specific actions were in making progress toward the goal.

The following metrics are being MET:

Priority 2A: CCSS implementation status is "fully" as per administrative observations school wide. Contributing actions are 1.1, 1.11, 1.12 and 1.16.

Priority 2B: 100% of EL students are able to access the CCSS and ELD standards for academic content knowledge. Contributing actions are 1.9, 1.11, 1.12, and 1.16.

Priority 7A: 100% of pupils have access and are enrolled in a broad course of study as per master schedule. Contributing actions are 1.1, 1.12,

Priority 4F: We are at 45% reclassification rate for our English Learners as per local data in 2022. Our desired 2024 outcome was 25%. Contributing actions are 1.9, 1.11, 1.12, and 1.16. Building the capacity of our staff through Action 1.11, 1.12, 1.15, 1.16 have increased our teacher's capacity to implement ELD strategies throughout instructional hours. Action 1.7 and 1.13 has also allowed teachers to concentrate more individual attention to our EL students via small group instruction during school hours and after school.

Priority 7A: 100% of our students have access and are enrolled in the core subjects of ELA, Math, Social Studies and Science as required by the State and District. Contributing actions are 1.1, 1.11, 1.12 and 1.16.

Priority 7B: 100% of our unduplicated students have access and are enrolled in core classes as per master schedule. Contributing actions are 1.1, 1.11, 1.12 and 1.16.

Priority 7C: 100% of our pupils with exceptional needs as per master schedule are enrolled in core classes with support from our special education teacher. Contributing actions are 1.1, 1.11, 1.12 and 1.16.

Priority 8: 61% of 5th grade students and 57% 7th grade students are in Healthy Fitness Zone based on their aerobic capacity. Our 2024 desired outcome was 50% for both 5th and 7th grade. Contributing action is Action 1.7.

The following metrics are "ON TARGET" to meet 2023-2024 Desired Outcome.

Priority 4E: English Learner Reclassification Rate as per local data. Pond is currently at 58.1% of EL pupils making progress toward English Proficiency per 2022 CA School Dashboard. Pond's desired outcome for 2023-2024 is 60% of EL pupils making progress. Therefore, by next year, Pond should be able to meet our 2024 desired outcome. Contributing actions

Priority 8A: 1st-2nd grade reading proficiency as per local data. 52% of students are reading at/above reading proficiency at the end of 2023. Main contributing action is Action 1.7, which has provided three full-time paraprofessionals to our K-2nd classroom. Having a full-time instructional aide has allowed teachers to increase their small group instruction throughout the day, which provides students with more individual attention.

The following metrics are "NOT ON TARGET" to meet 2023-2024 Desired Outcome.

Priority 4A: Pond's desired outcome for 2023-2024 is 50% Met/Exceeded in ELA and 40% Met/Exceeded in Math. However, in 2022, students are at 27.05% Met/Exceeded in ELA and 18% Met/Exceeded in Math. In 2019, students were at 40.23% Met/Exceeded in ELA and 29.37% Met/Exceeded in Math. Therefore, there has been a decrease in academic performance since 2019 per CA Dashboard results. Actions 1.2, 1.3, 1.6, 1.10, 1.11, 1.13, 1.14, 1.16, and 1.17 are all actions that contribute to increasing academic performance. Action 1.10 and 1.11 was expanded in 2022-2023 to include a Math/ELA Coach to build staff capacity. However, because Action 1.10 and 1.11 were just implemented, it is difficult to measure its effectiveness within a year as it usually takes 3 years to see if the true results of an implementation. However, based on teacher feedback, administrative classroom observations, and student classroom work, Action 1.10 and Action 1.11 seems to have a positive result in students' academic progress in math and writing per local data. In the classroom, students have shown an increased proficiency in their writing skills and both teachers and students are becoming more comfortable using the mathematical practices as they solve and tackle problems in mathematics. Action 1.2 and 1.13 had been difficult to effectively implement because of the pandemic in 2020 and 2021. 2022 marks the year that Pond was able to fully implement its supplemental instructional program and its after school tutoring to its full effectiveness. Action 1.6 has shown to be very effective in increasing state scores. Through Action 1.6, Grades 7 and 8 are split into their separate grade level, instead of a combo class. This ensures that students are receiving the grade-appropriate instruction that they need and lessens the teacher to student ratio, allowing for more individual attention. For 7th grade, 50% of its students scored Met/Exceeded in ELA and 18.8% in Math. For 8th Grade, 35% scored Met/Exceeded in ELA and 25% in Math. Both scores are greater than the average of the scores in other grade levels. Overall, because of the pandemic and distance learning, the learning gap has increased and our school are just now, in 2022, truly implementing all our actions to its full capacity. Therefore, it isn't a surprise to see a decrease in academic progress, especially with our unduplicated students, who were exponentially impacted by distance learning because of their unique disadvantages at home. Action 1.17 was added based on feedback from teachers and as a response to the declining state scores. Teachers want to do more classroom observations, extended lesson planning during, and professional development in order to build on their capacity as teachers, and having a permanent staff to cover teachers will allow for this to happen more naturally throughout the year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Until we received our 2022 CAASPP scores in late June, Pond did not realize the large learning gap caused by the pandemic. Pond had never experienced such a large decrease in its state scores, with a 15.25% decrease in ELA and a 21.3% decrease in Math for the number of students who scored Met/Exceeded. Because of this, Pond has started to reevaluate its classroom practices and the need to build the capacity of our teaching staff to provide the unique needs of students who have lost at least a year of high-quality instruction due to distance learning. Pond has hired a Math and Writing coach (Action 1.10 and Action 1.11) to build the capacity of its staff, although Pond does not expect to see immediate, academic results in the first year of implementation. For the first year of implementation, Pond aspires to see the thinking of our staff to change and acclimate to the mathematical practices and increasing the rigor and expectations for all of their students in both Math and ELA. Moreover, the position of Data Analysis and Needs Management allows Pond to analyze the effectiveness of a program or action. However, as this is the personnel's first year in this position, the personnel has used 2023 primarily to navigate and analyze through the different programs and assessments and needs of Pond teachers and staff.

Pond has changed the name of Action 1.5 from "Expand Library Collections" to "Pond Library" in order to expand the scope of the action, and have added to the description of the action to include all the aspect of these changes. Prior to this change, Action 1.5 was primarily focused on book expenditures; however, as Pond Library is the only library in the Pond community and so, is the only literary hub provided for our unduplicated students, Pond saw the need to include all expenditures (from technology to furnitures and books) for the library to be included in this Action. Based on reflections from teachers and the low reading scores of our students, Pond wanted to reengage our students to read books more frequently. Educational partners agreed that a crucial way to increase reading throughout the school would be to create an engaging environment that fosters a love of reading. Based on this feedback and reflection, Pond has increased its Action 1.5 budget for 2023-2024 from \$5,000 to \$50,000. This change in budget will completely revamp the library and create a more engaging reading environment for students, including flexible seating and more modern furniture. As the only library in the community, through this action, students will be invited to read during their recess and afterschool. Parents will also be invited to read with their child.

Based on the actual expenditures from our 2022-2023 LCAP, Pond has also adjusted some of its budgeted expenditures for Actions 1.1, 1.3, 1.5, and 1.14 for 2023-2024 so that it is closer to that actuals that was spent for 2022-2023. For example, the actuals spent for AVID training for 2023 was \$20,000 and so, for 2023-2024, we have decreased the budgeted expenditures for 2023-2024.

Pond has also changed the names of Action 1.10 and Action 1.11. After reviewing the description of the action, we have changed the name to reflect the entirety of what the action entails. Prior to the change, Action 1.10 and Action 1.11 were named "Supplemental Math Professional Development" and "Supplemental Writing Skills and Strategies" respectively. However, the descriptions of the actions indicate that Action 1.10 encompasses more than professional development, and includes all math supplemental programs and PD. Therefore, Action 1.10 has been renamed as "Supplemental Math Programs and Professional Development." As for Action 1.11, while the action does weigh heavily in writing, the action actually encompasses all ELA areas and not just writing. Therefore, Action 1.11 was renamed "Supplemental ELA Programs and Professional Development." While the names have changed, the action itself remains the same as of 2022. Pond wanted to makes sure that the Action titles and Action descriptions are more cohesive, which makes the action more transparent to Pond's LCAP educational partners.

Action 1.15 will also be retired for 2023-2024 since the TK training was meant for one year for the teacher to receive her TK-certification.

Pond has also added Action 1.17 as a result of the need for a permanent substitute teacher on campus because our other actions (Action 1.10 and Action 1.11) require substitutes on a regular, ongoing basis, so that our teachers can meet and lesson plan with our ELA and Math coaches from our district. When Pond is unable to find substitutes, Pond has to pull other certified teachers from their positions in order to fill the role of a substitute.

Pond has added a new metric. Priority 8A will measure the reading proficiency outcome of our Grades 1-2 per local STAR reading data. Action 1.7 is primarily targeted to our lower elementary teachers as it is a crucial, foundational period in reading proficiency. By providing full time aides in our lower grades, teachers can provide more individual and small group instruction in reading.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
2	Ensure safe and well-maintained facilities and provide for a positive learning environment that supports the academic, social, emotional, relational, and physical needs of students.

An explanation of why the LEA has developed this goal.

Due to the remote location of Pond School, as well as a community with limited resources, we must intentionally build a positive learning environment that supports student's abilities to take risks academically, so that we may accelerate learning in the classroom and school wide. As mentioned in Goal #1, according to the 2019 California School Dashboard, our English learners are not making the desired growth, in terms of their progress learning English and their academic progress in our core subject area. They are considered in the "Low" level for number of EL students making progress year over year as per the English Language Arts Proficiency Assessment for California. Additionally, in 2019 the "All Students" group declined in ELA by 15.6 points from 2018 and Mathematics declined 12.6 points from 2018. For 2021, our English Learners continue to be our lowest performing group. Only 3% of our ELs scored Met/Exceeded in both Math and English. There has been some growth in terms of English language proficiency. In 2019, only 3.3% of ELs scored proficient in their ELPAC Summative test. In comparison, 11.11% scored proficient in 2021 ELPAC summative test. After discussion, it was determined that ELA and Math, as well as progress for our English language learners, were areas of concern and will be the core of our LCAP. Our 2022 CAASPP results illustrate that Pond had a large decrease of the number of students who scored Met or Exceeded in both E.L.A. and Math. In English Language Arts, 27.05% scored Met/Exceeded, a large decrease from our 2021 score of 42.2%. In Mathematics, 15.57% of students scored Met/Exceeded, another large decrease from our 2021 score of 30.3%. These scores demonstrate the large, negative impact distance learning have had on our students.

With these aforementioned results in mind, educational partners feel that consistent positive language and consistent behavioral expectations will create a school wide positive learning environment, where all students and educational partners understand school expectations and uphold each other to these expectations. Additionally, after the COVID-19 Pandemic and the challenges that it has caused, parents, teachers and students all report an elevated anxiety and a predictable, positive environment would benefit the teaching and learning at Pond. This goal will help us to improve the academic, social, emotional, relational, and physical needs of students as measured by the metrics below including but not limited to attendance rates, chronic absenteeism, suspension rates and students sense of safety and connectedness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1A: 100 % of teachers are appropriately assigned and fully credentialed in the subject for the pupils they are teaching as per local records and data.	1A: 100 % of teachers are appropriately assigned and fully credentialed in the subject for the pupils they are teaching as measured by staffing report.	1A: 100 % of teachers are appropriately assigned and fully credentialed in the subject for the pupils they are teaching as measured by staffing report.	1A: 100 % of teachers are appropriately assigned and fully credentialed in the subject for the pupils they are teaching as measured by staffing report. Priority 6A: Pupil suspension rates	1%	NA	NA		Less than 1%
Priority 6B: Pupil expulsion rates	0%	0%	0%		Maintain 0%
Priority 6C: Other local measures on students sense of safety and school connectedness as per local student survey.	80% of students feel a sense of safety and school connectedness at school as per student survey.	74% of students feel a sense of safety and school connectedness at school as per student survey.	80% of students feel a sense of safety and school connectedness as per student survey.		At least 90% of students feel sense of safety and connectedness at school as per student survey.

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Counseling/psychologist Services	Counseling services focusing on social skills are a needed and desired part of what parents and teachers have reported is a needed area for Pond students. Priority will be given to unduplicated students, but all students that need services will be served. A social emotional learning curriculum and trauma informed care curriculum will be purchased.	\$25,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.2	PBIS / MTSS	Introduce all staff to Positive Behavioral Interventions and Supports (PBIS) as a way to better support students to become more successful at school and for school staff to gain knowledge and resources/tools to better support student behavior on campus and within classrooms. Low income, English learners, and foster youth students as well as all students and staff will benefit from a common system and expectations that promote and reward positive behaviors. This action includes a consultant contract as well as funding for supplies and materials to implement PBIS school wide.	\$10,000.00	Yes
2.3	Facilities Well Maintained and Safe	Continue to repair and improve facilities as needed including restrooms, playground, cafeteria, replace window and doors if necessary in order to obtain the highest score on the FIT report. These costs will insure a safe and healthy environment for students and staff. We will do so as long as we have the funds to continue. Students will be provided with a safe, clean, and well-maintained school facilities.	\$0.00	No
2.4	Emergency Equipment and Supplies	We will replenish all emergency kits and bags (check for outdated water, food, etc). We will also purchase a container to store our emergency items that we would use in case of an emergency.	\$0.00	No
2.5	School Social Worker	School social worker will be on the school-site during instructional hours and provide students and staff immediate access to counseling and socioemotional services. Priority will be given to our unduplicated students, but all students that need to be serviced will be served. Social worker will also work with staff on instructing and modeling strategies to help students with socioemotional needs.	\$217,291.00	Yes

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There are no substantive differences in planned actions and actual implementation of these actions. Actions 2.1-2.5 were fully implemented this year.

Action 2.1 Pond has an Educational Specialist from School Psychology Services that provide individual support to student twice a week.

Action 2.2 A PBIS committee was formed for 2022-2023. This PBIS committee attended a four full-day sessions for PBIS Tier 1 Team Training. Through this training, the committee was able to begin establishing the groundworks for PBIS towards full implementation. Full-on implementation will begin 2023-2024. This year is focused on understanding the implementation process, building the capacity of the staff, and providing training.

Action 2.3/2.4 Pond's school facilities and emergency equipment and supplies are both up-to-date.

Action 2.5 This year is Pond's first year in hiring a full time social worker. The social worker is on-campus daily and meets with students or student groups to provide support to our students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

While all the actions were fully implemented, there are some large material differences in budgeted expenditures and actual expenditures. More than 50% of the budgeted expenditures for PBIS were not spent for 2022-2023. For 2023, the actual expenditures covers the training that Pond's PBIS committee attended for 2022-2023. However, the budgeted expenditures for PBIS posters and PBIS student incentives will not be implemented until 2023-2024.

An explanation of how effective the specific actions were in making progress toward the goal.

The following metrics are being MET:

Priority 1A: 100% of our teachers are credentialed. No contributing actions in LCAP. In our hiring process, Pond requires fully credentialed teachers, including preliminary credential. Teachers with preliminary credentials are provided the mentors and support they need, so that they will be fully credentialed at Pond.

Priority 1B: 100% of students have access to standards aligned materials. No contributing action.

Priority 1C: School facilities maintained in good repair as per FIT Report. Contributing actions are 2.3 and 2.4. Action 2.3 and 2.4 has continually met positive feedback from our educational partners. Students, families, teachers, and other community guests have expressed feeling safe and welcomed when attending Pond and participating in activities at Pond.

Priority 2A: 2A: CCSS Implementation Status is "Fully" as per administrative observations school wide. Contributing actions are 2.2. Through PBIS, teachers are provided the support to reengage students in their learning and prevent disruptive behaviors, which could negatively impact a teacher's ability to administer .

Priority 2B: 100% of our English Learners have access to CCSS and ELD standards. Contributing actions are 2.2. Through PBIS, teachers are provided the support to reengage students in their learning and prevent disruptive behaviors, which could negatively impact a teacher's ability to administer .

The following metrics are "On TARGET" to meet 2023-2024 Desired Outcome.

Priority 6C: Approximately 80% of students feel a sense of safety and school connectedness at school as per student survey. Our desired outcome for 2024 is 90%. Action 2.2 and 2.5 are contributing actions that has led to the positive increase in students' sense of safety and school connectedness. For her first year, our social worker have worked with many of our students who have experience emotional trauma because of the pandemic and other circumstances at home and school. Action 2.2 has also built up our staff's restorative practices in the classroom, increasing our students feelings of school connected at school.

The following metrics are "NOT ON TARGET" to meet 2023-2024 Desired Outcome.

Priority 5A: Pond has seen a decrease in attendance rate in comparison to our baseline from 2019. We began with 97.3% in 2019-2020 and at 2023, we are currently at 94.47% attendance rate. While this a 2.83% decrease, it is a positive increase to last year's attendance rate, which was at 88.2%. Action 2.2 is Pond's leading action to make progress towards increasing Pond's attendance rate. However, because of COVID, Pond has only begun to attend PBIS training in 2023 and school-wide implementation will begin in 2024. As PBIS begins to be implemented, Pond is expected to see an increase of attendance rate for the following school year.

Priority 5B: Pond has also seen a steady increase in the number of students who are chronically absent. In 2019, Pond's baseline was 9%, and as of April 2023, it has increased to 17.6%. One factor for the increase of students who are chronically absent is due to the increased anxiety and emotional trauma caused by Covid-19. Students have expressed an increased anxiety in attending school and being around peers. Pond's social worker meets with these chronically absent students in order to understand and help them with their anxieties and to support them in being successful in school. Pond has also done home visits with our social worker to students who are chronically absent in order to support and help the families in supporting their child's success.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Pond did not have any changes to the planned goals, metrics, desired outcomes, or actions.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
3	Nurture strong family, school, and community relationships through meaningful school based engagement opportunities to ensure all educational partners feel welcome to participate and contribute in school related events and activities.

An explanation of why the LEA has developed this goal.

Parents tend to work in the agriculture industry and are out in the fields harvesting grapes, almonds, oranges etc. They work year-round with long hours/days and they lack time, energy, and the education level to help their students at home with academics. Additionally, there are limited local services - no libraries, no parks, no health facilities or clinics and dentists. It is critical to the school that parents and educational partners become actively involved and engaged in the school community and their student's education. We want parents to feel free to learn together with their students. While parent involvement is a challenge, we believe that this goal will assist the Pond Union School District in its efforts to function as the hub and heart of the community as measured by the metrics below. We want parents to feel free and welcomed to attend and engage in school activities so that they can relate and assist their children in their academic, social, emotional, and physical success.

All educational partners have reviewed the Healthy Kids Survey and conducted school and class visits. Social media events like BBQ, BTSN, and reminder phone calls were all discussed as ways they felt engaged to the school.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 3A: The efforts the school district makes to seek parent input in making decisions for the school district and each individual school site;	3A: 90% of parents attend parent teacher conferences as measured by sign-in sheets.	3A: Approximately 85% of parents attended parent teacher conferences each year as measured by sign-in sheets.	3A: Approximately 90% of parents attended parent teacher conferences each year as measured by sign-in sheets.		3A: Maintain at least 95% of parents attend parent teacher conferences each year as measured by sign-in sheets.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 3B: How the school district will promote participation in programs for parents of students for low income, English learner, and foster youth pupils;	3B: 100% of parents of unduplicated students were invited to all school events including but not limited to parent teacher conferences, LCAP forums, technology events, SSC, ELAC, Board meetings, Open House, Back to School events, Breakfast with mom/dad, and "pastries events" with the Principal via flyers in English and Spanish, and via message board.	3B: 100% of parents of unduplicated students were invited to all school events including but not limited to parent teacher conferences, LCAP forums, technology events, SSC, ELAC, Board meetings, Open House, Back to School events, Breakfast with mom/dad, and "pastries events" with the Principal via flyers in English and Spanish, and via message board.	3B: 100% of parents of unduplicated students were invited to all school events including but not limited to parent teacher conferences, LCAP forums, technology events, SSC, ELAC, Board meetings, Open House, Back to School events, Breakfast with mom/dad, and "pastries events" with the Principal via flyers in English and Spanish, and via message board.		3B: Maintain 100% of parents of unduplicated students were invited to all school events including but not limited to parent teacher conferences, LCAP forums, technology events, SSC, ELAC, Board meetings, Open House, Back to School events, Breakfast with mom/dad, and "pastries events" with the Principal via flyers in English and Spanish, and via message board.
Priority 3C: How the school district will promote participation in programs for parents of students with disabilities.	3C: 100% exceptional needs parents received a phone calls before 504 meetings and IEPs for their students. Flexibility offered in time and dates in which parents can attend. At 504/IEP meetings parents given information regarding all school events.	3C: 100% exceptional needs parents received a phone calls before 504 meetings and IEPs for their students. Flexibility offered in time and dates in which parents can attend. At 504/IEP meetings parents given information regarding all school events.	3C: 100% exceptional needs parents received a phone calls before 504 meetings and IEPs for their students. Flexibility offered in time and dates in which parents can attend. At 504/IEP meetings parents given information regarding all school events.		3C: Maintain 100% exceptional needs parents received a phone calls before 504 meetings and IEPs for their students. Flexibility offered in time and dates in which parents can attend. At 504/IEP meetings parents given information regarding all school events.

# Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Additional Transportation Services	<p>Because transportation provided by parents has been revealed in surveys and interviews to be difficult, Pond will provide additional bussing service to support student engagement and attendance at summer school, extra-curricular activities etc. at the school and among school related events and activities.</p> <p>Action will continue, but funding source for action will be taken from ELOP starting 2022-2023.</p>	\$0.00	No
3.2	Additional Engagement / Enrichment Opportunities	<p>Because of the remote location of the school, after-school activities that work to develop healthy lifestyles and career choices for students like running club, oral language, robotics, and college and career ready labs will be provided to unduplicated students (given priority) as well as all students due to the fact that we have no parks and recreation departments and the above opportunities would not exist without the school offerings.</p> <p>Action will continue, but funding source for action will be taken from ELOP starting 2022-2023.</p>	\$0.00	No
3.3	School Garden Project	<p>We will continue to support our school wide garden which teaches healthy lifestyles and eating habits. Students and classes are able to research various vegetables and plant and care for crops within the garden. This supplemental experience helps to extend our science curriculum and enables students to show an ownership of their learning.</p>	\$2,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Academic Incentives	Pond will offer students incentives to motivate them to excel academically. We will continue to give students incentives for participating and reaching their set goals in reading, writing, and mathematics, such as A.R., ALEKS, and sight words.	\$10,000.00	Yes
3.5	Parent Education	Continue to provide parent education opportunities such as PIQE, Latino Family Literacy, parental knowledge on how to get their child in college and the importance of biliteracy with the intent of increasing our parental engagement. We will also offer parents trainings on different areas that are offered by the county and other entities.	\$5,000.00	Yes
3.6	Extracurricular Activities	Pond students live in a remote area. Surveys and interview reveal that few enriching experiences are provided for these students. Pond will enhance learning and experiences by providing extracurricular activities such as field trips i.e. science camp, university tours, gold rush historic sites, and Sacramento capitol. Transportation will be provided for these events. Pond will also host extracurricular activities in the school, such as STEAM days and career days to engage students separate from their normal instructional academics.	\$20,000.00	Yes

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Action 3.1 Fully implemented. Provided transportation to students for Summer School and extracurricular activities, such as sports and field trips.

Action 3.2 Fully implemented. Students were provided access and opportunities to participate in extracurricular and engagement opportunities after school. Some examples include: folkloric dance and sports.

Action 3.3 was only partially implemented this school year. The Pond school garden was not in service at the beginning of the year. It was left unattended for two years because of COVID, and it took the first half of the school year to get the garden ready for the classrooms.

Action 3.4 Fully implemented. Students were given incentives to meet their academic goals such as A.R., i-Ready, and ALEKS.

Action 3.5 Fully implemented. Parents were offered parent education classes via Fresno University, PIQE, and by our social worker.

Action 3.6 Fully implemented. Students participated in several extracurricular activities throughout the school year to enhance student learning and experiences.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There is a material difference of more than 60% between budgeted expenditures and estimated actual expenditure for Action 3.3. This year, Pond did not use the garden as much as previous years, since it was not serviceable in the beginning of the year. With places opening up, Pond was able to increase its field trip opportunities and academic incentives.

An explanation of how effective the specific actions were in making progress toward the goal.

Action 3.1 Lack of transportation is a leading reason why students do not attend many of our afterschool activities and Saturday academies per parent survey. Extra transportation is currently available only during summer school, sport games, field trips, and school incentive activities. However, transportation is still currently not offered for after school activities, such as homework club, tutoring, or for Saturday academies. Therefore, this action is not as effective as it could be. Based on educational partner feedback, Pond will extend its additional transportation services to include afterschool activities and Saturday academies.

Action 3.2, 3.4, and 3.6 continue to work well in increasing our student's exposure to opportunities that they would likewise never experience due to their low socioeconomic background. Furthermore, incentives continue to prove a powerful motivator for students to engage students in academic work and increasing the attendance rates in supplementary educational activities, such as STEAM Camp during school breaks and Saturday Academies.

Action 3.3 provides a communal garden for our students grades K-8th. Through this collaborative process, all grade levels are involved in all of the planting and harvesting of plants

Priority 3A, 3B, 3C: Action 3.5 gives our parents ample educational opportunities, from taking classes at Fresno and also attending PIQE. Through these parent education classes, parents are given tools to better support their child both emotionally and academically.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Pond changed the names of Action 3.4 from "Extra-curricular activities/incentives" to "Academic Incentives" and Action 3.6 from "Engagement Opportunities-Field Trips-Life Experiences" to "Extra-curricular Activities". This change was made in order to make the two actions more distinct and clear to our educational partners. Before the change, some of the activities that Pond had could have been placed in either actions. Through this change, it is now more clear which activities belong to which action. We have also decreased the budget for Action 3.6 because some of our extracurricular activities are being funded by other monetary sources and the current 2023-2024 budgeted expenditure is more reflective to our actual expenditures.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$778,859	\$102,302

## Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
43.02%	10.81%	\$180,925.43	53.83%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The Pond Union School District serves a community made up of 91.53% unduplicated students in May 2023. Based on the feedback from students, parents, staff, and other community educational partners, as well as assessment data and general observations about the needs, conditions, and circumstances of our students as a result of the COVID-19 pandemic, we find that the LCAP represents a tremendous opportunity to support the unique needs of our unduplicated students (socially economically disadvantaged, English learner, and foster youth).

We are principally directing our LCFF contributing funds to support unduplicated students as determined by the district's goals and actions by building the capacity of staff with additional professional development and added student intervention opportunities. Not only will this greatly benefit our unduplicated students, but we expect all students will benefit from the following actions:

Goal 1:

After a comprehensive review of the data, Pond's results on the 2019 release of the California School Dashboard for English Language Arts and Mathematics for "All Students" declined to the Orange Performance Level. More specifically, English Language Arts declined by 16.4 points while Math declined by 14.2 points when compared to the prior year. English learners, Hispanic, and Socioeconomically

Disadvantaged student groups all scored in the Orange Performance Level for both ELA and Math. Additionally, only 38.3% of English learners made progress toward English language proficiency which indicates a low level of progress for these students. While our CAASPP results for 2021 were not released in the California School Dashboard because of the pandemic, Pond was one of the few schools that did administer the 2021 CAASPP. The 2021 CAASPP results indicate a small increase in the number of "All Students" who scored Met/Exceeded in Math and ELA. In ELA, 42.4% scored Met/Exceeded in 2021, in comparison to 40.23% in 2019 (1.9 point increase). In Math, 30.3% scored Met/Exceeded in 2021, in comparison to 29.37% in 2019 (0.9 point increase). Additionally, in 2021, only 3.3% of English Learners scored Met/Exceeded in both Math and ELA. This shows that there has been a slight growth in academic performance for "All Students" from 2019 to 2021. However, our English Learners cohort group indicate a lack of growth in both academic areas.

According to our 2022 CAASPP results, Pond had a large decrease of the number of students who scored Met or Exceeded in both E.L.A. and Math. In English Language Arts, 27.05% scored Met/Exceeded, a large decrease from our 2021 score of 42.2%. In Mathematics, 15.57% of students scored Met/Exceeded, another large decrease from our 2021 score of 30.3%. These scores demonstrate the large, negative impact distance learning have had on our students. It has increased the learning gap that was already there because of their unduplicated status, and it has just widen. This shows how much more relevant and important Goal #1 is for the academic success of our students.

Furthermore, in our 2022 California Dashboard, our English Learners and Socioeconomically Disadvantaged students are at the LOW performance level. In ELA, our English learners were 110.3 points below standard, while reclassified English Learners were 49.3 points below standard and English Only students were 36.5 points below standard. In Mathematics, our English Learners were 147.5 points below standard, reclassified English Learners were 68.6 points below standard, and English Only were 75 points below standard. Therefore, our English learners are significantly performing lower than our reclassified English Learners and English Only students. Thus, the following actions are directed to our English learners, who need more individual attention through small group instruction and extra tutoring. Our Math and ELA coaches are also increasing the capacity of our staff to teach our English Learners by providing them strategies that target English learners.

Our socioeconomically disadvantage students were 43.7 points below standard in ELA and 75 points below standard in Math. In comparison, our ALL student group are 41.9 points below standard in ELA (only slightly less than SED unduplicated group of 43.7 points) and 72.7 points below standard in Math (our SED performed better as a group in Math compared to ALL students by 2.3 points). Therefore, our actions that are geared to ALL students will also greatly benefit our SED students.

In consideration of the above identified needs, circumstances, and conditions from student outcome data as well as perception and demographic data, we plan the following actions:

- Purchase technology support devices K-8th grades (Action 1.1)
- This is a new action added in our 2021 LCAP. Over 95% of students indicated a need for technology during the COVID-19 Pandemic. Additionally, in order to ensure our low income, foster youth, and English learners can access their core curriculum at school and from home, they must have access to their education. We maintained this Action for our 2022 LCAP as technology continues to be an important tool for 21st century learning.

- Supplemental/expanded instructional programs (Action 1.2)
- The funding source has moved from the LCAP to the ELOP in 2022. However, the action will remain in the LCAP since it is an important action to accomplishing Goal #1. Many unduplicated students, for various reasons, are unable to receive assistance in completing homework and other academic support at home. Action 1.2 provides after school help and resources for unduplicated students, so that they can receive their individual needs.
- AVID Program (Action 1.3)
- This action is continued from the 2017-2020 LCAP. AVID increases student's awareness about college requirements and the strategies they use in class are researched base and effective. This program especially addresses the needs of English learners and socioeconomically disadvantaged students, as it provides tutorials and platforms for collaborating and supporting those with limited language skills. Strategies to increase academic discourse and organizational skills have assisted all students, as we saw an overall increase between the beginning of the 2017 LCAP cycle for ELA of 22 points and for Math of 8 points Distance from Standard (DFS as per the 2019 CA School Dashboard) for All Students. Additionally, we noticed that our SED students had larger gains of 25 points in ELA and a 12 point gain in Math since the beginning of the previous LCAP cycle. Additionally, AVID provides for exposure to college and career and supports the continuous building of a positive school climate.
- Pond Library (Action 1.5)
- This action is maintained from our 2021 LCAP year and expanded in 2023. Stakeholders feel that we should offer our community access to books to share with their children. We have limited opportunities for parents and their children to interact academically and socially; so our library gives them an opportunity to come on campus and check out books in English and Spanish. In 2023, we have expanded our Action 1.5 to include the purchase of new furnitures, such as flexible seating, and to modernized the library environment to make it more inviting to our students and parents. By updating the library with a more welcoming aesthetic, we will reengage our students to visit the library during recess and after school hours. Parents will also be invited to read with their students in the new updated library.
- Maintain smaller class sizes (Action 1.6)
- This action is being continued from the 2017-2020 LCAP because this gives Pond an opportunity to keep small classrooms and the staff is able to offer more of one-on-one time to all students. We have noticed an improvement with our students attendance rates and a reduction of Chronic Absenteeism when they have a smaller number of peers in the classroom. Teachers report that relationships with students are stronger with fewer students in the classroom and that group sizes can be smaller so that additional individual attention may be given to students in need. We saw an overall increase between the beginning of the 2017 LCAP cycle for ELA of 22 points and for Math of 8 points Distance from Standard (DFS). Additionally, we noticed that our SED students had larger gains of a 25 points in ELA and a 12 point gain in Math from the previous cycle to the baseline for this new LCAP.
- Instructional aides (Action 1.7)
- This action is being continued from the 2017-2020 LCAP because this gives our staff an extra person to provide supplemental individual and small groups targeted academics support. According to our staff, our overall gains between 2017 to 2019 were in part, due to the fact that instructional aides throughout the school allowed for more individualized learning with smaller groupings of students and stronger student to adult relationships (as indicated above). Additionally, we saw an overall increase between the beginning of the 2017 LCAP cycle for ELA of 22 points and for Math of 8 points Distance from Standard (DFS). Additionally, we noticed that our SED students had larger gains of a 25 points in ELA and a 12 point gain in Math from the previous cycle to the baseline for this new LCAP.

- Supplemental math professional development (Action 1.10)
- This action is being continued from the 2017-2020 LCAP because our educational partners see that math continues to be an area of need for our student, especially with the learning loss from the pandemic. This action has expanded in scope to include more individualized coaching and professional development to increase the capacity of our staff. Teachers will be coached, modeled, and trained with the latest math teaching strategies to support our student population. Math scores for SED students as well as English learners and All Students have increased since the previous LCAP cycle began in 2017.
- Supplemental Writing Skills and Strategies (Action 1.11)
- Our unduplicated students lack the writing support at home and writing is one of the largest need for English Learners. This action has been expanded to include more individualized coaching for teachers in order to fully and effectively implemented our supplemental writing program (Step-up To Writing Action 1.13).
- Data Analysis/Needs Management (Action 1.14)
- This action is a new action added for 2022 LCAP. We have migrated from the IO data warehouse to KiDS data warehouse. Pond feels that KiDS will allow us to see data of the overall child: academic, attendance, and behavior in one data warehouse. Also, since KiDS was specially created for Kern districts, we are able to have data of incoming students if they are coming from any districts in Kern and also participate in KiDS.
- Transitional Kindergarten Coaching (Action 1.15)
- This action will be retired for 2023-2024 since our teacher has now acquired her TK certification in 2023. This action is a new action added for 2022 LCAP. Pond does not have any preschools in the area. To strengthen our TK instruction, Pond will focus on the capacity of our staff by providing the needed coaching for our teachers.
- Additional Staff (Action 1.17)
- This action was added in 2023 as a response to our increased need for a substitute throughout the school year. In order for teachers to meet with their Math and ELA coaches, substitutes must be available to cover their classes during instructional hours. The additional staff will also increase the teachers opportunities for more classroom observations, so that each teacher can mentor and collaborate with one another. When the additional staff is not covering teachers, the staff will be providing an additional body in the classroom, so that teachers can work individually with students or in small groups.

We believe these actions will contribute to improving support for unduplicated pupils and increase academic achievement for all students by improving local assessment outcomes in ELA and Math by providing for smaller groups of students to work with teachers and paraprofessionals. Additionally, the professional learning opportunities available for teachers this next year will improve/support better teaching practices, standards alignment and implementation, and data analysis for all core subject areas and provide for more supports for our English language learners.

#### Goal 2:

According to the 2019 CA School Dashboard, Pond's Chronic Absenteeism rate declined by 1.2% and is in the Green Performance Level, however our status is considered Medium at 9.1% of students who are chronically absent. There is no 2021 CA School Dashboard data. As per local data, in 2021 14.84% of students were chronically absent. For 2022, Pond's Chronic Absenteeism rate increase to 16.50% as of May 2022. One reasons for the increase chronic absenteeism in 2022 is the quarantine protocols set up by the CDC. Due to the remote location of Pond School as well as a community with limited resources, we must intentionally build a positive learning environment that

supports student's abilities to take risks academically so that we may accelerate learning in the classroom and school wide.

According to our 2022 CAASPP results, Pond had a large decrease of the number of students who scored Met or Exceeded in both E.L.A. and Math. In English Language Arts, 27.05% scored Met/Exceeded, a large decrease from our 2021 score of 42.2%. In Mathematics, 15.57% of students scored Met/Exceeded, another large decrease from our 2021 score of 30.3%. These scores demonstrate the large, negative impact distance learning have had on our students. It has increased the learning gap that was already there because of their unduplicated status, and it has just widen. This shows how much more relevant and important Goal #1 is for the academic success of our students.

Furthermore, in our 2022 California Dashboard, our English Learners and Socioeconomically Disadvantaged students are at the LOW performance level. In ELA, our English learners were 110.3 points below standard, while reclassified English Learners were 49.3 points below standard and English Only students were 36.5 points below standard. In Mathematics, our English Learners were 147.5 points below standard, reclassified English Learners were 68.6 points below standard, and English Only were 75 points below standard. Therefore, our English learners are significantly performing lower than our reclassified English Learners and English Only students. Thus, the following actions are directed to our English learners, who need more individual attention through small group instruction and extra tutoring. Our Math and ELA coaches are also increasing the capacity of our staff to teach our English Learners by providing them strategies that target English learners.

Our socioeconomically disadvantage students were 43.7 points below standard in ELA and 75 points below standard in Math. In comparison, our ALL student group are 41.9 points below standard in ELA (only slightly less than SED unduplicated group of 43.7 points) and 72.7 points below standard in Math (our SED performed better as a group in Math compared to ALL students by 2.3 points). Therefore, our actions that are geared to ALL students will also greatly benefit our SED students.

After listening to educational partners feedback and considering our outcome data, it was determined that ELA and Math, as well as progress for our English language learners, were areas of concern and will be the core of our LCAP. Educational partners feel that consistency with regard to having a consistent language in building a positive school wide climate and an environment where students understand behavioral expectations in all areas of the school will be helpful in contributing to academic gains. Additionally, after the COVID-19 Pandemic and the challenges that has caused, parents, teachers and students all report an elevated anxiety and a predictable, positive environment would benefit the teaching and learning at Pond. Educational partner feedback has suggested we provide counseling services to students in need at school. The fact that the school is in a rural area and there are very limited to no mental health services within the immediate area, parents and staff feel that we should offer mores supports at school.

In consideration of the above identified needs, circumstances, and conditions from student outcome data as well as perception and demographic data, we plan the following actions:

- Counseling services (Action 2.1)
- This is a new action added in the 2021-2022 LCAP year and maintained in 2022 LCAP
- PBIS/MTSS Introduction and trainings (Action 2.2)

- This is a new action added in the 2021-2022 LCAP year and maintained in 2022 LCAP
- School Social worker (Action 2.5)
- This is a new action added in the 2022-2023 LCAP year

We believe these actions will support unduplicated pupils and their unique needs in response to post COVID-19 re engagement practices and will help to increase our in person learners at school. Additionally, this goal will provide for an increase in school connectedness. These goals will assist Pond to return to being the hub of learning and activities for the Pond community as per parent surveys we will administer. We will bring back our activities and offer the community an opportunity to attend them once COVID restrictions are lifted and when it is safe to do so.. The end goal will be that students and parents trust us to keep everyone safe while they are learning on campus at school and we will do this by keeping everyone involved informed and involved.

### Goal 3

Parents and educational partners have indicated that they would like additional engagement opportunities at the school. Almost 95% of families have students who are considered unduplicated and educational partners have indicated that they would attend and participate if more community events were held at school. Parents report that they appreciate and want to maintain additional transportation opportunities to remain in place as this service enables students to stay after school to attend additional learning and engagement opportunities on campus.

In consideration of the above identified needs, circumstances, and conditions from student outcome data as well as perception and demographic data, we plan the following actions:

- Additional transportation services (Action 3.1)
- Funding for this action will be taken from ELOP as of 2022, but action will remain in the LCAP. This action is being continued from the 2017-2020 LCAP because it has been effective or determined to be effective based on our high attendance percentage and more than 50% of the students participating in our extra-curricular activities.
- Additional Engagement/Enrichment Opportunities (Action 3.2)
- Funding for this action will be taken from ELOP as of 2022, but action will remain in the LCAP. This action is being continued from the 2017-2020 LCAP because Pond is the learning hub in the community and when we offer additional opportunities more students and parents participate. We offer a plethora of activities and we offer them to everyone in the community. We; will also target students that are not interested in the "regular" activities like sports; we will offer more of the career/hands-on activities.
- School Garden Project (Action 3.3)
- This action is being continued from the 2017-2020 LCAP because parents always talk about how their children love working in the garden and grow their own vegetables and eating them at the end. This gives all students the opportunity to find out where their food comes from and makes it for a healthy lifestyle.
- Extra curricular activities incentives (Action 3.4)
- Continued from 2017-2020 based on feedback from students, teachers, and families because many of the educational trips taken would not have taken place from home or the community and participation grew from 40% to 80%. After surveying students and

parents as for the type of lab they wish to participate in, we are adding Career Labs this year within our extra curricular activities incentives.

- Parent Education (Action 3.5)
- This action is being continued from the 2017-2020 LCAP because our parents tell us they are always looking for ways to help their students at home and these parent education opportunities teach our parents on how to assist their children. We are always looking to bring these activities around the time when parents are less busy like in the winter time. We are always in communication with our parents and discuss times when they are less busy so we can bring these opportunities to Pond.
- Engagement Opportunities - field trips (Action 3.6)
- Continued from 2017-2020 based on feedback from students, teachers, and families because many of the educational trips taken would not have taken place from home or the community. Stakeholders felt that these real life experiences benefitted student engagement and helped decrease Chronic Absenteeism (according to the 2019 release of the CA School Dashboard, Chronic Absenteeism is in the Green Performance Level and declined by 1.2% over the previous year).

We believe these actions will bring our parents, students and staff together because they will feel like they are part of the school as per survey data. We will offer parents activities where they are in-charge of the them. We believe that this will give them ownership and they will be more willing to be on campus more often. Finally, we believe that when the students see their parents more involved at school, the students will see the importance of working hard at school and then we will see an improvement all around, everyone will benefit.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

In addition to the actions and services being provided LEA-wide or school wide, the actions described below are increased or improved and meet and/or exceed the totality of the required percentage increase as compared to all services for all students.

Our English Language learners face many challenges including receptive and expressive barriers such as a lack of exposure to and practice with using formal and informal English. This presents unique struggles for students learning English while learning content standards. The following actions are designed to meet the needs of our English Learners:

- Supplemental ELD training/professional learning for teachers and staff specific to helping students acquire English. Focus is on enhancing ELD strategies to help meet the needs of our English learners in order to improve reading fluency and comprehension (Action 1.4).
- Supplemental ELD curriculum to accelerate English language proficiency (Action 1.9).

We expect for the above targeted actions to lead to increase the percentage of English Learners who make progress toward English proficiency as measured by ELPI.

- An additional staff will be hired for 2024 in order to ensure that teachers are able to take professional development, work on lesson plans, classroom observations, and collaborate with other teachers during instructional hours. This is especially important for our foster youth, English learners, and low-income students as teachers are instructed in more teaching strategies that targets unduplicated students, including ELD strategies and multi-sensory strategies in the classroom. (Action 1.17)

--

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Pond Union School District used the additional concentration grant funding at Pond School by retaining teachers to maintain smaller classroom sized in grades 4-8 (Action 1.6). Additionally, we are maintaining our instructional aides in order to continue to provide supplemental individual and small groups targeted academic supports (Action 1.7). Pond will hire an additional staff that is qualified to be substitute in the classroom, so that teachers can attend professional development, create engaging lesson plans, do classroom observations, and collaborate with other teachers (Action 1.17).

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	NA	1:19
Staff-to-student ratio of certificated staff providing direct services to students	NA	1:17

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

## **Plan Summary**

### **Purpose**

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

## Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

## Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

### **Local Control and Accountability Plan:**

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

**Prompt 2:** “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

## **Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

## **Broad Goal**

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

## **Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

## **Required Goals**

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

### Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

### Requirements and Instructions

***Projected LCFF Supplemental and/or Concentration Grants:*** Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## **For School Districts Only:**

### **Actions Provided on an LEA-Wide Basis:**

***Unduplicated Percentage > 55 percent:*** For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

***Unduplicated Percentage < 55 percent:*** For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

### **Actions Provided on a Schoolwide Basis:**

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

## Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
  - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
  - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
