

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Blake Elementary School District

CDS Code: 1563354

School Year: 2024-25

LEA contact information:

Timari Duty

Superintendent/Principal/Teacher

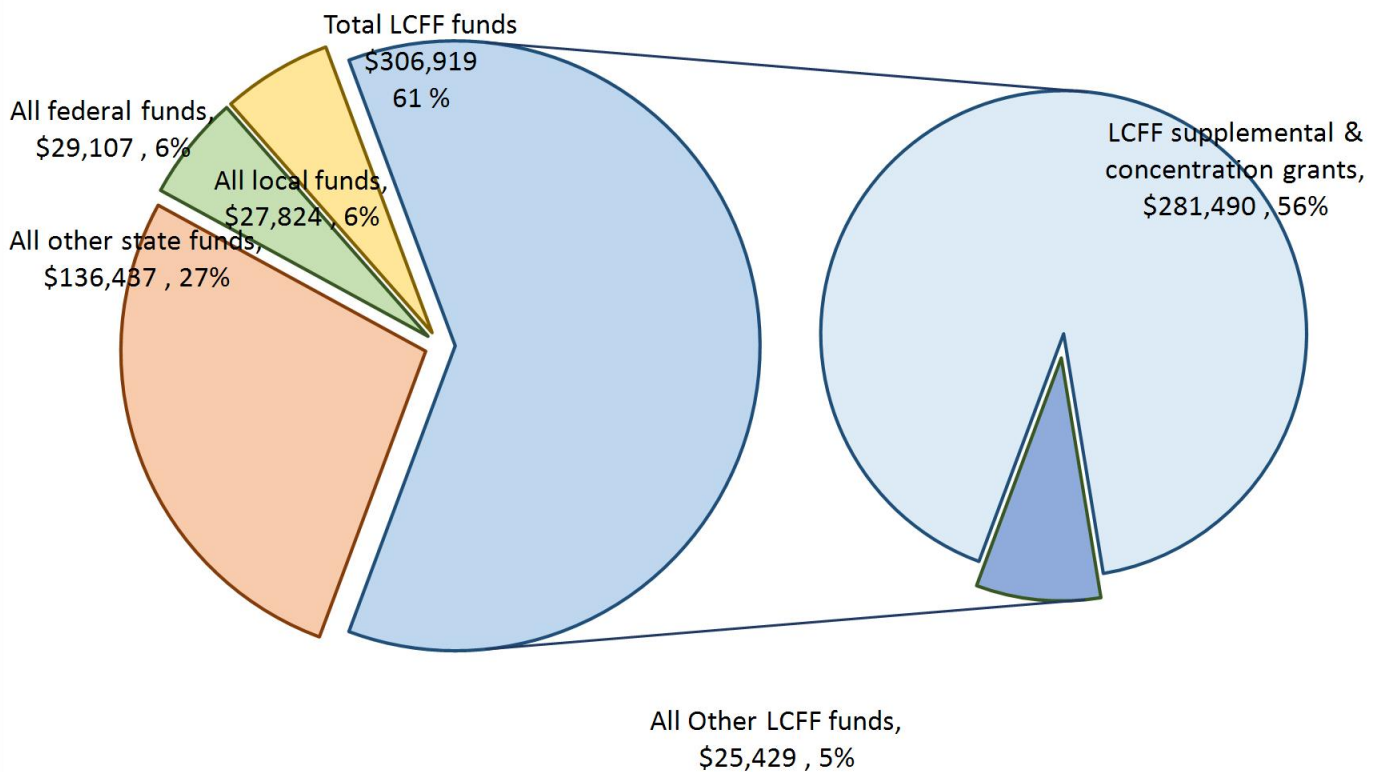

TiDuty@BlakeSD.org

661-536-8559

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Blake Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Blake Elementary School District is \$500,287, of which \$306919 is Local Control Funding Formula (LCFF), \$136437 is other state funds, \$27824 is local funds, and \$29107 is federal funds. Of the \$306919 in LCFF Funds, \$281490 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Blake Elementary School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Blake Elementary School District plans to spend \$482,668 for the 2024-25 school year. Of that amount, \$91,400 is tied to actions/services in the LCAP and \$391,268 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Blake Elementary School District is projecting it will receive \$281,490 based on the enrollment of foster youth, English learner, and low-income students. Blake Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Blake Elementary School District plans to spend \$38,000 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Blake Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Blake Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Blake Elementary School District's LCAP budgeted \$26627 for planned actions to increase or improve services for high needs students. Blake Elementary School District actually spent \$32786 for actions to increase or improve services for high needs students in 2023-24.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goals and Actions

Goal

Goal #	Description
1	Blake School District, with support and involvement of parents and community, will strive to ensure all students achieve their highest potential, meeting state standards, becoming college and/or career ready.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1a: Teachers appropriately assigned and fully credentialed	From California Dashboard Local Indicators Blake has 100% of all teachers appropriately assigned and fully credentialed.	While there are only a few staff members at Blake, it is important to have teachers who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to Dataquest 2021 this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 80.8%, State 85%).	While there are only a few staff members at Blake, it is important to have teachers who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to Dataquest 2021 this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 80.8%, State 85%).	While there are only a few staff members at Blake, it is important to have teachers who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to Dataquest 2021 this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 79.7%, State 84%).	From California Dashboard Local Indicators Blake will maintain 100% of all teachers appropriately assigned and fully credentialed.
1b: Pupil access to standards aligned materials	From California Dashboard Local Indicators Blake has 100% of all pupils have access to	From California Dashboard 21-22 Local Indicators Blake has 100% of all pupils have access to	From California Dashboard 22-23 Local Indicators Blake has 100% of all pupils have access to	From California Dashboard 23-24 Local Indicators Blake has 100% of all pupils have access to	From California Dashboard Local Indicators Blake will maintain 100% of all pupils have access to

Using data from local assessments (Bader Reading and Math Inventory), the district has identified 40% of students are working above grade level in ELA and 30% in math.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The following actions were implemented as planned: Action 1, 2, 3, 4 and 5 and there were no substantive differences with these actions.

The successes with these actions included:

Action 1- Instructional support was implemented with a part time paraprofessional and part time teacher's aide. The intent of this action is to increase student achievement in ELA and Math using one on one, small group and intervention instructional time for students. With the addition of an instructional aide in the classroom, the teacher is able to provide tailored ELA and math instruction based on specific student needs. This provides students with explicit instruction in small group and one on one sessions; engaging students with the curriculum, objectives and state standards in efficient, meaningful ways. The Barton Reading and Spelling System was implemented this year. This system provides direct one on one improve reading, spelling and writing skills for struggling students. Using the Bader Reading and Math Inventory, student achievement have moved from 29% to 19% of students working below grade level in ELA.

Action 2- The district implemented career and college pathways via collegeboard.org where students participated in interest and skill surveys, researched colleges and careers within those interests and engage in long and short term goal setting activities. This action was created based on the desires of the stakeholders who wanted the students to engage in college and career studies. Our rural community is limited in it's ability to engage students in activities that promote a college-going atmosphere. Stakeholders wanted students to be able to explore and

experience different careers that might interest them and research colleges that offer programs in that area. Based on pupil dropout rates of 0%, we are seeing this action as a positive experience for our students. The student surveys revealed that 100% of our students feel they are being prepared for higher education.

Action 3- The district continued to implement ELA and math support programs. The purpose of these programs is to support students in their area of need and challenge their critical thinking skills. Students are engaged in learning, exposed to state standards in a fun, game-type platform. The Barton Reading and Spelling System was implemented this year. This system provides direct one on one improve reading, spelling and writing skills for struggling students. Based on the Bader math assessment and the local benchmarks, we are seeing an 8% increase in math proficiency and a 7% increase in ELA proficiency.

Action 4-The purpose of the training for the Barton Reading and Spelling System was to improve reading, spelling and writing skills for struggling students. This action provided professional development training for the teacher's aide in implementing the Barton Reading and Spelling System. Based on the Bader Reading and Spelling Inventory local assessment, we saw a 10% reduction in the number of students working below grade level in ELA.

Action 5- PD support was intended to support the staff at Blake in the area of classroom management and student engagement. The district partnered with KCSOS to provide a series of teaching and learning strategies for the staff. We were able to complete all 6 Professional Learning opportunities this year and some of the successes included implementation of new technology platforms in the classroom that are engaging and exciting for the students as well as increased student engagement and classroom management, as seen on the student surveys, 100% of students feel they are being prepared for higher education and 100% of students feel that the school provides them a safe learning environment. Additionally, the administrator passed the CPACE Content, training for the CPACE Performance will continue throughout 2024.

The following actions were partially implemented:

Action 6- The purpose of this action is to provide middle school students with fine arts electives in the classroom. The action was partially implemented because we were able to access fine arts and music at a local level. These courses engaged all students in music class and performances at the fall fundraiser, the Christmas play and at the kindergarten and 8th grade graduation ceremony. Fine arts was offered weekly, allowing students to learning about art history, study famous artists and learn about different mediums. We did not have access to Edmentum classes for World Language. Based on parent and student surveys, 100% of parents and students feel they are receiving a broad range of study in all areas.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between Budgeted Expenditures and Estimated Actual Expenditures of the following actions during the 2023-24 school year. Blake conducted an analysis of material difference between Budgeted Expenditures and Estimated Actual

Expenditures. The total budgeted for the 2022-23 LCAP Goal 1 was \$27,523. The estimated actual expenditures for 2022-23 LCAP Goal 1 was \$36,046. This is a difference of overspending \$8,523 than originally planned.

The substantive difference (\$10,869 was in action 1.1, Instructional Support, due to needing more hours of support from our paraprofessional. The actions below give more details as to the material differences. Please note that the material difference does not represent the LCAP carry-over funding amount.)

Action 1.1 Instructional Support (Material Difference of \$10,869, additional hours were provided for students)

Action 1.2 College/Career and Pathways was implemented with no cost to the district as there were free resources used.

Action 1.3 Supplemental Reading/Math Support Programs (a material difference of \$313.80. The district was able to utilize some no cost programs and supports.)

Action 1.4 Training to implement the Barton Reading and Spelling System(Material Difference of approximately \$1340, training time is based on student progress. Staff will continue training as students progress through the program)

Action 1.5 Professional Development (The district overspent \$221.00 on professional development for staff and administrative credential training.)

Action 1.6 Supplemental Resources (The district overspend \$428.34 supplemental resources to provide a broad range of study for middle school students were provided.)

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The purpose of Goal 1 at Blake Elementary School was to achieve academic achievement for all students in the areas of ELA and math. Our overall desired outcome in our Measuring and Reporting Section so a desired outcome of 20% or less of students working below grade level.

While we did not meet all of our desired outcome for the 3 year LCAP Cycle (2021-2023) many of the actions did show progress:

- The district administrator passed the CPACE Content assessment. Training for the CPACE Performance assessment will continue through 2024.
- The FIT Report desired outcome is 95%, the district scored a 98% on the FIT Report in May of 2024.
- An improvement from 29%-19% of all students are working below grade level in ELA.
- Based on the Bader Reading and Math Inventory, 81% of students are working at or above grade level in ELA and 76% of students are working above grade level in math; this meets the district's desired outcome for "Other Student Outcomes."

The actions that have worked together to provide the effectiveness data are:

Action 1- Instructional support was implemented with a part time paraprofessional and part time teacher's aide. The intent of this action is to increase specialized one on one and small group instructional time for students. With the addition of an instructional aide in the classroom, the teacher is able to provide targeted instruction in small group and one on one sessions engaging students with the curriculum, objectives and state standards. Based on 23-24 local assessments and benchmarks, 23% of students are below grade level in math and 19% are below

in ELA.

Action 2- The district implemented career and college pathways via collegeboard.org where students participated in interest and skill surveys, researched colleges and careers within those interests and engage in long and short term goal setting activities. As a follow up activity, student attended a field trip to the World Ag Expo, where they were able to interact with a variety of college recruiting booths. They learned about college life, educational program availability and career options. Based on pupil dropout rates of 0%, we are seeing this action as a positive experience for our students. The student surveys revealed that 100% of our students feel they are being prepared for higher education.

Action 3- The district continued to implement ELA and math support programs. The purpose of these programs is to support students in their area of need and challenge their critical thinking skills. Students are engaged in learning, exposed to state standards in a fun, game-type platform. Based on the Bader ELA and math assessments, as well as district adopted local benchmarks, 77% of our students are working at or above grade level in math and 81% are working at or above grade level in ELA.

Action 4- The Barton Reading and Spelling System was implemented in the 2023-2024 school year. The purpose of this program is to improve spelling, reading and writing for struggling students. Students engage in daily 15-30 minutes one on one or small groups sessions. These sessions focus on targeted spelling, reading and writing instruction and strategies. Since beginning the program in January of 2024, all of our struggling students have made progress in reaching their personal goals in spelling, reading and writing.

Action 5- The district contracted with KCSOS for professional development support for the staff in the area of classroom management and student engagement. We were able to complete all 6 Professional Learning opportunities each year and some of the successes included implementation of new technology platforms in the classroom that are engaging and exciting for the students as well as increased student engagement and classroom management. We see success in this action through the student surveys, 100% of students feel they are being prepared for higher education and 100% of students feel that the school provides them a safe learning environment. Administrative walkthroughs and staff observations show an improvement in classroom management strategies and increase in the use of the strategies being taught in the professional development sessions. Additionally, the administrator passed the CPACE Content, training for the CPACE Performance will continue throughout 2024.

Action 6- The purpose of this action is to provide students with a board range of study. Students participated in fine arts, music, performing arts, technology and career studies. These studies provided students with opportunities to spotlight their unique skills through school performances, a variety of presentations and projects including video making and art projects.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1: Instructional Support (Action 1) and Professional Development (Action 5) moving forward unchanged in the LCAP 2024-2027 LCAP Cycle.

The following changes will be made to the district's actions for the 2024-2027 LCAP Cycle:

Action 2: College/Career and Pathways and Action 6: Supplemental Resources, will be combined together in LCAP 2024-2027 LCAP Cycle.

Action 3: Supplemental Reading/Math Support Programs and Action 4: Training to implement the Barton Reading and Spelling System, will be combined together in LCAP 2024-2027 LCAP Cycle.

New actions will be:

Action 1: Instructional Support

Action 2: Supplemental Resources for a broad range of study

Action 3: Supplemental Reading/Math Support Programs

A change will be made to Goal 1 moving forward:

Blake School District, with active support from parents and the community, aims to help all students reach their highest potential by meeting state standards, preparing for college and/or careers, and developing the skills to become independent, self-sufficient, and confident learners ready for lifelong success.

Metrics will be added to monitor progress of Action:

Moving forward Blake will utilize a walkthrough measurement tool to monitor the effectiveness of Professional Development and Student Support provided to students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	Blake School will expand collaborative partnerships with students, parents, staff, and the community and provide wrap-around services and personnel to further open lines of communication fostering a safe and welcoming environment through which all stakeholders are actively engaged in the learning process.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1a: Teachers appropriately assigned and fully credentialed	Based on the Ca Dashboard local indicator self-reflection tool, Blake has 100% of all teachers are appropriately assigned and fully credentialed.	While there are only a few staff members at Blake, it is important to have students who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to 21-22 Dataquest this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 80.8%, State 85%).	While there are only a few staff members at Blake, it is important to have teachers who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to Dataquest 2021 this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 80.8%, State 85%).	While there are only a few staff members at Blake, it is important to have teachers who are effective with appropriate credentials. Not all staff have a clear credential or administrative credential. According to Dataquest 2023 this is higher than the county and state level (Clear Credential for Blake 62.5%, Kern County 79.7%, State 84%).	Based on the Ca Dashboard local indicator self-reflection tool, Blake will maintain 100% of all teachers are appropriately assigned and fully credentialed.
1b: Pupil access to standards aligned materials	Dashboard local indicator self-reflection tool, Blake has 100% of all pupils have access to	Using the Dashboard 21-22 local indicator self-reflection tool, 100% of all students have access to	From California Dashboard 22-23 Local Indicators Blake has 100% of all pupils have access to	From California Dashboard 23-24 Local Indicators Blake has 100% of all pupils have access to	Maintain 100% of all students have access to standards aligned materials.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The following actions were implemented as planned: 1, 2, 3

The successes with these actions included:

Action 2.2: Repair, maintenance, and updates to School Campus. The purpose of this action is to create a safe, welcoming environment for students, stakeholders and the community. We developed this goal in hopes of increasing pride in our school. Some repairs to the red school house have been made such as repairing the back steps and adding a hot water heater to the back bathroom. Additionally, Trees near the red school house were thinned and cleaned up, as were the perimeter trees around the playground. One dead tree was removed, as it was in danger of falling on the red school house. Parent and student surveys show 100% of students and parents feel the school provides a welcoming environment.

Action 2.3: Tree Trimming. This action was phased out and moved to Action 2.2.

Action 2.4: Extended Instructional Learning Time: The goal of this action is to promote extended learning, outside of the classroom and improve student engagement and pride in their school. The middle school students (6-8th grade) attended Camp KEEP in the spring of 2023. During the summer of 2023, the district offered a 2 week summer camp for all students. During camp, students participated in educational activities, STEM/STEAM projects and sports clinics. An after school program was implemented in January of 2024. Students engage in STEM, sports and fine arts activities during after school programs. Parent and student surveys show 100% of students and parents feel the school provides students with a broad course of study.

Action 2.5: Professional Development: The district implemented the Positivity Project as way to engage students in social-emotional learning and well-being. The goal of this program is in to increase the sense of self-awareness, as well as ownership and involvement in our school. We implemented this program in hopes that it will promote empathy for others and self-awareness, thus increasing the positivity in our school environment. Data from the California Dashboard shows the district has 0% dropout rate as well as 0% suspension/expulsion rates. Additionally, according to parent and student surveys, 100% of parents and students feel the school provides a safe, welcoming environment. In addition to the Positivity Project, the district contracted with KCSOS for professional development support for the staff in the area of classroom management and student engagement. We were able to complete all 6 Professional Learning opportunities each year and some of the successes included implementation of new technology platforms in the classroom that are engaging and exciting for the students as well as increased student engagement and classroom management. We see success in this action through the student surveys, 100% of students feel they are being prepared for higher education and 100% of students feel that the school provides them a safe learning environment. Administrative walkthroughs and staff observations show an improvement in classroom management strategies and increase in the use of the strategies being taught in the professional development sessions. Additionally, the administrator passed the CPACE Content, training for the CPACE Performance will continue throughout 2024.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between Budgeted Expenditures and Estimated Actual Expenditures of the following actions during the 2022-23 school year. Blake conducted an analysis of material difference between Budgeted Expenditures and Estimated Actual Expenditures. The total budgeted for the 2022-23 LCAP Goal 2 was \$17,191.00. The estimated actual expenditures for 2022-23 LCAP Goal 2 was \$5,460.00. This is a difference of overspending \$8,523 than originally planned.

Action 2.1 Action was phased out of LCAP and moved to Action 2.2

Action 2.2 Repair, maintenance, and updates to School Campus - (The district overspent \$3,354.63. Repairs were made to the red school house back and a new hot water heater was added to the red school house back bathroom)

Action 2.3 Action was phased out of LCAP and moved to Action 2.2

Action 2.4 Extended Instructional Learning Time - (Students attended career and college field trips. A material difference of \$2865.00, as the district did not have any students eligible for Camp KEEP this year)

Action 2.5 Professional Development - Professional Development - The district purchase the Positivity Project to engage in students in social-emotional activities. (A material difference of \$3896.00)

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Based on End of Year Parent and Student surveys, 100% of parents feel that the school offers a welcoming environment where their students feel safe. 100% of students feel welcome and safe at school as well.

This District has a 0% suspension rate and 0% dropout rate.

The May, 2024 FIT Report showed the school to be in "Good" Standing.

The Focus of Goal 2 is to develop and implement a comprehensive Multi-tier Systems of Support (MTSS) program to improve the school attendance, climate/culture, and motivation by making program and schoolwide improvements. The district provided professional development in the are of social-emotional learning and implemented the Positivity Project to increase and improved self-awareness, compassion and a sense of community with in the school. The district worked toward improving the school grounds to promote a sense of pride and ownership within the students and community for their school. Additionally, the district provided extended learning opportunities for students to engage in learning outside of the classroom.

The actions in this goal that were effective in attaining the following outcomes of LCAP:

State Priority 1c: School facilities maintained in good repair: All facilities continue to have an overall rating of "Good" (98%) as indicated on the FIT report.

State Priority 5a: School attendance rates: Using local 22-23 SIS data, the Blake School District attendance rate is 95%.

State Priority 5c: Middle School dropout rates is 0%

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Blake has no changes to goals, metrics, or desired outcomes for the coming 2024-27 year's LCAP.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

- Copy and paste verbatim from the 2023–24 LCAP.

Metric:

- Copy and paste verbatim from the 2023–24 LCAP.

Baseline:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 1 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 2 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 3 Outcome:

- When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

Desired Outcome for 2023–24:

- Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Blake Elementary School District	Timari Duty Superintendent/Principal/Teacher	tiduty@blakesd.org 661-536-8559

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Blake School District is located in the small rural, ranching community of Woody, California, approximately 35 miles from Bakersfield. This historic school services Kindergarten through Eighth grade students, in which the students are instructed in a K-8 grade, self-contained, one room schoolhouse. The Blake School District is one of the smallest school districts in the state of California. The Blake School District employs one credentialed superintendent/principal/teacher, one part-time instructional aide, one part-time paraprofessional, one part-time teacher's aide/after school program aide, one part-time secretary, and one part-time custodian. Blake School District receives administration services and Speech/language services, which are contracted through Kern County Superintendent of Schools. The district contracts with a Special Education Teacher for monthly services, IEP meetings and evaluations. The Blake School District Board consists of three board members from our Woody community. Blake School District serves a small and diverse group of students with the goal: "To lay a firm educational foundation for each and every student." Our student population is 9% English learner (EL) and 43% are classified as Low Income. LCFF Unduplicated count is 47% and 100% of our EL students speak Spanish. Our student population is made up of many ethnicities with 47% of our students identifying as Hispanic Latino, and 52% White. We serve 21 students TK through 8th grade at 1 general school house with one full-time superintendent/principal/teacher.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

This year, Blake School District enrollment numbers consisted of 21 students (K through 8th Grade). Blake School District staffing has stayed consistent for the school 2023-2024 with a full time, highly qualified chief administrative officer/principal/teacher, a part-time paraprofessional, a part-time teacher aide, a part-time secretary and a part time custodian. The district added an additional part time teacher's aide for the 2023-24 school year. Using the 2023-2024 California Dashboard data, the Blake School District has 100% of teachers appropriately assigned and fully credentialed. Common Core State Standards have been fully implemented for all grade levels and 100% of English Learners have daily access to the core curriculum that has CCSS and ELD standards embedded.

A reflection of data from all state priority metrics in the 23-24 year indicates that areas of need are in two major areas. The first is a focus on academic performance for all students, with an emphasis on meeting the needs of at risk students and providing a diverse and enriched curriculum for intermediate and junior high school students. The second area of need is an investment in school climate and culture, emphasizing student attendance, student and family expectations of school success and increasing student and family involvement in school activities. It is important to remember that Blake is a rural school of 21 students in grades TK-8. Some grades have 1-2 students, while there are no students in grade five. Test scores are a reflection of student growth from year to year and because of student movement in and out of the school, are not always reflective of the same students. In the primary grades (K-2), 14% were below grade level in math and 28% were below grade level in ELA according to the My Math curriculum benchmark assessment and the Bader Inventory. Students in grades 3-8 have completed the McGraw Hill benchmark assessments and the Bader Inventory two times per year and 50% of the students were below grade level in math and 14% were below grade level in ELA. Below grade level scores for primary grades (K-2) decreased 19% (from 33% working below grade level to 14% working below grade level) in math and 5% (from 33% working below grade level to 28% working below grade level) in ELA. Below grade level scores for upper elementary (3-8th) decreased 11% (from 25% to 14%) working below grade level in math. There was an increase in below grade level scores in ELA for upper elementary, (3-8th) from 12.5% to 14% working below grade level.

The trend data of local assessments show there continues to be a performance gap in academic achievement for English Learners and low income students. All low income and English Learners in all grade levels are showing at least 1 grade level below in academic achievement for ELA and Math. The assessment scores of the English learners and low income students revealed low decoding ability, fluency, reading comprehension, poor spelling and lack of grammar knowledge. In math, the assessment scores revealed the English Learners and the low income students had deficiencies in fact fluency and gaps in various concept areas. Compared to all students, their grade level equivalency is behind their peers therefore Blake is focused on decreasing this performance gap.

The English Language Learners are concentrated in K-3 and 33% of the students are at grade level in both ELA and Math.

43% of Blake students qualify as low income (9/21), with 11% scoring below grade level in ELA and 55% below grade level in Math.

The performance of low income students and the younger EL students are significant areas for improvement, as student home lives and the resources they have to support their learning are limited. Transportation, child care and accessibility to technology in the home are areas that impede the students' ability to be successful.

The second major area of need is an investment in school climate and culture. Attendance continues to be an issue. There has always been student illness and family emergency, but in this small community, attendance data shows a general lack of priority for school attendance has emerged. Blake School needs to help families re-prioritize student attendance and help students desire to be at school daily. This mindset will be accomplished through the celebration of student achievement, the engagement of families in school activities and the addition of student social emotional supports and extra-curricular activities that encourage students in positive and collaborative ways.

The Blake School District is one of the smallest school districts in the state of California that brings unique conditions and circumstances that most other school districts do not have. While our goals are outlined to meet this need, we cannot ignore the conditions and circumstances our students face. These include:

- exposure to academic language outside of school

- familial resources to support their education at home
- access to technology
- opportunities to demonstrate content knowledge separate from their language development
- Lack of resources for extra academic or social emotional supports
- due to rural location, a lack of substitutes to allow staff to attend professional development in the area of academic achievement and climate and culture

The part-time paraprofessional and the part time teacher aide, have allowed the district to increased individualized one on one and small group instruction to address some of these needs that exist at Blake School.

Transitional Kindergarten was added in the 2021-2022 school year. The district did not receive any TK students for the 2023-2024 school year.

In response to the educational partner's desire to improve the middle school program at Blake School District, the district has partnered with KCSOS to implement classroom management and instructional strategies training for staff. This partnership provides training in equipping staff with instructional strategies and classroom management skills in the classroom as a means of increasing student engagement and expand student acquisition and demonstration of knowledge. Furthermore, this partnership equipped the part time paraprofessional and teacher aide with tools and strategies for classroom management. Secondly, Educational Partners also desired for the students to have more opportunities to grow in life and leadership skills. Blake School District continued the middle school ASB and Business Lab for students to be involved with organizing, planning and financing school events and activities for middle school students. The ASB program gives students the ability to work as a team player and learn how to plan and implement their ideas. Some examples of the great things students on the ASB team accomplished this year are: planning, organizing and running a bake sale fundraiser, planning a school wide volleyball tournament with activities for students of all ages, as well as awards and prizes, and planning literature lessons, crafts and activities for the younger students to engage in during the school's Dr. Seuss Day Celebration. Lastly, the district has implemented the use of Collegeboard.org to engage students in college and career research, promoting students to look toward their future and begin setting goals and action plans for their college or vocational desires. The ASB students were able to use their funds raised to attend field trips.

The Blake School District has continued the Bader Reading and Language Inventory which determines and tracks the students' independent and instructional levels for reading, writing and math. The testing is done at least three times each school year; at the beginning of the year, mid-way through the year and at the end of the year. This inventory allows teachers to track student progress in reading, writing and math throughout the year and identify learning gaps to guide instruction and intervention planning as needed. We plan to continue the successes identified by providing instructional support for students, providing supplemental support materials and professional development for staff. The results of these assessments have shown that the percentage of all students working at or above grade level in Math increased by 8% and in ELA by 7%.

Blake School partnered with KCSOS to provide Professional Development Training of on site coaching for math, English language arts, and classroom engagement.

Positivity Project-

The purpose of this project is to engage student's social/emotional well-being. The goal of this program is in to increase the sense of ownership and involvement in our school. We implemented this program in hopes that it will promote empathy for others and self-awareness, thus increasing the positivity in our school environment. Data from the California Dashboard shows the district has 0% dropout rate as well as

0% suspension/expulsion rates. Additionally, according to parent and student surveys, 100% of parents and students feel the school provides a safe, welcoming environment.

The Blake School District has implemented after school programs using the ELOG funds. Students participate in Archery Club, crafting, art and music programs and reading support. These after school programs have brought a positive feedback and excitement to the students and school community.

In response to improving community support and involvement, the Blake School District reimplemented the School/Community Fall BBQ and the Student vs. Parent/Staff Volleyball tournament. These activities brought the community into the school and provided an opportunity for the students to showcase their talents and promote their school. With the funds raised from the Fall BBQ, the ASB was able to purchase an archery set to use during the after school Archery Club program.

Blake school plans to maintain and build on these successes by continuing all actions that are included in the LCAP. Our goals that are outlined focuses on Academic Achievement and expanding collaborative partnerships by providing open lines of communication and a welcoming environment. We have been successful in doing this by providing support in the classroom (Goal 1- Action 1 through 6) as these actions are focused on academic achievement. We have also been focused on ensuring we have a welcoming environment (Goal 2- Action 1 through 5) as these actions ensure that our campuses are conducive to learning and focused on creating a healthy school climate.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Principals/Admin	The district has one full time teacher who is also the Principal and Chief Administrative Officer. The teacher meets with her Administrative Consultant on a monthly basis as well as works with a Management Analyst several times per year.
Teachers	The district has one full time teacher who is also the Principal and Chief Administrative Officer. The teacher meets with her Administrative Consultant on a monthly basis as well as works with a Management Analyst several times per year.
Other School Personnel	Admin/Teacher and staff meet and discuss student needs and progress on a daily basis. Admin/Teacher and staff have partnered with KCSOS for professional development. Those meetings are held once per month.
Certificated Bargaining Unit	The district does not have a Certificated Bargaining Unit.
Classified Bargaining Unit	The district does not have a Classified Bargaining Unit.
Students	Students were given interest and perception surveys at the beginning and end of the school year. Due to the uniqueness of size of the school, the Admin/Teacher is in consistent contact with the student body and discusses their needs and concerns on a daily basis. The Associated Student Body meets three times per year.
Parents	Admin/Teacher met with parents several times throughout the year at Back to School Night, Parent/Teacher Conferences, Open House and Graduation Programs.

Educational Partner(s)	Process for Engagement
	The district holds an open door policy where parents are welcome to drop in any time. The district does not have transportation, so daily drop off and pick ups offer daily opportunities for discussions.
SELPA Administrators	A SELPA Administrative meeting is held yearly.
Parent Advisory Team	Admin/Teacher and Parent Advisory team met 4 times throughout the year for Fall Bar-B-Que Fundraising planning, Christmas Program, Open house, and Graduation planning.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Blake School District goals are a direct result of the Educational Partner meetings held:

Goal 1: Blake School District, with active support from parents and the community, aims to help all students reach their highest potential by meeting state standards, preparing for college and/or careers, and developing the skills to become independent, self-sufficient, and confident learners ready for lifelong success.

Goal 2: Blake School District will provide a safe, healthy and engaging learning environment. Again, all stakeholders (parents, community members, employees/staff, and students) expressed the need for improvements and updates on the school grounds. Facility and playground improvements will be implemented to ensure the school environment is safe for students, staff and visitors.

DISTRICT ADMINISTRATION/TEACHER/STAFF: The district will maintain the instructional aide needed to support the teacher in meeting the needs of TK-9th grade students to meet the staff and parent stakeholder's desire to ensure students are receiving quality, standards based instruction. (Goal 1, Action 1) The district will implement awards ceremonies, Back to School Night, Fall BBQ Christmas Program and Open House and Kindergarten and 8th Grade Graduation to boost school spirit, moral and community involvement. (Goal 2, Action 5)

PARENTS: The parents listed additional teaching staff to support student academic achievement, extra-curricular activities and a stronger sense of community, climate and school spirit as their top priorities for the school. Parents especially expressed the desire for the students to be able to have experience with extra-curricular activities and things that will boost the community/climate of the school. The district will provide students with opportunities to engage in after school and intercession programs. (Goal 1, Actions 2 and 6, and Goal 2, Action 4) The school will implement new events (awards ceremonies, Back to School Night, Fall BBQ and Open House) to boost school spirit/moral and community involvement that will engage students, parents, staff, and the community. (Goal 2 action 2) The district will replace playground structures in need of repair and make updates to the Red School House. (Goal 2, Action 1)

PARENT ADVISORY: The advisory group wanted to build a strong sense of community with more events that will engage the students and community and upgrades to the school. (Goal 2, Actions 2 and 5) School grounds will be improved by trimming overgrown trees, replacing playground border and making repairs to the Red School House. (Goal 2, Actions 2 and 3)

SELPA ADMINISTRATION: Blake School continues an ongoing relationship with SELPA. Parents feedback based on special education is to continue to provide the necessary communication to our parents including parents of students with disabilities. A description of the aspects of the LCAP that were influenced by specific Educational Partner input. Blake School District goals are a direct result of the Educational Partner meetings held.

STUDENTS: The district will implement summer camp and intercession programs to increase student engagement and opportunities to engage in academic and extra-curricular activities. (Goal 1 Action 1 and Goal 2, Action 4) The district will implement awards ceremonies, Back to School Night, Fall BBQ and Open House to boost school spirit, moral and community involvement. Playground equipment will be improved, providing for safe environment for the students to play (Goal 2, Action 1).

ELAC: Blake School does not have an English Language Acquisition Committee.

LOCAL BARGAINING UNITS: Blake School does not have any local bargaining units.

COMMUNITY INPUT: The community members asked to see the grounds improved to rebuild a sense of pride in the school and community. School grounds will be improved by trimming overgrown trees, replacing playground border and making repairs to the Red School House. The district will implement events (awards ceremonies, Back to School Night, Fall BBQ and Open House) to boost school spirit/moral and community involvement that will engage students, parents, staff, and the community. (Goal 2, Action 5)

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Blake School District, with active support from parents and the community, aims to help all students reach their highest potential by meeting state standards, preparing for college and/or careers, and developing the skills to become independent, self-sufficient, and confident learners ready for lifelong success.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 3: Parental Involvement (Engagement)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The Blake School District developed this goal to ensure that all students can reach their highest potential, as articulated in Goal 1. The goal aligns with the broader objectives of meeting state standards, preparing students for college and careers, and fostering independence, self-sufficiency, and confidence for lifelong success. The goal underscores the district’s commitment to ensuring that all students meet or exceed state educational standards. This is foundational for student success in higher education and future careers. Given the district’s small size, with only 21 students enrolled in grades K-8, a strategic and focused approach is essential.

Most Current CA Dashboard Data available is 2022-23 School Year:

ELA- 44% of 3-8th grade students met standard, 44% nearly met standard and 11% did not meet the standard.

Math -11% met the standard, 44% nearly met the standard and 44% did not meet the standard.

Based on 23-24 local assessments and benchmarks, 23% of students are below grade level in math and 19% are below in ELA.

The district aims to ensure that all students meet state standards, preparing them for future academic and career success. This involves aligning teaching practices with Common Core State Standards and incorporating English Language Development (ELD) standards. The focus on individualized instruction, professional development, practical life skills, and continuous assessment ensures that the district can meet the diverse needs of its small student population, ultimately leading to improved outcomes in both academic and personal development.

Regular assessments help identify learning gaps and inform targeted interventions, ensuring that students receive the support they need to achieve at or above grade level.

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Blake School will expand collaborative partnerships with students, parents, staff, and the community and provide wrap-around services and personnel to further open lines of communication fostering a safe and welcoming environment through which all stakeholders are actively engaged in the learning process.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

The development of this goal is a strategic response to the unique challenges and needs identified through data analysis and community feedback. The data for Blake School highlights a need to improve student attendance. Chronic absenteeism is linked to a lack of priority placed on school attendance within the community. Enhancing school climate and culture is crucial to changing this mindset. By celebrating student achievements and increasing family involvement in school activities, the goal aims to foster a positive school environment. This can help students and families view school attendance as a priority and a positive experience. The goal focuses on leveraging community and parental involvement to overcome these challenges. Building strong partnerships can help compensate for the limited resources and provide a support network for both students and staff.

Engaging students, parents, staff, and the community in the educational process is essential for creating a supportive and effective learning environment. The goal aims to ensure that all voices are heard and that there is a collaborative effort to improve the school’s overall performance and climate.

At Blake School, we believe student achievement is related to their sense of belonging to their school. With increased school pride and school connectedness, students will have the desire to attend school and feel empowered to do their best. School pride and connectedness comes from a safe and healthy learning environment. Students who feel safe at school will feel the freedom to express themselves and engage in learning experiences without fear.

Measuring and Reporting Results

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Professional Development and Academic Support</p> <p>Need: A reflection of data from all state priority metrics in the 23-24 year indicates that areas of need are in two major areas. The first is a focus on academic performance for all students, with an emphasis on meeting the needs of at risk students and providing a</p>	<p>Intervention specialists will deliver personalized instruction tailored to the needs of each student, helping to close learning gaps and improve academic performance. Intervention specialists district-wide ensures that all schools can provide necessary support to their most at-risk students, promoting consistency in educational quality. Consistent training across the district ensures all staff are equipped to provide high-quality support, promoting uniformity in the effectiveness of interventions. Data analysis allows for timely</p>	<p>Local Benchmark Assessment in ELA and Math (Metric 1.14) Self-Assessment Survey for Implementation of Standards in ELA and Math (Metric 1.3) ELPI Rate (1.9)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>diverse and enriched curriculum for intermediate and junior high school students. The second area of need is an investment in school climate and culture, emphasizing student attendance, student and family expectations of school success and increasing student and family involvement in school activities. It is important to remember that Blake is a rural school of 21 students in grades TK-8. Some grades have 1-2 students, while there are no students in grade five. Test scores are a reflection of student growth from year to year and because of student movement in and out of the school, are not always reflective of the same students. In the primary grades (K-2), 14% were below grade level in math and 28% were below grade level in ELA according to the My Math curriculum benchmark assessment and the Bader Inventory. Students in grades 3-8 have completed the McGraw Hill benchmark assessments and the Bader Inventory two times per year and 50% of the students were below grade level in math and 14% were below grade level in ELA. Below grade level scores for primary grades (K-2) decreased 19% (from 33% working below grade level to 14% working below grade level) in math and 5% (from 33% working below grade level to 28% working below grade level) in ELA. Below grade level scores for upper elementary (3-8th) decreased 11% (from 25% to 14%) working below grade level in math. There was an increase in below grade level scores in ELA for upper elementary, (3-8th) from 12.5% to 14% working below grade level.</p>	<p>identification of issues and necessary adjustments to instruction and improving student outcomes. This action directly addresses the achievement gaps by providing personalized instruction to students performing below grade level.</p> <p>The professional development will equip teacher and staff with specific strategies to effectively support these student groups, improving their academic outcomes. Equipping educators with the latest teaching strategies will enhance the quality of instruction and better support struggling learners.</p> <p>This action is being provided on an LEA-wide basis because all students can benefit from additional support when they struggle academically. Comprehensive training ensures consistency in instructional quality and equity across the district and are being provided on a LEA-wide bases because all students can benefit from high quality teaching staff that have learned impactful strategies to support student learning. This action working in conjunction with the other actions in this Goal is intended to address the Academic Performance needs of all students at Blake School.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>The ELPI Rate for EL's was 100% and while this might not showcase a need, Blake would like to continue this progress and ensure all English Learners are making progress towards English Proficiency.</p> <p>The self-assessment from the 2023-24 From CA state standards implementation Rubric (Math and ELA) Local Indicator was:</p> <p>Level 3 for ELA implementation of state standards</p> <p>Level 3 for Math ELA implementation of state standards</p> <p>The trend data of local assessments show there continues to be a performance gap in academic achievement for English Learners and low income students. All low income and English Learners in all grade levels are showing at least 1 grade level below in academic achievement for ELA and Math. The assessment scores of the English learners and low income students revealed low decoding ability, fluency, reading comprehension, poor spelling and lack of grammar knowledge. In math, the assessment scores revealed the English Learners and the low income students had deficiencies in fact fluency and gaps in various concept areas. Compared to all students, their grade level equivalency is behind their peers therefore Blake is focused on decreasing this performance gap.</p>		

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>The English Language Learners are concentrated in K-3 and 33% of the students are at grade level in both ELA and Math.</p> <p>43% of Blake students qualify as low income (9/21), with 11% scoring below grade level in ELA and 55% below grade level in Math.</p> <p>Educational Partner Input expressed the need for maintaining the instructional aide needed to support the teacher in meeting the needs of TK-9th grade students to meet the staff and parent stakeholder's desire to ensure students are receiving quality, standards based instruction.</p> <p>Scope: LEA-wide</p>		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A as Blake does not have any Limited Actions

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Blake school does not receive additional concentration grant add-on funding therefore an increase in staffing is not applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	1:11	
Staff-to-student ratio of certificated staff providing direct services to students	1:21

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**

- This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
