LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Panama-Buena Vista Union School District

CDS Code: 15-63362

School Year: 2025-26

LEA contact information: Katie Russell, Superintendentkrussell@pbvUSD.k12.ca.us(661) 831-8331

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

This chart shows the total general purpose revenue Panama-Buena Vista Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Panama-Buena Vista Union School District is \$363,302,808.00, of which \$265,745,383.00 is Local Control Funding Formula (LCFF), \$80,121,854.00 is other state funds, \$5,458,923.00 is local funds, and \$11,976,648.00 is federal funds. Of the \$265,745,383.00 in LCFF Funds, \$62,305,383.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Panama-Buena Vista Union School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Panama-Buena Vista Union School District plans to spend \$383,953,950.00 for the 2025-26 school year. Of that amount, \$94,425,741.00 is tied to actions/services in the LCAP and \$289,528,209.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures not included in the LCAP, comprised of salaries, benefits, supplies, other operating and capital outlay costs, are aligned with the District's academic priorities to provide a safe, supporting learning environment for all students.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Panama-Buena Vista Union School District is projecting it will receive \$62,305,383.00 based on the enrollment of foster youth, English learner, and low-income students. Panama-Buena Vista Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Panama-Buena Vista Union School District plans to spend \$68,962,235.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Panama-Buena Vista Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Panama-Buena Vista Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Panama-Buena Vista Union School District's LCAP budgeted \$70,166,160.00 for planned actions to increase or improve services for high needs students. Panama-Buena Vista Union School District actually spent \$70,261,250.00 for actions to increase or improve services for high needs students in 2024-25.

In 2025-26, Panama-Buena Vista Union School District is projecting it will receive \$62,305,383.00 based on the enrollment of foster youth, English learner, and low-income students. Panama-Buena Vista Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Panama-Buena Vista Union School District plans to spend \$68,962,235.00 towards meeting this requirement, as described in the LCAP.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Panama-Buena Vista Union School District	Katie Russell Superintendent	krussell@pbvusd.k12.ca.us 661-831-8331

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Located in the heart of the San Joaquin Valley, Panama-Buena Vista Union School District (P-BVUSD) serves over 20,000 children each year with an enriched standards based curriculum delivered through quality instruction at each of our 26 schools. Our transitional kindergarten through eighth-grade students reflect the widespread diversity of our region and the programs we provide;

SCHOOLS		20,000 STUDENTS
TK-6 Elementary Schools	19	● African American students -7.7% (1,488) ● Asian students - 10.5% (2,026) ● Hispanic students - 61.5% (11,909) ● White/Caucasian students - 13.7% (2,649) ● English Learners - 14.5% (2,818) ● Students with Disabilities (SWD) - 13% (2,511) ● Foster Youth - .8% (150) ● Unhoused students - 1% (216) ● Socio-Economically Disadvantaged students (SED) - 76.6% (14,838)
TK-8 Elementary Schools	2	
Junior High Schools	5	
Alternative Education Programs	1	

growth. We prepare all students for future challenges with a commitment to innovation and strong partnerships, enabling everyone to thrive and contribute positively to society. We pride ourselves on our history of managing our resources carefully and leveraging district resources with strategic community partnerships to ensure that all of our children have the opportunities needed for maximum academic and social-emotional growth. The District has embedded an equity lens into established leadership structures to support our motto “Excellence in Education.” Through the District’s Strategic Pillars, we are committed to a cycle of continuous improvement and reflection to break down barriers to learning and supporting a culture of PURPOSE, CARING, AND RESULTS.

We believe that working with parents and guardians as invaluable partners is essential to the success of students and their schools. The District is committed to providing a Community & Family Engagement Department to enhance family engagement and provide continual communication and outreach efforts to bridge the gap between home and school. Programs such as these will help parents and guardians to become strong educational partners and remain engaged in the educational opportunities of their students from TK all the way through junior high.

Keeping with the commitment to the District’s Pillars of Excellence, we also believe working with educational partners to build strong community relationships will support each layer of the organization. Our partnerships with local universities to support the hiring of highly qualified teachers has cultivated a robust New Teacher Support program to ensure all students receive a high quality educational experience. Additionally, professional learning opportunities are provided through our university partners to support the development of a pre-Career Technical Education (CTE) pathway program we are developing in all junior high schools. Furthermore, we partner with feeder high schools in Kern High School District to ensure we are equipping our students with appropriate skills, knowledge, interventions and supports to ensure a successful and meaningful high school experience as well.

The Panama-Buena Vista Union School District’s Local Control and Accountability Plan (LCAP) is primarily funded through the Local Control Funding Formula (LCFF), which includes Base, Supplemental, and, where applicable, Concentration Grant allocations. These funds are used to support actions and services aligned with the needs of our students, especially those who are low-income, English learners, and foster youth (collectively known as unduplicated students).

As of the 2025–26 school year, Panama-Buena Vista Union School District does not receive Equity Multiplier funding, a state funding stream designed to support school sites with a high proportion of socioeconomically disadvantaged students and high student mobility or non-stability rates, per Education Code Section 42238.024. Therefore, while our LCAP reflects a strong commitment to equity and student support, we are not eligible to include an Equity Multiplier Focus Goal, nor do we receive these additional funds to support individual school sites.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Each year, an annual reflection is conducted to identify areas of growth and need in the district. We utilize multiple measures to ensure we are capturing the needs of the whole child and embracing the priorities of our Strategic Plan around Student Achievement; Diverse Learning Organization; Wellness, Safety and Equity for All; Family and Community Partnerships and Fiscal Responsibility. To do so, we rely heavily on the state priorities to guide our process, along with the following state and local data measures:

STATE PRIORITY		STATE DATA	LOCAL DATA
1	BASIC SERVICES		- Teacher Mis-assignment Reports - Facilities Incident Reports - Surveys
2	IMPLEMENTATION OF STATE STANDARDS		- STAR ELA - STAR Math - ELA IAB - Math Next Gen Benchmarks - Amplify mClass Reading Screener
3	PARENT & FAMILY ENGAGEMENT		- Parent & Family Engagement Nights - LCAP Input Sessions - Advisory Meeting Participation - Surveys
4	STUDENT ACHIEVEMENT	- CAASPP ELA & MATH - CA Science Test - English Learner Proficiency Assessment (ELPAC) - Reclassification Rates	
5	STUDENT ENGAGEMENT	- Attendance Rates - Chronic Absenteeism Rates	
6	SCHOOL CLIMATE	- Suspension Rates - Expulsion Rates - School Connectedness Survey	
7	ACCESS TO BROAD COURSE OF STUDY		- AVID Courses - Pre-CTE Courses - Spanish Courses
8	OTHER PUPIL OUTCOMES		SWIFT FIA

During the 2024-2025 school year, Panama-Buena Vista Union School District experienced success in the academic performance of students, the development of a broader curricular program, and the expanded implementation of social and emotional health initiatives including adopting a universal SEL curriculum, Positive Behavior Intervention and Supports (PBIS) and the decrease in chronic

absenteeism. In each LCAP goal, P-BVUSD has demonstrated progress as measured by both state and local indicators and through feedback received from educational partners. All P-BVUSD students receive instruction in English Language Arts (ELA), Mathematics, Social Sciences, Science, Visual and Performing Arts, and Physical Education. At all junior high schools, students are additionally enrolled in electives based on student interest aligned to the Common Core State Standards, including Spanish as a second language and the standards for pre-Career Technical Education (CTE).

Based on the state priorities and the continual improvement process, we found the following to be driving data points:

PRIORITY 4- STUDENT ACHIEVEMENT- STATE AND LOCAL DATA

SUCSESSES:

The California School Dashboard's academic indicators in ELA and Math measure specific successes and challenges for each state priority and student group within P-BVUSD:

Based on the results of the California Assessment of Student Performance and Progress (CAASPP) taken in the Spring of 2024, 46.6% of students were proficient in ELA. This was an overall increase of 2% from 44.6% in 24-25. Midyear STAR ELA data indicated 46.4% of students were scoring at or above the 40th percentile, nearly meeting our 2024-2025 desired outcome. Based on STAR student growth percentile reports, 63% of students were meeting standard. With 100% of our students having access to a broad course of study and access to instructional materials, we expect to see at most minimal growth.

Students in most major subgroups showed significant increases in mathematics performance when compared to the 2023-2024 school year. Unhoused youth made the most progress with a 3 point increase.

The Winter 2025 STAR Math data indicates that 34.1% of students were meeting or exceeding state standards in mathematics, which represents a 1.2% decrease from Winter 2024. This decline occurred despite 61% of students demonstrating standard-level growth on the STAR student growth percentile reports. Two interrelated factors contributed to this shift: 1) During the 2024–25 school year, the district experienced a significant uptick in the number of newly hired teachers, particularly in math-related content areas. While this influx of new talent helps address vacancies, new teachers often require additional time and support to build instructional expertise, particularly in delivering rigorous, standards-aligned math instruction, 2) Simultaneously, the district saw a reduction in professional development hours dedicated to math instruction and data-driven instructional planning. Due to budget realignments or staffing reassignments, there were fewer opportunities for teachers—especially new ones—to engage in collaborative lesson design, data analysis, and coaching aligned to the California Math Framework.

Based on our English Learner Performance Indicator (ELPI), students decreased by .9 on the 5 x 5 grid, placing our English learners in the Yellow performance band (low status), in comparison to Orange status in 2024. However, our local indicators show 12.1% of English learners met or exceeded state standards on Star Reading (Winter 2024) which was a 3% increase from Winter 2023. All English learners receive English Language Development (ELD) based on their English fluency level. At all middle schools, students are enrolled in English Language Arts (ELA), math, science and physical education/health. Students also enroll in electives based on student interest. Middle school schedules continue to allow English learner students to enroll in an elective, as well as receive their English Language Development (ELD) time and support. In addition, the rich variety of electives which students can choose from increased to provide access to courses in foreign language, visual or performing arts, applied arts or career technical education. With the adoption of a supplemental ELD program, students receive designated ELD or intervention support through a state-approved supplemental program during their second period of support, leaving time in the day for an elective.

CHALLENGES:

Challenges in English Language Arts (ELA) persist, particularly among our English Learners, Foster Youth, and Students with Disabilities, as evidenced by recent assessment outcomes and classroom observations. While a foundational baseline for designated English Language Development (ELD) instruction has been successfully established and maintained across most school sites, significant gaps remain in the transition from designated to integrated ELD.

This transition continues to pose challenges for many educators, especially when adapting ELD strategies into rigorous, standards-aligned core content instruction. Additionally, the growing population of newcomer students has added complexity to the instructional landscape. Schools are working to provide differentiated language supports, but the capacity to integrate ELD meaningfully across all subject areas remains a challenge.

To address these persistent needs, the district will continue to offer targeted professional learning opportunities with a renewed focus on implementation fidelity. Instructional coaching, model lessons, and collaborative planning will support teachers in deepening their understanding and application of integrated ELD strategies. Further, supports will be differentiated to meet the unique needs of sites with higher newcomer enrollment, ensuring that all English learners receive linguistically and academically appropriate instruction across the curriculum.

ELA

Conducting an analysis at the district level to identify gaps in instructional alignment identified the following: 1) a need for consistent use of the guaranteed and viable ELA curriculum across all schools, 2) alignment of the standards to ensure equitable access to instruction for all students, and 3) robust Tier I instruction and aligned assessments to help address disparities in learning outcomes. By addressing these challenges, we can ensure that all students have access to high-quality instruction.

Based on the most recent California School Dashboard data identified multiple student groups across the district with "Low" or "Very Low" performance levels in English Language Arts (ELA). In response, the district will provide targeted literacy and language development supports aligned with the ELA/ELD Framework, supported by professional learning and site-specific strategies.

The following student groups have been identified as performing in the Low or Very Low performance levels in ELA:

- Low: American Indian, English Learners, Socioeconomically Disadvantaged, African American, Hispanic
- Very Low: Homeless, Long-Term English Learners (LTELs), Students with Disabilities (SWD), Foster Youth

School site-level data further highlighted persistently low outcomes among ELs, SWDs, and African American students at schools such as Castle Elementary, Stine Elementary, and Wayne Van Horn Elementary. Hispanic students at Amy B. Seibert Elementary also remain a priority, as do the English learners at Castle and Seibert Elementary Schools.

In response, the District implemented targeted ELA support in 2023–24 focused on professional learning and site-level intervention planning. Specifically:

- Literacy-focused professional development was provided monthly to school site administrators, with an emphasis on differentiated instruction, cross-curricular literacy, and data-driven practices.
- Schools with high populations of underperforming students embedded targeted strategies into their School Plans for Student Achievement (SPSA).
- Targeted professional learning addressed cultural relevance and the unique needs of African American, Hispanic, and EL student populations, and prioritized support at Castle, Stine, Wayne Van Horn, and Amy B. Seibert Elementary.

In response, the district will provide targeted literacy and language development supports aligned with the ELA/ELD Framework, supported by professional learning and site-specific strategies:

- Sustain and Expand Literacy PD: Continue monthly differentiated instruction training, expand culturally responsive strategies, and embed ELD/ELA framework alignment.
- Intensify Support at Identified Sites: Provide site-based coaching at Castle and Seibert Elementary (EL focus), and Castle, Stine, and Van Horn Elementary (African American student focus).

- Data Monitoring and Student Progress: Use formative assessments and benchmark ELA data to monitor subgroup progress and adjust interventions quarterly.
- Parental and Community Engagement: Increase engagement of educational partners, especially families of ELs and African American students, to co-develop site literacy strategies.
- Systemic Supports for Very Low Groups: Implement evidence-based literacy interventions for SWD, LTELs, and Homeless youth, with designated funding and staffing supports.

This plan will guide the District's efforts to improve literacy outcomes and ensure equitable ELA access and achievement for all students, with a clear focus on our most underserved groups.

MATH

Gaps in the use of curriculum, multiple supplemental materials, and ensuring consistent instruction aligned with assessment and curriculum maps in the area of math was identified across all schools. This inconsistency, partnered with the new California Math Framework, leaves the district and schools with many challenges: 1) a need for consistent use of the guaranteed and viable math curriculum across all schools, 2) alignment of the standards to ensure equitable access to instruction for all students, 3) robust Tier I instruction to include interactive teaching strategies, and 4) inquiry based lesson design to help address disparities in learning outcomes.

The 2023–24 California School Dashboard and internal assessment data identify a persistent need for targeted mathematics support among multiple student groups and schools within the district. Overall, only 33.3% of students met or exceeded standards in math, a slight improvement of 1.3 percentage points from Winter 2023. However, specific student groups and campuses continue to perform at the Low and Very Low levels.

Overall dashboard performance by Student Group indicates:

- Very Low: Students with Disabilities (SWD), Long-Term English Learners (LTEL), Foster Youth (FY), African American (AA), Homeless
- Low: English Learners (EL), Socioeconomically Disadvantaged (SED), Hispanic, American Indian, Pacific Islander

Identified schools performing very low or low Math status are identified as the following:

- Very Low Performance (Multiple Subgroups): Stonecreek Jr High: EL, LTEL, SED, SWD, AA, HIS, W, Charles H. Castle: AA, EL, SWD, Sing Lum, Miller, Whitley, Sandrini, Van Horn, Seibert: All with SWD in Very Low band
- Low Performance (Multiple Subgroups): Berkshire, Stine, Actis, Bill Williams, Douglas Miller, Amy B. Seibert, O.J. Actis, Tevis, Earl Warren, Loudon

The district will implement a multi-tiered approach to address persistent math underperformance through targeted instructional support by student groups at each site, as indicated in each School Plan for Student Achievement. For students with Disabilities (SWD), the focus sites are: Berkshire, Castle, Sing Lum, Miller, Panama, Seibert, Van Horn, Bill Williams, Whitley, Actis, Stonecreek, Tevis, Earl Warren. Through ongoing professional learning in math foundations and “Five Practices for Orchestrating Mathematical Discussions,” strategies to support conceptual understanding, accessible discourse, and equity in instructional practices will be provided.

For identified English Learners and Long-Term English Learners, math instruction aligned with the ELD Framework, emphasizing mathematical language routines, scaffolded problem-solving, and sentence frames to support reasoning. For identified African American students, math PD will integrate culturally responsive teaching, affirming student identity while addressing misconceptions and strengthening math confidence through a sense of belonging. Identified Hispanic and Socioeconomically Disadvantaged students will be exposed to the use of contextualized and real-world math problems, frequent checks for understanding, and targeted intervention as outlined in the SPSA.

Monthly site administrator training will address:

- Instructional Consistency: Implementation of updated math curriculum maps and Five Practices templates to ensure alignment and instructional coherence.
- Curriculum Alignment: Deepen understanding of the 2023 California Mathematics Framework and district-adopted materials to ensure standards-based delivery.
- Supplemental Materials Review: Identify and approve supplemental materials aligned to student needs and standards—particularly for SWD and ELs.
- Coaching and Monitoring: Deploy site-based instructional coaching to support fidelity and adjust interventions based on formative data.

ELD

The District continues to prioritize equitable access to high-quality English Language Development (ELD) for all English learners (ELs), especially in light of concerning performance data reflected in the 2024 California School Dashboard. While 51.1% of English learners demonstrated progress on the English Learner Progress Indicator (ELPI), only 33% maintained their level and 14% declined—underscoring a substantial gap in consistent language development. Long-Term English Learners (LTELs) remain a particularly vulnerable subgroup, showing a 52.9% ELPI progress rate but scoring in the Red performance band alongside Students with Disabilities and Homeless Youth.

In 2023–24, the District launched a systemic ELD needs assessment that revealed key implementation gaps:

- Inconsistent teacher familiarity with the district-adopted designated ELD curriculum.
- Limited understanding of the spiraling design embedded in the curriculum's scaffolded resources.
- Insufficient integration of language objectives alongside content objectives in core subjects.

A rise in Newcomer enrollment requiring urgent support at both the instructional and systems levels. To address these gaps, the District will expand its 2025–26 strategic efforts to include:

- Targeted Support to Schools in Red ELPI Status: Roy W. Loudon Elementary, Douglas J. Miller Elementary, Ronald Reagan Elementary, Wayne Van Horn Elementary, and Bill L. Williams Elementary will receive priority for language and literacy-focused interventions. Each school has embedded aligned actions within their SPSAs to promote EL achievement in both designated and integrated ELD contexts.

Districtwide Leadership Capacity Building: Monthly professional learning sessions for administrators will emphasize:

- Consistency in Instruction: Ensuring daily delivery of the adopted curriculum across all sites.
- Curriculum Alignment: Training leaders to monitor intentional spiraling and standards alignment through newly developed curriculum maps.
- Integrated ELD Practices: Supporting teachers in embedding language development into all content areas with clear language objectives.
- Supplemental Materials Review: Assessing and curating ELD supplements to fill learning gaps while ensuring curricular cohesion.

Support for Newcomers: Schools with high Newcomer populations will receive differentiated coaching and instructional materials aligned to foundational English proficiency and cultural orientation.

On-Site Coaching and Monitoring: Instructional coaches and ELD experts will provide sustained site-level modeling, feedback loops, and teacher training anchored in the ELA/ELD framework to boost classroom implementation and student outcomes.

This ELD plan is a core pillar of the District's commitment to improved services for EL's and will be measured using ELPI trends, site benchmark data, and EL reclassification rates. This ensures that every English learner—particularly those in the red performance band—has access to effective instruction and resources needed to succeed.

PRIORITY 5- STUDENT ENGAGEMENT- STATE AND LOCAL DATA

 Panama-Buena Vista Union School District California School Dashboard Indicator Comparison 		
PRIORITY 5 STUDENT ENGAGEMENT		
Chronic Absenteeism		
2023	2024	CHANGE Since 2022
26.70%	22.30%	
Declined 13.6%	Declined 4.5%	Down 18.1%
SUBGROUPS		
African American	African American	
Asian	American Indian	
ELs	Asian	
Filipino	ELs	
Foster Youth	Filipino	
Hispanic	Hispanic	
Homeless	LTELs	
Two or More Races	Two or More Races	
SED	SED	
SWD	SWD	
White	White	
American Indian	Foster Youth	
Pac Islander	Homeless	
	Pac Islander	

SUCSESSES:

Building upon prior success, the 2024 California School Dashboard data affirms the District's continued momentum in improving student engagement, particularly in reducing chronic absenteeism. For the second consecutive year, no student group met the criteria for Red performance on the Chronic Absenteeism Indicator. The overall chronic absenteeism rate decreased by 4.5%, moving the "All Students" group to the Yellow performance band, demonstrating sustained district wide improvement.

Significant reductions were observed among key unduplicated pupil groups:

- English Learners improved by 5.3%, now reporting a 19.37% rate – maintaining their status in the Yellow band.
- Socioeconomically Disadvantaged (SED) students improved by 4.8%, also landing in the Yellow performance band with a 21.86% rate.
- Long-Term English Learners (LTE) demonstrated one of the largest improvements at 8.6%, reaching a 27.94% rate and maintaining Yellow status despite ongoing challenges.

This continued progress reflects the effectiveness of site-level implementation of a Multi-Tiered System of Support (MTSS) framework for attendance. District leadership supported all school sites in sustaining efforts across the three tiers, including:

- Activation of dedicated attendance teams
- Implementation of relationship-based interventions to strengthen student connection to school
- Use of case management to identify and address barriers to attendance
- Promotion of attendance awareness campaigns with students and families

For 2025–26, the District will deepen its commitment by:

- Expanding professional learning for site teams on chronic absenteeism data analysis and equity-driven attendance strategies
- Leveraging attendance trend data to proactively target schools and subgroups with disproportionate absenteeism
- Enhancing collaborations with family outreach liaisons to reduce systemic barriers and promote daily attendance

These strategies are embedded in Goal 3 actions under Priority 5 and will be monitored via disaggregated chronic absenteeism data and local attendance engagement metrics.

CHALLENGES:

While the District celebrates overall reductions in chronic absenteeism and no student groups in the Red performance band at the LEA level, the 2024 Dashboard reveals persistent disparities at the school and subgroup levels that demand focused attention and refinement of strategies. Chronic absenteeism remains a critical challenge, particularly for Unhoused and Foster Youth, who scored in the Red performance band with a 26% rate—an increase of 0.7% from the prior year. Additionally, school-level Dashboard data has identified several schools requiring urgent support due to Red indicators in Chronic Absenteeism for specific student groups. These include:

- Tevis Junior High
- Earl Warren Junior High

Key student groups impacted at these sites include Two or More Races, African American, and Students with Disabilities, indicating a need for targeted and culturally responsive engagement strategies.

District analysis affirms that while structures such as attendance teams and MTSS-based tiered supports are in place, there is a continued need to refine and reinforce practices, particularly in the following areas:

- Attendance Awareness Campaigns: Greater emphasis on proactive, culturally tailored outreach to families and students.
- Clarity of Roles: Need for explicit definitions of staff responsibilities and interdepartmental collaboration.
- Protocols and Tools: Uniform, districtwide systems for assessing attendance trends and intervening across all three tiers.
- Professional Learning: Ongoing district-led training focused on evidence-based attendance interventions and progress monitoring.

To address these challenges, District leadership—including Principal Supervisors—will provide direct support to the schools listed above. Supports will include:

- Root cause analysis of site-specific chronic absenteeism patterns
- Guidance on implementing evidence-based strategies such as culturally relevant engagement and individualized case management
- Training and coaching to build site capacity for progress monitoring of targeted subgroups

Each identified school has incorporated aligned attendance improvement strategies into their School Plans for Student Achievement (SPSAs), and district oversight will ensure coherence, implementation fidelity, and equity-driven monitoring throughout the 2025–26 school year.

PRIORITY 6- SCHOOL CLIMATE- STATE AND LOCAL DATA

 Panama-Buena Vista Union School District California School Dashboard Indicator Comparison 		
PRIORITY 6		
SCHOOL CLIMATE		
Suspension Rate		
2023	2024	CHANGE Since 2022
2.70%	2.20%	
Maintained 0.1%	Declined 0.6%	Down 0.4%
STUDENT GROUPS		
American Indian	Asian	
Asian	ELs	
White	Hispanic	
ELs	Pac Islander	
Filipino	SED	
Hispanic	African American	
Homeless	LTELs	
Two or More Races	Two or More Races	
Pac Islander	SWD	
SED	White	
SWD	American Indian	
African American	Filipino	
Foster Youth	Foster Youth	
	Homeless	

SUCSESSES:

The District continues to demonstrate growth in fostering supportive, inclusive, and responsive school climates, as evidenced by performance on the 2024 California School Dashboard Suspension Rate Indicator. In 2022–23, the District maintained a 2.7% suspension rate for all students, classified as Yellow, and saw declines in suspension rates among several groups, including Unhoused Youth, American Indian, and White students. Building upon this foundation, the 2024 Dashboard indicates further improvement, with the All Students suspension rate decreasing to 2.2%, moving the performance level to Green—a notable achievement that reflects strengthened districtwide climate practices.

Other student groups maintaining or improving suspension outcomes include:

- English Learners: Green status, improving by 0.9% to a 1.5% suspension rate.
- Socioeconomically Disadvantaged (SED): Green status, improving by 0.6% to 2.6%.
- Long-Term English Learners (LTEL): Despite being in the Yellow performance band, showed a significant increase of 5.3% in suspensions, highlighting an area of emerging concern.
- Foster Youth, however, continue to struggle discipline wise, with a 13.4% suspension rate, placing them in the Red performance band despite a 1.5% decline from the previous year.

These outcomes are the result of deliberate district and school site efforts to address the multifaceted needs of students beyond academics—particularly through a Multi-Tiered System of Support (MTSS) that prioritizes equity, trauma-informed practices, and social-emotional learning. District leadership has led initiatives to expand Tier 1 universal supports, provide trauma and SEL-aligned training, and equip school teams to proactively support student behavior and well-being.

To sustain and deepen this progress in 2025–26, the District will:

- Intensify restorative practices and alternatives to suspension especially at sites serving high-need populations such as Unhoused youth, Foster Youth and LTELs.
- Expand Tier 1 SEL programming and culturally responsive engagement strategies.
- Provide coaching and capacity-building for site administrators in analyzing discipline data and reducing disproportionality.
- Strengthen collaboration with families and community partners to address external factors influencing student behavior.

This comprehensive climate improvement approach remains a cornerstone of the District’s LCAP, ensuring that all students feel safe, supported, and ready to learn.

CHALLENGES:

Despite continued progress in some areas of school climate, district-level analysis of the 2024 California School Dashboard reveals persistent and emerging challenges that underscore the need for further system refinement and targeted intervention.

Most notably, Unhoused Youth and Foster Youth continue to experience significant disproportionality, with a 13.4% suspension rate, placing them in the Red performance band. Additionally, Long-Term English Learners (LTELs) remain in the Yellow performance level, with an increase in suspension rate of 5.3%, reaching 4.5%—signaling an urgent need for deeper behavioral support and engagement strategies.

School sites identified for focused district support due to Red indicators in suspension include:

- Amy B. Seibert Elementary
- Leo B. Hart Elementary

These schools have shown suspension disparities for key student groups, including Socioeconomically Disadvantaged (SED), African American, and Hispanic, students.

To address these challenges, district leadership has recognized the need for:

- Refining MTSS structures to clarify team roles, protocols for identifying student needs, and systems for matching interventions to those needs.
- Strengthening progress monitoring across all schools to ensure consistent follow-up and data-driven adjustments.
- Enhancing professional learning centered on proactive, instructive, and restorative practices as alternatives to suspension.
- Implementing Social Emotional Learning (SEL) strategies districtwide to cultivate strong relationships and emotional safety across school communities.

In response, Principal Supervisors will provide targeted coaching and capacity-building to the identified schools by:

- Conducting root cause analyses of discipline data
- Facilitating professional learning communities (PLCs) on restorative practices and trauma-informed approaches
- Supporting implementation of site-level strategies identified in each school's School Plan for Student Achievement (SPSA)
- Coordinating with counseling and wellness teams to embed tiered behavioral and SEL supports

The district is especially committed to ensuring that Unhoused Youth and Foster Youth receive relationally grounded, proactive support. Professional development will emphasize evidence-based strategies to reduce disproportionality and promote inclusive school climates where all students thrive and have a sense of belonging.

Through the above mentioned work, we have identified each school site and area of need, to include the corresponding state priority, goal and action that will support the necessary work needed to mitigate the challenges and create a growth model within our infrastructure:

LEARNING RECOVERY AND EMERGENCY BLOCK GRANT FUNDS:

The District anticipates having approximately \$15 million available in Learning Recovery Emergency Block Grant funds for the 2025-26 through 2027-28 school years. For the 2025-26 school year, approximately \$5 million will be allocated to Goal 1, Goal 2, Goal 3 and Goal 4. The P-BVUSD needs assessment substantiated findings from the 2024 Dashboard related to academic outcomes in ELA, Math and chronic absenteeism.

A review of state and local data indicates significant academic needs in the areas of ELA and Math, among Students with Disabilities, African American students, English Learners, Socioeconomically Disadvantaged students, Foster Youth and Homeless/Unhoused Youth. Based on this, Goal 1: Actions 1.4, 1.5, 1.9, 1.12, Goal 2: Action 2.3, and Goal 4: Action 4.2 directly address the need to provide additional supports through materials, interventions, and professional development to ensure student learning needs are met, increasing engagement in school and closing achievement gaps.

GOAL 1

-1.4 (Professional Learning & Instructional Materials - \$750,000), 1.5 (Math Curriculum and Materials - \$1,500,000) and 1.9 (ELA & Math Supplemental Materials - \$500,000): Funds will be used to provide Professional Development for the new Math Framework, the ELA/ELD Framework, and to support the co-teaching model in our Junior High Schools.

-1.12 (Intervention Support - \$500,000): Funds will be used to provide extra duty funds to support early intervention for our unduplicated students, African American students, unhoused students, and our students with disabilities.

GOAL 2

-2.3 (Foundational Literacy Training - \$500,000): Funds will be used to provide training for teachers to support foundational literacy skills, including the purchase of UFLI curriculum and supplies.

GOAL 4

-4.2 (Professional Learning - Newcomer Supports - \$500,000): Funds will be used to provide access to additional professional learning to increase the capacity of our certificated staff in order to support our English Learners.

A review of state and local data indicates significant chronic absenteeism among Students with Disabilities, African American Students, English Learners, Socioeconomically Disadvantaged Students, Foster Youth and Homeless/Unhoused Youth. Based on this, Goal 3: Actions 3.3 and 3.7 directly address the need to motivate students to engage more consistently in their education and provide accessible counseling, crisis intervention and professional development to support students in building resilience, develop coping strategies and managing the emotional toll of their current circumstances.

GOAL 3

-3.3 (MTSS - \$250,000): Funds will be used to purchase software and supplies to support Assistant Principals and other staff such as Impact Teachers, to provide substance abuse counseling services for students, to provide a consultant to facilitate the MTSS advisory team and enhance restorative disciplinary practices, and to purchase Tier 1 and possibly Tier 2 curriculum and training to support our most needy students.

-3.7 (Professional Learning - SEL & MTSS - \$500,000): Funds will be used to provide access to additional professional learning for our administrators, teachers and classified staff to enhance our school-based supports for all students, but especially our most vulnerable populations.

ELA- RED/LOW/VERY LOW INDICATORS IMPLEMENTATION

GOAL 1: Ensure all students have access to equitable conditions of learning by providing and investing in highly qualified staff, well-maintained facilities, and equipment, as well as robust standards-aligned instructional materials and resources.		GOAL 2: Provide every P-BVUSD student an educational program with standards-aligned instruction, fidelity to district programs and practices, and robust, rigorous learning experiences inside and outside the classroom so that all students will show progress toward meeting or exceeding state standards.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

During the 2023-2024 school year, P-BVUSD became eligible for Differentiated Assistance for two student groups, Foster Youth and McKinney-Vento Youth, in the areas of CAASPP, Chronic Absenteeism, and Suspension. As a result, an initial team was established including representatives from Instructional, Educational, and Special Services Divisions as well as site administrators to engage in the exploration phase of the Continuous Improvement Processes (CIP) facilitated by Kern County Superintendent of Schools (KCSOS). The identified problem of practice was: "P-BVUSD inconsistent district and school-based implementation of social-emotional & behavioral supports for all students, leading to poor academic achievement, particularly for our most vulnerable students."

Root causes included:

- 1) A multi-year district-wide MTSS strategic plan, which includes social-emotional, behavioral and academic supports, has not yet been created.
- 2) MTSS implementation expectations have not been clearly defined and communicated across district and site leadership.
- 3) A process to progress monitor the fidelity of MTSS implementation has not yet been established.

Through our work with KCSOS, the analysis of achievement data, review of educational partner feedback, and review of the needs assessment, actions were created to address the unique learning needs of our Foster and McKinney-Vento Youth students. Through analysis of educational partner feedback and review of the needs assessment, LCAP actions were developed to address the specific needs of our most vulnerable youth, including Foster and McKinney-Vento Youth and the following Theory of Action was developed: “If have a multi-year districtwide MTSS strategic plan and if we provide clear MTSS implementation expectations communicated across district and site leadership and if we have a process to monitor the fidelity of MTSS implementation, P-BVUSD will have consistent district and school-based implementation of social-emotional & behavioral supports for all students, leading to increased academic achievement, particularly for our most vulnerable students.”

For instance, Tier 1 support will be expanded through a lens of cultural responsiveness, ensuring equitable opportunities for priority student groups. Additionally, a second team is being established for the pre-implementation and implementation phases of the CIP process. This district workgroup will be focused on a district-wide MTSS framework, which will include disciplinary, attendance, academic and social-emotional practices. This group will establish guidance and professional learning emphasizing evidence-based practices in the areas previously mentioned.

SUSPENSIONS- RED INDICATORS IMPLEMENTATION

GOAL 3:

Provide healthy, safe, and inclusive learning environments that actively engage all students, staff, families, and community. Our whole child, whole community approach will prioritize positive relationships, educational equity, and shared responsibility with all educational partners, maximizing academic and social outcomes for each student.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Administration, Principals, Teachers	Conducted our annual Leadership Summit during the summer of 2024 to promote the District's priorities focused around the goals outlined in the 2024-2025 LCAP. District divisions were present to support the identified goals and provide opportunities to engage in collaborative exchange. [July, August 2025]
LCAP Student Advisory Committee	Met with members of the Student Advisory Board to request input related to student needs, possible actions to address needs, and potential updates to the LCAP. [October, December, March, May 2025]
Administration, Principals, Teachers, other Personnel, Bargaining Unit(s), Students, Parents and Broader Community Members.	Hosted a series of Educational Partner Input Sessions through Zoom and in person to promote participation and gather feedback regarding the current LCAP goals and actions and to identify the qualitative needs across the district. Once revised, additional sessions with the new goals and actions were provided for updates on the new 25-26 LCAP. Text alerts and emails were sent through ParentSquare. Additionally, the community was notified through the district's Facebook, Instagram and website page [February - May 2025: 29 meeting opportunities]
All Staff, Families and Students	Surveyed educational partner groups to request input related to student needs, possible actions to address needs, and potential updates to the LCAP through input sessions. The survey was also posted on the district website for access. Additionally, a survey link was provided during the months of February, March, and April through text alert and email. [February-April 2025]

Educational Partner(s)	Process for Engagement
All Staff	All site administrators conducted LCAP review sessions at all sites to review the current LCAP goals and actions and allow all staff an opportunity to provide input for the 2025-2026 LCAP and a survey link was provided. [March-April 2025]
Bargaining Units	Met with CSEA, P-BVTA, and Teamsters to request feedback to inform the LCAP development. [February-March, May 2025]
Students and Parents	Provided information and opportunities to complete the LCAP Survey through the District Track Meet to request input related to student needs and potential updates to the LCAP. Technology stations were provided for parents to access the survey link, as well as a QR code. [March 2025]
Parent Advisory Committee: English Learner Parent Advisory Committee, District Advisory Committee	Presented the 2024-2025 LCAP to the District Advisory Committee [March 2025] and the English Learner Parent Advisory Committee [March 2025]. The survey link was provided for initial feedback to inform the changes to the new 2025-2026 LCAP. Presented the 2025-2026 LCAP to the District Advisory Committee [May 2025] and the English Learner Parent Advisory Committee [May 2025]. No questions were submitted requiring Superintendent response. [May 2025]
SELPA administrator	Met monthly with the SELPA administrator and the district Special Education team to determine that specific actions for students with disabilities (SWDs) are included in the LCAP. This included, but was not limited to: Reviewing data for SWDs to identify areas of challenge, specific needs; Identifying specific actions in the LCAP to address student needs; and identifying professional development opportunities needed to support the capacity of teachers and administrators serving SWD. [Monthly]
CAC Advisory Committee	Presented the 2024-2025 LCAP to the SELPA Community Advisory Committee [April 2025]. The survey link was provided for initial feedback to inform the changes to the new 2025-2026 LCAP. Presented the 2025-2026 LCAP to the SELPA Community Advisory Committee [May 2025] and the English Learner Parent Advisory

Educational Partner(s)	Process for Engagement
	Committee [May 2025]. No questions were submitted requiring Superintendent response. [May 2025].
LCAP Advisory Committee	Met monthly to monitor the goals and actions within the 2024-2025 LCAP using the identified metrics. The team employed the continuous improvement process to develop the new goals and actions for the 2025-2026 LCAP and identify opportunities needed to communicate the plan. [August 2024-June 2025]
All Educational Partners	Held a public hearing to solicit the recommendations and comments of members of the public regarding the specific actions and expenditures proposed in the new LCAP [June 2025]
All Educational Partners	Adopted the LCAP, LCAP Federal Addendum and the budget at the board meeting and presented Local Indicator data as a non-consent item [June 2025]
All Educational Partners	Posted the adopted LCAP prominently on our district web page [July 2025]

PILLARS OF EXCELLENCE
STRATEGIC PLAN PRIORITIES
2024-2027

PRIORITY 1
STUDENT ACIEVEMENT

• LOCAL CONTROL ACCOUNTABILITY PLAN

2025-2026 LCAP Survey Item	Families	Staff
The school/district's academic program is of high quality.	72.9%	78.8%
The school/district has adequate instructional supplies to support student learning.	82.3%	78.3%
Students have adequate access to academic supports	51.1%	68.9%

PRIORITY 2 DIVERSE LEARNING ORGANIZATION

• LOCAL CONTROL ACCOUNTABILITY PLAN

2025-2026 LCAP Survey Item	Families	Staff
Feel it is easy for students to talk to teachers/staff at school.	75.7%	83.2%
Feel teachers and staff care about students.	79.7%	91.8%
If a student is absent, an adult at school will notice.	86.8%	89.5%

PRIORITY 3 WELLNESS, SAFETY & EQUITY FOR ALL

• LOCAL CONTROL ACCOUNTABILITY PLAN

2025-2026 LCAP Survey Item	Families	Staff
Report students feel safe at school (physically, emotionally, etc.).	80.1%	80.4%
Feel their school is clean, safe, and in good condition.	84%	78.8%
Report students know where to go for help at school when needed.	80.4%	82.7%

PRIORITY 4 FAMILY & COMMUNITY PARTNERSHIPS

• LOCAL CONTROL ACCOUNTABILITY PLAN

2025-2026 LCAP Survey Item	Families	Staff
Feel families feel like they belong when visiting their school/district	78.4%	73%
Feel families have opportunities to take part in decisions made at their school	75.9%	85.6%
Feel their school/district provides family participation opportunities	84%	85%

As a district, we value the voice and feedback our educational partners provide and the role they play in identifying the needs of the students in the district. Our Strategic Plan focuses on creating meaningful partnerships with families, community organizations, higher education institutions and businesses to achieve the District's vision of "Excellence in Education." For this reason, we strive to engage all educational partners in the process of developing and annually updating our LCAP. In addition, we felt it was important to hear from the Student Advisory Board to provide student voice in the process of analyzing and updating the 2025-2026 LCAP and will continue to engage our students in this ongoing improvement cycle and shared decision making.

The mid-year survey was given to Educational Partners during multiple informational forum opportunities with 1240 responses, providing the following outcomes to help shape the district's goals and actions.

Educational Partners expressed the need for:

HOME SURVEY FEEDBACK:

GOAL 1:

- Diverse Curriculum and Cultural Competency: Parents are requesting a more diverse curriculum that celebrates different cultures and enhances cultural competency among students and staff.
- Communication and Support: Parents feel that there is a lack of communication between teachers and parents regarding classroom activities, homework, and upcoming tests. Junior High parents express the need to understand "how middle school works."

- Educational Quality: Some parents feel that the district is behind in terms of educational standards and preparation for higher levels of schooling. They also express the need for hands-on science education and adequate resources for music and sports programs.
- Elective Expansion: Some parents are looking for enhancements in electives and extracurricular domains that go beyond the basics.

GOAL 2:

- Academic Supports: Some parents feel the need for more support for students, both academically and emotionally through tutoring and additional academic support.
- Rigor and Practice Opportunities: Some parents are looking for greater academic challenge and practice for their children, which reinforces the focus on robust learning experiences.
- Meeting Standards: Parents consistently indicated the desire for high academic standards and academic progress for all grades.
- Support for Advanced Learners: Parents expressed a need for a focus on bringing students up to standard, providing more challenging learning experiences.
- College and Career Preparation: Continued support for college and career readiness programs is appreciated by parents, as it helps students explore various career paths and make informed decisions about their future.
- Communication on Academic Options: some parents are not aware of academic programs or options available to students needing additional support.
- Support for Special Education: There's a need for additional support and resources for students with special needs, including access to inclusive programs, tutoring, and specialized care.

GOAL 3:

- Focus on Safety and Wellness: Parents strongly validated the emphasis on student safety and well-being. Many parents highlighted the importance of counseling and anti-bullying efforts, which aligns directly with the intent to create a safe and inclusive environment.
- Positive Relationships and Engagement: Parents appreciate the district's existing family engagement and school climate initiatives, showing alignment with the focus on shared responsibility and partnerships.
- Whole Child Support: Parents also echoed the importance of addressing whole-child needs. Several survey responses touched on issues that affect student attendance and health, such as illness, mental health, and family circumstances.
- Mental Health and Wellness Support: Parents emphasize the importance of mental health services and resources for both students and families. This includes access to counselors, social workers, and support for children with special needs.
- Communication and Notification Issues: Some parents identified shortcomings in how the district communicates, revealing a disconnect in practice. A notable concern was the timeliness and consistency of notifications to parents.
- Barriers to Family Engagement: The survey responses highlighted practical barriers that prevent some families from fully participating in school events. Several parents pointed out that the time of day of events and lack of childcare options make it difficult for them to engage.
- Support for Non-English Speaking and Newcomer Families: An area of need lies in fully including families from diverse linguistic or cultural backgrounds to support cultural responsiveness and shared responsibility. Responses suggest some families feel left behind.
- Affirming and Supportive Teachers: Encourage teachers to cultivate a warm and supportive classroom environment where students feel valued and encouraged. Teachers should also emphasize the importance of homework and provide encouragement and assistance to students as needed.

GOAL 4:

- Recognition of English Learner Needs: Parents highlighted the need for “a more diverse curriculum to support language acquisition” and “consistent ELD components that meet students’ needs.”
- Support for Bilingual Programs: Parents indicated they value programs which benefit English learners, suggesting alignment with Goal 4. Notably, parents showed enthusiasm for the district’s dual immersion program – an initiative that directly supports EL students by building bilingualism and biliteracy.
- Limited Direct Feedback from English Learner Families: The relative lack of direct comments from parents of English learners suggests a disconnect in engagement – the families most impacted by EL initiatives may not have fully participated.
- Classroom Support: Parents expressed the need to ensure all teachers are equipped to support EL students, not just specialists. Stakeholder feedback called for “professional development tailored to...supporting English language learners (ELLs).
- Expanded Newcomer and Family Supports: The survey feedback suggests ideas to bolster support for students who are still learning English and their families. One growth opportunity is to provide additional resources for newcomers (recent immigrants or first-time English learners).
- Bilingual Staff: Hire more bilingual staff members, especially in front office roles, to better serve the needs of the diverse student population and their families.

STAFF SURVEY FEEDBACK:

GOAL 1:

- Specific Professional Development for Differentiated Instruction and Special Populations: Teachers are seeking professional development tailored to specific needs, including differentiated instruction, working with students with special needs, and supporting English language learners (ELs) and newcomers.
- Implementation Expectations: While some staff agreed that the district is making progress on providing equitable conditions of learning, a significant number signaled uncertainty or concern.
- Fidelity to Curriculum: Staff feel there is lack of consistency of curriculum implementation and availability of support.
- Support Staff Training: Staff asked for additional structured training and support for all paraprofessional personnel to better implement curriculum in the classroom.
- Science Curriculum: The current science curriculum, such as Amplify, is perceived as inadequate, lacking hands-on activities and alignment with Next Generation Science Standards (NGSS).
- Equity and Access: There's a need for equitable access to resources and materials across schools, as well as support for diverse learners, including newcomers and students with special needs.
- Instructional Implementation: Staff expressed a desire for more autonomy and planning time to implement adopted curricula effectively.
- Academic Support: Tutoring programs, both during and after school, are essential for students who need additional help with their studies. Reading intervention programs like Read 180 and resources for English Language Development (ELD) are also necessary.
- Clear Expectations and Support for New Teachers: New teachers are seeking clear expectations and support, including onboarding training, mentorship, and guidance on curriculum implementation.
- Staffing: Staff is concerned about resource equity—many classrooms (esp. in lower grades or with high needs) lack aides or appropriate staffing.

GOAL 2:

- Support for Rigorous Instruction: Staff expressed support for providing all students with standards-aligned, rigorous learning experiences.
- Equity and Access: There's a need for equitable access to resources and materials across schools, as well as support for diverse learners, including newcomers and students with special needs.
- Assessment: Some teachers express concerns about the frequency and impact of district assessments, suggesting a need for alignment with state standards and reduced workload to focus more on instruction.
- Professional Development and Support: Teachers express a need for more training and support, particularly in areas such as technology integration, science and history curriculum implementation.
- Resources and Support: Staff feel more hands-on support, intervention programs, and personnel are needed so that all students can truly make progress toward state standards.
- Co-Teaching Support: Staff feels frequent requests for special services support and clarification on inclusive practices would be best supported through the co-teaching approach.

GOAL 3:

- Student Behavior a Major Priority: The strongest sentiment under Goal 3 (school climate and student engagement) was concern about student behavior and its impact on learning. Staff across roles reported that disruptive behaviors are on the rise and current supports are insufficient.
- Social Emotional Learning Support: Many employees believe a comprehensive Social-Emotional Learning curriculum is overdue, as well as, trauma-informed care, and behavior interventions to support the social and emotional needs of students.
- Parent Resource Centers: Establishing parent centers at each school site could serve as hubs for providing resources, workshops, and community collaboration to support families.
- Additional Professional Development for Support Staff: Staff shows strong support for creating healthy, safe, and inclusive schools, coupled with a plea for more concrete supports (SEL curriculum, behavior training, counseling services) by providing support staff additional training to meet these diverse behavioral needs.

GOAL 4:

- Language Support: Improved translation services are needed to ensure effective communication with families who speak languages other than English, such as Punjabi and Spanish. Additionally, providing English as a Second Language (ESL) classes and resources specifically tailored to newcomers would be beneficial.
- Expanding Learning Opportunities: Staff feels broadening student opportunities and ensuring equitable outcomes for all student groups highlights is key to student success. It was suggested increasing expanding programs for younger learners.
- Equitable Access Across Schools: Staff expressed the need to make sure that all student subgroups and all school sites benefit equally from district initiatives. Disparities in support personnel between campuses is "an equity issue" that "some campuses... have the support and others don't."

STUDENT SURVEY FEEDBACK:

SAFETY:

- Define consequences for students not following safety rules.

STUDENT ENGAGEMENT AND ACTIVITIES:

- Pride token store (reusable tokens): Implement a reward system that is inclusive of all students, such as a Pride token store, which can provide rewards that promote inclusion and acceptance.
- Student store: A school store offering a variety of affordable items can create a sense of pride and belonging.
- Inclusive events and social groups: Create events that celebrate different cultures, identities, and interests. Fund social groups and committees that foster inclusivity and diversity.
- Group Activities: More opportunities for students to connect through shared activities (sports, arts, clubs, etc.).

HEALTH & WELLNESS:

- Improve school lunch options with fresh, nutritious meals and more vegetarian choices.
- Talk time and emotional support: Provide spaces and programs that allow students to talk openly about their feelings, either through designated counselors, peer support groups, or during advisory periods.
- Trusting and supportive teachers: Foster an environment where teachers are approachable and dedicated to helping students feel safe and supported.
- Social events and mental health days: Organize events that focus on mental health awareness and overall well-being.
- Help students with homework: Create spaces like homework clubs or online platforms for additional support.

EDUCATIONAL ENHANCEMENTS:

- Introduce new electives such as computer science, home economics, pottery, and language classes.
- More water stations: Increase the availability of water stations throughout the school to ensure that students have access to hydration.
- Longer hall periods: Ensure that students have enough time to get to class, reducing stress and fostering a more relaxed environment.
- More shade spots: Add more outdoor shaded areas where students can relax during breaks and lunch.
- More lockers around campus: Distribute lockers in different areas to reduce congestion and ensure students have a safe place for their belonging.

SCHOOL RESOURCES:

- More library books: Offer a wide variety of books to students, reflecting diverse interests and backgrounds.
- Better school lunches and snacks: Ensure that students have access to filling, nutritious meals and snacks during class time.
- Improved bathrooms: Renovate bathrooms to be cleaner, safer, and more inclusive, with enough space for students to feel comfortable.

Based on this feedback, the following themes emerged:

EQUITY AND ACCESS

- Diverse Curriculum & Electives: Curriculum that celebrates cultural diversity (especially from HOME families), broader elective offerings (e.g., CTE, arts, languages), and inclusive extracurricular options.
- Bilingual Support & Translation Services: Families and staff emphasize expanding bilingual staffing, front office accessibility, and translation services.
- Newcomer and EL Support: Consistent need for expanded newcomer programs, tailored ELD instruction, and professional development for all teachers—not just ELD specialists.

ACADEMIC SUPPORTS

- Instructional Quality & Alignment: Curriculum rigor, hands-on science, and preparation for next academic levels. Staff highlight inconsistent curriculum implementation, inequities in support personnel, and the need for more co-teaching.
- Tutoring & Enrichment: Parents and staff both ask for expanded academic intervention (tutoring, Read 180, etc.). Support for advanced learners and inclusion of enrichment opportunities.
- Support for Students with Disabilities (SWD): Emphasized need for inclusive practices, better resource allocation, and clearer instructional expectations for SWD.

SOCIAL-EMOTIONAL AND BEHAVIORAL SUPPORTS

- Student Behavior & SEL Support: Disruptive behavior and insufficient behavioral supports call for a formal SEL curriculum and trauma-informed professional development.
- Mental Health Services: Expanded counseling access, wellness check-ins, and advisory spaces to discuss emotions.
- Safety & Respectful Environments: Clearer consequences for behavior, inclusive events, and teachers who foster supportive relationships.

COMMUNICATION AND TRANSPARENCY

- Parent Communication Gaps: Clear communication from schools, particularly at the junior high level and in areas like homework, academic progress, and school operations.
- Academic Program Awareness: Information about academic pathways, support options, and program availability for students with specialized needs.

STUDENTS WITH SPECIAL NEEDS SUPPORTS

- Provide additional support and resources for students with special needs, including inclusive programs and specialized instruction.

FAMILY ENGAGEMENT AND BARRIERS TO PARTICIPATION

- Engagement Barriers: Challenges attending school events due to timing and lack of childcare. This is especially pronounced among working families and non-English speaking households.
- Resource Centers: Creating on-site hubs for family support and education, strengthening the district's community-school connection.

In response to the school connectedness and social-emotional learning needs, the district will implement a broad goal for MTSS that includes actions to support:

- Implementing an SEL program that best meets the need of the P-BVUSD students and implement a strong professional development plan with ongoing progress monitoring (Action 3.1)
- Explore the addition of Health and Wellness centers (Action 3.2)
- Continue to identify students at risk for chronic absenteeism, focusing on Foster and Unhoused Youth, while increasing services provided to these vulnerable youth to ensure they receive additional supports to keep them engaged in school (Action 3.5)

- Establish Family Resource centers to provide families with access to community-based services that address the needs related to SEL, student engagement, and mental health, as well as additional services for Foster Youth, Low-Income, English learners. (Action 3.6)
- Provide professional development to school staff to support the implementation of SEL strategies that address supporting the diverse needs of the whole child (Action 3.7)
- Explore the addition of Health and Wellness centers (Action 3.11)

In response to academic achievement, the district will implement a broad goal for equitable conditions that includes actions to support:

Ensuring professional development that promotes the new common core math framework and the instructional shifts that support the equity-based instructional model promoted in the the new framework (Action 1.5)
Alignment of Next Generation Science curriculum to current curriculum maps to support the integration of science into core instruction (Action 1.6)

In addition to informing the above goals, feedback from our educational partners has influenced additional aspects of our LCAP through the following:

- Providing equitable access to curricular materials for all students and additional resources to support intervention when needed
- Focusing on new teacher support and resources for longevity within the profession and district
- Training on literacy foundations and alignment of core curriculum to provide teachers with the necessary professional learning and resources
- Developing a more diverse curriculum to celebrate different cultures and enhance cultural humility among students and staff
- Researching opportunities to provide more bilingual staff members to better serve diverse student populations and their families
- Explore opportunities to support family engagement and daycare needs

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Ensure all students have access to equitable conditions of learning by providing and investing in highly qualified staff, well-maintained facilities and equipment, as well as robust standards-aligned instructional materials and resources.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Goal 1 was developed in alignment with the P-BVUSD Strategic Plan and the five pillars: Student Achievement; Diverse Learning Organization; Wellness, Safety and Equity for All; Family and Community Partnerships; and Fiscal Responsibility as well as in response to the needs identified through data analysis and input from educational partners.

Feedback from our educational partners indicates the need for:

- Well-trained administrators and teachers
- Academic supports for the diverse learning needs of our students
- Access to specialized academic programs
- Job-specific professional development
- Opportunities for professional development regarding district-adopted instructional materials

These needs are echoed in local data. Local data indicates:

- Currently 9% of teachers in P-BVUSD are not fully credentialed. There is a need to plan to recruit and sustain highly-qualified teachers.
- Inconsistent implementation of standards-based curriculum across the district based on observational data
- Inconsistent implementation of designated ELD curriculum across the district based on observational data

The district plans to improve access to equitable conditions of learning through actions that support and improve student learning. By providing equitable conditions, students will have the resources and accommodations needed to reach their full potential, regardless of any unique circumstance- including race, gender, disability, language, income or any other variable that might impair learning outcomes. These actions will support the development of critical skills, achieving academic goals and provide a sense of belonging.

Progress toward this goal will be measured using the metrics, actions and positions identified below:

25-26 POSITIONS SUPPORTING GOAL

GOAL I:

Ensure all students have access to equitable conditions of learning by providing and investing in highly qualified staff, well-maintained facilities, and equipment, as well as robust standards-aligned instructional materials and resources.

ACTION	POSITION	FTE QUANTITY
I.1	Admin. Support Asst. Director, Inst. Services	1 2

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Challenges and Considerations: While most actions were successfully implemented, the district continues to refine curriculum implementation fidelity and cross-site support for specialized programs. Recruiting and onboarding in high-need areas, such as special education, remains a challenge that will require renewed focus in 2025–26.

Action 1.1 Fully Credentialed Teachers-This action was partially implemented during the 2024–25 school year. The district successfully executed the full implementation of the teacher induction program, ensuring early-career educators received targeted mentoring and support aligned with professional growth goals. Additionally, the targeted professional development for administrators and academic coaches was fully delivered, focusing on instructional leadership, data-driven coaching, and support for priority student groups. The district continues to face challenges in placing and retaining effective teachers at schools with the highest needs.

Action 1.2 Academic Coaches- The district fully implemented monthly professional development for academic coaches as planned. These sessions were designed to deepen coaches' capacity to support high-quality instructional practices across all grade levels and content areas. Each monthly meeting provided a review of ongoing coaching cycles, focused training on evidence-based instructional strategies, with an emphasis on lesson design, student engagement, and formative assessment. Academic coaches were also trained to assist school sites with implementing Tier 1 and Tier 2 instructional supports.

Action 1.3 Library Media Clerks- All school sites successfully maintained access to diverse and inclusive reading collections that reflect the backgrounds and interests of our student populations. Library media clerks ensured that students had daily opportunities to access library resources, with libraries open before school and during lunch across all sites, increasing both independent reading time and student engagement with literacy. In addition, quarterly professional development for library media clerks was consistently provided focused on building culturally relevant collections, supporting reading intervention programs, and fostering a welcoming library environment aligned with site literacy goals.

Action 1.4 Professional Learning and Instructional Materials- Successfully strengthened the collective efficacy and accountability through the Stages of Implementation, utilizing high leverage instructional strategies based on current data. This was accomplished through a focus on goal setting and goal setting structures by training principals and their leadership teams. Supporting successfully aligned grade level standards, including identifying key learning progressions, ensuring educational equity and strong Tier I instructional practices with updated curriculum maps. The District provided all staff with materials, textbooks, and all adopted curriculum to provide quality instruction to all students.

Action 1.5 Math Curriculum and Materials- Successfully provided math tasks aligned to the curriculum maps by linking non-curricular and curricular tasks to math units for each grade level. Progress was also made in educating the Math Leadership Team on the California Mathematics Framework via monthly professional learning.

Action 1.6 Science Curriculum and Materials- Successfully aligned Amplify resources with ELA units for grades K-6. The Science Leadership Team also received professional learning in the NGSS Science Standards and began the work of prioritizing Amplify lessons that are aligned to the California Science standards.

Action 1.7 Access to Instructional Technology Resources- Successfully provided up-to-date and accessible internet-connected devices to all students, to ensure all students have access to the necessary technology for academic success. In addition, teachers were provided with the technological tools to help monitor data, support academic growth and guide instructional effectiveness.

Action 1.8 Technology Use Successfully maintained an environment where students learned the appropriate and ethical use of instructional technology tools. The Information Technology team filtered content, monitored software and age level permissions.

Action 1.9 ELA and Math Supplemental Materials - During the 2024-25 and 2025–26 academic year, the Panama-Buena Vista Union School District initiated implementation of Action 1.9 to ensure that teachers of students with disabilities in grades TK–8 consistently utilize district-adopted core curriculum, intervention materials aligned to Common Core State Standards, and supplemental instructional resources in English Language Arts (ELA) and Mathematics. These materials align with the Common Core State Standards (CCSS). Teachers are trained and expected to write IEP goals for students with academic needs aligned with the CCSS (or the Common Core Connectors (CCC)).

Action 1.10 Spec Ed Teacher Residency - (Not Implemented) Year 1 Pre-Implementation was to involve convening a task force and exploring partnerships with universities to support internal teacher candidates, particularly classified staff, in earning their special education credentials. This action was not implemented due to limited availability of district administrators and program specialists, who were engaged in other high-priority initiatives, the task force was not convened, and partnership discussions with universities did not take place.

Action 1.11 District Facilities- Successfully continued its commitment to providing safe, clean, and well-maintained learning environments by conducting frequent inspections and addressing identified concerns in a timely manner. These efforts included scheduled maintenance cycles, real-time response systems, and collaboration with site administrators to prioritize facility needs. Also advanced the upgrading of critical infrastructure to address safety hazards. This included lighting upgrades, secured entry points, and HVAC replacements to improve air quality. Currently, three schools are under active construction, each undergoing significant modernization to enhance school safety and meet evolving student and staff needs.

Action 1.12 Intervention Support- All schools delivered targeted small group instruction, designed to address foundational literacy gaps and accelerate progress for students performing below grade level. Intervention specialists and classroom teachers collaborated to ensure that instruction was aligned with core literacy standards and differentiated based on student needs. Monthly professional development was provided to all certificated staff, focusing on evidence-based literacy strategies, intervention frameworks, and the use of data to inform instruction.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

P-BVUSD conducted an analysis of material differences between Budgeted Expenditures and Estimated Actual Expenditures. The total amount budgeted for the 2024-25 LCAP Goal 1 was \$36,049,999. The estimated actual expenditures for the 2024-25 LCAP Goal 1 was \$34,763,990. The difference between Budgeted and Estimated Actual Expenditures for all projections related to personnel is primarily due to contract negotiations settlements occurring late in the fiscal year, with the majority of staff receiving a 1% on-schedule salary increase and a one-time \$1,000 off-schedule stipend. This increase in personnel costs was not accounted for in the original LCAP budget projections.

Other Non-Personnel differences were primarily due to:

Action 1.4- Instructional Materials: The District had lower than budgeted multi-year debt-service obligations on our textbook adoptions. The District will set aside funds budgeted but unspent this year to be used for the next textbook adoption..

Action 1.11- District Facilities: The district's lower-than-budgeted facilities expenditures were primarily due to the strategic use of one-time Capital Facilities funding and bond funds, which allowed us to address many of our maintenance needs without drawing from routine restricted maintenance accounts

Action 1.12- Intervention Support: The District had higher than budgeted expenditures for Tier 2 interventions reflecting our district's strategic investment in targeted supports aimed at closing achievement gaps. This proactive approach ensures that students receive the necessary support to succeed academically and behaviorally, aligning with best practices.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1.1 Fully Credentialed Teachers- This action was effective. The New Teacher Support team provided 42 professional development opportunities to candidates, including permits, interns, waivers and induction, as well as new candidate 3 day professional development and mentor support training through an intense onboarding process with 100% participation. Candidate peer observations increased from 125 in 23-24 to 154 in 24-25, an 18% increase. Professional development for all admin and academic coaches focused on closing achievement gaps through Progress and Proficiency Goal Setting at 100% of all schools, with an average of 3-5% growth in each grade level each monitoring period. Educational partner feedback led to a refinement of the district's teacher placement and staffing processes to ensure that high-need schools are prioritized in the hiring and placement of fully credentialed teachers. This shift supports the equitable distribution of qualified staff across all school sites, particularly those with the highest proportions of unduplicated pupils, as measured by a 4.24% decrease in non fully credentialed teachers district wide.

Action 1.2 Academic Coaches- This action was highly effective in advancing instructional leadership and improving support structures for both academic coaches and mentor teachers. 100% of new academic coaches received comprehensive onboarding support, ensuring consistency in expectations, tools, and coaching strategies across the district. Mentor teachers engaged in a robust professional learning model. All mentors were provided with 20 ongoing learning opportunities focused on cognitive coaching and instructional design, which directly supported their ability to guide new teachers. In addition, new mentor teachers completed a rigorous onboarding course through Point Loma Nazarene University, with 100% attendance across all participants. Returning mentors and academic coaches also received annual mentor support training, again with 100% participation, reinforcing district-wide alignment and the application of high-leverage coaching practices. Throughout the year, monthly professional development sessions were held for all academic coaches focusing on providing instructional support for ELA and Math. The effectiveness of the professional development can be seen in a 12.4% increase in SGP percentile growth on STAR Reading and a 10.2% on SGP percentile growth on SGP STAR Math. These sessions emphasized proficiency and progress goal setting, as well as the design of small-group instruction to either close learning gaps or accelerate student achievement. In total, 391 coaching cycles were implemented to support new and established teachers with additional instructional support.

Action 1.3 Library Media Clerks- During the 2024-2025 school year an average of 19.2 books were checked out by unduplicated students in the district for a total of 384,000 books circulated, indicating effectiveness of this action to ensure equitable opportunities and access to books at a variety of text complexity levels, including expanded library hours.

Action 1.4 Professional Learning and Instructional Materials- This action was effective. According to the LCAP staff survey, writing instruction has been identified as an area requiring focused attention. While the "Write from the Beginning" program has been initiated at select sites through a trainer-of-trainers model, there remains a clear and ongoing need for a comprehensive, district-wide training model supported by appropriate instructional materials. Additionally, the survey highlights several other key areas for professional development, including Social-Emotional Learning (SEL), behavior intervention strategies, trauma-informed care, technical support for district platforms, and the effective use of assessment tools. Effectiveness of this action can be evidenced through the decrease in distance from learning on 2024 CAASPP for Foster Youth (+14.7 points), Students with Disabilities (+.8 points) and English learner (+1.1 points). There continues to be a recognized desire for professional learning focused on special education practices and co-teaching methodologies.

Action 1.5 Math Curriculum and Materials- This action was effective. According to the staff survey in the comment section, the majority of staff would like a new math curriculum aligned with the 2023 California Mathematics Framework. Star Math data shows an increase in Star Math Benchmark outcomes for English Learners (+.7%) and Socioeconomically Disadvantaged +.2%). Overall 34.1% scored Proficient on the Middle of the Year Star Math District Benchmark, an increase of .5% from 2023-2024.

Action 1.6 Science Curriculum and Materials- This action was effective. The Science Leadership Team revised and updated the Curriculum Maps to be taught within the allotted instructional time provided for Science in each grade level. All Academic Coaches were provided training on curriculum maps, providing direct professional development to 100% of staff. In addition, 100% of staff was provided access to science curriculum training, to include district adopted science kit materials and manipulatives. The district is currently 14.6 points below standard based upon data from the California State Dashboard.

Action 1.7 Access to Instructional Technology Resources- This action was effective as indicated by 100% of 1st - 8th grade students have access to a 1-to-1 device. The district Continues to provide up-to-date and accessible internet-connected devices to all students, to ensure all students have access to the necessary technology for academic success. In addition, teachers were provided with the technological tools to help monitor data, support academic growth and guide instructional effectiveness.

Action 1.8 Technology Use- This action was effective. We improved practices in monitoring delivery and completion of Digital Citizenship lessons through 100% of 1:1 chrome book access in grades 1st-8th.

Action 1.9 Special Education Curriculum - This action was effective. A significant majority of staff survey respondents identifying themselves as working in a Special Education role agreed that instructional content delivered at their site or within the district is of high quality (39 out of 49 respondents). Additionally, 35 respondents affirmed that adequate instructional supplies (e.g., writing materials, books, manipulatives) are available, as evidenced by a full implementation rating of state adopted academic content and performance standards for all students.

Action 1.10 Spec Ed Teacher Residency - This action was not effective in meeting its intended outcomes. While the action was not fully implemented—due to the limited availability of district administrators and program specialists who were engaged in other high-priority

initiatives—the district recognizes the strategic importance of this work. As a result, the planned task force was not convened, and partnership discussions with universities did not take place during the 2024–25 school year.

Action 1.11 District Facilities- This action was effective in maintaining safe and well-functioning learning environments across the district. The Facility Inspection Tool (FIT) was utilized at 100% of school sites, ensuring that all facilities met state standards for cleanliness, safety, and operational condition. FIT results were consistently reviewed and used to inform maintenance priorities and timely response to facility needs, with 100% of schools in “Good Repair.”

Action 1.12 Intervention Support- This action was effective in providing targeted intervention supports across the district. Dedicated staff were assigned to deliver literacy-based intervention and small group instruction, which ensured that students with the greatest academic needs received focused, differentiated support. The intervention model was implemented consistently across school sites and included progress monitoring protocols that informed instructional adjustments. As a result of these efforts, the district observed growth in state STAR scores, indicating a 3% increase in reading proficiency mastery and a 4% decrease in students not meeting standard. Overall, 45% of all students showed reading mastery by mid year.

Despite these challenges, the district continues to view these actions as a high-value investment for future implementation.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 1 – Changes Based on Reflection: The district made targeted refinements to several actions under Goal 1 based on stakeholder feedback, implementation progress, and outcome data from 2024. While most metrics and target outcomes remain in place for 2025–26, adjustments were made to improve alignment with new state frameworks and increase internal capacity for future initiatives.

Action 1.1 Fully Credentialed Teachers: The district will refine its recruitment strategies, including earlier hiring timelines, targeted outreach, and collaboration with university partners to improve candidate pipelines. Additional emphasis will also be placed on retention supports, such as mentoring, induction, and leadership development opportunities, to encourage long-term placement of skilled educators in schools with the greatest instructional need. The decrease in funding is due to support staff salaries recognized in other goals and action items that support additional PD for all staff, not just new teachers.

Action 1.5 Math Curriculum and Materials- In response to staff feedback and in preparation for alignment with the 2023 California Mathematics Framework, the district advanced its math curriculum pilot timeline to begin in 2025–26, with adoption planned for 2026–27. This action will be supported by LREBG funds to provide additional support professional development for the new Math Framework, the ELA/ELD Framework, and to support the co-teaching model in our Junior High Schools.

Action 1.6 Science Curriculum and Materials- No structural changes, but the Science Leadership Team will continue to guide implementation of the updated curriculum maps and support integration with NGSS standards.

Action 1.8 Technology Use- A new Technology Scope and Sequence is being developed to support digital literacy and instructional technology integration across all grade levels.

Action 1.10 Special Education Residency Pilot- Pre-implementation tasks for the Special Education Teacher Residency will be integrated into the first semester of 2026–27. These include establishing university partnerships and launching recruitment strategies to support internal candidate pipelines. No new funds are allocated for this goal at this time. The SPED Pilot will be supported using current staff and existing resources. We will continue to monitor implementation and outcomes closely and make adjustments as needed to ensure appropriate support for students and staff.

Action 1.4, 1.9.& 1.12- These actions will be supported by LREBG funds to provide additional support professional development for the new Math Framework, the ELA/ELD Framework, and to support the co-teaching model in our Junior High Schools. Action 1.4: The decrease in funding is primarily due to the conclusion of one-time state and federal funding sources. As these temporary funds expired, ongoing expenditures were adjusted to reflect sustainable, general fund-supported initiatives aligned with long-term district priorities. The District has increased investment in staffing to support targeted literacy interventions for high-need student populations. This support is aimed at closing achievement gaps in Tier 2 to allow for success in Tier 1. In Action 1.12, the decrease in funding reflects changes in program needs. Staffing previously included in this goal for FY 24-25 has been moved to Goal 3.1 to better represent their broader contributions beyond instructional support. We will continue to monitor and make adjustments as needed to ensure effectiveness.

Action 1.9 - Metric 2.1 and 2.2 have been added to monitor progress. This action will be supported by LREBG funds to provide additional support professional development for the new Math Framework, the ELA/ELD Framework, and to provide the adoption of new curriculum.

Action 1.2, 1.3, 1.7, & 1.11 - No changes were made to the planned action, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26. Action 1.7: The decrease in funding is primarily due to the conclusion of one-time state and federal funding sources. As these temporary funds expired, ongoing expenditures were adjusted to reflect sustainable, general fund-supported initiatives aligned with long-term district priorities. Action 1.11- The decrease in funding is due to previous one-time funding to support Extra Duty timecarding to support the Induction Program has been removed due to the expiration of those funds. Support will continue to be provided through our Professional Development department as needed but Extra Duty timecarding opportunities may be reduced to match ongoing funding that is available.

Overall, these adjustments reflect the district's commitment to continuous improvement, alignment with state frameworks, and the strategic phasing of high-priority initiatives based on organizational capacity.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Fully Credentialed Teachers	District staff will ensure students have access to fully credentialed teachers by: a) Providing an induction program for first-year and second-year teachers to help them achieve their professional clear credentials and support them in becoming fully credentialed. b) Ensuring certificated staff members possess the appropriate teaching credentials for the class/section. c) Placing effective and experienced teachers at schools with high percentages of low income and minority students. d) Providing targeted professional development for administrators and academic coaches at schools with low income and minority students to ensure teachers are providing students with instruction in rigorous California aligned state standards.	\$698,907.00	Yes
1.2	Academic Coaches	Academic Coaches will: a) Provide professional development and support b) Coach and mentor teachers in improving instructional practices to meet the needs of students who are not meeting grade level proficiency c) Assist with support for MTSS Tier 1 and Tier 2, in order to improve academic achievement for students who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, unhoused, and students with disabilities. d) Receive ongoing professional development aligned to identified LCAP and district priorities.	\$5,488,231.00	Yes
1.3	Library Media Clerks	District staff will ensure:	\$2,553,300.00	Yes

Action #	Title	Description	Total Funds	Contributing
		a) Ongoing library access to diverse reading collections both in print and online to increase the literacy levels for students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, unhoused, and students with disabilities and teaching staff. b) Libraries will be accessible before school and during lunch to ensure the District's least resourced students have access to high quality literature.		
1.4	Professional Learning and Instructional Materials	District staff will work to provide professional learning opportunities focused on district adopted curriculum, Professional Learning Communities, and research-based teaching and learning strategies to: a) Strengthen collective efficacy and accountability through the Stages of Implementation, utilizing high leverage instructional strategies based on current data outcomes to ensure an equitable baseline across the district for all learners who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, Unhoused, and Students with Disabilities. b) Align grade level standards and identify key learning progressions ensuring educational equity and strong Tier I instructional practices. The District will provide all staff with materials, textbooks, and all adopted curriculum to provide quality instruction to all students. This Action will be supported with approximately \$750,000 in Learning Recovery Emergency Block Grant funding. Research identifies data-based individualized plans supporting weekly intervention through a systematic approach have a high effect size on students outcomes (Essentials of Intensive Intervention, Edmonds, Gandhi & Danielson). These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports in ELA and Math. Metrics used to measure the effectiveness of the identified supports are: -CAASPP ELA Assessments (Metric 2.1)	\$1,501,939.00	Yes

Action #	Title	Description	Total Funds	Contributing
		-CAASPP MATH Assessments (Metric 2.2)		
1.5	Math Curriculum and Materials	District staff will support the new Math Framework with a 3 year integration and implementation plan to support administrators and teachers with the implementation of the new framework: a) Year 1: Pre- Implementation (Change in Knowledge)-Provide math tasks aligned to the curriculum maps, providing ongoing professional learning through the Trainer of Trainer model. b) Year 2: Initial Implementation (Change in Practice)-Provide a structured professional learning framework that builds foundational knowledge and instructional capacity by implementing a pilot program of state-adopted curriculum materials. c) Year 3: Full Implementation(Change in Student Outcomes)- Adopt new math curriculum, based on pilot outcomes and staff feedback. This Action will be supported with approximately \$1,500,000 in Learning Recovery Emergency Block Grant funding. Research identifies data-based individualized plans supporting weekly intervention through a systematic approach have a high effect size on students outcomes (Essentials of Intensive Intervention, Edmonds, Gandhi & Danielson). These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports in ELA and Math. Metrics used to measure the effectiveness of the identified supports are: -CAASPP ELA Assessments (Metric 2.1) -CAASPP MATH Assessments (Metric 2.2)	\$1,500,000.00	No
1.6	Science Curriculum and Materials	District Staff will support a Next Generation Science (NGSS) 3 year integration plan to support teacher understanding and implementation of NGSS science practices in lesson design and utilization of adopted science materials.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Year 1: Pre- Implementation (Change in Knowledge)-Integrating Amplify resources on ELA curriculum maps Year 2: Initial Implementation (Change in Practice)-Integrating Phenomena into literacy and the use of the adopted science materials. Year 3: Full Implementation(Change in Student Outcomes)- Respond to newly reported California Dashboard data through the use of the California Science Test (CAST) interims.		
1.7	Access to Instructional Technology Resources	District staff will provide up-to-date and accessible internet-connected devices to all students, particularly for students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, Unhoused, and Students with Disabilities to ensure all students have access to the necessary technology for academic success. In addition, provide teachers with the technological tools to help monitor data, support academic growth and guide instructional effectiveness. Targeting Foster Youth, Low-Income, English learners students provides them with access to technology and resources that may not be otherwise available to them. a) Technology refresh plan as needed b) Go Guardian subscription for all student computers c) Digital subscriptions and data analysis tools (Renaissance, Next Gen Math, Lexia, Learning Genie, DnA Illuminate, KiDS)	\$1,458,297.00	Yes
1.8	Technology Use	District and site staff will maintain an environment where students will learn the appropriate and ethical use of instructional technology tools. This environment will include content filtering, monitoring software, and appropriate age level permissions. All grades will implement a minimum of two digital citizenship lessons during the school year.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
1.9	ELA and Math Supplemental Materials	Teachers of Students with Disabilities in grades TK-8 will consistently utilize district-adopted intervention materials and supplemental resources for Mathematics and English Language Arts, aligning with Individualized Education Program (IEP) goals directly correlated with Common Core State Standards (CCSS). This Action will be supported with approximately \$500,000 in Learning Recovery Emergency Block Grant funding. Research identifies data-based individualized plans supporting weekly intervention through a systematic approach have a high effect size on students outcomes (Essentials of Intensive Intervention, Edmonds, Gandhi & Danielson). These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports in ELA and Math. Metrics used to measure the effectiveness of the identified supports are: -CAASPP ELA Assessments (Metric 2.1) -CAASPP MATH Assessments (Metric 2.2)	\$500,000.00	No
1.10	Pilot Special Education Teacher Residency	District staff will: a) Year 1 Pre- Implementation (Change in Knowledge): The district will integrate the pre-implementation tasks—specifically, the convening of a planning task force and the establishment of partnerships with university programs—into the first semester of Year 2 (2025-26). These foundational steps will occur concurrently with initial recruitment efforts for internal candidates. b) Year 2 Initial Implementation(Change in Practice): Develop preparation material for residency candidates and provide residency candidates with pre-service training.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		c) Year 3 Full Implementation(Change in Student Outcomes): Implement a Special Education Teacher Residency program, focusing on growing internal teacher candidates from the District's classified staff, with a partner university to support the growing number of students qualifying for special services. Recruit a second cohort of residency candidates and provide pre-service training.		
1.11	District Facilities	The District will maintain facilities by conducting frequent inspections of school sites; safety & fire inspections, completing the annual Facility Inspection Tool (FIT) and promptly addressing any concerns related to the Williams Act. Additionally, the District will continue to address safety hazards by upgrading facilities (e.g. loading zones).	\$10,349,675.00	No
1.12	Intervention Support	The District will maintain certificated and classified staff to support literacy-based intervention and small group instruction, for students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, Unhoused, and Students with Disabilities to close achievement gaps in Tier 2, which will allow students to be successful in Tier 1. This Action will be supported with approximately \$500,000 in Learning Recovery Emergency Block Grant funding. Research identifies data-based individualized plans supporting weekly intervention through a systematic approach have a high effect size on students outcomes (Essentials of Intensive Intervention, Edmonds, Gandhi & Danielson). These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports in ELA and Math. Metrics used to measure the effectiveness of the identified supports are: -CAASPP ELA Assessments (Metric 2.1)	\$4,881,261.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Provide every P-BVUSD student an educational program with standards-aligned instruction, fidelity to district programs and practices, and robust, rigorous learning experiences inside and outside the classroom so that all students will show progress toward meeting or exceeding state standards.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Goal 2 was developed in alignment with the P-BVUSD Strategic Plan and the five pillars: Student Achievement; Diverse Learning Organization; Wellness, Safety and Equity for All; Family and Community Partnerships; and Fiscal Responsibility as well as in response to the needs identified through data analysis and input from educational partners.

The analysis of California School Dashboard data indicates a clear need to continue supporting English Language Arts, Mathematics and English Language Development (ELD).

For ELA:

- 9.6 points below standard for ELA with a dashboard color status of orange
- Foster Youth scored 93.8 points below standard with a dashboard color status of red
- Students with disabilities scored 91.5 points below standard with a dashboard color status of red
- African American students scored 49.3 points below standard with a dashboard color status of orange
- English learners scored 44 points below standard with a dashboard color status of orange
- Socioeconomically disadvantaged students scored 23.2 points below standard with a dashboard color status of orange

For Math:

- 52.7 points below standard for Math with a dashboard color status of orange
- Students with disabilities scored 126 points below standard with a dashboard color status of red
- Foster Youth scored 131.4 points below standard with a dashboard color status of red
- African American students scored 96.9 points below standard with a dashboard color status of red
- English learners scored 79.3 points below standard with a dashboard color status of orange
- Socioeconomically disadvantaged students scored 66.9 points below standard with a dashboard color status of yellow

For English language development (ELD):

- 50.2% of students making progress toward English language proficiency
- English learners scored 44 points below standard in ELA with a dashboard color status of orange
- English learners scored 79.3 points below standard in Math with a dashboard color status of orange

Educational partners identified the need for:

- Ongoing professional development for ELA, ELD, Math, and Science
- Need for diagnostic literacy assessment
- Opportunities for career pathways

The use of standards aligned curriculum to ensures that teaching practices deliberately focus on agreed upon learning targets, paired with expectations for student learning that are mapped out with each prescribed standard and the road map to mastery is clearly defined within the adopted curriculum across the district will allow for equitable access and a rigorous learning experience for each child withing the Panama-Buena Vista Union School District.

Each action within the goal will support the road map, creating continuity and providing rigorous, relevant, and responsive learning experiences for all and is supported by the following positions:

25-26 POSITIONS SUPPORTING GOAL		
GOAL 2: Provide every P-BVUSD student an educational program with standards-aligned instruction, fidelity to district programs and practices, and robust, rigorous learning experiences inside and outside the classroom so that all students will show progress toward meeting or exceeding state standards.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 2.1 Teacher Leadership Teams- Successfully implemented both content area and grade level specific teacher leadership teams, which met regularly to deepen their pedagogical understanding and provide support to school site teams. The teacher leadership teams continually support the alignment of the district-approved curriculum to the assessment calendar to provide equity to all students. Leadership Teams met for Math, Science, ELA, dELD, and History. Additional teams met to review TK assessments, Kindergarten assessments, and the support the implementation of the Reading Difficulties Screener.

Action 2.2 Transitional Kindergarten (TK) Training and Professional Development- Successfully had TK teachers, para-educators, intervention teachers, and administrators engage in professional development provided by consultants and district staff that is focused on the unique aspects of a play-based UPK/TK program. This year TK leaders met with a consultant from Frog Street to review materials. After piloting, they recommended the use of Frog Street curriculum in TK. The resources are aligned with the 2024 PK/TK Learning Foundations.

Action 2.3 Foundational Literacy Training- Successfully trained TK-6th teachers on foundational literacy skills in order to best meet the needs of Foster Youth, Low Income, and English learners to mitigate the increase in referrals for special services. Teachers are implementing best practices in Tier 1 literacy instruction with scaffolding and enrichment to ensure student learning. Training was conducted by Academic Coaches and Intervention teachers who received reading diagnostic training.

Action 2.4 Literacy Diagnostic Screening Tools- Successfully provided training to Academic Coaches and Intervention Teachers through the Trainer of Trainer model on the use of Star CBMs to universally assess K-2 students in the foundational literacy to support the upcoming 2025 state-approved Reading Difficulties Risk Screener. A team reviewed data from Star CBMs and reviewed state-approved Reading Difficulties Screeners. The team recommended mCLASS DIBELS 8 as the adopted screener beginning 2025-2026.

Action 2.5 VAPA- Successfully implemented by offering the opportunity for all students to participate in the VAPA programs. Barriers of cost were removed to benefit our subgroups: unduplicated, African American, unhoused, and students with disabilities, who otherwise may not have been able to participate through the additional purchase of instruments and extended learning opportunities. Support was provided to recruit students as well as parents, to fully understand the VAPA opportunities through multiple communication endeavors. Rosters of students who were provided opportunities were uploaded and maintained by the VAPA department to monitor the participation of unduplicated students.

Action 2.6 GATE- The successful implementation of the new GATE screener, CogAt, was carried out with all eligible students invited to participate in the assessment.

Action 2.7 Extra Curricular Opportunities/Youth Sports Programs-Successfully provided all students in grades 3rd-8th opportunities to participate in district supported sport programs that emphasized the physical education standards, aligned to the California framework. Recreation opportunities included: volleyball, basketball, flag football and track programs. Students were able to participate with no cost to the family, removing any cost barrier to our most vulnerable students and families.

Action 2.8 Camp KEEP- Successfully implemented by offering the opportunity for all 6th grade students to attend Camp KEEP. Barriers of cost were removed to benefit our subgroups: unduplicated, African American, unhoused, and students with disabilities, who otherwise may not have been able to attend. Support was provided to recruit and vet counselors as well as medical shadows. Rosters of students who attended camp were uploaded into KiDS to monitor the attendance of unduplicated students.

Action 2.9 AVID/Pre-CTE- Successfully all junior high schools provided Pre-CTE courses to expose students to industry specific and college and career-ready skills through Career Pathways and/or AVID offerings.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

P-BVUSD conducted an analysis of material differences between Budgeted Expenditures and Estimated Actual Expenditures. The total amount budgeted for the 2024-25 LCAP Goal 2 was \$8,159,450. The estimated actual expenditures for the 2024-25 LCAP Goal 2 was \$8,417,645. The difference between Budgeted and Estimated Actual Expenditures for all projections related to personnel is primarily due to contract negotiations settlements occurring late in the fiscal year, with the majority of staff receiving a 1% on-schedule salary increase and a one-time \$1,000 off-schedule stipend. This increase in personnel costs was not accounted for in the original LCAP budget projections.

The greatest difference is attributable to Action 7, offering Extra-Curricular activities to our students that otherwise would not have access to these opportunities. Personnel costs were originally underbudgeted, not taking into account the additional staffing costs needed to provide supervision and support to 25 school sites offering three seasons of sports and other opportunities to our students. The budget for the 2025-26 school year has been adjusted to reflect these additional costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 2.1 Teacher Leadership Teams- The teacher leadership teams were effective as evidenced by updated curriculum maps for ELA, Math, Science, and History that are aligned to the adopted curriculum. The maps were created in response to teacher need for more user-friendly standards-aligned curriculum maps. Strong Tier 1 instruction continues to be a focus in all content areas. The performance levels of students were used to inform the creation of the curriculum maps. While students continue to work toward meeting standards in ELA, Math, and Science, there was notable progress in English Language Arts. ELA scores improved by 1 point for English Learners and Foster Youth demonstrated significant growth, increasing by 14.7 points and moving from a red to an orange performance level on the CA Dashboard. Although all subgroups in ELA remain below standard, with performance levels of -11.6 overall, -79.1 for Foster Youth, -42.9 for English Learners, and -25.6 for Low-Income students, the positive movement reflects the ongoing efforts to support student learning within teacher leadership teams. In Mathematics, all student groups continue to work toward meeting standards, with an overall score of -55.5 points below standard. Foster Youth scored -131.9, English Learners -80.8, and Low-Income students -69.9. Despite these challenges, English Learners maintained their performance level on the CA Dashboard, and all students sustained their proficiency rate in math from the previous year, as measured by the Star Math assessment, demonstrating consistency and a strong foundation for future growth. In Science, 26.63% of 5th grade students and 26.27% of 8th grade students met or exceeded the standard. Among 8th graders, performance showed signs of improvement, with a 1.01% decrease in students not meeting the standard and a 2.13% increase in those nearly meeting the standard on the California Science Test, indicating positive movement toward proficiency. The data indicates a continued need to update curriculum maps and align instruction with standards-based materials.

Action 2.2 Transitional Kindergarten (TK) Training and Professional Development- The TK leadership team met quarterly to continually learn about current foundational skills and evaluate and pilot new TK curriculum options. The leadership team selected a TK curriculum to align with updated PK/TK Learning Foundations. The curriculum will support standards-aligned instruction, SEL, and offer resources for teachers to provide developmental play-based centers. Based on STAR CBM outcomes, due to exposure to transitional kindergarten and standards-aligned instruction, there was a 75.8% increase in students prepared to take a standards-aligned assessment.

Action 2.3 Foundational Literacy Training- A teacher leadership team was created to evaluate California-approved curriculum and was able to implement a pilot screener. The team effectively reached a consensus to provide UFLI as a phonics program for K-2. ELA scores improved by 1 point for English Learners and Foster Youth demonstrated significant growth, increasing by 14.7 points and moving from a red to an orange performance level on the CA Dashboard. Although all subgroups in ELA remain below standard, with performance levels of -11.6 overall, -79.1 for Foster Youth, -42.9 for English Learners, and -25.6 for Low-Income students, the positive movement reflects the ongoing efforts to support student learning, however, targeted foundational literacy instruction is needed to prepare students for the rigor of reading in grades 3 and up. At the end of the year, 64.2% of K-2 students scored at or above benchmark on the End-of-Year STAR Curriculum-Based Measures (CBMs). Notably, Kindergarten students showed an 11.1% increase in proficiency, and First Grade students

grew by 9.2%, as measured by the STAR Early Literacy assessment. This demonstrates meaningful progress in foundational reading skills across early grades and indicates a need for continued foundational literacy training.

Action 2.4 Literacy Diagnostic Screening Tools- A Reading Leadership team monitored Star CBM progress. The reading leadership team attended information presentations provided by the California approved Reading Difficulties Screener vendors. A team of teachers piloted programs and provided feedback, which led to a decision on which Screener to recommend for adoption by the district. mClass DIBELS 8 will be the Reading Screener used in 2025-2026. Significant progress was made in early literacy, with a 19.5% increase in K–2 students meeting proficiency levels from the beginning to the middle of the year, and 64.2% scoring at or above benchmark on the End-of-Year Star CBMs. Kindergarten and First Grade students showed notable gains in proficiency on the Star Early Literacy assessment, with increases of 11.1% and 9.2%, respectively. In ELA, while all subgroups remain below standard, with scores of -11.6 overall, -79.1 for Foster Youth, -42.9 for English Learners, and -25.6 for Low-Income students, there were encouraging signs of progress. ELA scores improved by 1 point for English Learners, and Foster Youth showed substantial growth, increasing by 14.7 points and moving from a red to an orange performance level on the CA School Dashboard. These outcomes highlight progress made and the continued need for targeted supports, such as the reading difficulties screener, to address persistent gaps and accelerate learning.

Action 2.5 VAPA- The action was effective in that every school site holds an informational meeting regarding music program offerings. Families are made aware of these informational meetings via Parent Square and by flyers sent home with students. The informational meetings ensure that all families are aware that students will have access to the necessary materials to participate in both instrumental and vocal music. The district provides all required materials - including instruments, uniforms, sheet music, and more - at no cost to families. Currently, 2,752 fifth and sixth-grade students participate in Band, Orchestra, and/or Chorus. Additionally, 1,463 Junior High School students are enrolled in these programs. Fifth and sixth-grade music students perform in a minimum of two concerts at their respective school sites and have additional opportunities to participate in honor ensembles, with. Junior High School music Students perform in at least three concerts at the school site, as well as a District-wide concert. They also have the opportunity to audition for and participate in honor ensembles. Effectiveness of this action is evidenced through an increase in average daily attendance for all students (.64%), English learners (.6%) and especially Unhoused students (2.6%).

Action 2.6 GATE- The implementation of the CogAT led to a 9% increase of unduplicated students in the GATE program. Unduplicated students currently make up 39% of the GATE population. We will continue increased efforts to ensure access to GATE for unduplicated students is a need. 40% of Spanish-speaking families felt their children have access to GATE and/or other enrichment activities.

Action 2.7 Extra Curricular Opportunities/Youth Sports Programs- Recreation continues to be an effective action. The accessibility to sports continues to be at no cost to families, as well as providing transportation to and from weekly games. The district strives to provide sporting opportunities to all students, especially students that are foster, unhoused, or low income. The intent of the district's recreational program is to build teamwork, sportsmanship and relationships. The support of district staff throughout the sports seasons help accomplish this task. During track alone, 32 of the 34 coaches were staff members.

Action 2.8 Camp KEEP- The District was successful in providing equitable access for all 6th grade students to attend Camp KEEP, specifically students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, Unhoused, and Students with Disabilities, who otherwise may not be able to attend. 74% of the students who attended Camp KEEP were socio-economically disadvantaged. The exposure to hands-on science experiences should increase academic performance on the California Science Test.

Action 2.9 AVID/Pre-CTE- Jr High Schools provided a variety of optional career pathways and/or AVID electives for Jr. High students. We currently have a total of 554 7th and 8th grade students taking AVID and/or CTE courses. Of the 554 students participating, 396 were unduplicated.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.1, 2.2, 2.5, 2.6, 2.7, 2.8, 2.9- No changes were made to the planned actions, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26. Action 2.7-The budgeted amount has increased to take into account personnel cost associated with staff costing to maintain and supervise extra curricular opportunities.

Action 2.3 Foundational Literacy Training- The use of UFLI for universal Tier 1 systematic phonics instruction will be added to Year 2. This decision was based on only 34% of our early readers performing on benchmark at the beginning of the year according to Star CBM metrics. The lack of a systematic phonics program is preventing our students from mastering early literacy skills. Metric 2.6 used to monitor effectiveness will change to mCLASS DIBELS 8. Metric 1.10 has also been added to monitor effectiveness of this action. Based on the needs assessment, this action will be supported by LREBG funds to provide additional support professional development for the addition and implementation of UFLI. The prior year allocation supported one-time costs like new literacy materials, training, and early intervention tools. These resources are now in place, and ongoing support is being funded through other programs. This action plan is being newly funded with LREBG funding. Prior to this year, it was in a pre-implementation stage with no additional costs associated with the action.

Action 2.4 Literacy Diagnostic Screening Tools- The adopted Reading Difficulties Screener will change to “mCLASS DIBELS 8. This decision was made based on the state recommendations of Reading Difficulties Screeners. To meet the requirement, we had to select a state-approved Reading Difficulties Screener. The Reading Leadership Team felt that mCLASS DIBELS 8 will provide the necessary information to inform targeted-early literacy instruction for all students. Metric 2.6 used to monitor effectiveness will change to mCLASS DIBELS 8.

Action 2.5 VAPA- The increase in funding reflects the District’s continued commitment to expanding access to high-quality Visual and Performing Arts (VAPA) programs. The District has allocated additional funding to support the opening of the new Mountain View TK-8 School. This investment ensures adequate staffing, resources, and infrastructure are in place to provide a high-quality educational environment for all students.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Teacher Leadership Teams	Content area and grade level specific teacher leadership teams will meet regularly to deepen their pedagogical understanding and provide support to site teams. The teams will support the alignment of the district-approved curriculum to the assessment calendar to provide equity to all students. The teams will explore and share research-based best practices to meet the needs for students who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, unhoused, and students with disabilities.	\$0.00	No
2.2	Transitional Kindergarten (TK) Training and Professional Development	TK teachers, para-educators, intervention teachers, and administrators will engage in professional development provided by consultants and district staff that is focused on the unique aspects of a play-based UPK/TK program.	\$0.00	No
2.3	Foundational Literacy Training	TK-6th teachers will be trained on foundational literacy skills in order to best meet the needs of Foster Youth, Low Income, and English learners to mitigate the increase in referrals for special services. Teachers will implement best practices in Tier 1 literacy instruction with scaffolding and enrichment to ensure student learning through the following plan: a) Year 1- Pre-Implementation (Change in Knowledge)-Provide foundational training to Academic Coaches through the Trainer of Trainer model, based on the recommendations outlined in the California Dyslexia guidelines. b) Year 2- Initial Implementation (Change in Practice)-Provide teacher professional development through various opportunities, focusing on University of Florida Literacy Institute (UFLI) Foundational Toolbox and the adopted Reading Difficulties Risk Screener, mCLASS DIBELS 8.	\$500,000.00	No

Action #	Title	Description	Total Funds	Contributing
		c) Year 3- Full Implementation(Change in Student Outcomes)-Curriculum maps and diagnostic assessments in grades K-2 will reflect the mastery of foundational literacy skills and align with the University of Florida Literacy Institute (UFLI) Foundational Toolbox. This Action will be supported with approximately \$500,000 in Learning Recovery Emergency Block Grant funding. The identified LREBG funds will be used in whole to support Goal 2.3. Research has demonstrated the positive effects of systematically teaching phonemic awareness and phonics in kindergarten and first grade, but many commonly used reading curricula do not adequately incorporate these foundational skills (International Literacy Association, 2025). The use of the University of Florida Literacy Foundations (UFLI) toolkit as an explicit and systematic program that teaches students the foundational skills necessary for proficient reading ensures that students systematically acquire each skill needed and learn to apply each skill with automaticity and confidence, further creating lifelong readers. GOAL 2 -2.3(Foundational Literacy Training): Funds will be used to provide training for teachers to support foundational literacy skills, including the purchase of UFLI curriculum and supplies. Metrics used to measure the effectiveness of the identified supports are: -Rate of proficiency on universal screeners/STAR Reading Benchmarks (Metric 2.4) -Percent Proficient on mCLASS DIBELS 8 (Metric 2.6) -Programs and services developed and provided to Foster Youth, Low-Income, English learners students (Metric 1.10) These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports in ELA and Math.		
2.4	Literacy Diagnostic Screening Tools	The District will provide current screening tools to identify a student's basic knowledge of foundational literacy skills:	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		a) Year 1- Pre-Implementation (Change in Knowledge)- Provide training to Academic Coaches and Intervention Teachers through the Trainer of Trainer model on the use of Star CBMs to universally assess K-2 students in the foundational literacy to support the upcoming 2025 state-approved Reading Difficulties Risk Screener. b) Year 2- Initial Implementation (Change in Practice)- Implement the use of a state-approved Reading Difficulties Risk Screener to universally assess K-2 students in foundational literacy skills. Train administrators and academic coaches on how to interpret the data from the Screeners. c) Year 3- Full Implementation (Change in Student Outcomes)- Use data from the universal screeners as part of the Tier 1 and Tier 2 MTSS process. Reading interventions will be delivered based on identified literacy needs which will result in increased early literacy proficiency.		
2.5	VAPA	The District will maintain a visual and performing arts program at all schools, providing opportunities for students who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, Unhoused, and Students with Disabilities throughout the school day. Targeting Foster Youth, Low Income, and English learners students provides them with access to visual and performing arts opportunities they may not otherwise receive. Actively recruit Foster Youth, Low-Income, English learners students, African American, and Unhoused students to the VAPA program by hosting parent information nights at all sites. a) Inform parents of the instrument program that allows students to acquire music supplies (instruments, uniforms, sheet music, etc.) at no cost. b) Ensure equitable access of equipment and consistent communication to parents through multiple district resources (ParentSquare, district website, etc.).	\$7,922,848.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Staff will provide instruction, coordinate performances, and provide opportunities to learn an instrument, participate in choir, take part in performances, and engage in additional performing arts opportunities.		
2.6	GATE, Professional Learning and Certification	The District's elementary Gifted and Talented Education program (GATE), will provide cognitively demanding experiences and opportunities for qualified students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, and Unhoused. GATE will provide challenging, enriching, and advanced learning to enable these pupils to make accelerated progress in school, utilizing project based learning and inquiry-based lesson design. To provide equitable access to the GATE program, the District will implement the following plan: a) Year 1- Pre- Implementation (Change in Knowledge)-Provide a new assessment for GATE qualification in order to provide more equitable access to the program, and increase District efforts to identify Foster Youth, Low-Income, an English learners pupils performing at high levels on local and state assessments. b) Year 2- Initial Implementation (Change in Practice)-Provide teacher professional development through GATE certification opportunities to increase additional GATE offerings across the district. c) Year 3- Full Implementation(Change in Student Outcomes)- Provide ongoing professional learning opportunities to ensure equitable access to GATE pedagogy, including Low Income, Foster Youth, Unhoused, and English language learners, focusing on the identified behaviors and characteristics of the gifted student.	\$520,738.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.7	Extra-curricular Opportunities/ Youth Sports Programs	The District will provide opportunities for access to extracurricular experiences in order to increase engagement and attendance through physical education and sports programs, for students who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, Unhoused, and Students with Disabilities. These programs will support the acquisition of physical education standards, aligned to the California framework. Each program will allow students to build relationships with coaches and officiants to foster a deeper connection between the student and the school setting. Funds will support staffing supervision needs to run these programs at all 25 sites.	\$184,112.00	No
2.8	CAMP KEEP	The District will provide equitable access for all 6th grade students to attend Camp KEEP, specifically students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, Unhoused, and Students with Disabilities, who otherwise may not be able to attend. The exposure to hands-on science experiences will increase academic performance on the California Science Test.	\$788,496.00	Yes
2.9	AVID/ Pre-CTE	All junior high schools will provide Pre-CTE courses to expose students to industry specific and college and career-ready skills through Career Pathways and AVID offerings.	\$250,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Provide healthy, safe, and inclusive learning environments that actively engage all students, staff, families, and community. Our whole child, whole community approach will prioritize positive relationships, educational equity, and shared responsibility with all educational partners, maximizing academic and social outcomes for each student.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Goal 3 reflects Panama-Buena Vista Union School District's ongoing commitment to a culture of purpose, caring, and results including celebration of our diverse learning organization and community, practices to ensure wellness, safety, and equity for all, and authentic partnerships with family and community as reflected in our District's Pillars of Excellence.

Additionally, an analysis of California School Dashboard and local data indicates a clear need to continue enhancing and expanding support for engagement and school culture/climate to support student achievement.

For Engagement:

- Overall chronic absenteeism rate of 26.70%, defined as medium or yellow on the 2022-2023 CA Dashboard
- Overall attendance rate of 93.6% as recorded in local data as of May 2024

For Culture/Climate:

- Overall suspension rate of 2.70%, defined as medium or yellow on the 2022-2023 CA Dashboard
- Disparities in suspension rates for the following groups
- Suspension rate of 7.8% for African American students, defined as very high or red on the 2022-2023 CA Dashboard
- Suspension rate of 11.9% for Foster Youth, defined as very high or red on the 2022-2023 CA Dashboard
- Suspension rate of 3.10% for Low-Income students, defined as high or orange on the 2022-2023 CA Dashboard
- Suspension rate of 4.30% for Students with Disabilities, defined as high or orange on the 2022-2023 CA Dashboard
- Overall connectedness rate of 70.49% reported by students in grades 3 through 8. Although students who reported a sense of connectedness and belonging increased by 3.21% districtwide during the Fall 2023 administration (70.49%) compared to the Spring 2023 administration (67.28%), this reflects 29.51% of students in grades 3-8 who do not feel a sense of belonging at school.

Specific areas of focus include:

-Educational Equity and Cultural Responsiveness: Goal 3 is anchored in our District's unwavering commitment to ensuring educational equity and cultural responsiveness for all. Acknowledging the diverse backgrounds, experiences, and needs of the P-BVUSD community, Goal 3 emphasizes the cultivation of inclusive learning environments where every individual feels valued, respected, and supported. By prioritizing positive relationships and embracing a Whole Child, Whole Community approach, the District aims to address systemic barriers to learning and ensure that all students have equitable access to high-quality education.

-Meeting the Needs of the Whole Child: Goal 3 also reflects the District's recognition of the multifaceted nature of student well-being and success. Beyond academic achievement, this goal emphasizes the importance of addressing the social, emotional, and physical needs of each child. By fostering a culture of care and support, P-BVUSD aims to promote the holistic development of students, enabling them to thrive academically, socially, and emotionally.

-Shared Responsibility and Authentic Partnerships: Central to Goal 3 is the belief in shared responsibility among all educational partners – including students, staff, families, and the broader community. By cultivating authentic partnerships and engaging partners in decision-making processes, P-BVUSD seeks to leverage collective expertise and resources to maximize academic and social outcomes for each student. This collaborative approach not only strengthens the sense of community within the District but also ensures that the needs and voices of all educational partners are heard and valued.

-Multi-Tiered Systems of Support Framework: Additionally, Goal 3 aligns with the P-BVUSD's commitment to continuous improvement and the implementation of a Multi-Tiered Systems of Support (MTSS) framework. By analyzing state and local data and identifying areas for refinement, the District aims to enhance the effectiveness of tiered support systems, including attendance and behavior protocols, social-emotional learning instruction, and family engagement initiatives. Through evidence-based practices and targeted interventions, P-BVUSD strives to address disparities in student outcomes and promote equity across all levels of the educational system.

Qualitative data from various surveys in the 2023-2024 school year also revealed critical insights that support the LCAP goal of providing healthy, safe, and inclusive learning environments. This goal prioritizes positive relationships, educational equity, and shared responsibility among all educational partners to maximize academic and social outcomes for each student.

Specific areas of focus include:

-Student Connectedness: The Student Connectedness Survey conducted in Spring 2024 highlights a notable disparity in the sense of belonging between elementary and junior high school students. While 71.6% of elementary students report feeling a sense of belonging at school, only 57.6% of junior high students feel the same. This significant drop indicates that junior high students require more targeted interventions to foster an inclusive and engaging environment that supports their emotional and social needs during this critical transitional period.

-Family and Staff Perceptions of Connectedness/Belonging: According to the LCAP Home/Staff Survey, 82.95% of families and 77.8% of staff feel that families belong when visiting the school. These high percentages reflect positive perceptions but also suggest room for

improvement, particularly among staff. Ensuring that all families feel welcomed and included is essential for building a supportive school community that actively engages all members.

-Safety Perceptions: The sense of safety at school is another crucial aspect of a healthy learning environment. The survey data shows that 77.64% of families and 85% of staff report that students feel safe at school. However, disaggregated data reveals a stark contrast between elementary and junior high schools. While 77% of elementary families and 89% of elementary staff feel students are safe, only 68% of junior high families and 71% of junior high staff share this sentiment. These findings underscore the need for enhanced safety measures and support systems in junior high schools to create a more secure environment for students.

-Communication with Teachers and Staff: Effective communication between students and staff is vital for fostering a supportive and responsive educational setting. The survey results indicate that 74% of families and 93% of staff across all schools believe it is easy for students to talk to teachers and staff. Disaggregated data, however, shows a disparity: 76% of elementary families and 94% of elementary staff report ease of communication, compared to only 66% of junior high families and 92% of junior high staff. Additionally, the Student Connectedness Survey reveals that 76.1% of elementary students find it easy to talk to teachers and staff, whereas only 59.75% of junior high students feel the same. These figures highlight the need for improved communication channels and relationships, particularly in junior high schools, to ensure that all students feel heard and supported.

Data clearly supports the need for focused efforts to enhance student connectedness, safety, and communication, particularly in junior high schools. By addressing these areas, the district can create a more inclusive, engaging, and supportive learning environment that aligns with the LCAP goal. Prioritizing positive relationships, educational equity, and shared responsibility among students, staff, families, and the community will ultimately lead to better academic and social outcomes for all students.

Progress toward this goal will be measured using the metrics, actions and positions identified below:

25-26 POSITIONS SUPPORTING GOAL

GOAL 3:

Provide healthy, safe, and inclusive learning environments that actively engage all students, staff, families, and community. Our whole child, whole community approach will prioritize positive relationships, educational equity, and shared responsibility with all educational partners, maximizing academic and social outcomes for each student.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 3.1 Safety: The District advanced its school safety goals through a comprehensive approach emphasizing emergency preparedness, crisis response training, anti-bullying efforts, and targeted staffing. All schools implemented safety protocols aligned with CSSP standards, and Districtwide training addressed suicide risk response and threat assessment. Although the goal was full staffing, 92% of safety-related positions were filled, with Noontime Aide and 5-Hour Yard Aide vacancies remaining. Key challenges included time constraints that limited depth during suicide risk training and role clarity issues among support staff. Successes were notable: 100% of junior high administrators completed anti-bullying training, 271 fire drills were conducted across all sites, and 92% of invited staff attended Integrated Services PL focused on safety?. LCAP surveys reflected a strong sense of safety, with 80% of staff and 77% of families affirming that campuses are safe environments (LCAP Goal 3, Metric 12). The District will continue implementation of this action in 2025–26.

Action 3.2 Attendance: All schools implemented MTSS-aligned evidence-based attendance strategies, including Tier 1 universal messaging and Tier 2/3 targeted case management and home visits. For instance, all students increased by 0.64%, Unhoused youth increased by 2.6%, Students with Disabilities increased by 0.8%, and Foster Youth maintained an overall average of 93%. Chronic absenteeism, however,

remained a significant challenge. According to local data, as of April 2025, chronic absenteeism rates were 55.1% for Unhoused students (an increase of over 11% compared to last year), 34% for Foster Youth (an increase of over 12%), and 37.9% among Students with Disabilities (an increase of over 4%). Staff feedback affirmed that site-level Tier 1 efforts were having a positive effect but additional systemic supports are needed to address barriers, particularly those faced by high-risk student groups. The District will continue implementation of this action in 2025–26.

Action 3.3 MTSS:

3.3a) MTSS Teams: Tier 1 PBIS structures expanded as planned, with staff survey feedback showing increased collaboration on MTSS implementation. However, inconsistency in fidelity was observed across sites, particularly regarding Tier 2/3 development. The District will continue implementation of this action in 2025–26.

3.3b) Social- Emotional Learning: Year 1 SEL implementation built a strong foundation, with 531 staff members trained in SEL practices across roles and 96.32% finding the training helpful. Staff and family surveys also reflected strong support for SEL initiatives. Student connectedness survey results showed elementary students maintaining 71%-75% positive connectedness and junior high connectedness remaining between 58%-61%, emphasizing the need for expanded SEL reinforcement, especially at upper grade levels. The District will continue implementation of this action in 2025–26.

3.3c) Restorative Disciplinary Practices: Expansion of restorative practices resulted in improved relationship-based discipline approaches, but varied depth of implementation across sites persisted. Suspension rates for foster youth remained elevated at 10.22%, highlighting the ongoing need for broader staff training and modeling. The District will continue implementation of this action in 2025–26.

3.3d) Health & Wellness Center: Pilot Health & Wellness Centers made a measurable impact, with the OneSight Vision Clinic registered students achieving a 95.7% attendance rate and 92.9% of students receiving corrective eyewear. Mobile clinics provided 238 services, including immunizations and physicals. Staff survey feedback reflected appreciation for health supports, though shortages of health personnel limited full access. The District will continue implementation of this action in 2025–26.

Action 3.4 Assistant Principals: Assistant Principals were maintained at all school sites, providing vital leadership for supervision, discipline, attendance and MTSS implementation. Staff surveys consistently noted APs as key to managing behavior and supporting climate improvements. However, growing student needs—particularly around mental health and behavioral support—occasionally strained proactive intervention capacity. The District will continue implementation of this action in 2025–26.

Action 3.5 Support for Foster & Unhoused Youth: Expanded services for Foster and Unhoused youth, including academic interventions, case management, and wraparound supports, were implemented. Family survey feedback noted gratitude for these services. Nonetheless, Foster youth and Unhoused students highlight that ongoing structural barriers, such as transportation and housing instability, continue to limit full engagement and academic success. The District will continue implementation of this action in 2025–26.

Action 3.6 Parent & Family Engagement: Family engagement actions were largely successful, with over 80% of staff survey respondents affirming that the School/District provides meaningful opportunities for family participation, including Family Engagement Nights, Parent University, and Parent Education Nights. Partnerships to support these efforts were also expanded this year, enhancing outreach and

resource access for families. However, 56.5% of home survey respondents reported challenges with the time of the events and receiving timely communications as barriers to participation. The District will continue implementation of this action in 2025–26.

Action 3.7 Professional Learning: Professional learning opportunities were implemented extensively, addressing curriculum, SEL, and MTSS across all staff groups. The professional learning survey showed 99.6% agreement among participants that sessions prioritized relationships, a priority amongst Goal 3 actions. Educational Services PL feedback and broader LCAP staff survey indicated the need for greater role-specific differentiation, particularly for classified staff and those supporting high-need student groups. Despite this, Connectedness survey gains at the elementary level (+3% increase)? suggest that initial professional learning efforts have begun improving the student experience. 89% of staff agreed that sessions provided opportunities for collaboration—slightly lower than all other indicators, suggesting an area to strengthen interactivity. The District will continue implementation of this action in 2025–26.

Action 3.8 Class-Size Reduction: The District achieved its target student-to-teacher ratios for grades K–6 at 100% of elementary sites. This action contributed to improved engagement and attendance among vulnerable student groups. As of April 2025, Foster Youth attendance in elementary schools was 94.2%, compared to 89.6% in junior high—a 4.6% difference (Goal 3, Metric 1). Elementary connectedness remained stable between 71%–77%, while junior high was lower, supporting the value of smaller class sizes in early grades (Goal 3, Metric 6).

Additionally, 75.09% of elementary students reported it was easy to talk to teachers and staff, compared to 62.46% in junior high (Goal 3, Metric 14), highlighting stronger relationships in smaller classroom settings. The District will continue implementation of this action in 2025–26.

Action 3.9 Communications: ParentSquare communication improvements and expanded translation services were implemented as planned, with 87% of staff survey respondents acknowledging progress in communication systems. Survey data from 2024–25 further supports these improvements: 75.85% of families reported feeling that the school values them as important partners in their child’s education (Goal 3, Metric 7), and 84.75% of families identified opportunities to participate at the District level, with 75.85% reporting such opportunities at their school site (Goal 3, Metric 8). Despite these gains, 23% of LCAP Home Survey respondents cited issues with timeliness and accessibility of information, and only 76.3% of families indicated they feel a sense of belonging when visiting school (Goal 3, Metric 11). These findings suggest a continued need for more intentional outreach, increased responsiveness to family preferences, and culturally sustaining communication practices. The District will continue implementation of this action in 2025–26, with a focus on equitable engagement across all communities.

Action 3.10 Alternative Education: The Alternative Education program remained fully operational in 2024–25, serving 33 students through independent study and behavior-related placements (Goal 3, Metric 15). Enrollment and growth targets were met, and staff noted the program’s flexibility and responsiveness. However, disaggregated suspension rates (Goal 3, Metric 4) show continued disproportionality for Foster Youth (10.22%) and African American students (4.91%), indicating a need for strengthened supports. Student connectedness (Goal 3, Metric 6) also reflects concern, with only 60.52% of junior high students reporting a sense of belonging, compared to 74.76% at the elementary level. Encouragingly, connectedness data specific to the Alternative Education campus shows strong growth: by Spring 2025, 12 junior high students reported notably positive perceptions across four indicators—ease of talking with staff, feeling cared for, having absences noticed, and feeling welcomed—marking major improvement from Fall 2023. These trends highlight the importance of alternative programs in providing both academic access and inclusive, supportive environments. The District will continue this action in 2025–26.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

P-BVUSD conducted an analysis of material differences between Budgeted Expenditures and Estimated Actual Expenditures. The total amount budgeted for the 2024-25 LCAP Goal 3 was \$45,694,641. The estimated actual expenditures for the 2024-25 LCAP Goal 3 was \$46,105,425. The difference between Budgeted and Estimated Actual Expenditures for all projections related to personnel is primarily due to contract negotiations settlements occurring late in the fiscal year, with the majority of staff receiving a 1% on-schedule salary increase and a one-time \$1,000 off-schedule stipend. This increase in personnel costs was not accounted for in the original LCAP budget projections.

Other Non-Personnel differences were primarily due to:

Action 3:3 MTSS: The district's higher than budgeted expenditures for our Multi-Tiered System of Supports (MTSS) program were due to the strategic use of one-time funding to enhance support for students. These funds were allocated to expand the program and provide additional resources, ensuring targeted academic, behavioral, and social-emotional support for students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 3.1: Safety

The District effectively made progress toward its school safety goals by maintaining nearly full staffing of campus supervisors, yard aides, and behavior intervention staff, contributing to 80% of staff and 77% of parents reporting students feel safe at school (LCAP Goal 3, Metric 12). Successes were notable: 100% of junior high administrators completed anti-bullying training, 271 fire drills were conducted across all sites, and 92% of invited staff attended Integrated Services PL focused on safety. Expulsion rates remained at 0% districtwide (LCAP Goal 3, Metric 5), reflecting improved student behavior supports and safety protocols. District leadership conducted annual CSSP assessments and used stakeholder feedback to guide continuous safety improvements. While most staffing targets were met, a few Noontime Aide positions remain vacant and must be filled for 2025–26 to sustain progress.

Action 3.2 Attendance:

Effective MTSS-aligned attendance improvement strategies—including incentive systems, check-ins, and home visits—were partially effective. Overall attendance has slightly increased across most subgroups according to local data as of April 2025 (LCAP Goal 3, Metric 1). For instance, attendance among all students increased by 0.64%, Unhoused Youth increased by 2.6%, Students with Disabilities increased by 0.8%, and Foster Youth maintained an average of 93%. However, chronic absenteeism (LCAP Goal 3, Metric 2) as of April 2025 remained high among key subgroups: 55.1% for Unhoused Youth (+11.43%), 34% for Foster Youth (+12.43%), and 37.9% for Students with Disabilities (+4.39%). These increases suggest that while Tier 1 interventions are improving consistency at the site level, advanced tiered supports (Tier 2 and Tier 3) are not yet adequately addressing the structural and individualized barriers that these student groups face. Staff feedback noted that while site-level MTSS practices have improved, there is a continued need for clearer guidance around District-level roles and processes—including when and how to access SARB, how to refer to school social workers, and how entrance/exit criteria for advanced supports are determined. Clarifying these procedures will be essential for ensuring consistent and effective interventions across all schools.

Action 3.3: Multi-Tiered System of Support (MTSS)

The District was partially effective in implementing MTSS, with strengthened Tier 1 systems, expanded SEL training, and the launch of pilot Health & Wellness Centers. Over 530 staff were trained in foundational SEL practices, with 96.32% reporting the training as helpful. Overall student connectedness (Goal 3, Metric 6) improved by 0.54% between Spring 2024 and Fall 2025. However, as of Fall 2024, connectedness data continues to reveal a continued gap between elementary (74.76%) and junior high students (60.52%) in reported belonging, underscoring the need for targeted relational supports at the secondary level. Discipline data (Goal 3, Metric 4) shows overall suspension rates declined, but Foster Youth (10.22%) and African American students (4.91%) continue to be disproportionately impacted, signaling a need for deeper implementation of Tier 2/3 interventions and restorative practices. Chronic absenteeism data (Goal 3, Metric 2) also shows elevated rates across all student groups, including Foster Youth (34%), Unhoused Youth (55.1%), Students with Disabilities (37.9%), and African American students (34.9%). These patterns suggest that Tier 1 supports, while foundational, are not sufficient on their own to meet the needs of high-risk students. To strengthen impact, there is a clear need to clarify Tier 2 intervention processes, including consistent triage protocols, referral pathways, and criteria for accessing district-level support services such as mental health, physical health, and attendance interventions. Additionally, Health & Wellness Centers provided 238 services with 92.9% of students receiving corrective eyewear, but staffing shortages limited full impact. Continued expansion of wellness infrastructure and clearer alignment of supports across MTSS tiers will be critical to advancing equity and improving student outcomes.

Action 3.4 Assistant Principals: Assistant Principals were partially effective in supporting campus supervision, behavior management, chronic absenteeism, and MTSS leadership, with staff surveys indicating improved school climate?. For instance, overall suspension rates declined across groups as of April 2025 (All=1.53%) but Foster Youth (10.22%) and African American students (4.91%) continue to be disproportionately impacted. Additionally, the persistently high chronic absenteeism (Goal 3, Metric 2) via local data as of April 2025 among Foster youth (34%), African American students (34.9%), and Students with Disabilities (37.9%) suggests that site-based capacity needs to be strengthened to address systemic attendance challenges.

Action 3.5 Support & Foster Unhoused Youth: Support efforts for Foster and Unhoused youth were somewhat effective. Students emphasized the importance of relationships with trusted adults in feeling supported during empathy interviews held in 2024-2025. Suspension data as of April 2025 (Goal 3, Metric 4), indicated decreased suspension rate of 1.85% for Foster Youth (current rate= 10.22%) and a decrease for Unhoused students (current rate: 2.89%) indicating increased use of relationally-based restorative discipline practices. Additionally, an overall attendance rate (Goal 3, Metric 1) of 93% was maintained for Foster youth compared to last year and there was an increase of over 2% for Unhoused youth (current rate=88.4%). Despite this, chronic absenteeism (Goal 3, Metric 2) increased by over 12% for Foster youth (34%) and increased by over 11% for Unhoused youth (55.1%) persisted, pointing to ongoing structural challenges including transportation, housing instability, and inconsistent school engagement.

Action 3.6 Parent & Family Engagement: Family engagement efforts were moderately effective, with 75.85% of families reporting that schools value them as important partners (Goal 3, Metric 7)—a 6.65% increase from the prior year. Participation opportunities were noted at both the school (75.85%) and District (84.75%) levels (Goal 3, Metric 8), reflecting improved outreach. However, 56.5% of families cited challenges with event timing and communication, indicating continued barriers to access. Additionally, perceptions of belonging declined (Goal 3, Metric 11) with 76.3% of families and 73% of staff reporting that families feel welcome when visiting schools—down 6.65% and 4.8%, respectively. These results suggest that while structural engagement opportunities have grown, more intentional efforts are needed to build inclusive, relationship-based partnerships with all families.

Action 3.7 Professional Learning: Professional learning efforts were largely effective in supporting instructional improvement, adult collaboration, and alignment with District priorities. Based on 2024–25 survey data, over 90% of participants agreed or strongly agreed that presenters were knowledgeable and receptive, and that session content was clear, relevant, and responsive to the needs of diverse student groups, including Foster and Unhoused youth. Additionally, 91% of respondents indicated that the sessions prioritized positive relationships, reinforcing the District’s commitment to inclusive adult learning environments. While the majority of staff found sessions to be valuable and appropriately paced (88% agreement), slightly fewer participants (89%) agreed that collaboration was meaningfully embedded—highlighting an opportunity to strengthen peer-to-peer learning within future sessions. Additionally, qualitative responses indicated the need for extended time to mastery of content, increased interactive learning such as hands-on activities, case studies, and practice-based scenarios, and clearer guidance around role expectations. Overall, the action was effective in building staff capacity across roles and reinforcing shared understanding of whole child practices, equity, and tiered supports.

Action 3.8 Class-Size Reduction: Class-size reduction has been effective in improving student engagement, relationships, and attendance in early grades. As of April 2025, there was a difference of approximately 1% for almost all student groups when comparing elementary to junior high school settings. Foster Youth attendance in elementary schools was 94.2%, compared to 89.6% in junior high, also showed a clear attendance advantage for vulnerable students in smaller class settings (Goal 3, Metric 1). Similarly, student connectedness scores remained higher in elementary (71%–77%) than in junior high, where overall connectedness declined (Goal 3, Metric 6). In terms of relationships, 75.09% of elementary students reported it was easy to talk to teachers and staff, compared to 62.46% in junior high (Goal 3, Metric 14). These findings suggest that maintaining reduced class sizes in grades K–6 continues to foster stronger connections and more supportive learning environments, particularly for vulnerable student groups.

Action 3.9 Communications: This action was moderately effective in improving communication systems across the District. According to staff survey data, 87% of respondents agreed that communication structures supported outreach and engagement. 75.85% of parents/families felt the school values them as important partners in their child’s education (Goal 3, Metric 7), and 84.75% reported opportunities to participate at the District level (Goal 3, Metric 8)—indicating strong alignment with shared decision-making goals. However, ongoing challenges remain. 23% of families noted issues with receiving timely or accessible information, and only 76.3% reported feeling a sense of belonging when visiting school (Goal 3, Metric 11). These results suggest that while technical communication platforms have improved, additional work is needed to strengthen cultural responsiveness, build trust, and ensure all families—particularly those historically underserved—feel informed, welcomed, and connected to their school community.

Action 3.10 Alternative Education: In 2024–25, the Alternative Education program effectively supported 33 students through independent study and behavioral placements, meeting enrollment goals and receiving positive staff feedback for its flexibility. However, disaggregated suspension data (Goal 3, Metric 4) shows persistent disproportionality for Foster Youth (10.22%) and African American students (4.91%) Districtwide, highlighting the need for stronger Tier 2/3 behavioral supports. Districtwide connectedness data (Goal 3, Metric 6) shows a gap between elementary (74.76%) and junior high students (60.52%). At the Alternative Education campus, early-year student responses reflected low belonging, but Spring 2025 data showed improvement—12 junior high students reported stronger agreement with statements like “My teachers care about me” and “I feel welcome at this school.” These trends underscore the importance of continuing to expand access to alternative education, develop clear entrance/exit criteria, and further invest in building connected, supportive environments.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Metric # 3.7-A slight adjustment was made to the survey item language for the coming year to better capture the intent of meaningful partnership. The revised statement now reads: "I believe the school values parents/guardians as important partners in their child's education (Examples: shared decision-making, engagement events, input/feedback)." This slight revision reflects a shift from solely emphasizing opportunities to take part in decisions to a broader focus on partnership and collaboration, based on reflections on prior practice and stakeholder feedback.

Metric # 3.8:-Based on feedback received from parents and families, the LCAP survey was adjusted to remove the requirement for families to self-identify as part of an unduplicated student group. Instead, survey responses will now disaggregate between school-based and districtwide family participation opportunities. This change is intended to better reflect the current structure of engagement efforts and to enhance planning for future family events by more accurately identifying where additional support or outreach may be needed. Additionally, an open-ended response item has been included in the annual LCAP survey to provide families, including families of unduplicated students, the opportunity to request for services and/or resources to better support the unique needs of their child's success at school.

Action 3.3 MTSS:

3.3a) MTSS Teams-Language referencing "Teachers on Special Assignment (TOSAs)" was updated to "specialized staff" to expand eligibility and flexibility in staffing MTSS supports based on identified site needs. The District will continue implementation of this action in 2025–26.

3.3b) Social-Emotional Learning:-No changes were made to the planned action, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26.

3.3c) Restorative Disciplinary Practices- Language directing sites to "establish a team" was removed to better integrate restorative practices into existing District efforts, avoiding redundancy and clarifying that the focus is on system strengthening rather than new team creation. The District will continue implementation of this action in 2025–26.

3.3d) Health & Wellness Center- This sub-action was removed from within the broader MTSS action to allow for the creation of a new, dedicated action specifically focused on Health & Wellness Centers. The Health & Wellness Center work will continue through a newly established standalone action in 2025–26.

This action will be supported with LREBG funds to Funds will be used to purchase software and supplies to support Assistant Principals and other staff such as Impact Teachers, to provide substance abuse counseling services for students, to provide a consultant to facilitate the MTSS advisory team and enhance restorative disciplinary practices, and to purchase Tier 1 and possibly Tier 2 curriculum and training to support our most needy students. Metric 3.1 has been added to monitor effectiveness of this action.

The increase in funding reflects the District's enhanced commitment to strengthening our Multi-Tiered System of Supports (MTSS). This additional investment supports expanded staffing for intervention specialists, counselors, and behavioral support staff, as well as increased professional development and resources to effectively implement tiered academic and social-emotional interventions.

Action 3.5 Support & Foster Unhoused Youth- Language was adjusted to replace "relevant staff" with "Assistant Principals" to establish a clearer and more consistent point of contact for collaboration with the Foster and McKinney-Vento Liaison. The District will continue implementation of this action in 2025–26.

Action 3.7 Professional Learning- No changes were made to the planned actions, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26 utilizing funds from LREBG to support providing access to additional professional learning for our administrators, teachers and classified staff to enhance our school-based supports for all students, but especially our most vulnerable populations. Metrics 3.1, 3.2 and 3.6 will be used to monitor effectiveness of this action.

Action 3.9 Communications- Language was adjusted to replace 'Increases engagement' with 'Increases awareness of district engagement opportunities' to clarify the focus on communication goals and distinguish between communications and Community and Family Engagement data. The communications directives will proceed with continued emphasis on leveraging ParentSquare and expanded translation support to enhance equitable family communication. The District will continue implementation of this action in 2025–26. The increase in funding is due to additional funds being allocated to support increased communication and survey data-collection District-wide through additional equipment to increase communication , including improved software and hardware supplies, as well as increases in salary & benefit costs resulting from steps/columns and salary schedule increases.

Action 3.10 Alternative Education- Language for this action was revised to remove the reference to "junior high alternative education programs," recognizing that services for these students are already embedded within the District's broader restorative practices and student support framework. Additionally, language specific to providing guidance and professional learning for Impact teachers was removed, as this work will now be integrated within the restorative practices focus under Action 3.3 (MTSS). This shift ensures alignment across initiatives and avoids duplication of efforts, while continuing to support alternative education settings through a more cohesive and systemwide approach. The District will continue implementation of this action in 2025–26.

Action 3.11- Health & Wellness Centers (New Action)

A new action was created to enhance focus on a previous sub-action of Health & Wellness Centers across the District, providing a dedicated focus on increasing access to medical, mental health, and wellness services to support the whole child. This new action will replace previous sub-action 3.3d and will continue with year 2 implementation in 2025-2026 as planned.

Actions 3.1, 3.2, 3.4, 3.6, & 3.8- No changes were made to the planned actions, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26. Action 3.1: The District has increased funding to support the implementation of a comprehensive camera system. This investment is intended to enhance campus safety and foster a secure and welcoming environment for students, staff, and families. Action 3.6: For the 2025–26 fiscal year, one-time non-personnel expenditures will be funded through alternative state funding sources. This approach allows the District to address critical needs without impacting ongoing general fund commitments.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Safety	With guidance from District leadership, all schools will implement effective safety protocols, including comprehensive emergency response and preparedness measures (i.e. CSSP), along with clearly communicated safety protocols and required training to promote a safe environment where students, staff, and families feel secure and supported. Safety efforts will include: a) Crisis Response: The District will ensure information is clearly communicated regarding protocols and mandatory training related to crisis response, suicide assessments, anti-bullying policy, child abuse reporting, etc. b) Preparedness Measures: All schools will implement evidence-based practices related to psychological, emotional, and physical safety to prevent any potentially harmful factors to students, staff, and/or families. c) Personnel to Support Safety Efforts: The District will maintain safety-related school staff (e.g. safety managers, campus supervisors, yard aides, school aides, transportation aides, etc.) to support school safety efforts. (Campus Supervisors-\$1,107,460) District leadership will continue to evaluate safety needs at least annually to inform decisions made, such as hiring additional staff to increase safety, as appropriate.	\$10,357,707.00	Yes
3.2	Attendance	With guidance from District leadership, all schools will implement evidence-based practices to improve attendance and reduce chronic absenteeism in coordination with MTSS actions to better engage students at school. As funds become available, the District will distribute them among schools to support site-based efforts and incentives.	\$97,477.00	No

Action #	Title	Description	Total Funds	Contributing
3.3	MTSS	The District will prioritize the implementation of multi-tiered systems of support (MTSS) to tailor interventions and resources to meet the unique needs of every student, particularly Foster Youth, Low-Income, and English learner students addressing existing disparities identified among other vulnerable groups (e.g . Unhoused, African American, Students with Disabilities) through enhanced MTSS systems and protocols, ensuring equitable opportunities for all. Expanded MTSS support will include (but are not limited to) attendance, mental health and trauma, cultural responsiveness, physical health/wellness, etc. District leadership will continue to evaluate MTSS needs at least annually to inform decisions made, such as hiring additional staff to increase access to intervention services, as appropriate. a) MTSS Teams: Over the three year LCAP cycle, with guidance from District Leadership, all schools will establish multi-disciplinary teams that meet at least monthly in order to make informed decisions regarding tiered systems of support. Multi-disciplinary teams will include health/wellness personnel such as nurses and health aides, school social workers, intervention counselors, behavior intervention aides, and school psychologists. There will be a focus to expand Tier 1 guidance and support to include cultural responsive and trauma-informed practices ensuring equitable learning opportunities for identified student groups of Foster, Unhoused, Students with Disabilities, and African American students. Additionally, specialized staff such as school social workers and school nurses will prioritize Foster and Unhoused youth to coordinate support and resources to reduce barriers to engagement at school (i.e. screening, direct services, referrals, etc.). 1. Year 1: Pre-Implementation: (Change in Knowledge)- All schools will establish and maintain a Tier 1 team in order to cultivate a positive climate by effectively implementing expanded Positive Behavior Intervention and Support (PBIS) systems with an emphasis on prevention, instruction, and relationship building to promote student engagement. Additionally, Teachers(s) on Special Assignment (TOSAs) will provide differentiated support for Tier 1 based on site-needs.	\$18,170,078.00	Yes

Action #	Title	Description	Total Funds	Contributing
		2. Year 2: Initial Implementation: (Change in Practice)- All schools will establish and maintain a Tier 2/3 team to make informed decisions using multiple sources of data to address the specific internalizing and/or externalizing needs of struggling students in addition to Tier 1 universal support. 3. Year 3: Full Implementation: (Change in Student Outcomes)- District leadership will evaluate MTSS needs by reviewing student and implementation data at least annually to make adjustments to professional learning and guidance offered by the District to ensure high quality MTSS implementation. b) Social Emotional Learning (SEL): 1. Year 1: Pre-Implementation (Change in Knowledge)- Teachers will begin to implement Social-Emotional Learning (SEL) curriculum and integrate SEL practices throughout the school day to cultivate social-emotional competencies. The District will provide guidance (e.g. handbooks, professional learning, etc.) to build knowledge on SEL implementation. Input from teachers and administration will be considered prior to selection of a District-adopted curriculum to launch District-wide beginning Fall 2025. 2. Year 2: Initial Implementation (Change in Practice)- Teachers will implement District-adopted Social-Emotional Learning (SEL) curriculum on a daily basis during a designated time of day and integrate SEL practices throughout the school day to cultivate social-emotional competencies. The District will provide guidance (e.g. handbooks, professional learning, etc.) to build knowledge of District-adopted SEL curriculum. 3. Year 3: Full Implementation(Change in Student Outcomes)- Teachers will continue to implement SEL curriculum and practices. District leadership will evaluate SEL needs by reviewing student and implementation data at least annually to make adjustments to professional learning and guidance offered by the District to ensure high quality SEL implementation Districtwide. c) Restorative Disciplinary Practices:		

Action #	Title	Description	Total Funds	Contributing
		1. Year 1: Pre-Implementation (Change in Knowledge)- The District will establish a team to develop District guidance for addressing behavioral issues with a focus on reducing disproportionality including review of law and/or policy and evidence-based alternatives to suspension. 2. Year 2: Initial Implementation (Change in Practice)- The District will provide guidance (e.g. handbooks, professional learning, etc.) to build knowledge for addressing behavioral issues with a focus on reducing disproportionality including review of law and/or policy and evidence-based alternatives to suspension. 3. Year 3: Full Implementation (Change in Student Outcomes)- With District guidance including professional learning, all schools will implement evidence-based restorative discipline practices when responding to behavior. In partnership with District Leadership, we will assess the impact on student outcomes identifying trends and changes in disproportionality and establish an ongoing review and continuous improvement process. This Action will be supported with approximately \$250,000 in Learning Recovery Emergency Block Grant funding. The identified LREBG funds will be used in part with LCFF, other state funds and federal funds. Metrics used to measure the effectiveness of the identified supports are: -Disaggregated Attendance Rate by student group (Metric 3.1) -Disaggregated Chronic Absenteeism Rate by student group (Metric 3.2) -Disaggregated percent of students reporting they belong at school (connectedness) by elementary vs. junior high school/Student Connectedness Survey (Metric 3.6) These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning to address barriers to achievement and staff supports and training, such as the provision of health, counseling, or mental health services, or programs to address pupil trauma and social-emotional learning, or referrals for support for family or pupil needs. SEL leads to beneficial outcomes related to: social and emotional skills, academic performance, mental wellness, healthy		

Action #	Title	Description	Total Funds	Contributing
		behaviors, school climate and safety, and lifetime outcomes (CASEL.org). Targeted parent and family engagement—such as the adoption of early warning intervention systems, and the effective use of data and family engagement to identify why a student is absent can significantly increase student attendance and impact academic achievement (Attendance Works, 2025).		
3.4	Assistant Principals	The District will maintain a 1.0 FTE Assistant Principal at all school sites to support all students, but principally for students who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, and Unhoused students. District leadership will provide ongoing guidance to Assistant Principals equipping them to address the unique needs of Foster youth and Low Income students with their school teams. As a result, APs will increase support services to students struggling with chronic absenteeism and behavioral issues: a) Increase support services to students struggling with chronic absenteeism and behavioral issues b) Increase communication with families and enhance coordination of support services c) Build capacity of teachers and staff on best practices related to MTSS to support students based on site needs through guidance and professional development	\$5,297,198.00	Yes
3.5	Support for Foster & Unhoused Youth	With guidance from the District Foster and McKinney-Vento Liaison, relevant staff will partner with school staff to enhance support provided to Foster and McKinney-Vento eligible (Unhoused) youth to increase school engagement and improve educational outcomes (i.e. attendance, chronic absenteeism, suspension, CAASPP data, etc.) such as:	\$354,231.00	Yes

Action #	Title	Description	Total Funds	Contributing
		a) Ensuring proper identification of students and families experiencing homelessness as well as Foster Youth including training and access to Foster Focus b) Engaging in relationship building and case management to identify barriers and coordinate resources and support (e.g. clothing and food assistance, hygiene kits, extracurricular and extended learning programs, tutoring, school supplies, physical and mental health support, referrals to community resources, etc.) c) Coordinating transportation to the school of origin to ensure educational stability (supplemental to regular bussing including associated costs) d) Providing professional learning (i.e. training) opportunities and guidance for administrators, teachers, and other staff related to supporting Foster and McKinney-Vento identified youth e) Regularly monitor the educational progress of Foster and McKinney-Vento eligible youth through relevant data indicators (i.e. attendance, chronic absenteeism, suspension, CAASPP data, etc.) The Student Support Services Department will ensure that all School Social Workers prioritize support to Foster and Unhoused Youth focused on reducing and/or eliminating barriers to school success. District leadership will evaluate McKinney-Vento and Foster Youth program needs annually to inform decisions made at least annually, such as hiring additional support staff to enhance the quality of support services for these vulnerable student populations.		
3.6	Parent & Family Engagement	Under the direction of the Director of Community and Family Engagement and in collaboration with the Consolidated Programs Department, efforts to foster meaningful engagement and collaboration between the district and families will be prioritized. District leadership will evaluate needs at least annually to inform decisions made, such as hiring support staff to enhance the quality of support services for families of students, including vulnerable student populations. By implementing the following actions, the District	\$263,116.00	Yes

Action #	Title	Description	Total Funds	Contributing
		aims to empower families to actively participate in their student's education and create a supportive environment conducive to student success: a) Input and Decision-Making: Increase family involvement in decision-making through partnerships (e.g. ELAC, DELAC, SSC, etc.) and surveys to support student success and improve school climate. b) Parent Education: Collaborate with community organizations and District departments to provide a variety of educational opportunities such as Parent University to empower families enhancing academic success. c) Family Engagement Opportunities: Collaborate with community organizations and District departments to host family engagement opportunities fostering meaningful interactions between parents and children to promote student success. d) Community Partnerships: Form strategic partnerships with community partners to enhance student support and achievement and explore the California Community Schools Partnership Program (CCSSP) school integration, based on need. e) Parent Resource Centers: 1. Year 1: Pre- Implementation (Change in Knowledge)- Explore parent resource centers to provide tailored support for families, fostering active engagement in student's education and promoting academic success. 2. Year 2: Initial Implementation (Change in Practice)- Establish partnerships and implement programs and services within schools (i.e. education programs, informational workshops, support services, etc.). Develop a comprehensive menu of services to be offered at future parent resource center(s). 3. Year 3: Full Implementation (Change in Student Outcomes)- Pilot parent resource center(s) at selected schools. Measure and evaluate the impact of Parent Resource Center(s) on student outcomes. Use data to continuously improve and expand services to meet the diverse needs of all students.		

Action #	Title	Description	Total Funds	Contributing
3.7	Professional Learning	District staff and/or consultants will provide evidence-based professional learning opportunities and guidance for administrators, teachers, and/or staff focused on topics supporting the whole child such as, but not limited to: a) Relationship building practices b) Engagement/attendance c) Social-emotional learning (SEL) d) Positive behavior intervention and supports (PBIS) e) Multi-tiered systems of support (MTSS) f) Restorative disciplinary practices g) Health/Wellness h) Safety practices in order to enhance school-based support for all students, but particularly the most vulnerable student populations who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, unhoused, and students with disabilities. This Action will be supported with approximately \$500,000 in Learning Recovery Emergency Block Grant funding. The identified LREBG funds will be used in part with LCFF, other state funds and federal funds. Metrics used to measure the effectiveness of the identified supports are: -Disaggregated Attendance Rate by student group (Metric 3.1) -Disaggregated Chronic Absenteeism Rate by student group (Metric 3.2) -Disaggregated percent of students reporting they belong at school (connectedness) by elementary vs. junior high school/Student Connectedness Survey (Metric 3.6) These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning to address barriers to achievement and staff supports and training, such as the provision of health, counseling, or mental health services, or programs to address pupil trauma and social-emotional learning, or referrals for support for family or	\$500,000.00	No

Action #	Title	Description	Total Funds	Contributing
		pupil needs. The benefits of social and emotional learning (SEL) are well-researched, with evidence demonstrating that an education that promotes SEL yields positive outcomes for students, adults, and school communities. SEL leads to beneficial outcomes related to: social and emotional skills, academic performance, mental wellness, healthy behaviors, school climate and safety, and lifetime outcomes (CASEL.org). Targeted parent and family engagement—such as the adoption of early warning intervention systems, and the effective use of data and family engagement to identify why a student is absent can significantly increase student attendance and impact academic achievement (Attendance Works, 2025).		
3.8	Class-Size Reduction	The District will implement class-size reduction averages across grades K-6 to enhance individualized support for academic and social-emotional development within classrooms, fostering deeper connections and ensuring improved academic and social outcomes for all students, but particularly the most vulnerable student populations who fall into the following subgroups: Foster Youth, Low Income, English learners, African American, and Unhoused students. This action will support the funding of 65 teachers with LCFF funds and reduce class size averages as follows: -26 students to 1 teacher in grades K-1 -28 students to 1 teacher in grade 2 -29 students to 1 teacher in grade 3 -30 students to 1 teacher in grades 4-6	\$9,068,307.00	Yes
3.9	Communications	Under the direction of the Director of Communications, the District will develop and maintain a communication plan that: a) Improves communication and strengthens relationships with educational partners (i.e. Board of Education, administration, staff, community partners, etc.)	\$743,502.00	Yes

Action #	Title	Description	Total Funds	Contributing
		b) Increases engagement with families of students who fall into the following subgroups: Foster Youth, Low-Income, English learners, African American, unhoused, and students with disabilities. c) Explore resources to support non-English speaking parents/guardians. As funds allow, the District will purchase equipment and/or tools (i.e. audio-visual equipment, recording devices, etc.) to support high quality digital communication with the goal of connecting with students and families to encourage participation in District engagement opportunities.		
3.10	Alternative Education	The District will allocate funding to maintain classes for District and Jr. High alternative education programs and maintain a dedicated program specialist to provide comprehensive support to participating students. Additionally, under the direction of the Administrator of Alternative programs, provide guidance and professional learning opportunities to Impact teachers to ensure the implementation of evidence-based interventions, including instructional and restorative practices, in site-based alternative education programs (i.e. Impact classrooms).	\$1,491,981.00	Yes
3.11	Health & Wellness Center(s)	As funding permits, the District will continue to expand supports and resources to establish and sustain a Health & Wellness Center, aimed at improving student access to physical, mental, and emotional health services. This center will serve as a centralized hub to promote overall well-being, reduce barriers to learning, and support student success, primarily for English Learners, Foster Youth and Low Income students . 1. Year 1: Pre-Implementation (Change in Knowledge)- The District will continue to explore community partnerships to enhance health and wellness services through mobile or stationary centers, reducing health	\$6,251,100.00	Yes

Action #	Title	Description	Total Funds	Contributing
		related barriers by increasing access to clinical health care services provided by qualified health professionals. 2. Year 2: Initial Implementation (Change in Practice)- Establish partnerships with local health organizations and qualified health professionals to implement health and wellness programs and services. This may include, but is not limited to on-site primary medical health care services, dental care services, mental health care services, nutrition education, etc. 3. Year 3: Full Implementation (Change in Student Outcomes)- Pilot health & wellness center(s) in selected schools. Measure and evaluate the impact of health & wellness centers on student health and educational outcomes and adjust as needed.		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Accelerate learning outcomes for English Language Learners, as measured by local benchmark and state assessments, as well as an increase in the district reclassification rate by 2026.	Focus Goal

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

This goal was developed in response to the needs identified through data analysis and input from educational partners. The analysis of California School Dashboard (Dashboard) data indicated a clear need to continue supporting English Language Development (ELD), newcomers and the reclassification of our existing English learners.

For example:

- English learner progress in 3rd - 8th grade students declined 8%.
- 48.2% of English learner students progressed at least one English Learner Progress Indicator (ELPI) level, leaving 16.7% decreasing a level.

When looking at local indicators, the same need is evidenced through Star Reading and Math scores:

- 12.5% of English learner students met or exceeded state benchmark levels in Star Reading (Winter 2024)
- 14.55 of English learner students met or exceeded state benchmark levels in Star Math (Winter 2024)

During LCAP Educational Partner input sessions, survey and feedback data revealed the need for:

- A more diverse curriculum to support language acquisition
- Professional development tailored to specific needs, including differentiated instruction supporting English language learners (ELLs) and newcomers
- More effective language arts program, particularly for English Language Development (ELD) students, with consistent ELD components that meet student’s needs
- Equity and access to resources and materials across schools, as well as support for diverse learners, including newcomers.

The District plans to improve English learner proficiency, ELPI, and state assessment outcomes through actions that support and improve student learning and will measure progress towards this goal using the metrics, to include the positions, identified below:

25-26 POSITIONS SUPPORTING GOAL

GOAL 4:

Accelerate learning outcomes for English Language Learners, as measured by local benchmark and state assessments, as well as an increase in the district reclassification rate

ACTION	POSITION	FTE QUANTITY
4.1	- EL Program Specialists - Instructional Specialists - Title I Program Specialists	2 2.2 1
4.3	- Dual Language Immersion Teacher - Instructional Intervention Aide - DLI - TOSA - DLI	3 0.76 1
4.5	- Director, Assessment, Curriculum and Assessment - Director, Instructional Services - Coordinator, Instructional Services - Instructional Services Clerical	1 1 1 2

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 4.1 Newcomer Supports- This action was fully implemented by:

1) The District created a Newcomer's Guide including welcoming strategies, a teacher checklist, definitions for different types of Newcomers, and additional resources for supporting Newcomer students. A Newcomer bag was also assembled for every Newcomer and family including books, flashcards, basic school supplies, a family guide, and a picture dictionary, all of which can be kept at home. Newcomers have access to translating earbuds at school sites, as well as Lexia English. English 3D has been implemented at our junior high sites.

2) The ACT instructional specialist meets quarterly with junior high designated ELD teachers and is available for designated and integrated ELD strategies and building capacity with the CA ELD State Standards and ELPAC Interim and Summative assessments. New teachers, along with EL Site Coordinators, receive Ellevation training at the beginning of the academic school year. Designated ELD training is available for school sites, and schools are able to request instructional specialist support for planning designated and integrated ELD lessons. A challenge includes creating a systematic plan to ensure all school sites are receiving ongoing support for effectively teaching Newcomers. Also, a substantive difference includes the disbanding of pbvU, which will change how teachers receive professional learning opportunities.

3) The ACT and Consolidated Programs instructional specialists have provided interim ELPAC assessments and summative ELPAC information to school sites. EL progress monitoring has occurred via the Ellevation platform. All reclassified English learners are monitored for four years, and all current English learners are monitored on an annual basis by the homeroom teacher (elementary) or ELA teacher (junior high). ELAC meetings explain to parents of English learners what designated ELD instruction entails, as well as resources to practice the ELPAC at home, and the criteria needed to be met in order for students to be reclassified. Because of the Dual Language Immersion (DLI) strand beginning at Mountain View TK-6 School next year, there has been a lot of training in regard to culturally and linguistically sustainable instructional materials. This includes training sessions with the KCSOS team, visits to DLI schools throughout California, and partnering with the Center for Teaching for Biliteracy. A future opportunity is to take the learning that has occurred for the Mountain View staff and bring those best practices for multilingual learners to other schools within the district.

Action 4.2 Professional Learning/Administrators and Certificated Staff - Action was fully implemented. During the 2024-2025 school year there have been a number of professional learning opportunities provided for principals, assistant principals, and academic coaches provided by KCSOS. These sessions revolved around the CA Dashboard and KiDS—specifically in regard to English learners and LTELs. The KCSOS team provided the following KiDS professional learning sessions during the 2024-2025 school year: 1 session for principals, 1 session for assistant principals, and 1 session for academic coaches with an average of 98% in attendance.

A challenge remains in providing support for all certificated teachers regarding support for all English learners, including LTELs and Newcomers.

Action 4.3 Dual Immersion/Multilingual Program- Action was partially implemented. Family engagement and recruitment were a key focus of Year 1. Outreach efforts included five in-person informational meetings and three virtual sessions to introduce families to the DLI program. These sessions drew a total of 215 attendees, reflecting strong community interest. A parent interest survey with 16 questions—several specific to DLI priorities—was distributed to gather input and inform planning. As a result, 118 parents submitted applications to enroll their TK or Kindergarten student in the DLI program for the 2025–2026 school year. There will be 76 spots available for TK and kindergarten students within the strand for the 2025-2026 school year.

The site administrator and TK–Kindergarten teaching team participated in two professional development events with the Center for Teaching for Biliteracy, focused on biliteracy development, language allocation, and instructional strategies. In addition, the district DLI team—including the Mountain View principal—attended five Kern County Superintendent of Schools (KCSOS) DLI planning days and four training days with

the Center for Teaching for Biliteracy. These trainings provided essential guidance and collaboration opportunities to support high-quality DLI implementation.

The DLI program vision and mission were co-developed by a cross-functional district team that included administrators from various divisions, two classroom teachers, and the Mountain View principal. Through a collaborative process grounded in shared learning, the team built a common understanding of the foundational components of a successful DLI program. Individual perspectives were synthesized into a unified vision and mission that reflect the program's core values: bilingualism, biliteracy, and cross-cultural competence.

The DLI program was developed in alignment with California's World Language Board Policy, which emphasizes the value of multilingualism, cultural understanding, and equitable access to high-quality language programs. The 80/20 language allocation model adopted for TK and Kindergarten reflects best practices for early immersion, gradually building toward a 50/50 balance by fourth grade. The policy foundation ensures the program meets both state expectations and the needs of our diverse community.

Action 4.4 Increased Supports for Long-Term English Learners- Action (English 3D) has been successfully implemented at all junior high school sites. The ACT instructional specialist has met with the junior high designated ELD teachers and provided support with understanding the English 3D curriculum. Designated ELD junior high teachers have received training on scaffolds and strategies that can be used to support LTEL students. Teachers have access to the HMH Teacher Central which has on-demand learning videos. If teachers would like classroom support, they have the option to request it. At quarterly meetings, teachers have the time to request curriculum and/or platform support with English 3D products.

A challenge the District has faced is providing specific training to 5-8 grade teachers regarding LTEL students.

Action 4.5 EL/RFEP Data Monitoring System- Action was implemented. The instructional specialists have demonstrated to EL Site coordinators how to view the data from teacher's input on an EL Progress Monitoring dashboard on the platform Ellevation. It demonstrates the teacher's observations of a student's skills in relation to the ELPAC domains (reading, writing, listening, speaking) and contributing factors for lack of progress. EL Site coordinators have been provided with reclassification goal sheets, to help students be aware of and track their growth as they work towards reclassifying.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

P-BVUSD conducted an analysis of material differences between Budgeted Expenditures and Estimated Actual Expenditures. The total amount budgeted for the 2024-25 LCAP Goal 4 was \$2,190,539. The estimated actual expenditures for the 2024-25 LCAP Goal 4 was \$2,525,818. The difference between Budgeted and Estimated Actual Expenditures for all projections related to personnel is primarily due to fewer Extra Duty hours being assigned to these line items and software costs coming in below budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 4.1- Newcomer Supports-Goal was effective as measured by: 1)Newcomer Guides Created: A total of 200 Newcomer Guides have been developed and are available in the district's book room. These resources represent a significant step in ensuring consistent support for

newcomer students. Distribution to school sites is scheduled to begin upon request in the 2025–2026 school year. 2) ELPAC Support and Training: The ACT instructional specialist provided four collaborative sessions for junior high designated ELD teachers. These sessions focused on building confidence in administering the interim ELPAC and using results to inform instruction. While interim ELPAC data collection was limited in 2024–2025, plans for 2025–2026 include administering the assessment three times annually, with structured inclusion of the Reading, Listening, Speaking, and Writing Domains. 3) Access to Learning Platforms: All junior high Newcomer students were provided access to Lexia English and English 3D. Progress and usage are actively monitored through the Ellevation platform. Notably, 4% of students who began Lexia at the newcomer level advanced one proficiency band during the school year, signaling early growth.

Growth Data – ELPI Progress (2022–2024):

Kindergarten: 63% (15/24) demonstrated growth.

1st Grade: 29% (6/21)

2nd Grade: 59% (10/17)

3rd Grade: 41% (9/22)

Grades 4–8 showed more modest growth, indicating targeted support will be prioritized for upper grade levels moving forward.

Additional Support Requests: One school (Stine) submitted a request for site-based support for evidence-based Newcomer strategies—an important indicator of increasing site engagement.

Action 4.2- Through collaboration with KCSOS, principals, assistant principals, and academic coaches received training on interpreting CA Dashboard data, specifically focusing on English learner and LTEL metrics. Sessions were tailored by role and designed to build capacity around instructional leadership for English learners.

Ongoing support is aligned with LCAP goals, focusing on meeting the needs of 2,643 English learners—13% of the student population.

According to the 2024 CA Dashboard:

-ELA: EL students scored 11.6 points below standard.

-Math: 55.5 points below standard.

-Language Development: 51.1% demonstrated progress (ELPI).

The reclassification rate for 2024–2025 was 13.43%, indicating continued improvement in language proficiency development.

Actions 4.3- Dual Immersion/Multilingual Program- Action was effective based on the following supporting outcomes:

The actions taken in Year 1 of the pre-implementation phase have been highly effective in advancing progress toward the goal of launching a strong, research-based Dual Language Immersion (DLI) program in the 2025–2026 school year. Strategic planning, professional development, policy alignment, and family engagement have all contributed to a solid foundation for success.

Family engagement efforts were a major success in Year 1. Through five in-person informational meetings and three virtual sessions, the site and district team engaged a total of 215 parents, showcasing strong community interest in the program. A comprehensive survey—including 16 questions with a focus on DLI priorities—was used to gather parent input and support strategic planning. 118 families submitted applications for TK and Kindergarten enrollment in the DLI program. There will be 76 spots available for TK and kindergarten students within the strand for the 2025-2026 school year. These numbers reflect the effectiveness of outreach strategies and confirm a strong demand for bilingual education in the community.

The site administrator and TK and kindergarten teachers participated in two targeted professional development sessions with the Center for Teaching for Biliteracy, deepening their knowledge of biliteracy development, language allocation, and instructional practices. Additionally, the district DLI team—including the Mountain View principal—attended four out of five KCSOS DLI planning days and three out of four sessions with the Center for Teaching for Biliteracy. These professional learning opportunities have ensured that both leadership and instructional staff are prepared to implement the program with confidence and fidelity.

The vision and mission for the DLI program were developed collaboratively by the district DLI team, which included representatives from multiple departments, two classroom teachers, and the Mountain View principal. This inclusive process created shared ownership and alignment around the core values of bilingualism, biliteracy, and cross-cultural competence. The vision and mission have already guided key decisions related to curriculum and program structure.

The DLI program was designed in alignment with California's World Languages Policy, ensuring it reflects state guidance for high-quality multilingual programs. The adopted 80/20 language allocation model supports best practices in early immersion and prepares students for academic success in both languages. Grounding the program in this policy strengthens its sustainability and ensures equitable access for all students.

In alignment with the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students, we currently serve 2643 English learner students. That is 13% of our student population. English learners currently score below their grade level peers. English learners scored 11.6 points below standard in ELA and 55.5 points below standard in math according to the California Dashboard. 51.1% of English learners showed progress toward language development according to the English Learner Progress Indicator (Goal 4 Metric 1). -58.9% (944 of 1,603) students scored at or above typical growth (35th current SGP) from Fall to the End of the Year on the Star Reading assessment (measured by Goal 2 Metrics 4 & 5).

-53.4% (736 of 1,377) students scored at or above typical growth (35th current SGP) from Fall to the End of the Year on the Star Math assessment (measured by Goal 2 Metrics 4 & 5).

Action 4.4- Increased Supports for Long-Term Learners- Action was effective based on the following supporting outcomes:

English 3D has been successfully implemented at all junior high school sites.

The ACT instructional specialist has met four times with the junior high designated ELD teachers and provided support with understanding the English 3D curriculum. Teachers have access to the HMH Teacher Central which has on-demand learning videos. If teachers would like classroom support, they have the option to request it. At the quarterly meetings, teachers have the time to request curriculum and/or platform support with English 3D products. English 3D has an assessment component, but currently there is not an expectation to use the assessments consistently.

At the beginning of the year, 2024-2025, our district had a total of 492 Long-Term English Learners (LTELs). Since then, 82 LTELs successfully reclassified and exited English Learner (EL) services. As of now, the district currently has 410 LTELs. This represents a significant step forward in supporting the academic progress and language development of our EL students. Additional LTEL data includes the following:

-7th grade: Average IRL 3, Average Scale Score 437.2, Average Percentile Rank 18.0

-8th grade: Average IRL 3.5, Average Scale Score 451.8, Average Percentile Rank 16.2

In alignment with the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students, we currently serve 2643 English learner students. That is 13% of our student population. English learners currently score below their grade level peers. English learners scored 11.6 points below standard in ELA and 55.5 points below standard in math according to the California Dashboard. 51.1% of English learners showed progress toward language development according to the English Learner Progress Indicator (Goal 4 Metric 1).

A meeting was held quarterly with junior high counselors, junior high ELD teachers and an instructional services specialist to monitor student progress and achievement on the ELPAC interims. In 2023-2024, 21% of junior high students completed an ELPAC interim. In 2024-2025, 76% of junior high English learners and 8% of elementary English learners completed an ELPAC interim (measured by Goal 4 Metric 3).

Action 4.5 - EL/RFEP Data Monitoring System- Action was effective based on the following supporting outcomes:

Our district ensures transparent communication of reclassification data at multiple levels. We regularly share reclassification data with our EL site coordinators at each timeline. In addition, site ELAC coordinators are provided with this data to share with their respective site ELAC teams. Furthermore, our EL Program Specialists present the reclassification data to the District English Learner Advisory Committee (DELAC) at every timeline and at the conclusion of the final reclassification window. This process helps keep all stakeholders informed and engaged in the reclassification efforts and outcomes.

At the beginning of the school year, during our EL informational meeting, we provide support to staff using tools such as Ellevation and Kids. This ensures they have the necessary resources to support our English Learners effectively. In addition to this initial support, we offer ongoing assistance throughout the school year, as needed, to ensure continued success in meeting the needs of our English learners.

At the beginning of the school year, during our EL informational meeting, we provide support to staff using tools such as Ellevation and Kids to ensure they have the necessary resources to support our English Learners effectively. Additionally, we have provided a total of four training sessions to build capacity around the Ellevation and Kids platforms. These trainings aim to strengthen staff proficiency with the platforms. Ongoing support is also offered throughout the school year, as needed, to ensure continued success in meeting the needs of our English learners.

In April 2024, we distributed a total of 2,577 EL progress monitoring forms via the Ellevation platform to our site staff. Looking ahead, in April 2025, we will be sharing 2,370 EL progress monitoring forms to continue tracking the progress of our EL students. This ensures that students are making adequate progress toward English language proficiency and acquiring grade-level content knowledge, ultimately supporting their academic success. We will be sending out 1262 forms through the Ellevation platform for RFEP progress monitoring. Reclassified students will continue to be monitored to ensure ongoing English language development, for a total of four years.

During our DELAC meetings for the month of October, November, December, and March, we shared Ellevation data with our educational partners at the DELAC meeting. During this meeting, we presented key district data regarding our EL students. This information was also shared with junior high ELD teachers at a quarterly collaboration meeting in March. This included the number of current EL students, the number of students who have been reclassified and are continuing to be monitored, and the number of students who have fully exited the program and no longer require monitoring. We also shared data on how many students were initially IFEP, how many students were at risk of becoming LTELs, and the total number of LTELs in the district. Additionally, we provided information on the number of dually identified students, who are both EL and IEP. This comprehensive data helps our educational partners understand the progress and needs of our English learners population.

In alignment with the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students, we currently serve 2643 English learner students. That is 13% of our student population. English learners currently score below their grade level peers. English learners scored 11.6 points below standard in ELA and 55.5 points below standard in math according to the California Dashboard. 51.1% of English learners showed progress toward language development according to the English Learner Progress Indicator (Goal 4 Metric 1). -679 teachers used the Ellevation platform to access data regarding English learners.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 4.1- No changes were made to the planned action, metrics, or targets, as current implementation structures were deemed appropriate based on review of outcomes. The District will continue implementation of this action in 2025–26.

Action 4.2- Include the phrase “to include Newcomers” as seen below:
The District will enhance language acquisition and proficiency of English learners to include Newcomers by offering professional development on research-based instructional strategies for teachers and administrators. This includes understanding student proficiency levels, individual needs, and language development across all content areas. Based on the needs assessment, this action will be supported by LREBG funds to provide additional support professional development to increase the capacity of our certificated staff in order to support our English learners. The District is increasing support for staff professional development, with supplemental funding provided by the Learning Recovery Emergency Block Grant (LREBG). This investment aims to build staff capacity and improve instructional practices to accelerate student learning and recovery

Actions 4.3- We will remove “Explore the KERN Multilingual Teacher Residency program at CSUB to grow internal multilingual teacher candidates” from Action 4.3. This portion of the action can be revisited once Mountain View has a full TK-8 DLI strand. We will add “Year 2- Add/fund a TOSA to support the implementation and curriculum design of the DLI program.” The increase in funds is due to additional funds being allocated to provide additional support District-wide, including additional personnel, as well as increases in salary & benefit costs resulting from steps/columns and salary schedule increases.

Action 4.4-We will add the following: Provide professional learning on how to administer ELPAC Interim assessments, score the ELPAC Interim assessment, and create instructional next steps. Create a systematic professional learning plan for supporting LTELs. Differentiate between foundational literacy needs and language needs.

Action 4.5-
KiDS has been added, along with the previously referenced Ellevation. The decrease in funding reflects a reduction in one-time expenditures. Ongoing funding has been adjusted to cover the sustained costs of monitoring, analysis, and reporting to support English Learner (EL) and Reclassified Fluent English Proficient (RFEP) student progress.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Newcomer Supports	District staff will ensure support for newcomer students across the district by:	\$973,691.00	Yes

Action #	Title	Description	Total Funds	Contributing
		a) Creating and sharing a Newcomer's Guide to support connection to school. b) Instructional Specialists will support sites with best practices for multilingual learners. c) Researching and adopting culturally and linguistically sustainable instructional materials and progress monitoring tools.		
4.2	Professional Learning/ Administrators and Certificated Staff	The District will enhance language acquisition and proficiency of English learners to include Newcomers by offering professional development on research-based instructional strategies for teachers and administrators. This includes understanding student proficiency levels, individual needs, and language development across all content areas. This Action will be supported with approximately \$500,000 in Learning Recovery Emergency Block Grant funding. The identified LREBG funds will be used in whole to support Goal 4.2. Based on this, Goal 4: Action 2 directly address the need to provide additional supports through materials, interventions, and professional development to ensure student learning needs are met, increasing engagement in school and closing achievement gaps. Metrics used to measure the effectiveness of the identified supports are: -Percentage of English learner students who make progress toward English proficiency/ ELPI (Metric 4.1) These actions align to the allowable use of funds to support accelerating progress to close learning gaps through the implementation, expansion, or enhancement of evidence-based learning supports to build background knowledge and content through language. Students need a wide range of linguistic tools to effectively think and communicate in different disciplines.	\$500,000.00	No

Action #	Title	Description	Total Funds	Contributing
		Teachers need the tools of cognitive language to support student language acquisition and the use of the right tools when needed. When done routinely, students will leave our schools equipped with the language skills needed to achieve academically (Zwiers, 2008).		
4.3	Dual Immersion/ Multilingual Program	The District will develop a multi-year plan to implement a Dual Immersion/ Multilingual program by: a) Year 1- Pre-Implementation (Change in Knowledge)-Provide foundational training to Administrator, TK and Kindergarten teacher. Develop the program vision and mission, board policy and systems to recruit families upon the opening of the new school during the 2025-2026 school year. b) Year 2- Initial Implementation (Change in Practice)-Provide teacher professional development and support for all staff during the opening of the new dual language program to ensure a foundational understanding of the unique needs of the program. Begin to develop the next cohort of teachers for the next grade level span opening in the 2026-2027 school year. Add and fund a TOSA to support the implementation and curriculum design of the DLI program. c) Year 3- Full Implementation(Change in Student Outcomes)- Research demonstrates the improved student learning outcomes of dual-language immersion programs. The District will monitor data and expand opportunities for more multilingual learners. Systemize the professional development to ensure the addition of a new dual language grade level, to include all general education programs and educational partners.	\$406,555.00	Yes
4.4	Increased Supports for Long Term English Learners	In order to support explicit language development instruction in the junior high setting, we will provide a rigorous, research-based supplemental program to support English language acquisition before entering high school. The implementation of E3D curriculum for identified English	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		learners in the junior high setting will support students in making the necessary progress towards language acquisition and reclassification, with an emphasis on Long Term English learners. Professional development will be provided to ELD teachers to support the implementation of the curriculum, along with highly effective designated ELD strategies and progress monitoring skills. Quarterly data will be shared from instructional services specialists to show the progress of LTELs. Junior High School teachers will provide additional opportunities to engage students in language acquisition by providing instruction to increase listening, speaking, reading and writing skills through meaningful and standards aligned lessons designed to meet the individual needs of LTELs and At-Risk of becoming LTEL students. District staff will ensure this support by: 1-Provide professional learning on how to administer ELPAC Interim assessments, score the ELPAC Interim assessment, and create instructional next steps. 2-Create a systematic professional learning plan for supporting LTELs. 3-Differentiate between foundational literacy needs and language needs.		
4.5	EL/RFEP Data Monitoring System	The District will use the Ellevation and KiDS data management platform to track the progress and proficiency of English learners. Ellevation and KiDS will help share data, such as reclassification rates, with educational partners to support informed decision-making while also providing targeted professional development at the school level.	\$852,994.00	Yes

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2025-26]

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
30.699%	0.000%	\$0.00	30.699%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	Action: Fully Credentialed Teachers Need: 9.5 percent of teachers in schools with the highest percentage of Low Income students are misassigned or teaching without credentials, while 4 percent of teachers in	Our district will continue to monitor the placement of new teachers to ensure the schools with the greatest need are equipped with fully trained and credentialed teachers when possible. To do so, Human Resources has developed a Teacher Draft Selection process promoting the placement of fully credentialed teachers at our most neediest campuses. . Our Induction Program will continue to focus on recruiting fully qualified mentors to meet program	We will monitor the number of qualified teachers serving our Foster Youth, English learners and Low Income students with the following data: Rate of teachers not fully credentialed (measured by Goal 1 Metric 1)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	schools with the lowest percentage of Low Income students are misassigned or teaching without credentials. This represents an equity gap of 5.5 percent. 22 percent of teachers in schools with the highest percentage of Low Income students have two or fewer years of teaching experience, while 7.5 percent of teachers in schools with the lowest percentage of Low Income students have two or fewer years of teaching experience. This represents an equity gap of 14.5 percent. 96% of participants of the LCAP Home Survey shared that having well-trained teachers in the classroom should be of high importance. Scope: LEA-wide	requirements. Both mentors and candidates will receive systematic onboarding each year. Highly qualified mentors will provide induction candidates the necessary role models needed to successfully complete the program and provide high quality teaching to all students. In addition, through our SEL professional learning, we will focus on providing strategies to support students from foster homes and Low Income areas, as well as Unhoused Youth. We will continue to highlight EL strategies to equip our teachers with strategies to support language development. This action is provided on an LEA-wide basis because all students will benefit from having fully certified teachers in the classroom, primarily schools with high numbers of unduplicated students, including African American students and Unhoused Youth.	Rate of teachers considered inexperienced or ineffective in Title I schools (Measured by Goal 1 Metric 2) We will monitor impact of effective teachers with academic achievement data for our Foster Youth, English learners and Low Income students with the following achievement and access data: Average Distance from Standard (DFS) on CAASPP ELA Assessment (measured by Goal 2 Metric 1) Average Distance from Standard (DFS) on CAASPP Math Assessment (measured by Goal 2 Metric 2)
1.2	Action: Academic Coaches Need: Reading achievement data shows Foster Youth are scoring 93.8 points below standard,	Our district will continue to provide monthly professional learning opportunities to support Academic Coaches with needed strategies to support the acquisition of the new math framework standards, Reading Diagnostic Screener and University of Florida Literacy Institute supplemental reading foundations tool to support teachers in the classroom. Currently Foster Youth, English learners and Low Income students score	We will monitor academic achievement data for our Foster Youth, English learners and Low Income students with the following achievement data: Average Distance from Standard (DFS) on CAASPP ELA Assessment

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	English learners 44 points below standard and Low Income students 23.2 points below standard. These subgroups are performing lower than the overall achievement for PBVUSD. There is a gap in achievement in reading for our unduplicated students. Math achievement data shows Foster Youth are scoring 131.4 points below standard, English learners 79.3 points below standard and Low Income students 66.9 points below standard. These subgroups are performing lower than the overall achievement for PBVUSD. There is a gap in achievement in math for our unduplicated students. 23-24 staff survey data showed 57.3% of staff members feel they receive job-specific professional development. There is a need to increase the job-specific support for teachers at sites. 22 percent of teachers in schools with the highest percentage of Low Income students have two or fewer years of teaching and need the support of onsite coaching/mentoring. Scope: LEA-wide	below their grade level peers in mathematics. Student achievement is expected to increase with quality teaching of mathematics. The professional learning will focus on supporting teachers with differentiation strategies to support intervention of foundational math, ELA and English language development. Training of this nature will support students performing below grade level, providing additional resources and a supportive learning environment for our Foster Youth, English learners and Low Income students. This action is provided on an LEA-wide basis because all students will benefit from highly trained teachers in strategies that support new common core framework and best practice, as well as strategies to engage the most disengaged students in learning.	(measured by Goal 2 Metric 1) Average Distance from Standard (DFS) on CAASPP Math Assessment (measured by Goal 2 Metric 2) Rate of unduplicated students meeting student growth percentile (SGP) in Star Reading (measured by Goal 2 Metric 9) Rate of unduplicated students meeting student growth percentile (SGP) in Star Math (measured by Goal 2 Metric 10)
1.3	Action: Library Media Clerks	By increasing access to diverse reading collections both in print and online, Foster youth, English learners, and low-income students will have increased opportunities to read relevant and interesting literature. Increased independent	We will monitor the progress of increased access to diverse libraries for Foster youth, English learners, and low-income

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: During the 20232024 school year an average of 30.5 books were checked out by each student in the district for a total of 612,371 books circulated. Currently we have 436,898 books in our school libraries which is fewer than our circulation numbers. Our circulation is lowest in our junior high schools. myON, the digital platform for books was utilized by 5576 students. 805 English learners accessed books via myON. Reading achievement data shows Foster Youth are scoring 93.8 points below standard, English learners 44 points below standard and Low Income students 23.2 points below standard. These subgroups are performing lower than the overall achievement in reading for P-BVUSD. There is a gap in achievement in reading for our unduplicated students. Informal feedback from our English learner families indicates the need for more hours of library accessibility at school sites. They would also like accessibility to more books in native languages as well as books representing diverse cultures. Informal feedback from Foster youth indicates a need for books in the home. Accessibility to library books is important for this group to allow for adequate independent reading materials.	reading will foster opportunities for increased academic achievement in ELA. By ensuring additional opportunities to visit the library, families of Foster youth, English learners, and low-income students may visit before school. This benefits families by fostering reading enjoyment which may benefit student achievement in reading. This also allows our Foster youth, English learners, and low-income students weekly access to books.	students as well as all students with: library circulation data (measured by Goal 1 metric 5) We will monitor reading achievement data for our Foster Youth, English learners and Low Income students with the following achievement and access data: Average Distance from Standard (DFS) on CAASPP ELA Assessment (measured by Goal 2 Metric 1)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
1.4	Action: Professional Learning and Instructional Materials Need: Reading achievement data shows Foster Youth are scoring 93.8 points below standard, English learners 44 points below standard and Low Income students 23.2 points below standard. These subgroups are performing lower than the overall achievement for PBVUSD. There is a gap in achievement in reading for our unduplicated students. Math achievement data shows Foster Youth are scoring 131.4 points below standard, English learners 79.3 points below standard and Low Income students 66.9 points below standard. These subgroups are performing lower than the overall achievement for P-BVUSD. There is a gap in achievement in math for our unduplicated students. 94% of participants of the LCAP 2023-2024 Home Survey shared that having well-trained teachers in the classroom should be of high importance. That includes parents/guardians of Foster Youth, English learners and Low Income students.	The district will provide teachers with professional development opportunities to support collaborative small group instruction to close literacy gaps, building fluency and comprehension to increase reading levels by one year. In addition, professional learning opportunities will be provided to enhance learning around the new math framework and provide effective strategies to support the mathematical practices through "The Thinking Classroom." Foster youth, English learners, and Low Income students currently score below their grade-level peers and will have increased learning opportunities through high quality, evidence-based instruction. These actions are provided on an LEA-Wide basis to increase foundational math and ELA Tier 1 instructional practices to provide equitable access to well-trained teachers.	We will monitor academic achievement data for our Foster Youth, English learners and Low Income students with the following achievement and access data: Average Distance from Standard (DFS) on CAASPP ELA Assessment (measured by Goal 2 Metric 1) Average Distance from Standard (DFS) on CAASPP Math Assessment (measured by Goal 2 Metric 2)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
1.7	Action: Access to Instructional Technology Resources Need: 92% of respondents to the Home LCAP survey indicated that having adequate access to instructional materials, including technology. 96% of staff also responded that having adequate access to instructional materials, including technology is extremely important or important. 2023-2024 KiDS data showed 43% of unduplicated students were high risk according to Star Reading benchmark data. 97% of staff also responded that having student access to online tools to support learning is very important or important. This allows them to offer differentiated support to unduplicated students. Scope:	The district will continue to support an educational technology classroom setting that allows students alternatives to learning. Students from Low Income, foster and Unhoused homes tend to not have access to technology. Our commitment to Go Guardian and additional platforms will educate students against cyber bullying and create a risk free and equitable environment that allows students to create in a safe environment. These actions are being provided on an LEA-wide basis because all our students can benefit from the use of technology and ability to utilize technology as an additional learning tool.	We will monitor online accessibility for our Foster Youth, English learners and Low Income students with the following data: Rate of 1st-8th grade students with one-to-one access to Chromebooks (measured by Goal 1 Metric 7) Rate of proficiency on Universal Screeners delivered via the online platform Renaissance (measured by Goal 2 Metrics 4 and 5)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
1.12	Action: Intervention Support Need: Reading achievement data shows Foster Youth are scoring 93.8 points below standard, English learners 44 points below standard and Low Income students 23.2 points below standard. These subgroups are performing lower than the overall achievement for PBVUSD. There is a gap in achievement in reading for our unduplicated students. 2023-2024 KiDS data showed 43% of unduplicated students were high risk according to Star Reading benchmark data. Feedback on the 23-24 Home LCAP survey indicated that families of English learners and Low Income students would like more tutoring or additional support given to children with learning needs. Scope: LEA-wide	Intervention teachers will develop lesson plans that focus on the identified needs indicated through district Tier II assessments. Lessons will be provided through differentiated instructional grouping focusing on the literacy foundational skills: concepts of print, phonemic awareness, phonics, fluency, vocabulary and comprehension in grades K-6. Foster youth, English learners and Low Income students will have more access to learning opportunities from qualified adults to increase reading achievement. Intervention teachers will progress monitor on a regular basis providing the homeroom teacher with monthly reports to guide Tier I instruction and information to support at home learning. These actions will address literacy gaps for Low Income, foster, and English learner students. They are provided on an LEA-wide basis to integrate and increase foundational reading skills and literacy across all content areas for all students and provide support for all families to increase literacy outcomes for all students.	We will monitor academic achievement for our Foster Youth, English learners and Low Income students with the following student achievement data: Rate of proficiency on Universal Screeners delivered via the online platform Renaissance (measured by Goal 2 Metrics 4 and 5) Average Distance from Standard (DFS) on CAASPP ELA Assessment (measured by Goal 2 Metric 1) Rate of students meeting student growth percentile (SGP) in Star Reading (measured by Goal 2 Metric 9)
2.5	Action: VAPA Need:	The district will maintain a visual and performing arts program at all schools to provide opportunities for all students, including Foster Youth, Low-Income and English Learners. Extra effort will be put into recruiting students from underrepresented	We will monitor access to VAPA for our Foster Youth, English learners and Low Income students with the following data:

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Feedback on the 23-24 Home LCAP survey indicated that 70.8% of English respondents felt their children have access to extracurricular programs including band and chorus. Only 60.6% of Spanish-speaking respondents felt their children have that same access. Feedback on the 23-24 Staff LCAP survey indicated a need for more access to music education to meet California Arts Education Framework standards. Teachers would like all students to have consistent access to music as a way to engage students in school to improve attendance, especially for our unduplicated student groups. The Low income student group has an attendance rate below the all student group. Scope: LEA-wide	groups into the program to ensure equitable access to students who may not otherwise have the opportunity to participate in visual and performing arts. Equipment will be provided to eliminate the cost barriers of instruments and other materials. This action is being provided on an LEA-wide basis because all our students can benefit from a VAPA program that provides access to the California Arts Education Framework standards.	Disaggregated attendance data (measured by Goal 3, Metric 1)
2.6	Action: GATE, Professional Learning and Certification Need: Feedback on the 23-24 Home LCAP survey indicated that only 54.5% English respondents felt their children have access to specialized academic programs including GATE. Only 41% of Spanish speaking respondents felt their children have that same access.	The district will continue to make efforts to increase the participation of English learners, Foster Youth and Low Income students in the GATE program. This will allow more access to opportunities for accelerated and project-based learning to increase CAASPP ELA and Math outcomes. We anticipate this action will target the discrepancy in CAASPP scores between the all student group and our unduplicated students. The district will also continue to provide training to instructional staff on evidence-based gifted and talented instructional strategies. This will increase the number of English learners, Foster Youth and	We will monitor access to GATE for our Foster Youth, English learners and Low Income students with the following data: Percent of unduplicated students participating in GATE (measured by Goal 2 Metric 7) Average Distance from Standard in ELA Decrease (Goal 2, Metric 1)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Parents expressed the need for additional programs and opportunities for students to increase their academic proficiency levels. There is a gap in achievement in reading for our unduplicated students. Current data shows 40% of the students in GATE are unduplicated students. This is far below our district average of unduplicated students. Scope: LEA-wide	Low Income students receiving instruction from teachers trained in GATE teaching strategies. This action is being provided on an LEA-wide basis because all our students can benefit from challenging and enriching learning opportunities.	Average Distance from Standard in Math Decrease (Goal 2, Metric 2)
2.8	Action: CAMP KEEP Need: 76% of Panama-Buena Vista Union School District students are considered Low-Income. This provides a challenge in equitably providing opportunities for the costly Camp KEEP field trip. Site principals reported many families were requesting scholarships or not choosing to have their children participate in the trip due to a lack of personal funds. Currently, we are scoring below the state average on the California Science Test and access to hands on science for all students, especially our unduplicated students, will give students valuable experiences.	The district will continue to provide equitable access for all 6th-grade students to attend Camp KEEP, specifically students who fall into the following subgroups: English learners, Foster Youth and Low Income students. These students may not otherwise be able to attend the camp. This hands-on experience will increase the educational experience for students who may not have previous experiences in outdoor educational settings. This action is being provided on an LEA-wide basis because all our students can benefit from the hands-on science experience.	We will monitor access to Camp KEEP by reviewing rosters of students attending Camp KEEP (measured by site rosters for Camp KEEP, Goal 2, Metric 12) We will monitor the progress of student academic growth on the California Science Test (Goal 2, Metric 8)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Feedback on the 23.24 LCAP Home survey as well as informal feedback in conversations with families indicated a need for more field trip experiences for students. Scope: LEA-wide		
2.9	Action: AVID/ Pre-CTE Need: Feedback on the 23-24 Home LCAP survey indicated that both parents and/or guardians and staff request additional opportunities for students to receive access to career technical opportunities, especially students from low income, foster and unhoused, to provide exposure to careers rather than just college. Staff responses included students needed the opportunity to choose career pathways based on traumatic childhood events. Reading achievement data shows Foster Youth are scoring 93.8 points below standard, English learners 44 points below standard and Low Income students 23.2 points below standard. These subgroups are performing lower than the overall achievement for P-BVUSD. Math achievement data shows Foster Youth are scoring 131.4 points below standard, English learners 79.3 points below standard and Low Income students 66.9 points below	The district will continue to make efforts to increase the participation of English learners, Foster Youth and Low Income students in the AVID/pre-CTE program. This will allow more access to opportunities for career pathways and opportunities other than college. The district will also continue to provide training to instructional staff on providing training on pre-CTE pathway instructional design and possible CTE certification. This will increase the number of English learners, Foster Youth and Low Income students receiving instruction from teachers trained in pre-CTE certified courses. This action is being provided on an school-wide basis to support our junior high school students before entering high school by providing additional support and opportunities to connect with a career or possible skill to maximize the high school experience, regardless of zip code or placement.	We will monitor access to pre-CTE courses for our Foster Youth, English learners and Low Income students with the following data: Percent of unduplicated students participating in pre-CTE elective courses (measured by Goal 2, Metric 11)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	standard. These subgroups are performing lower than the overall achievement for P-BVUSD. Increasing student interest in creating more access to opportunities for college/career pathways should impact student achievement. Current data shows that 77% of PBVUSD students are unduplicated with 132 being Foster and 108 unhoused. This allows additional opportunities for students with unstable home lives. Scope: Schoolwide		
3.1	Action: Safety Need: Recent survey data from the 2024 Local Control and Accountability Plan (LCAP) provides crucial insights into the perceived safety and specific needs of students within our school community, with a particular focus on unduplicated students—those from Low Income backgrounds, English learners, and Foster Youth. According to the 2024 Staff LCAP Survey, 86.5% of staff members believe that students feel safe in various aspects, including physically and emotionally, while at school. This high level of confidence among staff contrasts with the 77.6% of parents and	To address these needs, it is essential to focus on improving the safety and support structures, particularly in junior high schools as reflected in targeted strategies throughout all actions within Goal 3 of the LCAP, but particularly in Action 3.1. In addition to several actions which address psychological and emotional safety such as social emotional learning, tiered support systems, and guidance addressing restorative disciplinary practices, there are specific actions related to safety to meet the identified needs. These safety actions include enhanced crisis response communication, evidence-based preparedness measures, and adequate personnel including campus supervisors at all junior high schools to support safety efforts. By addressing these needs, all schools will cultivate school environments where all students, particularly unduplicated students, feel equally safe and supported, thereby	We will monitor safety data for our Foster Youth, English learners and Low Income students as well as other student groups with identified disparities with the following data: Disaggregated Attendance Rate by student group (measured by Goal 3, Metric 1) Disaggregated percent of all parents/staff reporting students feel safe at school (elementary vs. junior high) (measured by Goal 3, Metric 12)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	families who reported a similar belief on the 2021 Home LCAP Survey. This discrepancy indicates a gap between staff and family perceptions of student safety, suggesting a need for better communication and alignment on safety issues. When examining the data disaggregated by school level, additional gaps become evident. Among staff, 89% of those assigned to elementary schools reported that they believe their students feel safe, compared to only 71% of staff at junior high schools. This trend is mirrored in the responses from families: 77.6% of parents with elementary school students felt their children were safe at school, compared to just 68% of junior high parents. These differences highlight a particular concern for the safety perceptions at the junior high level. Moreover, the 2024 Home LCAP Survey revealed that 33.7% of participating families identified themselves as parents of unduplicated students. Given that these students are already facing additional challenges, the lower safety perceptions at the junior high level are particularly concerning. Additionally, the connection between school connectedness and attendance is crucial in understanding how students' feelings of safety and belonging impact their presence at school. Disaggregated attendance data provides further insight including lower attendance rates among unduplicated students and those with challenges, suggesting that feelings of safety and connectedness directly influence their	promoting their overall academic and social emotional development.	Disaggregated percent of parents/staff reporting students reporting it is easy to talk to teachers/staff (elementary vs. junior high) (measured by Goal 3, Metric 13) Disaggregated percent of students reporting it is easy to talk to teachers/staff by elementary vs. junior high school (measured by Goal 3, Metric 14)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	ability to attend school regularly. For instance, in 2023 overall attendance was 93.16%, but it varies among different student groups. English learners (EL) have a slightly higher attendance rate at 93.6%, while Foster Youth (FY) and Low Income (LI) students attend at 93.2% and 92.7%, respectively. Scope: Schoolwide		
3.3	Action: MTSS Need: Recent data from the California Department of Education (CDE) Dashboard and local sources highlight critical areas where unduplicated students, specifically Unhoused Youth and Students with Disabilities, require additional support to successfully engage in school. Unhoused Youth face significant challenges in maintaining regular attendance and engagement. As of May 2024, Unhoused Youth have an attendance rate of 85.8%, which is over 7% lower than the overall student population. Furthermore, their chronic absenteeism rate stands at 43.67%, more than 16% higher than that of all students, according to the 2022-2023 CA Dashboard. These figures underscore the urgent need for targeted interventions to help Unhoused Youth overcome barriers to consistent school attendance and participation.	The district will implement and expand MTSS to tailor interventions and resources to meet the unique needs of every student, focusing on Foster Youth, Low Income students, and English learners. Additionally, implementing SEL will be essential to building social-emotional competencies, which can significantly improve attendance and engagement among unduplicated students. Restorative practices aim to reduce disproportionality in discipline and foster a supportive school environment. Addressing health related barriers is crucial for the overall well-being and academic success of vulnerable youth. By implementing these targeted actions districtwide, the district aims to improve attendance, reduce chronic absenteeism, and enhance overall engagement and success for Unhoused Youth and other unduplicated students, ensuring equitable opportunities for all.	We will monitor engagement data for our Foster Youth, English learners and Low Income students as well as other student groups with identified disparities with the following data: Disaggregated attendance data (measured by Goal 3, Metric 1) Disaggregated chronic absenteeism data (measured by Goal 3, Metric 2) Disaggregated Suspension rate by student group (measured by Goal 3, Metric 4)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Schools with high percentages of unduplicated students—those who are Low Income, English learners, and Foster Youth—also demonstrate a pressing need for supplemental support. These students often encounter compounded challenges that can hinder their academic success and overall well-being. Scope: LEA-wide		Disaggregated percent of students reporting they belong at school (connectedness) by elementary vs. junior high school (measured by Goal 3, Metric 6)
3.4	Action: Assistant Principals Need: Recent data from the California Department of Education (CDE) Dashboard and local sources indicate that suspension rates for Foster Youth, Low Income (LI) students, Unhoused Youth, Students with Disabilities (SWD), and African American (AA) students remain high compared to all students. This demonstrates a need to maintain a 1.0 Full-Time Equivalent (FTE) Assistant Principal at all school sites is designed to meet these identified needs by providing differentiated support in response to behavioral issues and promoting equitable disciplinary practices. Data Highlights: Foster Youth: With a suspension rate of 12.07%, Foster Youth are over four times more likely to be suspended than the general student population.	Maintaining a 1.0 Full-Time Equivalent (FTE) Assistant Principal (AP) at all school sites is crucial to addressing these disparities. Full-time APs are essential for implementing differentiated support strategies tailored to each student group's unique challenges. Their presence ensures that there is a dedicated leader focusing on improving student behavior and fostering a positive school climate. Moreover, full-time APs play a pivotal role in developing and promoting equitable disciplinary practices, which are vital for reducing suspension rates and addressing the root causes of behavioral issues. This strategy not only supports students who are at higher risk of disciplinary actions but also fosters a more equitable and supportive educational environment for all students. Foster Youth: Full-time APs will provide the necessary leadership and support to implement targeted interventions, monitor progress, and collaborate with school teams including multidisciplinary team members (i.e. school social workers, psychologists, nurses) to support these	We will monitor climate data for our Foster Youth, English learners and Low Income students as well as other student groups with identified disparities with the following data: Disaggregated Suspension data by student group (measured by Goal 3, Metric 4) Disaggregated Chronic Absenteeism data by student group (measured by Goal 3, Metric 2)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Unhoused Youth: The suspension rate for Unhoused Youth stands at 3.7%, almost 1% higher than all students. Students with Disabilities (SWD): SWD have a suspension rate of 4.36%, which is over 1.5% higher than the overall student suspension rate. African American Students: African American students face a suspension rate of 7.38%, over 4% higher than the average. Additionally, feedback from educational partners via the LCAP and Connectedness survey emphasize a need for maintaining at least 1 full-time Assistant Principal at all school sites to continue and further enhance a focus on student engagement, particularly for the most vulnerable student populations noted above. For instance: Care/Belonging: 74% of families report that they believe it is easy for their child to talk with teachers/staff at their school and 82% reported they believe teachers and staff care about their child; 93.4% of staff report they believe it is easy for their students to talk with teachers/staff at their school and 98.2% reported a belief that teachers and staff care about students; 67.95% of students report it is easy to talk with teachers/staff at their school and 70.76% report teachers/staff care about them.	students effectively. Unhoused Youth: Full-time APs will work closely with these students to understand their unique challenges and develop supportive, inclusive strategies that mitigate disciplinary issues while addressing their broader needs. African American Students: Full-time APs will be crucial in addressing the identified disparity by promoting culturally responsive practices, providing bias training for staff, and creating a more inclusive and supportive school environment.	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Safety/Help: 86.5% of staff members believe that students feel safe in various aspects, including physically and emotionally, while at school with 77.6% of parents and families who reported a similar belief. Additionally 77% of families reported that their child knows were to go for help at school when needed while 93.7% of staff reported a similar belief about their students. Additional qualitative LCAP feedback from educational partners also reflected a need for maintaining Assistant Principals at all schools. For instance: Families: Families emphasized the need for enhanced communication and guidance with school administrators regarding available support services such as proactive bullying prevention and mental health support and how to become a partner in school programs. Families also indicated a need for greater inclusivity and engagement by promoting positive and inclusive learning environments through social-emotional learning, celebrating diversity, and respect for all. Staff: Staff emphasized the need for professional learning to better support the increasing needs of students noting subjects such as SEL, trauma-informed care, and behavior interventions as well as protocols to address chronic absenteeism through any differentiated assistance needed to ensure all students have equal access to education.		

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
3.6	Action: Parent & Family Engagement Need: The 2023-2024 LCAP Home Survey data reveals a need for enhanced opportunities and support for family participation and belonging in school decision-making processes, particularly for families of unduplicated students, which include Low Income students, English learners, and Foster Youth. Family Participation in Decision-Making: Overall, 69.2% of all parents/families reported having opportunities to take part in decisions made at their school. However, when looking at specific subgroups of unduplicated students, the data shows varied levels of perceived opportunities: Families of Low Income students: 95% Families of English learners: 78% Families of Foster Youth: 100% This data indicates that while families of Low Income students and Foster Youth report high levels of participation opportunities, there is a notable gap for families of English learners, with only 78% feeling they have such opportunities. As noted previously, the 2024 Home LCAP Survey revealed that 33.7% of participating families identified themselves as parents of unduplicated students.	To address these needs, the District, under the direction of the Director of Community and Family Engagement and in collaboration with the Consolidated Programs Department, will prioritize fostering meaningful engagement and collaboration between the district and families. Actions within 3.6 are designed to empower families to actively participate in their child's education and create a supportive environment conducive to student success including: 1. Closing the gap for families of ELs by ensuring their voices are heard and valued in school and District decisions 2. Providing targeted education programs will help families of English learners and other unduplicated students to better support their children's education at home and in school 3. Ensuring all family engagement opportunities will help build a sense of belonging and community among all families, enhancing their involvement and connection with the school. 4. Enhancing community partnerships to provide additional resources and support tailored to the needs of unduplicated students, addressing barriers to their engagement and success.	We will monitor engagement data for all P-BVUSD families, including our Foster Youth, English learners and Low Income students as well as other student groups with identified disparities with the following data: Percent of parents/families reporting opportunities to take part in decisions made at their school (measured by Goal 3, Metric 7) Percent of parents/families of unduplicated students reporting family participation opportunities at their school and the District (measured by Goal 3, Metric 8) Percent of parents/staff reporting families feel like they belong when visiting school (measured by Goal 3, Metric 11)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Sense of Belonging: 82.95% of families across all schools reported feeling like they belong when visiting the school. From the staff perspective, 77.8% believe families feel like they belong. The sense of belonging is crucial for family engagement, and while the majority of families and staff feel positive, there is room for improvement to ensure all families feel welcome and included. Scope: LEA-wide		
3.8	Action: Class-Size Reduction Need: The analysis of recent data reveals significant needs among unduplicated pupils related to attendance, connectedness, and perceptions of safety at school. These needs are particularly pronounced in specific subgroups and at different school levels, indicating the benefits of class-size reduction to provide more personalized support and improve overall student outcomes. Data Highlights: Attendance Rates: The attendance rates for Low Income (92.7%) and Unhoused students (85.8%) are notably lower than the overall student population (93.16%). While the	Given the above data insights, class-size reduction emerges as a strategic response to address the identified needs of unduplicated pupils. Smaller class sizes can provide several benefits: Personalized Attention: Reducing class sizes allows teachers to provide more individualized attention to students, particularly those with lower attendance rates, such as Unhoused Youth. Personalized support can help address barriers to attendance and engagement. Enhanced Connectedness: Smaller class sizes can foster stronger relationships between students and teachers, which is crucial for improving student connectedness, especially in junior high schools where connectedness is notably lower.	We will monitor engagement and climate data for all students, including our Foster Youth, English learners and Low Income students as well as other student groups with identified disparities with the following data: Disaggregated Attendance Rate by student group (measured by Goal 3, Metric 1) Disaggregated percent of students reporting they belong at school (connectedness) by

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	attendance rates for Foster Youth (93.2%) and EL (93.6%) are close to the overall student population, they are not where we would like it to be. This indicates a need for targeted interventions to improve attendance among these vulnerable groups. Feedback from educational partners also reflects a need for reduced class sizes. For instance: Only 37.7% of staff reported class sizes are appropriate at their school and 59% of families reported the same. Additionally, staff reported the need for enhanced classroom supports to meet the increasing and diverse learning needs including a reduction in class sizes in order to ensure equitable access to learning for all in the qualitative LCAP responses. Families also indicated the need for smaller class sizes in qualitative LCAP responses. Student Connectedness: Connectedness is significantly lower in junior high schools (57.6%) compared to elementary schools (71.6%). Enhancing student connectedness, particularly in junior high, is crucial for fostering a supportive and engaging learning environment. Safety: Families and staff at junior high schools report lower perceptions of safety (68% and 71%, respectively) compared to elementary schools (77% and 89%, respectively). Addressing these safety	Perception of Safety: Teachers in smaller classes can more effectively manage classroom dynamics, creating a safer and more inclusive environment. This is particularly important in junior high schools where perceptions of safety are currently lower. Better Communication: Smaller class sizes facilitate more meaningful interactions between students and teachers, helping to improve communication and support. This is essential for junior high students who currently report lower levels of ease in talking to teachers and staff. By prioritizing class-size reduction, the district aims to create a more supportive, engaging, and safe learning environment for unduplicated pupils, thereby addressing the specific needs identified in the data. This approach will help to ensure that all students, especially those from vulnerable populations, have the opportunity to succeed academically and socially.	elementary vs. junior high school (measured by Goal 3, Metric 6) Disaggregated percent of students reporting it is easy to talk to teachers/staff by elementary vs. junior high school (measured by Goal 3, Metric 14)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	concerns is essential to creating a secure and conducive learning atmosphere. Communication: The ease with which students feel they can talk to teachers and staff is higher in elementary schools (76.1%) than in junior high schools (59.75%). Improving student-teacher communication in junior high is vital for supporting students' academic and emotional needs. Scope: LEA-wide		
3.9	Action: Communications Need: The analysis of recent survey data reveals specific needs among unduplicated pupils, particularly in the areas of family engagement in school decision-making and fostering a sense of belonging. These needs highlight the importance of effective communication strategies to enhance family participation and connection within the school community. Feedback from educational partners via LCAP survey reflected a need for enhanced communication. For instance: Communication for Families: Qualitative responses from families indicated a need for enhanced regular communication between	By implementing the actions in 3.9, the District aims to achieve the following outcomes: Increased Family Participation: More families, particularly those of unduplicated students, will have opportunities to participate in school decision-making processes, leading to more inclusive and representative decisions. Enhanced Sense of Belonging: Families will feel more welcomed and included when visiting schools, fostering a supportive environment that promotes student success. Improved Communication: Strengthened relationships and better communication with educational partners and families will lead to a more cohesive and collaborative school community.	We will monitor engagement data for all P-BVUSD families, including our Foster Youth, English learners and Low Income students with the following data: Percent of parents/families reporting opportunities to take part in decisions made at their school (measured by Goal 3, Metric 7) Percent of parents/staff reporting families feel like they belong when visiting school (measured by Goal 3, metric 11)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	teachers and parents regarding classroom activities and important information. Examples provided were class and school activities, homework, areas of support needed, and ideas for how to better support their students at home. Families also indicated a desire for increased responsiveness from teachers and administrators regarding their children's academic progress. Staff also noted in qualitative LCAP responses improved translation services as a need to ensure effective communication with families who speak languages other than English. Communication for Staff: Qualitative responses from staff indicated a need for clear communication around expectations and support, training opportunities, and guidance for various topics (e.g. implementing curriculum, managing behavior, etc.). Family Participation in Decision-Making: Only 69.2% of parents/families report having opportunities to take part in decisions made at their school. This indicates a need to increase and improve opportunities for family involvement in the decision-making process to ensure that all voices, particularly those of unduplicated students' families, are heard and valued. Sense of Belonging: While 82.95% of families and 77.8% of staff report that families feel like they belong when visiting school, there is still room for improvement. Ensuring that families feel welcomed and included is crucial for	In summary, these actions are designed to address the identified needs of unduplicated students by enhancing communication strategies, increasing family participation in decision-making, and fostering a sense of belonging within the school community. By doing so, students will be more engaged in school, increasing attendance annually.	Disaggregated Attendance Rate by student group (measured by Goal 3, Metric 1)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	fostering a supportive school community. The attendance rate of our Low Income student group is below the all student group and increasing communication and a sense of belonging should increase attendance. Scope: LEA-wide		
3.10	Action: Alternative Education Need: The data from the 2022-2023 school year and recent surveys highlight specific areas of concern for unduplicated pupils that the Local Control and Accountability Plan (LCAP) must address, particularly within the alternative education program. Suspension Rates: The suspension rates reveal significant disparities among different student groups. Foster Youth have an alarmingly high suspension rate of 12.07%, indicating that they are at a higher risk of disciplinary actions compared to their peers. Low Income students are suspended at a rate of 3.18%, while English Learners, with a rate of 2.51%, although below the overall rate, still require attention. These figures suggest that targeted support and intervention strategies are crucial to address the underlying issues	To address these identified needs, Action 3.10 will focus on the following strategies within the alternative education program: Enhanced Support Services: Increase access to counseling, mentorship, and social-emotional learning programs, particularly for Foster Youth, African American students, Students With Disabilities, and Unhoused students. Restorative Practices: Implement restorative justice practices to address behavioral issues and reduce suspension rates, ensuring that all students have the opportunity to learn from their mistakes and remain engaged in their education. Community Building: Foster a strong sense of belonging through community-building activities, peer support groups, and inclusive school culture initiatives, with particular emphasis on junior high students. Tailored Instruction: Develop personalized learning plans that address the unique needs and strengths	We will monitor data for measuring the effectiveness of the alternative education program, including our Foster Youth, English learners and Low Income students with the following data: Disaggregated Suspension rate by student group (measured by Goal 3, Metric 4) Disaggregated percent of students reporting they belong at school (connectedness) by elementary vs. junior high school (measured by Goal 3, Metric 6)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	leading to higher suspension rates in these groups. Student Connectedness: The Spring 2024 Student Connectedness Survey indicates that the overall sense of belonging among students is 67%. However, there is a marked difference between elementary and junior high school students, with 71.6% of elementary students reporting a sense of belonging compared to only 57.6% of junior high students. This drop in connectedness as students transition to higher grades is concerning and points to the need for initiatives that foster a supportive and inclusive environment, especially in junior high schools. Alternative Education Enrollment: The alternative education program, with an enrollment of 40 students for the 2023-2024 school year, provides an essential pathway for students who may not thrive in traditional school settings. Given the high suspension rates among certain groups and the lower sense of belonging in junior high, the alternative education program must be designed to offer a supportive and engaging learning environment tailored to the needs of these students. This includes providing additional social-emotional support, creating a strong sense of community, and implementing restorative practices to reduce suspensions and improve overall student well-being. Scope:	of each student, especially those in alternative education settings, to keep them engaged and motivated. By focusing on these areas, the alternative education program can better support unduplicated pupils, reduce suspension rates, and enhance student connectedness, ultimately leading to improved educational outcomes.	Alternative Education Enrollment (measured by Goal 3, Metric 15)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
3.11	Action: Health & Wellness Center(s) Need: Updated LCAP data highlights the need to expand access to integrated health services across all school sites, especially for Unduplicated Pupils. In 2024–25, Health & Wellness Centers delivered 238 services, with 92.9% of students receiving needed corrective eyewear. However, chronic absenteeism remains disproportionately high among Unhoused students (55.1%), Foster Youth (34%), and Students with Disabilities (37.9%) (Goal 3, Metric 2), suggesting unmet health-related barriers to attendance and engagement. Additionally, only 60.52% of junior high students report feeling a sense of belonging (Goal 3, Metric 6), reinforcing the need for increased physical, mental, and relational health supports. Staffing shortages further limited the reach of services, emphasizing the need for sustainable staffing models and expanded partnerships to meet growing student needs. Scope: LEA-wide	Action 3.11 directly supports Unduplicated Pupils—including Foster Youth, English Learners, and Low-Income students—by reducing barriers to learning through increased access to physical and mental health services. Health & Wellness Centers provide on-site vision, medical, and behavioral health supports that address key drivers of chronic absenteeism and school disengagement disproportionately impacting these student groups (Goal 3, Metric 2). For example, in 2024–25, Foster Youth (34%), Unhoused students (55.1%), and Students with Disabilities (37.9%) experienced the highest chronic absenteeism rates, indicating a strong need for integrated services. Additionally, low connectedness among junior high students (60.52%) (Goal 3, Metric 6) underscores the need for relational supports that wellness services help address. This action is provided on an LEA-wide basis to ensure equitable access across all school sites, regardless of campus size or demographic concentration. Centralizing services allows for consistent coordination, targeted outreach, and scalable impact that benefits all students—especially those facing the greatest systemic barriers to academic success.	We will monitor data for measuring the effectiveness of this action, including our Foster Youth, English learners and Low Income students with the following data: Disaggregated chronic absenteeism data by student group (measured Goal 3, Metric 2) Disaggregated percent of students reporting they belong at school (connectedness) by elementary vs. junior high school (measured by Goal 3, Metric 6)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
3.5	Action: Support for Foster & Unhoused Youth Need: As indicated in CDE Dashboard and local data, Foster and Unhoused youth remain in need of additional support to engage successfully at school. - FY: Suspension rates for Foster Youth were 12.07%, over four times as much as all students according to the 2022-2023 CA Dashboard. - UY: As of May 2024, unhoused youth have an attendance rate of 85.8% according to local data, over 7% less than all students; have a chronic absenteeism rate of 43.67%, over 16% higher than all students according to the 2022-2023 CA Dashboard; 3.7% suspension rate, almost 1% higher than all students according to the 2022-2023 CA Dashboard. Additionally, there is a need to enhance identification processes for unhoused youth to receive McKinney-Vento support services as indicated by the low enrollment of 121	By implementing the targeted actions above, the District aims to reduce suspension rates, improve attendance, and decrease chronic absenteeism among Foster and unhoused youth. These efforts will help create a more supportive and stable educational environment, enabling these students to engage successfully and achieve better educational outcomes.	We will monitor engagement and climate data for our foster and unhoused youth with the following data: Disaggregated attendance data by student group (measured by Goal 3, Metric 1) Disaggregated chronic absenteeism data by student group (measured Goal 3, Metric 2) Disaggregated suspension data by student group (measured by Goal 3, Metric 4)

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	students (0%) districtwide. Feedback from educational partners also reflects a need for continued enhanced support services for foster and unhoused youth. For instance, although unduplicated students were not specifically mentioned, families indicated the need for increased access to appropriate resources, accommodations, and support services needed for each student to thrive academically and socially. Additionally, it should be noted that only 76% families reported agreement that their children feel physically and emotionally safe at school, reinforcing the need for consistent attention to engagement and climate efforts, particularly for students with diverse backgrounds and/or experiences. Scope: Limited to Unduplicated Student Group(s)		
4.1	Action: Newcomer Supports Need: We currently serve 91 newcomer students. Newcomers bring unique assets, but have challenges and needs as they join school in a new environment. Newcomers need academic supports and also social-emotional supports to help in connecting to their new environment. Based on feedback from staff through formal surveys as well as formal and informal input,	By providing district-level support for newcomers, we will ensure that teachers feel equipped to meet the diverse needs of newcomer English learners. The Newcomer's Guide will offer equitable access to immediate resources that may assist in supporting a newcomer as the child enters a new school. Instructional specialists are available to visit sites to support instructional staff with evidence-based strategies for instructing newcomers. By adopting culturally and linguistically sustainable instructional materials, we will best support the academic	We will monitor the effectiveness of strategies to support newcomers by: Monitoring the percentage of English learner students who make progress toward English proficiency including newcomers (measured by Goal 4 Metric 1). We will also monitor the number of requests for site

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	there is an increased need for language supports for newcomer students. Based upon 2023 Dashboard, 50.2% of our English learners are making progress towards English proficiency. Some teachers feel ill-equipped to instruct students with limited English skills. They would like resources and training to improve the quality of instruction targeted toward our newcomers. Scope: Limited to Unduplicated Student Group(s)	needs of our newcomer students to increase their success in school.	support for evidence-based practices to support newcomers. Instructional specialists will maintain logs of support for newcomers.
4.3	Action: Dual Immersion/ Multilingual Program Need: We currently serve 2641 English learner students. That is 13% of our student population. English learners currently score below their grade level peers. English learners scored 44 points below standard in ELA and 79.3 points below standard in math according to the California Dashboard. 50.2% of English learners showed progress toward language development according to the English Learner Progress Indicator. Based on educator partner feedback, there is a need for a multilingual program in the district. Educational partners would like a dual-immersion program.	By offering a dual-language program, English learners will have the opportunities to expand on their assets of being native speakers of a language other than English. The assets of their language along with multi-lingual learning opportunities will enable them to not only be bilingual, but be biliterate. This will increase English learner academic achievement in both Spanish and English.	We will monitor the effectiveness of the multi-lingual program by: Monitoring the percentage of English learner students participating in the program who make progress toward English proficiency including newcomers (measured by Goal 4 Metric 1). Monitoring local benchmarks (Star Reading and Star Math) of students in the program to monitor academic achievement in ELA and mathematics (measured by Goal 2 Metrics 4 & 5)

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)		
4.5	Action: EL/RFEP Data Monitoring System Need: We currently serve 2641 English learner students. That is 13% of our student population. English learners currently score below their grade level peers. English learners scored 44 points below standard in ELA and 79.3 points below standard in math according to the California Dashboard. 50.2% of English learners showed progress toward language development according to the English Learner Progress Indicator. Based on educator feedback, there is a need to have a district-wide tool to monitor English learners' reclassification status as well as progress in language proficiency. Scope: Limited to Unduplicated Student Group(s)	The use of the Ellevation data management platform to track the progress and proficiency of English learners will allow classroom-level educators as well as district-level educators to monitor English proficiency levels. By better identifying the specific areas of need in listening, speaking, reading, and/or writing domains, instruction may be targeted to better support individual students in their language development. This data may also be used to create targeted professional development based on data. By using data to guide instruction, it is expected that English learners' language proficiency achievement will increase.	We will monitor the effectiveness of Ellevation by: Monitoring the percentage of English learner students participating in the who make progress toward English proficiency including newcomers (measured by Goal 4 Metric 1). Monitoring the amount of teachers utilizing the platform to access data regarding their English learners.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The District intends to effectively utilize the Supplemental and Concentration Grant funds to support the needs of Foster Youth, Low Income, English learners students. To increase the number of staff providing services the district intends to implement the following:

Action 3.3a: MTSS Teams: During the 2025-2026 school year, the District will maintain the one Student Support Services Program Specialist that supports the effective implementation of the expanded Positive Behavior Interventions and Support systems with an emphasis on prevention and relationship building to promote engagement for our most vulnerable youth. In addition, the District will maintain the dedication of S & C funding for equivalent to six (6) School Social Workers to support all students, with a strong emphasis on our Foster Youth, Low Income, English learners students, as well as our Unhoused, African American, and Students with Disabilities.

Action 3.6: Parent & Family Engagement: During the 2025-2026 school year, the District plans to continue to enhance opportunities for parent and family engagement through the Director of Community and Family Engagement who will focus exclusively on fostering meaningful engagement and collaboration between the district and the families of our students, focusing on our Foster Youth, Low Income, English learners students, as well as our Unhoused, African American, and Students with Disabilities. The actions outlined will support building engagement opportunities at the district and site level, based on educational partner feedback, as well as expanding community partnerships to provide additional opportunities for students at the school sites through enhanced support and achievement measures.

Action 4.3: Dual Immersion/Multilingual Program: Beginning in the 2024-2025 school year, the three year implementation plan will expand the development of the dual language school program by hiring and training new school personnel for the 2025-2026 program opening. By providing a dual language program, students will have the ability to retain their native language and honor their culture, while learning a new language that will provide new opportunities and the ability to develop biliteracy skills.

By implementing these actions, the District will prioritize the academic and social-emotional needs of Low Income, English learners and Foster Youth students.

The LCAP includes district-wide actions which are principally directed toward unduplicated students and provide enhanced instructional programs that focus on improving outcomes for unduplicated student groups. 24 of the District's school sites have a student concentration of unduplicated students of at least 55%. The two remaining schools are recognizing a steady increase in the percentage of unduplicated students, with one of the sites anticipated to be at or above 55% in the 2025-2026 school year. The majority of positions at school sites within the District are allocated on a specific student to staff ratio.

As the majority of the sites are at or above the 55% threshold for additional funding, the ratios between all sites are very close. As additional concentration grant funding is provided, the District is continuing to review the staffing allocation formulas with a focus on reducing the proportionate staffing ratios at those sites that have a higher concentration of unduplicated students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	1:19	1:20
Staff-to-student ratio of certificated staff providing direct services to students	1:17	1:19

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
