LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Lost Hills Union School District
CDS Code: 15-63594-0000000
School Year: 2026-27
LEA contact information:
Harrison Favereaux
Chief Administrative Officer
hafaver@losthills.k12.ca.us
661-797-2941

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

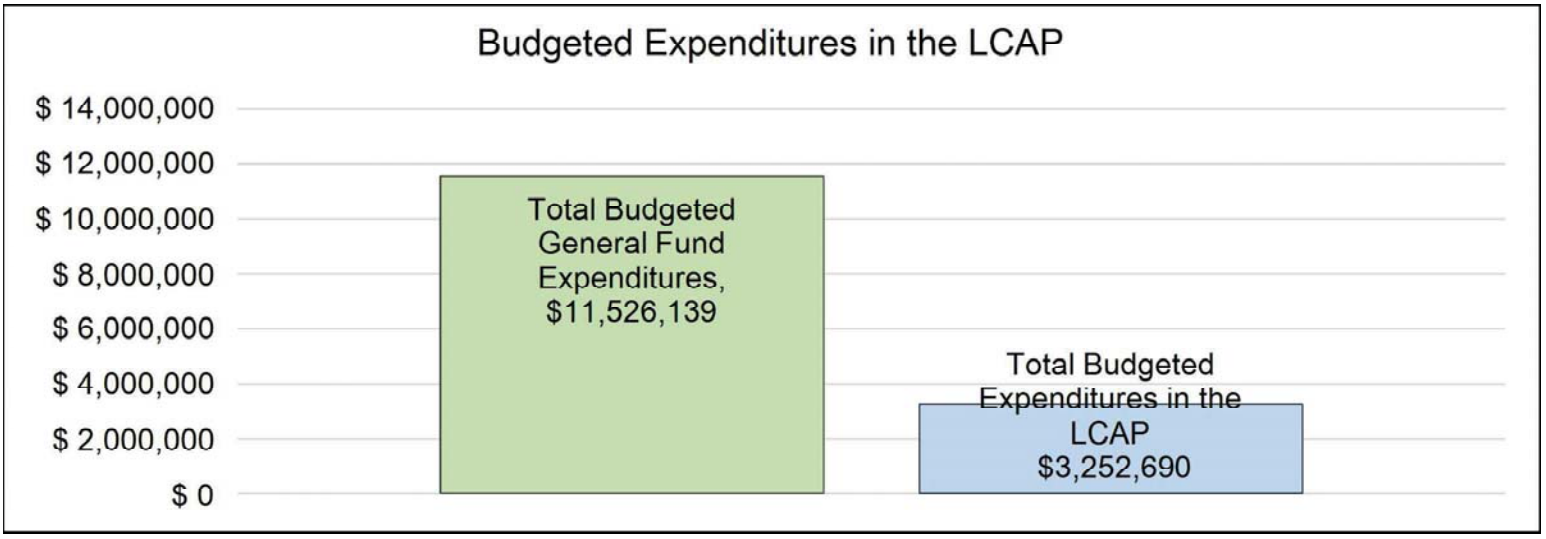

This chart shows the total general purpose revenue Lost Hills Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Lost Hills Union School District is $10,753,590, of which $4,485,321 is Local Control Funding Formula (LCFF), $2,925,552 is other state funds, $2,676,591 is local funds, and $666,126 is federal funds. Of the $4,485,321 in LCFF Funds, $1,508,547 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Lost Hills Union School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Lost Hills Union School District plans to spend $11,526,139 for the 2026-27 school year. Of that amount, $3,252,690 is tied to actions/services in the LCAP and $8,273,449 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

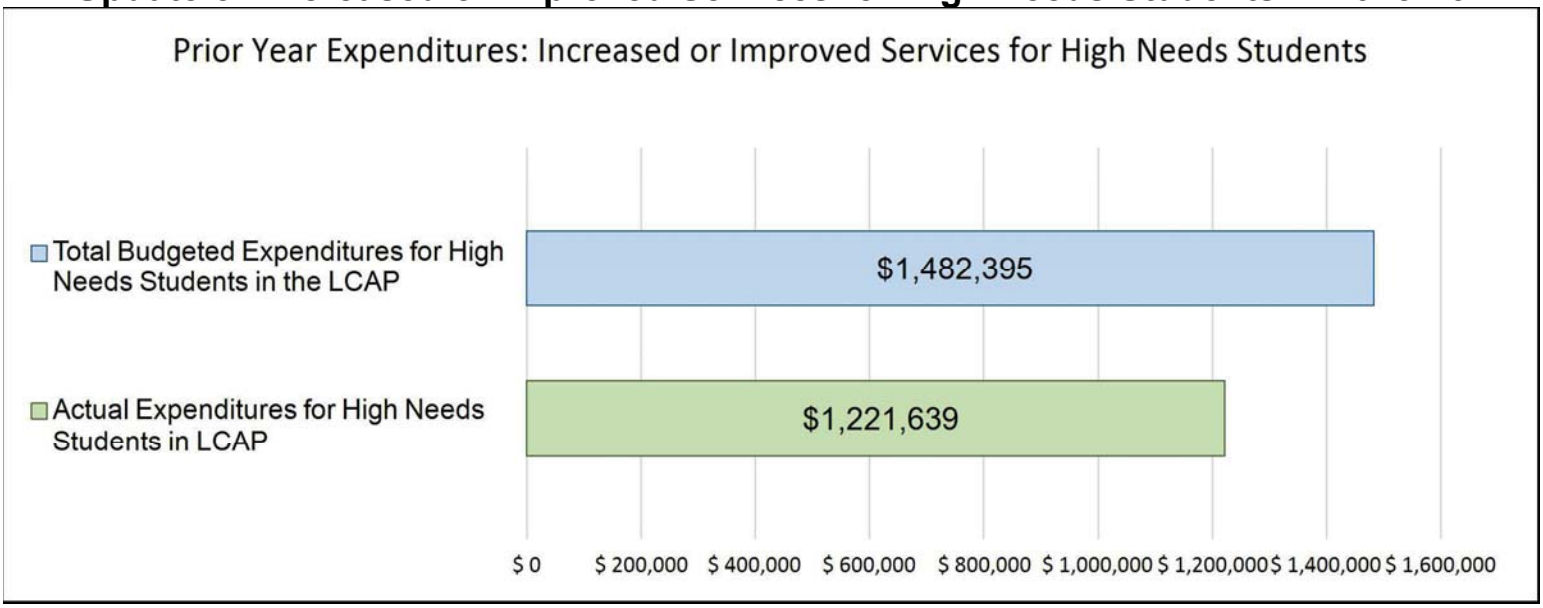

General fund budgeted expenditures that are not in the LCAP will be cost associated with instruction (staffing of general instruction, preschool, and various restricted programs), operation, transportation, facilities, administration, and other costs affiliated with these departments.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Lost Hills Union School District is projecting it will receive $1,508,547 based on the enrollment of Foster Youth, English learner, and low-income students. Lost Hills Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Lost Hills Union School District plans to spend $1,738,339 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Lost Hills Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Lost Hills Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Lost Hills Union School District's LCAP budgeted $1482395 for planned actions to increase or improve services for high needs students. Lost Hills Union School District actually spent $1221639 for actions to increase or improve services for high needs students in 2025-26.

The difference between the budgeted and actual expenditures of $260,756 had the following impact on Lost Hills Union School District’s ability to increase or improve services for high needs students:

Many of the increases outlined in the 2025-26 LCAP were addressed by using other funding sources such as Extended Learning Opportunity Program, Migrant Education, Effective Educator and CA Community School Partnership Program; thus, resulting in less LCAP funds being used. Overall, no impact to high needs students because the actions and services were funding using other sources.

Lost Hills Union School District

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Lost Hills Union School District	Harrison Favereaux Chief Administrative Officer	hafaver@losthills.k12.ca.us 661-797-2941

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

The **Lost Hills Union Elementary School District (LHUESD)** is a TK-8 grade school district located in Northwest Kern County, serving a highly diverse and socioeconomically disadvantaged student population. The district operates two schools- Lost Hills Elementary (TK-5) and A.M. Thomas Middle School (6-8)- Under a single administrative structure with one principal. Despite being geographically isolated, LHUESD is deeply committed to providing high- quality education and whole-child supports that empower students to succeed academically and socially.

Student Demographics and Community
LHUESD serves 291 students, with a significant percentage facing unique challenges:
- 35% are Migrant students, as defined by federal guidelines.
- 42% are classified as English Learners (ELs), with 4.8% identified as Long-Term English Learners (LTELs).
- 98% are Socioeconomically Disadvantaged.
- 9.4% are Students with Disabilities.
- 98.9% of students identify as Hispanic/Latino.
- 100% qualify for free meals through the Community Eligibility Provision (CEP)

In response to these demographics, the district prioritizes culturally responsive instruction, bilingual support, and targeted interventions to close opportunity gaps.

Educational Programs and Students Support Services
LHUESD is committed to academic excellence, ensuring students receive comprehensive support through:
- Strong foundational literacy and math instruction, with a focus on English Learners and students with disabilities.
- Migrant Education Program (Region 19), operated independently to meet the needs of Migrant students.
- Specialized student services, including speech therapy, school psychology, counseling, and special education.
- Community Schools Model, which integrates whole-child supports such as early childhood education, expanded learning, family engagement, and access to social and health services.
- High school transition support, collaboration with Wasco High School, the district's feeder high school, to ensure a smooth transition for students as they advance beyond eight grade.

Alignment of District and LCAP Goals
LHUESD's district goals are directly aligned with our Local Control and Accountability Plan (LCAP) goals. Through the LCAP process, we actively seek input from stakeholders, including parents, students, teachers, and community members, to shape all district goals. This collaborative approach ensures that our priorities reflect the needs of our students and families while maintaining compliance with state-mandated LCAP requirements.

Community Engagement and Vision for the Future
Since 2018, LHUESD has been a leader in implementing the Community Schools approach, fostering strong partnerships with families and community organizations to enhance student learning and well-being. The district envisions a future where all students:
- Develop into self-motivated, critical thinkers and productive members of society.
- Learn in a safe, supportive environment with high academic expectations.
- Benefit from strong school-community collaboration that extends learning beyond the classroom.

Through high-quality instruction, targeted interventions, and community engagement, LHUESD remains dedicated to ensuring that every student achieves success.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

The Lost Hills Union Elementary School District has demonstrated a history of academic growth, with measurable gains in student achievement from 2017-2019 and again from 2022-2023, reflecting the district's capacity to implement effective instructional and support strategies. The 2023-24 school year represents the first post-pandemic period in which overall performance declined, signaling a critical point for reflection and recalibration. While several indicators show stabilization and, in some cases, positive trends, such as improvements in English Learner progress, reductions in suspension rates, and declines in chronic absenteeism for select student groups, persistent achievement gaps remain.

Data from the California School Dashboard highlight ongoing challenges for English Learners, Long-Term English Learners, and Student with Disabilities, particularly in English Language Arts, Mathematics, and Chronic Absenteeism. These gaps underscore the need to strengthen core instruction, refine targeted interventions, and intensify supports to meet the diverse needs of these student populations. At the same time, areas of improvement suggests that current district initiatives, including MTSS implementation, designated and integrated ELD, and positive behavior and attendance supports, are beginning to yield results and can be leveraged further.

Moving forward, the district remains committed to accelerating learning recovery through evidence-based instructional practices, data-driven decision-making, and meaningful engagement with educational partners. By focusing on equitable access to high-quality instruction and sustaining targeted supports for ELs, LTELs, and SWDs, LHUESD aims to reverse recent declines, close achievement gaps, and ensure long-term academic success for all students.

California School Dashboard (2024-25) Performance Overview

Chronic Absenteeism:
- Students with Disabilities (SWD) received a "Red" performance Level, indicating a critical area of concern. Despite the districtwide efforts to improve attendance, this outcome signals the need for more intensive, individualized attendance supports and collaboration with families and service providers to address barriers impacting regular school attendance for SWD students.

Suspension:
- Long-Term English Learners (LTEL) received a "Red" performance level, with suspension rate of 4.20%, reflecting a need for urgent attention. While suspension rates remain low for most student groups, this disproportionality highlights the need to strengthen behavior supports, social-emotional, and proactive intervention strategies for LTEL students.

English Learner Progress:
- "All Students" performed at the "Green" level, with 53.4% making progress in English language proficiency, reflecting a 6.5% growth from previous year.
- Long-Term English Learners scored "Blue", with 75% making progress, reflecting a 25% growth from previous year.

English Language Arts (ELA) Performance:
- All Students, Hispanic students, and English Learners maintained performance at the "Orange" level, indicating stable outcomes but continued need for improvement to move students toward proficiency.
- Long-Term English Learners scored at the "Red" level, representing a critical performance gap and reinforcing the need for targeted literacy interventions aligned to their specific language and academic needs.

Mathematics Performance:
-Mathematics performance remains an area of concern for Long-Term English Learners, who received a "Red" performance level. LTEL students scored 153.6 points below standard, with a 3.8-point decline from the prior year. This data reflects a persistent and widening gap, emphasizing the need for intensified, evidence-based math instruction and intervention supports for this subgroup.

Smarter Balanced Assessments (CAASPP) Results
English Language Arts (ELA)- Percentage of Students Meeting or Exceeding Standard

Subgroup 2023-242024-25Change
All Students 44.05%44.45%+0.4%
Economically Disadvantaged 42.43%45.20%+2.77%
English Learners10.61%13.51%+2.9%
Hispanic/Latino 43.90%44.06%+0.16%
Migrant Students 42.67%36.76%-5.91%

English Language Arts performance remained relatively stable, with modest gains across most subgroups. Migrant students experienced a notable decline, highlighting concerns related to mobility and access to consistent instruction and the need for targeted interventions for this subgroup.

Mathematics - Percentage of Students Meeting or Exceeding Standard

Subgroup 2023-24	**2024-25 Change**
All Students 24.41%	33.33% +8.92%
Economically Disadvantaged 21.97%	33.33%+11.36%
English Learners9.23%	12.16%+2.93%
Hispanic/Latino 23.78%	32.76%+8.98%
Migrant Students 25.67%	30.88%-5.21%

Math results show overall improvement, with All Students increasing by nearly 9 percentage points. SED and Hispanic students made strong gains, indicating effective math supports. ELs showed modest growth, but proficiency remains low, signaling a continued need for targeted instruction. Migrant students' scores highlight the need for more consistent and focused math

interventions.

Local Assessments (Spring 2026)
To further assess student progress, LHUESD utilizes Acadience Reading and Mathematics and Illuminate Benchmarks:
Assessment Performance (2025-26) Change from 2024-25
Acadience ELA (K-6) 60.41% Met/Exceeded +3.41%
Acadience Math (K-8) 48% Met/Exceeded -3%
Illuminate ELA (K-8, 3rd Quarter) 58% Met/Exceeded -3%
Illuminate Math (K-8, 3rd Quarter) 44% Met/Exceeded -4%

- ELA performance increased significantly (+16%) in Acadience.
- Math remained stable overall (+1% in Acadience), though Illuminate shows a 6% growth.
- ELA (Illuminate), indicate an 8% growth.

Use of Learning Recovery and Emergency Block Grant (LREBG) Funds
For the 2026-27 LCAP year, LHUESD has unexpended Learning Recovery and Emergency Block Grant (LREBG) funds. A comprehensive needs assessment, including CAASPP results, local diagnostic data, and educational partner input, identified a persistent need for targeted instructional support in English Language Arts (ELA) and mathematics, particularly for students not meeting or approaching grade-level proficiency.

Goal 1.7: Supplemental Personnel (LREBG- Partially Funded Action)
LHUESD will implement, expand, and enhance targeted academic supports through:
1. **Small-Group Tutoring & Interventions:** Certificated and classified staff will provide supplemental, small-group instruction focused on accelerating ELA and math proficiency.
2. **Expanded Academic Supports:** Additional intervention personnel will deliver targeted services during and outside the instructional day.

Explanation of Alignment with Allowable Uses of Funds:
This action aligns with Education Code Section 32526(c)(2)(A-F) and the California Department of Education's LREBG guidelines by accelerating progress to close learning gaps using evidence-based learning supports. Specially, it falls under the following allowable uses:
- Tutoring and small-group support delivered by certificated/classified staff
- Enhanced instructional time and learning recovery strategies designed to increase student academic proficiency in core subjects

Explanation of How the Action Addresses Identified Needs:
The needs assessment revealed significant gaps in achievement for students scoring below standard in ELA and math. This action directly addresses those gaps by providing targeted, high-impact instruction during key learning windows. The staffing expansion ensures timely support aligned to individual student needs as identified by diagnostic tools and teacher recommendations.

Rationale and Research Alignment:
Research supports that frequent, targeted, small-group instruction, especially when provided by trained educators, has a strong, positive effect on closing achievement gaps and recovering lost instructional time. These interventions are tailored to LHUESD's local data and educational partner feedback.

Monitoring Metrics:
% of students receiving intervention services who demonstrate growth on district benchmark assessments
CAASPP ELA and Math proficiency rates among targeted student groups
% reduction in the number of students two or more grade levels below standard in reading and math.

Funding Summary:
LREBG funds will be allocated to cover the cost of additional intervention staff and support resources. Amount: $299,402.88

Key Areas for Improvement
Based on state and local data, LHUESD will focus on the following areas for improvement in the 2026-27 LCAP.
1. **Addressing Chronic Absenteeism**

- Implement targeted attendance interventions for SWD such as home visits, mentorship programs, and positive behavior incentives.
- Strengthen family engagement initiatives to address barriers to attendance.

2. **Improving English Learner Achievement**

- Expand designated and integrated English Language Development (ELD) instruction
- Increase teacher professional development in EL instructional strategies.
- Implement intensive literacy intervention programs for LTELs and newly reclassified ELs.

3. **Strengthening Mathematics Instruction**

- Expanding after-school and summer math intervention programs.
- Implement small-group, differentiated instruction for struggling students.
- Enhance math professional development for teachers.

4. **Targeted Literacy Interventions**

- Expand early literacy initiatives to improve foundational skills.
- Increase access to relevant reading materials.
- Implement family literacy workshops to support at-home reading.

Through data-driven decision-making and stakeholder collaboration, LHUESD is committed to closing achievement gaps and ensuring student success.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

LHUESD was identified eligible for Differentiated Assistance based on 2024 California School Dashboard, which reflected low performance in CAASPP academic achievement and chronic absenteeism for Long-Term English Learners (LTELs). In response, the district partnered with the Kern County Superintendent of Schools (KCSOS) to conduct a comprehensive data review process. This collaborative analysis examined academic outcomes, student engagement, and attendance patterns, identifying both systemic strengths and areas of need specific to LTEL students.

As a result of this analysis, LHUESD establish a Long-Term English Learner (LTEL) Committee, which served as a formal structure for addressing identified needs and coordinating districtwide supports. The committee includes teachers, site and district leaders, and parents/guardians of LTEL students.

Scope of Work and Expected Outcomes:

1. The committee convened three times per year to analyze LTEL-specific data in the areas of academic achievement, behavior, and engagement.
2. It identified patterns and root causes of underperformance and made data-driven recommendations for school and district-kevel interventions.
3. The committee collaborated with content experts to ensure alignment with evidence-based strategies that are proven to support LTEL students.
4. Findings and recommendations were shared with site staff to inform professional development and classroom-level supports.
5. Continued technical assistance from KCSOS supported implementation fidelity, continuous improvement cycles, and progress monitoring.

Next Steps:

To formalize and sustain this effort, the following action were added to the LCAP in 2024-2025:

Goal 1, Action 15- LTEL Committee

This action establishes the LTEL Committee to lead targeted improvement planning and implementation. It is designed to address performance disparities for LTELs and will be monitored through metrics aligned to academic outcomes, attendance rates, and student engagement indicators (Metrics: 1.7- ELA Distance from Standard, 1.8- Percent of students in grades 3-8 who meet or exceed standard in ELA, 1.9- Math Distance from Standard, 1.10- Percent of students in grades 3-8 who meet or exceed standard in math, 1.14- Percent of students in 5th and 8th grade who meet or exceed standard in Science, 2.1- Attendance Rate, 2.2- Chronic Absenteeism Rate, and 2.4- Pupil Suspension Rate.)

While LHUESD was eligible for Differentiated Assistance is 2024, LTEL student outcomes showed substantial improvement, and the district is currently in monitoring status for 2025. LHUESD will continue implementing and refining the strategies outlined in the 2025-26 LCAP to sustain progress and further close achievement gaps for LTEL students.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Students	In Spring 2026, the district administered a student survey to all students in grades 3-8 across all schools. The survey gathered feedback on school climate, engagement, safety, facilities, and programs. Additionally, student focus groups were convened with an emphasis on including low-income, English Learner, and Foster Youth participants. ASB student members and class representative also participated in data equity walk forums, where they reviewed performance data and provided input on the effectiveness, accessibility, and relevance of district programs and services. Their input helped identify areas of strength and need and directly informed revisions to school climate and student engagement actions in the 2026-27 LCAP.
Parents/ ELAC/DELAC	Throughout the 2025-26 school year, district and school staff shared LCAP goals, performance data, and program updates during meetings of parent advisory groups, including the District English Learner Advisory Committee (DELAC), site-level English Learner Advisory Committees (ELACs), and School Site Council (SSC). These sessions included translated materials and interpreters to ensure equitable access for families of English learners.

Educational Partner(s)	Process for Engagement
	In Winter 2026, the district administered a parent survey in multiple languages. The survey solicited input on school climate, current LCAP goals and actions, and other district and site-level programs. Survey results were disaggregated and used to identify areas for improvement. At the Annual Parent Meeting, families participated in data equity walk forums, reviewing district performance metrics and discussing program impact. District staff facilitated small group discussions to gather feedback and priorities from families. Input from these sessions informed revisions and additions to the 2026-27 LCAP, particularly in the areas of school climate, academic supports, and family engagement strategies.
Teachers	In Spring 2026, the district administered a staff survey that included input from teachers across all school sites. The survey gathered feedback on school climate, student engagement, safety, the instructional environment, and the effectiveness of current district programs and supports. Throughout the LCAP development process, teachers also participated in LCAP-focused presentations during staff meetings and professional learning sessions. Additionally, teachers engaged in data equity walk forums where they reviewed disaggregated student performance data and reflected on how district actions impacted student outcomes. During these sessions, teachers provided specific feedback on existing goals and actions, and suggested revisions or additions to inform the 2026-27 LCAP. Their insights were especially valuable in

Educational Partner(s)	Process for Engagement
	shaping strategies related to student engagement, instructional materials, and school safety.
Other School Personnel	In Winter 2026, the district conducted a survey that included participation from classified and other school personnel. The survey collected feedback on key areas including school climate, student engagement, campus safety, the school environment, and the effectiveness of district programs and services. Throughout the LCAP development cycle, school personnel, such as instructional aides, office staff, and campus supervisors, also participated in LCAP presentations and data equity walk forums held at staff meetings and district-wide workshops. These sessions provided opportunities to review disaggregated data and reflect on how current actions are supporting students across all campuses. Staff contributed valuable insights and recommendations on the district's current goals and actions and proposed updates for the 2026-27 LCAP, especially in relation to campus safety, student services, and equitable access to learning supports.
Principals/Administrators	In Spring 2026, the principal and district-level administrators participated in a districtwide survey designed to gather input on school climate, student engagement, campus safety, instructional environment, and the effectiveness of existing district programs and supports. Administrators also engaged in structured LCAP presentations and participated in data equity walk forums throughout the school year. During these sessions, they reviewed disaggregated student performance data and contributed professional insights based on school-site and district-level implementation of LCAP actions.

Educational Partner(s)	Process for Engagement
	Their feedback influenced the refinement of current goals, evaluation of existing actions, related to instructional leadership, student safety, and schoolwide supports.
Local Bargaining Units	In May 2026, the district met with representatives from its local bargaining units, the Lost Hills Teachers Association (LHTA) and the California School Employees Association (CSEA), to solicit input on the development of the 2026-27 Local Control and Accountability Plan (LCAP). District staff presented current LCAP goals, performance data, and proposed actions, and gathered feedback on areas of improvement, priorities for student support, and the effectiveness of existing programs. Feedback from both associations was reviewed and considered during the refinement of the LCAP goals and actions to ensure alignment with staff needs and student success.
SELPA	In April 2026, the district consulted with representatives from the Special Education Local Plan Area (SELPA) to gather input on the development of the 2026-27 Local Control and Accountability Plan (LCAP). The consultation focused on identifying needs and potential actions to improve outcomes for students with disabilities, as well as ensuring alignment between LCAP goals and special education services. Feedback from SELPA was used to inform goal refinement and the development of inclusive supports within the LCAP.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Through the 2025-26 Local Control and Accountability Plan (LCAP) development process, the district gathered input from a broad group of educational partners to inform the development of the 2026-27 LCAP. This engagement served two primary purposes:
1. To inform educational partners about the districts progress toward achieving current LCAP goals; and
2. To determine any necessary changes or additions to the goals, actions and services included in the 2026-27 LCAP.

Educational partners were engaged through multiple formats, including parent and partnership meetings, school site meetings, data equity walks, and stakeholder surveys. This process allowed for meaningful feedback that supported reflection on current progress and the co-development of updated actions and strategies.

Focus Engagement on Red Dashboard Indicators
In alignment with the requirement to consult educational partners who serve students in subgroups with **lowest performance levels** (Red Indicators), the district specifically engaged:

Long-Term English Learner (LTEL) Advisory Panels and **ELAC groups** across school sites where Dashboard indicators for English Language Arts and mathematics, were in the Red performance level.

Attendance Teams and site administrators with the highest chronic absenteeism rates among Students with Disabilities.

T**eachers and instructional support staff** supporting designated and Integrated ELD instruction in mathematics and attendance-intervention leads.

Feedback from these groups directly shaped new actions to expand bilingual family outreach, increase targeted math instructional supports, and revise chronic absenteeism monitoring protocols for LTEL students.

How Feedback Influenced the LCAP
Feedback from parents, ELAC/DELAC, SSC, students, classified staff, and certificated staff directly influenced the refinement of Goals 1 through 3 in the 2026-27 LCAP. Educational partners expressed strong support for the district's intervention programs, after-school opportunities, counseling and social work services, PBIS, RTI, PIQE parent education classes, transportation supports, and family engagement efforts. Stakeholders indicated that these programs are contributing to improved student engagement, attendance, behavior, and academic success. Feedback also highlighted the need to strengthen communication with families, address chronic absenteeism, increase support for English learners, and expand opportunities for family engagement.

Goal 1- Academic Achievement:
Parents, students, and advisory groups affirmed the value of existing academic intervention programs, including RTI, after-school tutoring, small group instruction, and expanded learning opportunities. Educational partners recommend continuing and strengthening these supports, particularly for English learners and students struggling in reading and mathematics. Feedback also emphasized the need for greater alignment between intervention services and classroom instruction, as well as additional individualized support for students requiring academic assistance.

Goal 2- Student Engagement & School Climate:
Educational partners reported positive impacts from PBIS, counseling services, social workers, mentoring opportunities, transportation supports, and after-school programs. However, chronic absenteeism remained a consistent concern across stakeholder groups. Parents and staff emphasized the need for earlier intervention, stronger attendance monitoring, home visits, and increased family outreach to better understand and address barriers to attendance. Stakeholders also supported continued investment in behavioral, social-emotional, and

mental health services to strengthen student engagement and school connectedness.

Goal 3- Family and Community Engagement:
Parents, ELAC/DELAC members, SSC representatives, and staff reported that family engagement opportunities such as PIQE, school events, and parent workshops have strengthened relationships between families and schools. At the same time, stakeholders consistently identified communications as an area for improvement. Families requested more timely and consistent communication regarding student progress, attendance concerns, school events, extracurricular activities, and opportunities for involvement. Parents expressed a desire for earlier notification of activities and concerns rather than last-minute communication, because advance notice allows families to participate more fully and provide timely support to students. Feedback also supported expanding bilingual outreach, parent education opportunities, and family engagement activities to further strengthen partnership between schools and families.

As a result of stakeholder feedback, the district will continue to prioritize academic interventions, attendance improvement efforts, family engagement opportunities, bilingual outreach, social-emotional supports, and communication systems designed to strengthen partnerships between schools and families and improve outcomes for all students.

Formal LCAP Review an Adoption Process
Public Hearing:
On June 15, 2026, a public hearing on the draft 2026-2027 LCAP and district budget was held during a Special Board Meeting.

Final Approval:
On June 18, 2026, the Board of Education formally adopted the 2026-27 LCAP and district budget at a Regular Board Meeting.

Use of Quantitative Data in Goal Setting
In addition to educational partner feedback, the district analyzed the following quantitative data to guide goal development:
California School Dashboard indicators
CAASPP ELA and Math proficiency rates
Local benchmark assessment data
English Learner proficiency and reclassification rates
Course enrollment trends
Attendance and chronic absenteeism rates
Suspension rates
High-quality teacher and credentialing status
Teacher assignment and misassignment data
Fidelity and integrity assessment results
CASEL- aligned school climate measures
Facility Inspection Tool (FIT) data

Additional Oversight and Review
The superintendent reviewed all School Plans for Student Achievement (SPSAs) to ensure alignment between site-level priorities and LCAP goals. In accordance with Ed Code 52062(a)(3), written responses will be provided to any recommendations from the English Learner

Advisory Committee (ELAC).

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	All students will be on track for college and/ or career readiness as measured by student academic data, basic services, and implementation of common core state standards.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Analysis of the most recent state and local data indicates a continued need to prioritize student readiness for college and career through improved academic outcomes and targeted supports for unduplicated student groups.

According to the 2025 California Assessment of Student Performance and Progress (CAASPP), 44.45% of students in grades 3-8 met or exceeded standards in English Language Arts, reflecting a slight increase from 44.05% in 2024, while 33.33% met or exceeded standards in mathematics, an increase from 24.41% in 2024. While mathematics performance shows notable improvement, English Language Arts outcomes remain relatively stagnant, indicating a need to strengthen literacy instruction as a foundation for success across content areas.

California School Dashboard results further highlight persistent performance challenges. In English Language Arts, "All Students" remained in the Orange performance level, and English Learners maintained Orange with a 0.8-point decline, indicating the current instructional approaches are not accelerating language development at the rate required for grade-level proficiency. Long-Term English Learners declined by 32.3 points and remained in the Red performance level, demonstrating a significant barrier in sustained language acquisition and access to rigorous academic content. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved to Yellow and the Hispanic student group-maintained Orange, these outcomes indicate that gaps in performance persist across student groups.

In mathematics, "All Students" increased by 14.8 points and moved from Orange to Yellow, with English Learners increasing 18 points and Socioeconomically Disadvantaged students increasing 21.9 point, both moving from Orange to Yellow. The Hispanic subgroup also

increased 21.9 points reflecting improved access to mathematics instruction. However, Long-Term English Learners declined by 3.8 points, indicating that this group is not benefiting from current instructional strategies at the same rate as their peers.

English Learners progress data reinforces these trends. ELPAC proficiency increased to 13.74% and reclassification rates rose to 26.5%, yet overall proficiency rates in English Language Arts (10.59%) and mathematics (10.97%) remain low. This indicates that while more students are progressing toward English proficiency, many have not yet reached levels that allow full access to grade-level academic content.

These data identify key needs, including:

Strengthening consistent implementation of standards-aligned instruction

Accelerating language development for English Learners, particularly Long-Term English Learners

Expanding access to targeted academic interventions for unduplicated students

Improving foundational literacy to support achievement across all subject areas

The district developed this goal to address these needs through coordinated actions. Professional development is included to increase teacher capacity to deliver standards-aligned and differentiated instruction because improved instructional practice directly impacts student access to grade-level content. Reduced class sizes in grades TK-3 are included to increase opportunities for individualized instructions because smaller class settings allow teachers to address early literacy and numeracy gaps more effectively. Supplemental academic supports and Tier II interventions are included to increase targeted instructional time for unduplicated students because additional structured support is required to address identified skill gaps and accelerate learning.

Progress towards this goal will be measured through CAASPP outcomes, English proficiency and reclassification rates, and local assessment data to determine whether increased and improved services result in measurable gains in student achievement and progress towards college and career readiness.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Lost Hills Union School District implemented the majority of Goal 1 actions during the 2025-26 school year. Actions 1.3, 1.6 through 1.10, and 1.12 through 1.15 were implemented substantially as planned, with no significant differences between the actions described in the LCAP and their actual implementation. These actions contributed to improvements in academic support, professional learning, instructional services, and student engagement opportunities. However, the effectiveness and impact of these actions varied across student groups, highlighting ongoing equity challenges that will continue to be addressed through targeted supports and continuous improvement efforts.

Several actions experienced substantive differences between planned and actual implementation:

Action 1.1: Hiring and Maintaining Fully Credentialed Staff was partially implemented. Although all teaching positions were filled, the district was unable to recruit fully credentialed teachers for four vacancies. These positions were filled by teacher interns and teachers serving on short-term staff permits to ensure continuity of instruction.

Action 1.2: Teacher Induction Program was not implemented because no teachers employed by the district met the eligibility requirements to participate in an induction program during the year.

Action 1.4: Standards-Based Curriculum and Supplies was partially implemented. Rather than completing a full English Language Arts curriculum adoption as originally planned, the district leadership team elected to pilot two curriculum programs to gather data and stakeholder feedback before selecting a curriculum for adoption.

Action 1.11: Extended Learning Time was partially implemented. The district successfully operated both afterschool and summer school programs; however, Saturday School was not implemented because student tutoring and intervention needs were effectively addressed through the afterschool program.

Action 1.5: Classroom Technology was fully implemented; however, actual expenditures exceeded budgeted amounts due to greater-than-anticipated classroom technology needs across schools.

Despite these implementation differences, the district successfully provided students with supplemental academic interventions, English learner supports, professional development opportunities, extended learning programs, and educational enrichment experiences. The following successes and challenges were identified through the district's review of implementation and outcomes.

Successes:

Action 1.6: Supplemental Curriculum and Programs
Improved Assessment Results: Students demonstrated measurable growth in English Language Arts (ELA) as evidence by DIBELS assessment results, particularly among students who participated in targeted small-group intervention programs.
Targeted Small-Group Instruction: Through the implementation of intervention programs such as 95 percent group, Read Naturally, and SOAR, paraprofessionals worked collaboratively with teachers to provide structured, evidence-based instruction tailored to students identified needs.
Data-Driven Adjustments: Students were screened at the beginning of the year and placed into skill-based intervention groups. Their progress was regularly monitored and reviewed through professional Learning Communities (PLCs), allowing staff to make informed instructional adjustments and provide additional support as needed.

Action 1.7: Supplemental Personnel
Newcomer Support: Students received targeted language development and academic assistance designed to accelerate access to grade-level content.

Increased Student Engagement: Staff observations and classroom data indicated improved participation and engagement among students receiving supplemental support. The district will continue to monitor language acquisition outcomes and reclassification rates to evaluate long-term effectiveness.

Action 1.11: Extended learning Time
Although Saturday School was not implemented, the district successfully operated afterschool and summer school programs.
Strong Participation: Student enrollment in both programs met district expectations.
Successful Staffing: All positions were filled, allowing programs to operate as intended and provide consistent intervention and enrichment opportunities for students.

Action 1.12: Professional Development
Professional development activities were fully implemented and aligned with district priorities.
Alignment with Improvement Goals: Training focused on literacy, writing, mathematics, and behavioral interventions to support instructional improvement efforts.
Collaborative Coaching: An educational improvement consultant worked with district and site teams to strengthen instructional practices and build staff capacity.

Action 1.14: Supplemental Educational Experiences
The district successfully provided enrichment opportunities that increased student motivation and engagement.
Student Incentives and Field Trips: Students participated in educational experiences and incentive programs tied to academic achievement, attendance, positive behavior, and English learner reclassification goals.

In addition, Actions 1.3 (Reduces Class Sizes), 1.4 (Standards-Based Curriculum and Supplies), 1.8 (Extended Instructional Minutes), 1.9 (English Language Development Instruction), 1.13 (Professional Learning Communities), and 1.15 (Long-Term-English Learners Committee) worked collectively to strengthen instruction, increased teacher collaboration, and support student achievement across the district.

Challenges and Areas of Improvement:

Actions 1.1: Hiring and Maintaining Fully Credentialed Staff
Challenge: Despite ongoing recruitment efforts, the district was unable to hire fully credentialed teachers for four teaching positions.

Impact: While all classrooms remained staffed, students received instruction from teacher interns and teachers serving on short-term staff permits. Although these educators provided continuity of instruction, the staffing shortage highlighted the district's ongoing difficulty in recruiting fully credentialed personnel in a rural setting.

Next Steps for Improvement:
1. Expand recruitment partnerships with local universities and teacher preparation programs.
2. Increase outreach efforts to attract qualified candidates.
3. Provide targeted professional development and coaching to support teachers serving under internship or permit credentials.

Action 1.2: Teacher Induction Program
Challenge: The district did not implement the Teacher Induction Program because no teachers met the eligibility requirements during the 2025-26 school year.

Impact: Although there was no direct impact on students, the district was unable to provide the intended induction support structure for new teachers.

Next Steps:
1.Establish alternative mentoring opportunities for early-career teachers who are not eligible for induction.
2.Continue partnerships with local universities and county education agencies to expand access to induction opportunities as staffing needs evolve.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

As part of the 2025-26 LCAP implementation review, Lost Hills Union School District analyzed material differences between Budgeted Expenditures and Estimated Actual Expenditures for Goal 1: Improve Student Learning and Academic Achievement. The total budgeted amount for Goal 1 was $2,788,683.97, while estimated actual expenditures were $1,614,022.80, resulting in a material difference of $1,174,661.17.

The majority of the variance resulted from the use of alternative funding sources, staffing-related adjustments, delayed purchases, and lower-than-anticipated costs for certain services and materials. Despite these expenditure differences, the district implemented the planned actions and services to support student achievement and improve outcomes for unduplicated pupils.

Action 1.1- Fully Credentialed Staff

Difference: $11,608.08

Actual expenditures were lower than budgeted due to differences between projected and actual salary and benefit costs.

Action 1.2- Teacher Induction Program

Difference: $8,225

No teachers me eligibility requirements for participation in the induction program during the 2025-26 school year; therefore, the budgeted funds were not expended.

Action 1.3- Reduced Class Sizes

Difference: $5,940.65

The variance reflects minor differences between projected and actual salary and benefit costs.

Action 1.4- State Board- Approved Curriculum and Supplies

Difference: $16,554.59

The district originally budgeted for the adoption of a new English Language Arts curriculum. However, the leadership team elected to pilot two curriculum programs during the year before selecting a program for full adoption, resulting in lower expenditures than anticipated.

Action 1.5- Classroom Devices and Technology Support

Difference: $39,639.6

Actual expenditures exceeded the budgeted amount due to a greater-than-anticipated need to replace aging and damaged student and classroom devices and to purchase additional teachnology to support instructional programs. Increased device needs were identified throughout the year to ensure students and staff had consistent access to technology required for standards-based instruction, online assessments, intervention programs, and supplemental learning resources. These additional investments were necessary to maintain equitable access to instructional technology and support student achievement.

Action 1.6- Supplemental Curriculum and Programs

Difference: $4,157.06

Schools required fewer supplemental instructional materials and resources than originally projected.

Action 1.7- Supplemental Personnel

Difference: $631,181.89

A significant portion of the personnel costs, including support for English Learner services, was funded through one-time and supplemental funding sources outside of the LCAP, reducing the expenditures charged to this action.

Action 1.8- Extending Instructional Minutes

Difference: $6,885.24

The variance reflects differences between projected and actual salary and benefits costs associated with extending instructional time.

Action 1.9- ELD Instruction

Difference: $3,915.61

Actual expenditures were lower because fewer instructional materials were needed than originally anticipated.

Action 1.10- Project-Based Lessons

Difference: $27,797.77

Teacher request for project-based supplies was lower than projected, and some planned project activities will occur during summer programming.

Action 1.11- Extended Learning Time

Difference: $412,789.08

The district budgeted supplemental and concentration funds to support Saturday School and other extended learning opportunities. However, many tutoring and intervention services were provided through the Expanded Learning Opportunities Program (ELOP) and funded with ELOP resources. In addition, not all budgeted ELOP funds included in this action were expended during the year.

Action 1.12- Professional Development

Difference: $67,9664.00

Several planned professional development activities were funded through other state and federal categorical programs, reducing the expenditures charged to the LCAP.

Action 1.13- Professional Learning Communities (PLCs)

Difference: $20,000.00

The district utilized internal staffing arrangements to provide teacher release time for PLC collaboration, reducing the need for substitute teacher expenditures.

Action 1.14- Supplemental Educational Experiences and Student Incentives

Difference: $2,370.6

Actual expenditures exceeded budget projections due to a greater number of students meeting academic, attendance, and behavioral goals and participating in enrichment activities and incentive-based experiences.

Action 1.15- LTEL Committee

Difference: $350.00

Actual expenditures slightly exceeded the budgeted amount due to additional services and supports required to meet the needs of Long-Term-English Learners (LTELs) during implementation.

Although estimated actual expenditures were lower than budgeted expenditures, the district substantially implemented the actions and services identified in Goal 1. The largest variances were primarily attributed to the use of alternative funding sources, delayed implementation of curriculum adoption, and lower-than-anticipated personnel and program costs rather than reductions in services provided to unduplicated students.

To the extent that expenditures supporting increased or improved services for unduplicated pupils were lower than originally projected, the differences were largely the results of costs being supported through alternative funding sources while services continued to be delivered. As a result, the district maintained its focus on improving academic outcomes for unduplicated pupils and continue implementation of the planned actions and services designed to meet, identified student needs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The district's goal is to ensure all students are on track for college and career readiness through improved academic achievement, access to basic services, and implementation of California State Standards. Based on an analysis of implementation and outcome data, the district determined that Actions 1.3-1.15, with the exception of Actions 1.1, 1.2, and 1.4, were effective in making progress toward this goal.

Action 1.3- Reduced Class Sizes was effective in supporting individualized instruction and student achievement. Evidence of effectiveness is reflected in Metric 1.11, with K-6 Acadience Literacy performance increasing from 57% to 60%.

Action 1.5- Classroom Devices and Technology Support was effective in increasing student access to instructional resources and technology- enhanced learning. Evidence of effectiveness includes improvements in Metric 1.11 (Acadience Literacy), and Metric 1.12 (Acadience Math), which increased from 49% to 51%.

Action 1.6- Supplemental Curriculum was effective in providing academic achievement as evidenced by gains in Metric 1.7 (ELA Distance from Standard), Metric 1.8 (ELA Proficiency), Metric 1.9 (Math Distance from Standard), Metric 1.10 (Math Proficiency), Metric 1.11 (Acadience Literacy), and Metric 1.12 (Acadience math). Notable improvements included CAASPP mathematics proficiency increasing from 24.41% to 33.33% and Acadience Literacy increasing from 47% to 60%.

Action 1.10- Project- Based Lessons was effective in supporting implementation of California State Standards and science achievement as evidenced by Metric 1.5 (Implementation of State Standards) improving to from 75% to 77% and Metric 1.14 (CAST Proficiency) increasing from 30.70% to 32.66%.

Action 1.11- Extended Learning Time was effective in improving student achievement and English Learner outcomes as evidenced by improvements in Metrics 1.7-1.13, 1.18, and 1.19. Writing proficiency (Metric 1.13) increased from 32%to 45% in the last three years, English Learner Progress (Metric 1.18) increased from 46.9% to 53.4%, and the reclassification rate (Metric 1.19) increased from 13.64% to 20.8% in the past three years.

Action 1.12- Professional Development and Action 1.13- Professional Learning Communities (PLCs) were effective in strengthening instructional practices and supporting student achievement as evidenced by improvements in Metrics 1.7-1.13, 1.18, 1.19, and 1.22. Academic gains were observed in ELA, mathematics, literacy, writing, and English Learner outcomes, while implementation of programs and services for low-income students, English Learners, and foster youth remained at 100% (Metric 1.22).

Action 1.14- Supplemental Educational Experiences and Student Incentives was effective in increasing student engagement and achievement as evidenced by improvements in Metrics 1.8, 1.10, 1.11, 1.12, 1.13, 1.18, and 1.19, including gains in literacy, mathematics, writing, English Learner progress, and reclassification.

Actions 1.7-1.9 and 1.15- English Learner Supports and Services were effective in advancing English language acquisition and academic achievement as evidence by Metric 1.6 (implementation of English Learners Access to the CCSS and ELD standards), which remain at 100% implementation, Metric1.18, which increased from 46.9% to 53.4%, and Metric 1.19, which remained above the district target at 20.8%.

In contrast, Action 1.1 (Hiring and Maintaining Fully Credentialed Staff), 1.2 (Teacher Induction Program), and 1.4 (SBE Curriculum and Supplies) were determined to be ineffective in marking measurable progress toward the goal during 2025-26. Action 1.1 and 1.4 were partially implemented because the district was unable to fill four teaching positions with fully credentialed staff, and because SBE curriculum adoption was not fully completed this year. Action 1.2 was not implemented because no teachers met the eligibility requirements for

participation in the induction program. As a result, the district was unable to fully evaluate the impact of these actions on student achievement and instructional quality.

Overall, improvements across Metrics 1.1, 1.15, 1.7-1.14, 1.18, 1.19, and 1.22 demonstrate that the majority of Goal 1 actions were effective in improving student achievement, strengthening standards implementation, and increasing outcomes for English Learners and other unduplicated student groups. Actions related to staffing and induction remain areas for continued monitoring and improvement.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of reviewing student performance data and engaging with educational partners, the district has made several adjustments to the planned goal components for Goal 1 for the upcoming year. These revisions include updates to actions and funding allocations designed to better align services with identified student needs, improve instructional effectiveness, and strengthen academic outcomes for specific student groups.

Action Revisions:

Action 1.5
The district will increase funding for this action due to greater-than-anticipated need to replace outdated classroom and student technology identified during the 2025-26 implementation year. Existing devices in several classrooms no longer adequately support current instructional programs, digital curriculum resources, state assessments, and student learning needs. The increased allocation will allow the district to replace aging equipment and provide reliable technology that supports daily instruction, intervention services, and equitable access to learning opportunities for all students. This adjustment is necessary to ensure that all students have access to functional, up-to-date devices that promote engagement, instructional continuity, and improved academic outcomes aligned with the district's educational goals.

Action 1.6
The district will increase funding for this action to expand supplemental curriculum and assessment resources that support data-driven instruction and student academic growth. The additional funding will allow the district to implement the Classtime ESSA-rated formative assessment platform and its Strategic Thinking content library, which are aligned to CAASPP, CAST, and ELPAC standards. This resource will enhance instruction in English Language Arts, Mathematics, Science, and English Language Development by providing teachers with timely formative assessment data, targeted instructional resources, and opportunities to strengthen students' critical thinking and problem-solving skills.

The increased investment is necessary to provide consistent access to high-quality assessment tools across TK-8 classrooms and to support educators in identifying student needs, monitoring progress, and adjusting instruction to improve outcomes. This action will strengthen supplemental supports for students, including unduplicated pupils by ensuring teachers have the data and resources needed to provide targeted intervention, differentiated instruction, and standards-aligned learning opportunities.

The update was informed by a review of implementation outcomes, current student achievement trends, and feedback from educational partners. Collectively, the changes are intended to improve alignment between instructional supports and student needs, strengthen data-driven decision-making, and ensure continued progress toward meeting the district's academic achievement goals.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Hire and maintain fully credentialed staff	Hire and maintain fully credentialed and appropriately assigned teachers, administrators, and support staff to implement the educational program effectively to increase student achievement. These funds will be used to cover the cost of tenure staff retention per local agreements.	$20,000.00	No
1.2	Teacher Induction Program	Continue to partner with Kern County Office of Education to provide the Teacher Induction Program for teachers who need to clear their Preliminary Credentials to ensure that our teachers are adequately prepared to support our unduplicated students.	$8,225.00	Yes
1.3	Reduced Class Sizes	Maintain three (3) additional teachers and hire one (1) new teacher to sustain reduced class sizes in grades TK-3. This action is designed to increase individualized instructional time and strengthen student-teacher interactions, with specific focus on improving early literacy outcomes for English Learners and low-income students. Reducing class sizes in early grades is a research-based strategy to support foundational reading skills. By intensifying literacy instruction and	$480,404.00	Yes

Action #	Title	Description	Total Funds	Contributing
		support in TK-3, the LEA aims to close the achievement gap observed in the most recent ELA CAASPP scores, where only 13.51% of English Learners met or exceeded standards compared to 44.45% of all students. Early intervention is expected to increase the percentage of English Learners reading at grade level by third grade, thereby decreasing long-term disparities in academic outcomes.		
1.4	SBE Curriculum and Supplies	Purchase State Board of Education (SBE) approved curriculum and instructional supplies as needed to ensure full implementation of the core educational program and support academic achievement for all students. Additionally, the district will explore the adoption of a comprehensive English Language Development (ELD) curriculum to better meet the instructional needs of English Learners. This investigation is driven by performance data and input from educational partners, who identified a gap in targeted language acquisition support. The goal is to enhance English Learners' access to grade-level content and improve outcomes in alignment with state standards.	$20,000.00	No
1.5	Classroom Devices and Technology Support	To ensure equitable access to high-quality instruction and maintain the district's one-to-one technology initiative, the district will increase investments in classroom and student technology by replacing outdated devices and expanding access to reliable instructional technology. Supplemental funds will be used to purchase classroom computers, laptops, Chromebooks, mobile device carts, interactive instructional technology, and other technology equipment necessary to support digital curriculum, state assessments, English Language Development, intervention programs, and 21st Century learning opportunities. The district will also provide ongoing technology support, maintenance, and professional learning to ensure educators effectively integrate technology into daily instruction and maximize student engagement and achievement.	$116,470.93	Yes

Action #	Title	Description	Total Funds	Contributing
		These increased services will ensure that unduplicated pupils have consistent access to current technology resources that support personalized learning, collaboration, digital literacy, and equitable participation in rigorous academic programs.		
1.6	Supplemental Curriculum and Programs	Purchase supplemental informational text resources (e.g., *Weekly Readers, Nearpod, ReadWorks)* to ensure all students, including English Learners and low-income students, have equitable access to high-interest, grade-appropriate materials that support literacy development and engagement. Maintain and upgrade web-based instructional programs to support differentiated, interactive learning in ELA, ELD, and math (Illuminate and Next Gen Math) Continue implementation of a Tiered Academic Intervention Program focused on ELA and math. This includes the purchase and use of evidence-based supplemental intervention curricula (*DIBELS- Acadience, 95% Group, Read* Naturally, *SOAR) and* instructional supplies. These resources are strategically selected to support struggling students, particularly English Learners and low-income students, in building foundational skills and accelerating academic growth. In 2026-27, To strengthen achievement for all students, including English Learners, foster youth, and low-income pupils, the district will partner with Classtime to build strategic thinking in Math, English Language Arts, Science, and ELPAC across grades TK-8. The partnership provides unlimited educator and student access to Classtime's research-backed, ESSA-rated formative assessment platform and its Strategic Thinking content library, aligned to CAASPP, CAST, and ELPAC item types. Assessment and Monitoring: Teachers and paraprofessionals will administer DIBELS assessments (K-6 and grades 7-8 for students below grade level) to monitor literacy skills acquisition and tailor interventions accordingly. Programs such as Read Naturally and the 95% Group will be implemented to improve reading fluency and comprehension in grades K-8, especially for students not	$80,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		reading at grade level. In mathematics, educators will implement SOAR math fluency interventions in grades K-8 for students performing below standard. This action directly addresses persistent gaps shown in recent CAASPP results, English Learners scoring 13.51% in ELA and 12.16% in math, compared to 33.33% for all students, and is designed to accelerate achievement for unduplicated students.		
1.7	Supplemental Personnel/ LREBG	Staffing will expand to include the hiring of one (1) English Language Development (ELD) teacher and two (2) paraprofessionals to provide targeted instructional support for English Learners, with a focused emphasis on Newcomer students. The ELD teacher will deliver designated ELD instruction, particularly for Newcomers, to accelerate English language acquisition and improve access to grade-level content. The teacher will also collaborate with general education teachers to integrate ELD strategies into core instruction. The paraprofessionals will provide instructional assistance in TK-5th grade classrooms, supporting literacy and math interventions. They will also tutor newcomer students and other English Learners in small-group settings to enhance their language development and academic achievement. Additionally, small group instructors will be hired to deliver intensive literacy and mathematics interventions, particularly for students performing below grade level. These positions will be funded through Learning Recovery Emergency Block Grant (LREBG) ($299,402.88), Title I resources ($146,448.13), and Literacy Coaches and Reading funds ($391,709.85), ensuring a strategic use of supplemental funding to support unduplicated students. An additional middle school math teacher will continue to provide co-teaching and small group math instruction, focusing on students with the most significant academic needs in order to close the persistent proficiency	$897,983.97	Yes

Action #	Title	Description	Total Funds	Contributing
		gaps in mathematics. This position will be funded through LREBG. This comprehensive staffing strategy is designed to expand personalized instructional support, accelerate achievement for English Learner and low-income students, and directly address disparities identified in state and local assessment data. **LREBG Rationale and Research Alignment:** Research supports that frequent, targeted, small-group instruction, especially when provided by trained educators, has a strong, positive effect on closing achievement gaps and recovering lost instructional time. These interventions are tailored to LHUESD's local data and educational partner feedback. **Metrics used to monitor the impact of the action:** 1.7: ELA Distance from Standard 1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA 1.9: Math Distance from Standard 1.10: Percent of students in grades 3-8 who meet or exceed standard in Math 1.11: Percent of pupils in K-6th performing at or above standard in Literacy Acadience Assessment 1.12: Percent of pupils in K-8th performing at or above standard in Math Acadience Assessment		
1.8	Extending Instructional Minutes	Provide an additional 15 minutes of daily designated English Language Development (ELD) instructional time to accelerate the language acquisition and academic progress of English Learners (ELs). This extended instructional time will be used to deliver targeted, standards-aligned ELD instruction based on student proficiency levels. Funds will be used to compensate staff for the additional daily instructional time.	$55,732.00	Yes
1.9	ELD Instruction	The ELD Leadership Team will focus on ELD instruction, learning and improvement. A special focus will continue to be placed on designated and integrated time, and best practices to support language acquisition, native language development and support, specific needs of EL and ELPAC, and supplemental supports. Additionally, the team will conduct learning walks, analyze student work, provide feedback to all instructional staff, and utilize the Data Wise Process to organize the work. (2024-25 Data: ELs CAASPP ELA Proficiency- 13.51%, CAASPP math proficiency- 12.16%, CA Dashboard- 53.4% making progress (6.5% improvement from the previous	$5,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		year). Funds will be used to pay teachers to attend ELD professional development.		
1.10	Project Based Lessons	Teachers will be provided with project funds for project based lessons to increase student engagement in academic subjects to further improve academic achievement. With emphasis on ensuring English Learners and low-income students have the necessary materials for academic projects.	$47,000.00	Yes
1.11	Extended Learning Time	To support student mastery of grade-level standards and mitigate learning loss, the LEA will implement a comprehensive extended learning program that includes before- school, afterschool, and Saturday School intervention sessions. These sessions will be led by teachers and paraprofessionals, and are designed to serve all students, with a focused emphasis on meeting the academic needs of English Learners and low-income students. Instruction during extended learning time will be targeted toward ELA and mathematics skills development and will use diagnostic data to guide small-group instruction and intervention. Funds will be used to: Pay staff salaries for teachers and paraprofessionals delivering intervention Purchase instructional supplies and materials for program implementation Provide late bus transportation to ensure equitable access to low-income and English Learner students who may otherwise face barriers to participation	$587,793.00	Yes

Action #	Title	Description	Total Funds	Contributing
		For the 2026-27 LCAP, the additional of Saturday School expands access to academic support and provides students with additional instructional time in a low-ratio setting. This action directly responds to ongoing learning gaps highlighted in CAASPP scores and partner feedback regarding the need for more flexible support options.		
1.12	Professional Development	Provide high-quality, research-based professional development to build instructional capacity among teachers, support staff, and administrators, ensuring effective teaching practices that promote academic achievement for all students, with a targeted focus on unduplicated pupils, including English Learners, foster youth, and low-income students. This action includes one (1) additional day added to the teacher work year to allow for dedicated professional learning time. This extended day will focus on collaboration, instructional planning, and the development of intervention strategies aligned to the needs of unduplicated students. Funds will be used to compensate staff for the extended work year. Focus areas of Professional Learning Include: • Evidence-based instructional strategies across content areas • Differentiated and integrated English Language Development (ELD) • Use of formative and summative data to guide instruction • Systems improvement and coherence To further strengthen math instruction, especially for students not meeting standards, the 2026-27 plan add targeted one-on-one math coaching for	$169,185.74	Yes

Action #	Title	Description	Total Funds	Contributing
		paraprofessionals leading small group instruction. This coaching will improve delivery, deepen understanding of math content and pedagogy, and build paraprofessional confidence to support consistent, standards-aligned instruction. Funding Will Support: • Trainer fees and facilitation costs • Instructional materials and resources • Substitute coverage for staff participation • Travel expenses for training and conferences • Compensation for one additional professional day included in the teacher work year.		
1.13	Professional Learning Communities	Provide time for grade level Professional Learning Communities for the purpose of planning and sharing best practices, reviewing student work, and planning to increase student achievement in ELA, ELD, and math.	$20,000.00	Yes
1.14	Supplemental Educational Experiences and Student Incentives	Because low-income and English Learners have less outside access to educational experiences, we will continue to provide the incentives for: students meeting grade level standards, reclassification requirements, behavior expectations, attendance goals and educational field trips.	$70,000.00	Yes
1.15	LTELs Committee	The district will establish a Long-Term English Learner (LTEL) Committee to strengthen outcomes for LTEL students across academic achievement, behavior, attendance, and engagement. The committee will include district administrators, site leadership, teachers, classified staff, and parents of LTELs to ensure representation across stakeholder groups. The committee will convene a minimum of three times per school year.	$10,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		During each meeting, the committee will review disaggregated data (e.g., ELPAC, CAASPP, attendance, discipline, and engagement indicators) to identify trends and barriers affecting LTELs. This analysis will be used to inform site-based strategies, staff supports, and targeted actions to this high-need subgroup. Key insights and recommendations will be communicated back to all instructional and support staff. To support continuous improvement and alignment with best practices, the LTEL Committee will engage in ongoing consultation with experts from the County Office of Education who specialize in English Learner supports. This collaboration will help guide the refinement of instructional practices and intervention designed specific to the needs of LTELs.		

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Create a safe and welcoming learning environment where students are connected to their schools as measured by school attendance data, chronic absenteeism, suspensions, expulsions, and school climate surveys.	Broad Goal

State Priorities addressed by this goal.

Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Although the California School Dashboard indicates a 2.2 percentage point decline in chronic absenteeism (from 14% to 11.8%) over the past two years, current rates remain 1.87 percentage points above pracademic levels (9.93%), indicating that attendance has not fully recovered. Additionally, overall attendance has not met the district's expected growth targets, increasing only marginally from 95.2% in 2023-24 to 95.4% in 2024-25, which fall short of the district goal of 98%.

This data, combined with local attendance trends, indicates that a significant number of students continue to experience barriers to consistent school participation. Educational partner input and local data suggest that these barriers include gaps in student connectedness, inconsistent access to supports that address social-emotional needs, and logistical challenges that limit regular attendance.

The district developed this goal to address these persistent attendance and engagement gaps by prioritizing improvements in school climate, student connectedness, and access to supportive services, because students are more likely to attend regularly and avoid disengagement when they feel safe, supported, and connected to trusted adults and school programs. improvements in these conditions are expected to reduce chronic absenteeism and increase overall attendance because they directly address the underlying barriers that prevent consistent participation.

Progress toward this goal will be measured using attendance rates, chronic absenteeism, suspension and expulsion rates, and school climate survey data to ensure that changes in student engagement and school conditions are reflected in measurable outcomes.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions associated with Goal 2 (Actions 2.1 through 2.6) continue to be implemented as planned during the year, with no substantive differences between the intended design and actual implementation. The positive practices and systems established in prior years remained in place and continued to contribute to student engagement, wellness, attendance, and school climate. Ongoing monitoring of student outcome data indicates that many of the successes observed previously continue to be evident; however, disparities among certain student groups remain and require continued attention.

Successes:
Action 2.1: Student Wellness and Support

School Social Workers, the counselor, and the AmeriCorps mentor continued to work collaboratively with School Community Coordinators and office staff to identify students in need of additional support and connect them with appropriate services.

Targeted Support for Unduplicated Pupils: Foster youth and low-income students continued to receive priority access to counseling, mentorship, and case management services based on individual needs. These coordinated supports remained an important component of the district's efforts to address barriers to attendance, engagement, and student well-being.

Action 2.2: PBIS Implementation

The district maintained full implementation of Tier I, Tier II, and Tier III Positive Behavioral Interventions and Supports (PBIS). Established systems for behavior support, student recognition, and intervention continued to promote positive school climate and student engagement.

Data-Informed Refinement: Attendance and behavior data continued to be reviewed regularly to inform program improvements. The expanded student recognition system implemented in prior years remained in place and continued to support equitable access to PBIS incentives and recognition opportunities across student groups.

Action 2.3: Chronic Absenteeism Additional Transportation

The School Community Coordinator continued to collaborate closely with office staff to monitor attendance, communicate with families, and assist students experiencing transportation barriers.

English Learners and Long-Term English Learners performed at higher levels than prior years, reflecting the ongoing effectiveness of transportation supports, family outreach, and attendance interventions.

Actions 2.4, 2.5, and 2.6: Student Supervision, Extracurricular Opportunities, and School Safety
Additional student supervision expanded extracurricular and career -learning opportunities, and supplemental school safety measures

continued to work together to support a safe, welcoming, and engaging school environment. These actions contributed to maintaining positive school climate conditions because they increased opportunities for student connection, engagement, supervision, and access to supportive adults throughout the school day and beyond.

Challenges and Areas of Continued Improvement
While implementation remained strong across all actions, ongoing analysis of attendance and engagement data continue to reveal disparities among some student groups.

Students with Disabilities experienced higher rates of chronic absenteeism than their peers despite the supports currently in place. This suggests that existing interventions may not fully address the specific barriers affecting attendance for this student group.

Next Steps for Continuous Improvement
Data Monitoring: The district will continue to strengthen attendance monitoring systems and regularly review disaggregated data to identify trends and adjust support for unduplicated pupils and other student groups demonstrating ongoing need.

Educational Partner Engagement: The district will expand opportunities for family and student input through bilingual parent workshops, advisory committee discussions, and student focus groups. This feedback will be used to better understand barriers and inform the design of future supports and interventions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material Differences Between Budgeted Expenditures and Estimated Actual Expenditures
As part of the 2025-26 LCAP implementation review, Lost Hills Union School District analyzed the differences between Budgeted Expenditures and Estimated Actual Expenditures for Goal 2: Safe and Supportive Learning Environments. The total budgeted expenditures for Goal 2 were $522,343.00, while estimated actual expenditures totaled $490,181.6, resulting in a material difference of $32,161.4.

Because all actions within Goal 2 (Actions 2.1 through 2.6) are identified as contributing actions, these expenditure variances may also affect the district's estimated actual percentages of improved services when compared to the percentage originally planned in the LCAP. However, the reduction in expenditures does not reflect a reduction in services provided to unduplicated pupils. In most cases, services were fully implemented through the use of alternative funding sources, allowing the district to maintain the intended supports and interventions for foster youth, English Learners, low-income students, and other students served through these actions.

Action 2.1- Student Wellness and Support Services
Difference: $53,871.94
This variance occurred because grant funding became available to fully support the salaries and benefits of social workers that had originally

been budgeted through LCAP funds. The planned wellness and support services were implemented as intended, and students continued to receive counseling, case management, and intervention services. The difference reflects a change in the funding source rather than a reduction in services or support for unduplicated pupils.

Action 2.2- PBIS Implementation
Difference: $16,249.9
The variance was primarily attributed to planned purchases of PBIS materials and supplies that were scheduled for implementation later in the fiscal year. Core PBIS activities, including Tier I, Tier II, and Tier III supports, continued to be implemented, ensuring ongoing access to behavior and engagement support for unduplicated pupils.

Action 2.3- Chronic Absenteeism Interventions (Additional Transportation)
Difference: $3,503.99
Actual expenditures were lower than budgeted because transportation services were provided at a lower cost than originally anticipated. Attendance related transportation continued throughout the year, and the action was implemented as planned. The variance reflects cost savings and operational efficiencies rather than a reduction in services provided to students.

Action 2.4- Additional Student Supervision (Before/After School)
Difference: $9,245.58
The district utilized alternative funding and staffing resources to provide before- and after-school supervision. Student supervision services continued as planned, providing safe and supportive environments that contributed to student engagement and school connectedness.

Action 2.5- Extracurricular Activities and Career Learning Opportunities
Difference: $42,592.42
Community partnerships and supplemental funding sources supported a portion of the extracurricular and career exploration opportunities included in this action. Students continued to have access to the intended opportunities, while expenditures charged to the LCAP were lower than originally projected.

Action 2.6- Supplemental School Safety Materials
Difference: $14,441.45
Actual expenditures were lower than anticipated because fewer safety-related materials and supplies were needed than originally estimated. Planned safety supports remained in place, and the action continued to contribute to a safe and supportive school environment.

Although estimated actual expenditures were substantially lower than budgeted expenditures, the district continued to provide the services and supports described in Goal 2 through a combination of LCAP funds, grant funds, community partnerships, and other available resources. Because the contributing actions were implemented and services to unduplicated pupils were maintained, the expenditure variances primarily reflect changes in funding sources, timing of expenditures, and lower-than-anticipated costs rather than reduction in service delivery.

As part of the district's annual LCAP and budget review process, the district will continue to evaluate the relationship between contributing action expenditures, service implementation, and the required increase or improvement of services for unduplicated pupils. This review will include an analysis of the district's planned and estimated actual percentages of improved services and any implications for future LCAP

planning and budgeting.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

LCAP Goal 2 focuses on creating a safe and welcoming environment where students are connected to their school, as measured by attendance rates, chronic absenteeism, suspension and expulsion data, and school climate survey results.

Based on an analysis of local and state data, the district believes the actions associated with Goal 2 have been effective in making progress toward this goal. Actions 2.1 through 2.6 worked together to provide social-emotional, behavioral, attendance, engagement, and school safety supports designed to strengthen students' connection to school and create a positive learning conditions.

Evidence of the effectiveness of Actions 2.1- 2.6 is reflected across multiple goal metrics. Student survey results (Metric 2.6) indicate that 95% of students reported feeling safe, welcomed, and connected to their school, demonstrating strong progress toward the goal of fostering a positive school climate and increasing student connectedness.

Attendance outcomes also improved. The district's attendance rate (Metric 2.1) increased from 95.2% in 2023-25 to 95.4% in 2024-25, while the chronic absenteeism rate (Metric 2.2) decreased from 14.0% to 11.8% on the 2025 California School Dashboard. Additionally, the district observed continue improvement among English Learners and Long-Term English Learners, whose chronic absenteeism performance improved significantly over time. This progress suggests that transportation supports, attendance monitoring, family outreach, and student engagement efforts are helping address barriers to regular attendance.

Behavioral outcomes also demonstrate positive progress. The pupil suspension rate (Metric 2.4) decreased from 1.3% in 2023-24 to 0.60% in 2024-25. This reduction indicates that PBIS implementation, student wellness supports, increased supervision, and proactive interventions are contributing to improved student behavior because students receive earlier support and clear behavioral expectations before issues escalate. The district's expulsion rate (Metric 2.5), and middle school dropout rate (Metric 2.3) remained at 0%, indicating that students continued to be supported through preventative and restorative approaches that promote positive school climate and student success.

School climate data further demonstrates the effectiveness of these actions. Staff survey results showed that 100% of instructional staff reported that the school inspires them to do their best at their jobs (Metric 2.7). This outcome is significant because a positive and supportive work environment helps staff build strong relationships with students, maintaining high expectations, and contribute to a school culture that supports student engagement, safety, and belonging.

Student achievement in K-6 indicate that additional before-school and after-school supervision and staff support are having a positive impact on literacy outcomes. Evidence of effectiveness is demonstrated by a 3-percentage-point increase in Acadience Literacy proficiency (Metric 1.11), from 57% to 60%, suggesting that the additional support has contributed to improved student learning and academic performance.

While these results indicated that the actions are effective in advancing Goal 2, analysis of disaggregated data continues to show that some student groups, including Students with Disabilities, experience higher rates of chronic absenteeism than desired. The district will continue to monitor subgroup outcomes, gather educational partner feedback, and refine supports to ensure all students have equitable access to the conditions necessary for regular attendance, engagement, and success.

Overall, the district's analysis indicates that Actions 2.1 through 2.6 have been effective because they contributed to improved attendance, reduced chronic absenteeism and suspensions, maintained a zero-expulsion rate, and resulted in high levels of student and staff perceptions of safety, belonging, and connectedness. These outcomes demonstrate meaningful progress toward achieving Goal 2.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a review of implementation data, student outcomes, school climate survey results, attendance trends, and feedback from educational partners, the district determined that Goal 2 continues to address the identified needs related to school climate, student wellness, safety, and attendance. As a result, the district will maintain the existing goal statement, metrics, and target outcomes for the 2026-27 LCAP year.

Goal, Metrics, and Target Outcomes

No changes will be made to the Goal 2 description, metrics, or target outcomes. Analysis of attendance, chronic absenteeism, suspension, expulsion, and school climate data indicates that the current measures continue to provide meaningful information regarding student engagement, connectedness, and school safety. The district will continue to monitor progress using the existing metrics to evaluate the effectiveness of actions designed to support a safe and welcoming learning environment.

Action Revisions

Based on reflections regarding implementation effectiveness and educational partner feedback, the district will make targeted adjustments to specific actions while maintaining the overall structure of Goal 2.

Action 2.1- Student Wellness and Support Services: The district will increase funding for this action to support salary adjustments required through the collective bargaining agreement. The increased allocation will ensure the district can maintain qualified staff who provide essential student wellness and support services. Sustaining competitive compensation is necessary to recruit and retain skilled personnel, promote program stability, and ensure students continue to receive consistent access to social-emotional, behavioral, and other support service that contribute to a positive school climate and student success.

Action 2.2- PBIS and Social-Emotional Learning (SEL) Implementation

The district will revise this action by discontinuing the use of Moonzoom SEL lessons and replacing them with alternative SEL resources that are more developmentally appropriate and engaging for middle school students. This change resulted from feedback provided by the district's social workers and counselor, who reported that recent program updates reduced student engagement and participation. The revised SEL resources will be selected to better align with student interests and support continued growth in social-emotional competencies because students are more likely to engage with instruction that is relevant and responsive to their developmental needs.

Action 2.3- Chronic Absenteeism Additional Transportation

The district will decrease funding allocated to this action because the major one-time expenditure for the purchase of additional school vans was completed in prior years, reducing the need for ongoing capital investments. The revised allocation will reflect a transition from vehicle acquisition to sustaining the existing transportation fleet. Current funding is sufficient to support the continued implementation of Everyday Labs and to cover fuel, routine maintenance, repairs, and operational cost associated with providing supplemental home-to-school transportation for students as needed. This adjustment represents a reduction in one-time equipment costs rather than a reduction in services, and the district will continue to provide transportation supports that improve student access to instructional opportunities and supplemental programs.

Action 2.4- Additional Student Supervision
The district will increase funding for this action to expand access to before-school supervision and academic support services for additional students. The increased allocation will allow the district to provide additional staffing necessary to ensure more students have a safe, supervised environment before the instructional day begins while also increasing opportunities for tutoring and targeted academic support. This investment will support students' engagement, improve access to learning opportunities, and provide additional assistance for students who need academic reinforcement beyond the regular school day.

Action 2.5- Extracurricular Activities and Career Learning Opportunities and Exploration
The district will increase funding allocated to this action to sustain the level of programming and services implemented in previous years. During the prior year, a portion of these costs was supported through temporary, one-time funding sources that are no longer available. To prevent a reduction in services and ensure the continued delivery of high-quality programs for students, ongoing LCFF funding has been increased to replace the expiring funds. This adjustment will allow the district to maintain consistent implementation of the action, preserve student access to established supports and services, and to sustain the long-term sustainability of the program.

Action 2.6- Supplemental School Safety
The district will increase funding for this action to address the growing need for supplemental safety measures that support students' participation in school and extended learning programs. The additional allocation will provide increased staffing, supervision, safety equipment, and other resources necessary to maintain safe and secure learning environments during supplemental programs.

These refinements reflect the district's ongoing commitment to continuous improvement through the use of implementation data, student outcome data, and educational partner feedback. The adjustments made for 2026-27 are intended to strengthen student engagement, maintain effective attendance and school climate supports, and ensure that resources continue to be aligned with identified student needs.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Student Wellnesss and Support	Maintain the following student support personnel: a full-time school counselor, two (2) school social workers, and an AmeriCorps mentor to provide comprehensive wellness and support services. These positions are essential to improving school climate, increasing attendance, and reducing behavioral incidents, particularly for English Learners, low-income students, and foster youth.	$340,187.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The Counselor, social workers, and mentor will: Provide individual and group counseling, social-emotional support, and case management for at-risk students. Assist in the implementation of Positive Behavioral Interventions and Supports (PBIS) to reduce discipline incidents and improve schoolwide behavior. Mentor students identified as chronically absent or exhibiting behavioral challenges. Facilitate social-emotional learning (SEL) and anti-bullying training for students, parents, and staff to foster a safe and supportive school environment For the 2026-27 LCAP, in response to student wellness data and feedback from educational partners, the district will also hire a part-time Nurse. The nurse will offer health consultations for students with medical conditions, support the response to students who become ill during the school day, and contribute to the district's whole child wellness approach. This role is intended to strengthen the link between physical health and school attendance, and ensure families, especially those of unduplicated pupils, have timely access to basic health services. Funding will support salaries, professional development, transportation, and necessary materials to ensure effective and sustainable implementation of these student wellness initiatives.		

Action #	Title	Description	Total Funds	Contributing
2.2	PBIS and SEL Implementation	Continue implementation of Positive Behavioral Interventions and Supports (PBIS) to reduce behavior incidents, strengthen student engagement, and improve overall school climate for all students, including English Learners, low-income students, and foster youth. For the 2026-27 LCAP, to further enhance the impact of PBIS, the district will integrate Moonzoom SEL lessons into classroom practice. These structured, student-centered lessons will equip teachers and support staff to embed social emotional learning (SEL) into daily instruction, fostering emotional regulation, empathy, and constructive behavior. To support successful implementation and increase staff engagement, the district will also provide incentives for staff participation in PBIS and SEL initiatives. These may include recognition events, or small rewards for consistently modeling and reinforcing PBIS values. Staff engagement is critical to the success of PBIS. Providing incentives acknowledges the additional time, collaboration, and emotional labor required to sustain behavior systems and SEL integration. Encouraging active participation among teachers and classified staff helps ensure consistency across classrooms and maximizes the positive impact on student behavior and school culture. Funds will support: PBIS rewards and incentives for students SEL licenses or materials Behavior tracking software Instructional and classroom resources	$38,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Staff incentives for participating in PBIS/SEL implementation and leadership This action promotes a cohesive, supportive environment that nurtures student well-being and reduces disciplinary disparities for unduplicated student groups.		
2.3	Chronic Absenteeism, Additional Transportation	Maintain and enhance transportation services to support students who are not attending school due to non-medical barriers, with a specific focus on reducing chronic absenteeism among low-income students, foster youth, and English Learners. Building on prior LCAP investments in student transportation, three school vans purchased in previous years, this action continues to fun fuel and maintenance necessary to operate the program. The goal is to reduce logistical barriers that prevent regular attendance, particularly for unduplicated pupils experiencing housing instability, transportation insecurity, or inconsistent adult supervision. For the 2026-27 LCAP, in direct response to feedback from educational partners and families, this action will ensure that vehicles used for attendance and chronic absenteeism reduction and are equipped with the safety features required under Senate Bill 88 (SB 88), such as interior and exterior cameras and other mandated equipment.	$37,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		For the 2026-27 LCAP, to further expand the district's chronic absenteeism reduction strategy, the LEA will continue to partner with EveryDay labs, an organization that leverages: behavioral science, data analytics, and family engagement strategies. This partnership will support targeted absenteeism campaigns, personalized attendance nudges, and customized family outreach, enabling the district to address attendance challenges with greater precision and cultural relevance. Funds will be used to support: Ongoing operation Contracted services and implementation support from EveryDay Labs Attendance Incentives This comprehensive, tiered approach aims to increase daily attendance and narrow attendance disparities that disproportionately affect English Learners, foster youth, and students living in poverty.		
2.4	Additional Student Supervision	Provide additional student supervision before schools and after school. Our schools host a before and after school program which targets low-income and English Learners. Students begin to arrive at 6:00 AM in order to participate in the program. The Afterschool program ends at 5:00 PM. Therefore, additional supervision is required before and after school hours. Funds will be use for extra pay. The number of staff will be determined by the number of students participating in the program.	$20,000.00	Yes
2.5	Extracurricular Activities and Career Learning	Because low-income students have less opportunities to participate in extracurricular activities outside of the school and are less likely to have opportunities to visit different colleges before enrolling in high school, the district will provide career learning opportunities and exploration (including	$62,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
	Opportunities and Exploration	art, other vocational courses, and visiting higher education campuses), giving priority registration to low-income, foster youth, and English Learners.		
2.6	Supplemental School Safety	Provide additional safety supplies and staff safety training. The district hosts before school, afterschool, Saturday, and Summer programs which target low-income and EL students. Oftentimes staff not currently employed in the regular program, are hired for these positions. In order to ensure the safety of students who participate in these programs, funds will be used to cover the cost of additional staff training and supplies.	$41,364.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Increase parent and family engagement as measured by parent participation in various district and school committees, workshops, and other parent meetings.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

The district developed this goal to strengthen meaningful parent and family engagement because educational partners identified family involvement as an essential component of student success, school connectedness, and continuous improvement. Through the LCAP development process, parents, staff, and community members consistently emphasized the importance of creating opportunities for families to participate in their children's education and contribute to school and district decision-making.

The district recognizes that meaningful family engagement requires removing barriers to participation and creating welcoming environments where all families feel valued and heard. Historically, factors such as scheduling constraints, childcare needs, language differences, and limited opportunities for engagement can reduce participation among some families, including families of unduplicated pupils.

Analysis of the 2026 Parent Survey indicates that the district's efforts have been effective. Among survey respondents, 95% reported feeling comfortable participating in school activities, while 93% reported feeling valued by the school and district and encouraged to engage in decision-making processes. These results suggest that strategies such as maintaining a parent center, employing community coordinators, and providing childcare and refreshments during meetings have increased opportunities for families to participate in school activities and provide input on district programs and services.

Although survey results demonstrate strong levels of parent engagement, educational partners expressed a desire to continue strengthening participation and expanding opportunities for family involvement. As a results, the district will continue implementing existing engagement strategies while introducing additional participation incentives designed to encourage broader involvement from families.

The district developed and continues this goal because meaningful family engagement contributes to stronger relationships between home and school, improves communication regarding student needs, increases opportunities for educational partner input, and supports informed decision-making that is responsive to the needs of students and families. Progress towards this goal will continue to be monitored through annual parent survey results, participation data from parent meetings and events, and feedback from educational partner groups such as DELAC, and School Site Council.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Number of meetings per school year where parents have the opportunity to make decisions for district and/or school sites. Source: Local Indicator- SSC, ELAC, and MPAC agendas and minutes. Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions associated with Goal 3 were fully implemented during the year, and there were no substantive differences between the planned actions and the actual implementation of those actions. The district continued to provide opportunities for meaningful family engagement, parent education, and educational partner participation to strengthen partnerships between families and schools.

Actions 3.1 through 3.7 were implemented as planned. Through these actions, the district-maintained programs, resources, and engagement opportunities designed to increase parents' participation and support families in contributing to their children's academic success.

Successes

Action 3.3- Parent and Family Resources and Training

A key success was the district's continued partnership with the Parent Institute for Quality Education (PIQE). Through this partnership, the district hosted the Family Math Together Program (Grades K-5), an eight-week parent education program designed to equip families with skills and resources to support their child's mathematics learning.

The program focused on helping families overcome math anxiety, develop an understanding of core mathematical concepts, strengthen math-related skills, and learn practical ways to incorporate mathematics into everyday activities. Families participated in interactive learning experiences that increased their confidence in supporting mathematics learning at home.

This action was effective because it provided parents with strategies and tools to engage in their children's education, strengthened family-school partnerships, and increased opportunities for parents to support student learning outside of the classroom. The program also supported the district's goal of building family capacity and encouraging meaningful parent involvement in student achievement.

Challenges

No substantial implementation challenges were encountered during the year. All planned actions were carried out as intended, and the district was able to provide the services, and engagement opportunities described in the LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For the 2025-26 LCAP, Lost Hills Union School District conducted a review of material differences between Budgeted Expenditures and Estimated Actual Expenditures for Goal 3: Family and Community Engagement. The total budgeted amount for Goal 3 was $118,521.00, while estimated actual expenditures were $49,677.42, resulting in a total variance of $68,843.58. These differences are primarily attributed to the use of alternative funding sources, staffing cost adjustments, and changes in service delivery methods, while maintaining implementation of planned services for unduplicated pupils.

Below is a summary of material differences by action:

Action 3.1- Parent Center
Difference: $4,265.38
Expenditures were lower than anticipated due to reduced supply costs.

Action 3.2- Community School Coordinator
Difference: $31,873.75
A portion of position costs was supported through other funding sources, reducing the need for LCAP expenditures.

Action 3.3- Parent and Family Resource and Training
Difference: $19,060.4
Costs were reduced because the Community Schools Grant fully covered the PIQE parent training program, which had originally been budgeted under LCAP funds.

Action 3.4- Interpretation and Translation Services
Difference: $1,849.71
Costs were lower due to staff opting to receive compensatory time in lieu of additional paid compensation for translation services.

Action 3.5- Childcare and Snacks for Parent Meetings
Difference: $2,351.5
A portion of parent meetings were held virtually, reducing the need for childcare and refreshments.

Action 3.6- Parent Recognitions for Engagement
Difference: $2,040.79
Expenditures were lower than projected due to reduced supply costs.

Action 3.7- Family Engagement Events
Difference: $7,402.05
Costs were reduced because some major family engagement events were partially funded through a community partner.

Overall, although estimated expenditures were lower than budgeted amounts, all planned family and community engagement services were

implemented. The differences reflect efficiencies in implementation and the use of alternative funding sources rather than a reduction in services provided to unduplicated pupils.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

LCAP Goal 3 focuses on increasing family engagement, as measured by participation in district and school committees, workshops, and other engagement opportunities. Based on an analysis of both quantitative and qualitative data, the district determines that the actions under Goal 3 have been effective in making progress towards the goal of strengthening family engagement and ensuring meaningful parent participation in decision-making processes.

Actions 3.1 through 3.7 have collectively supported increased opportunities for engagement and have demonstrated overall effectiveness in achieving intended outcomes.

Parent survey data indicates strong positive perceptions of engagement, with 86% of surveyed parents reporting that they feel they have a voice in school decision-making processes (Metric 3.3). This reflects progress toward building a more inclusive and participatory school culture.

Outreach efforts to families of unduplicated pupils were implemented consistently across all engagement opportunities, including flyers, letters, automated phone messages, voicemail, email, and direct phone calls. As a result, all parent involvement opportunities were actively promoted to unduplicated families, supporting equitable access to engagement opportunities (Metric 3.4).

Participation in special education processes remained strong, with 100% of parents of students with exceptional needs participating in Individualized Education Program (IEP) meetings, as documented through IEP records (Metric 3.5). This indicates that engagement systems for families of students with disabilities are highly effective.

In addition, parent committee participation demonstrates sustained engagement in share decision-making. Accross 26 meetings, parents actively participated in school and district committees (Metric 3.1), with attendance rates as follows: School Site Council (SSC) at 100%, Migrant Parent Advisory Committee (MPAC) at 87%, English Learner Advisory Committee (ELAC) at 87%, and District English Learner

Advisory Committee (DELAC) at 100% (Metric 3.2). These participation levels indicate that engagement structures are effective in providing regular opportunities for meaningful input and decision-making.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a review of performance data related to Goal 3 and consultation with educational partners, the district determined that no substantive changes are needed to the planned goal, metrics, target outcomes, or actions for the 2026-2027 LCAP year.

This decision is based on evidence indicating that current strategies under Goal 3 are effectively supporting family engagement and are aligned with identified needs. Data trends, including participation rates in parent committees, IEP participation, and parent survey results, demonstrate continued progress toward established outcomes. In addition, feedback from educational partners confirmed that the existing goal and associated actions remain relevant, well-implemented, and responsive to community needs.

Because current implementation is yielding positive and stable results, the district will continue with the existing Goal 3 structure while maintaining ongoing monitoring of data and stakeholder feedback to ensure sustained effectiveness and continuous improvement.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Parent Center	Maintain the LHUESD Parent Center to facilitate home to school communication to increase parent and family engagement, with emphasis on increasing parent engagement of low income, foster youth, and English Learner parents. Funds will cover the cost of supplies.	$3,000.00	Yes
3.2	Community School Coordinator	Maintain a full-time community school coordinator to promote improved school family partnerships in support of student learning specifically with	$65,345.00	Yes

Action #	Title	Description	Total Funds	Contributing
		low-income, foster youth, and EL families (A second coordinator will be hired and funded through State Grant funding). The coordinator will: • Work collaboratively with families and educators to develop family engagement activities. • Provide support and serve as a liaison between families and educators that helps both groups work collaboratively to build trusting relationships and partnerships focused on supporting improved student outcomes. • Conduct home visits to foster regular communication with families, build relationships, and identify ways to support student learning.		
3.3	Parent and Family Resources and Training	Provide parents and families with the resources and training to strengthen learning at home. Focus on addressing the needs of low-income, foster youth, and English Learner parents and families. Funds will be used for parent courses and supplies.	$20,000.00	Yes
3.4	Interpretation/Translation	Provide interpretation at all parent conferences for parents who do not speak English to ensure their appropriate participation in their children's education.	$2,000.00	Yes
3.5	Childcare and Snacks for Parent Meetings	Provide childcare and snacks during parent meetings and workshops to promote full engagement of parents of low-income, foster youth, and EL students.	$7,000.00	Yes
3.6	Parent Recognitions for Parental Engagement	Provide recognitions for parents who are consistently involved in their children's education to encourage them and other parents to continue to participate.	$4,000.00	Yes
3.7	Family Engagement Events	Hold family engagement events with an emphasis on increasing educational engagement of low-income, foster youth, and EL families.	$25,000.00	Yes

47.258%	7.199%	$225,003.12	54.457%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	**Action:** Teacher Induction Program **Need:** The 2025 California School Dashboard indicates persistent and significant academic disparities for unduplicated pupils, specifically English Learners (EL), Long-Term English Learners (LTEL), and Socioeconomically Disadvantaged (SED) students in both English Language Arts (ELA) and mathematics. These	To ensure students receive high-quality instruction, LHUSD will invest in teacher education and provide an instructional program to support beginning teachers in clearing their credentials. These efforts will ensure that students, particularly those with the greatest needs, are taught by well-prepared, supported, and fully credentialed teachers.	1.1: The rate of appropriately assigned and fully credential teachers in the subject area and for the students they are teaching.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	groups demonstrate performance well below standard, as measured by CAASPP assessments: ELA CAASPP Distance from Standard (DFS) EL: -33.5 LTEL: -90.1 SED: -13.9 FY: No performance band reported Math CAASPP Distance from Standard (DFS) EL: -71.5 LTEL: -153.6 SED: -49.9 FY-No performance band reported These data highlight critical academic needs for unduplicated pupils: • Increased access to skilled, fully credentialled teachers who are trained in evidence-based instructional practices, including	This action is principally directed toward unduplicated students, English Learners, low-income students, and foster youth, who are most impacted by staffing instability and teacher turnover. Access to qualified, stable educators is essential to improving learning outcomes and reducing achievement gaps. This action is being provided on an LEA-wide basis because ensuring that all classrooms are staffed with fully credentialed and supported teachers improves overall instructional quality and equity of access and is effective in meeting the unique needs of unduplicated students. The district will monitor the proportion of unduplicated pupils taught by appropriately credentialed and supported teachers using teacher assignment and misassignment data (Priority 1 Metric)	1.11 Percent of pupils in K-6th performing at or above standard.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	strategies for designated and integrated English Language Development. • Consistent instructional quality and educator retention. Additionally, educational partners, including parents, teachers, and advisory committees, emphasized the importance of strengthening teacher recruitment and early-career support. There is a clear need to build a stable, qualified teaching workforce to ensure that all students, particularly unduplicated pupils, have equitable access to high-quality instruction that meets their academic and linguistic needs. **Scope:** LEA-wide		
1.3	**Action:** Reduced Class Sizes **Need:** The 2025 California School Dashboard indicates persistent and significant academic disparities for unduplicated pupils, specifically English Learners (EL), Long-Term English Learners (LTEL), and Socioeconomically Disadvantaged (SED) students in both English Language Arts (ELA) and mathematics. These groups demonstrate performance well below standard, as measured by CAASPP assessments: ELA CAASPP Distance from Standard (DFS) EL: -33.5	Through this action, the district will maintain TK-3 classrooms with enrollment below 24 students. Smaller class sizes enable teachers to deliver more individualized instruction, especially in early literacy, with the goal that all students are reading by the end of third grade. This action is principally directed toward the district's unduplicated students, low-income students, English learners, and foster youth, who	1.11: Percent of pupils in K-6th performing at or above standard, Acadience Literacy

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LTEL: -90.1 SED: -13.9 FY: No performance band reported Math CAASPP Distance from Standard (DFS) EL: -71.5 LTEL: -153.6 SED: -49.9 FY-No performance band reported Educational partners emphasized that smaller class sizes have resulted in improved teacher-student interactions and increased academic support during the instructional day. Maintaining reduced class sizes in the early grades is a targeted strategy to accelerate learning and address the academic gaps faced by unduplicated students during their most formative educational years. **Scope:** Schoolwide	are more likely to enter school with limited literacy exposure or face barriers to reading development. This action is being provided on a schoolwide basis at schools with high concentrations of unduplicated students because targeted literacy support in early grades has proven effective in accelerating reading skills for these populations. Maintaining smaller class sizes allows educators to closely monitor progress, differentiate instruction, and intervene early, strategies that research and district data indicate are effective in addressing the needs of unduplicated students. Progress will be monitored through early literacy assessments and disaggregated reading assessment data.	
1.5	**Action:** Classroom Devices and Technology Support **Need:** The 2025 California School Dashboard indicates persistent and significant academic disparities for unduplicated pupils, specifically English Learners (EL), Long-Term English Learners (LTEL), and Socioeconomically Disadvantaged (SED) students in both English Language Arts (ELA) and mathematics. These groups demonstrate performance well below standard, as measured by CAASPP	To close the digital access gap and support academic achievement, the district will provide English Learners and Socioeconomically Disadvantaged (SED) students with dedicated one-to-one technology devices. These devices will ensure equitable access to instructional software and digital tools that support core content mastery, language development, and individualized learning pathways.	1.11 Percent of pupils in K-6th performing at or above standard. Acadience Literacy 1.12 Percent of pupils in K-6th performing at or above standard. Acadience Math

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	assessments: ELA CAASPP Distance from Standard (DFS) EL: -33.5 LTEL: -90.1 SED: -13.9 FY: No performance band reported Math CAASPP Distance from Standard (DFS) EL: -71.5 LTEL: -153.6 SED: -49.9 FY-No performance band reported During the consultation process, educational partners, including students, teachers, parents, School Site Council (SSC), and English Learner Advisory Committees (ELAC), strongly advocated for continued investment in one-to-one technology. They emphasized that: - Individual student devices help close the access gap at home. - Technology facilitates engagement and individualized learning. - Both students and teachers require ongoing access to current digital tools due to the digital format of all state assessments. **Scope:** LEA-wide	This action is principally directed toward EL and SED students, who often face barriers to digital access at home. Providing devices helps eliminate this barrier and supports engagement with online literacy and language development platforms, which are critical for narrowing achievement gaps. Although the action is LEA-wide, it is designated to address the unique needs of unduplicated students and is being provided on an LEA-wide basis because consistent, equitable access to technology benefits classroom instruction and teacher planning across all schools. Additionally, professional development for teachers in effective teach integration ensure that EL and SED students are receiving instruction that maximizes use of these tools. Progress will be monitored through the following data: Percent of pupils in K-6 performing at or above standards in literacy, and the percent of pupils in k-6 performing at or above standard in math Acadience.	
1.6	**Action:** Supplemental Curriculum and Programs	Through this action, students identified as needing additional support in English Language Arts (ELA) and mathematics will receive targeted, small-group	1.7: Distance from Standard in ELA.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: The 2025 California School Dashboard indicates persistent and significant academic disparities for unduplicated pupils, specifically English Learners (EL), Long-Term English Learners (LTEL), and Socioeconomically Disadvantaged (SED) students in both English Language Arts (ELA) and mathematics. These groups demonstrate performance well below standard, as measured by CAASPP assessments: ELA CAASPP Distance from Standard (DFS) EL: -33.5 LTEL: -90.1 SED: -13.9 FY: No performance band reported Math CAASPP Distance from Standard (DFS) EL: -71.5 LTEL: -153.6 SED: -49.9 FY-No performance band reported These results demonstrate an urgent need for unduplicated pupils to receive additional, differentiated instructional support. English Learners and LTEL students require access to curriculum that strengthens both academic content knowledge and language proficiency. SED students and Foster Youth may lack foundational skills and consistent access to instructional support, especially in math. **Scope:**	instruction four times per week in each subject area. Instruction will be delivered by teachers and paraprofessionals using evidence-based, supplemental curriculum resources, including 95% Group, Read Naturally, Acadience, SOAR, and other instructional materials aligned to grade-level standards. This action is being implemented on an LEA-wide basis and is principally directed toward unduplicated students, including low-income students, English Learners, and foster youth, who are disproportionately represented among students requiring academic intervention. While all students will have access to support, the design, staffing, and material choices are rooted in the needs of the unduplicated student population, as demonstrated by local benchmark data and feedback from educational partners. This approach is intended to increase the frequency and quality of differentiated instruction, address unfinished learning, and narrow achievement gaps, particularly for students from historically underserved backgrounds. **Metrics to Monitor Effectiveness:** 1.7: Distance from Standard in ELA. 1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA. 1.9: Distance from Standard in math as measured by CA Dashboard. 1.10: Percent of students in grades 3-8 who meet	1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA. 1.9: Distance from Standard in math as measured by CA Dashboard. 1.10: Percent of students in grades 3-8 who meet or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard in literacy 1.12: Percent of pupils in K-8th performing at or above standard on math.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard in literacy 1.12: Percent of pupils in K-8th performing at or above standard on math.	
1.8	**Action:** Extending Instructional Minutes **Need:** Recent data indicates that English Learner (EL) students continue to perform significantly below grade-level standards in English Language Arts and mathematics. In 2024-25, EL proficiency rates remained low despite modest growth, increasing to 13.51% in ELA (from 10.94%) and 12.16% in mathematics (from 9.38%). Additionally, while 53.4% of ELs made progress towards English language proficiency on the ELPAC (a 6.5 percentage point increase), nearly half of EL students are still not progressing toward proficiency. These data demonstrate that, although incremental improvement is occurring, current performance levels and rates of growth are insufficient to close achievement gaps, indicating a continued need for increased daily designated English Language Development. **Scope:**	LHUESD will continue to implement an additional 15 minutes of daily Designated English Language Development (ELD) instruction across all school sites. This expanded instructional time is provides on an LEA-wide basis but is principally directed toward English Learner (EL) students to accelerate language acquisition and improve academic outcomes. State and local data indicate that English Learners remain one of the lowest-performing student groups in the district and continue to require intensified language support. In 2024-25, EL proficiency rates remained low despite modest growth, with 13.51% of EL students meeting or exceeding standards in ELA (up from 10.94% in 2023-24) and 12.16% in mathematics (up from 9.38%). Additionally, 53.4% of EL students made progress toward English language proficiency on the English Learner Progress Indicator, reflecting a 6.5% percentage point increase from the previous year. While these gains show improvement, overall performance levels remain low.	1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	Educational partner input, including feedback from parents, teachers, and site administrators, consistently identified the need for increased targeted instructional time during the school day to support English Learners, prevent long-term English Learner designation, and improved access to grade-level content. The additional ELD instructional time is designed to address these needs because it provides structured, standards-aligned language instruction tailored to students' proficiency levels, which increases opportunities for guided practice, academic discourse, and language development. This expanded time allows teachers to deliver differentiated instruction based on ELPAC and formative assessment data, which improves students' ability to develop reading, writing, listening, and speaking skills aligned to the California ELD Standards. Although this action is implemented LEA-wide, English Learners are the primary beneficiaries because the additional instructional time is specifically designed to meet their identified language development needs.	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.10	**Action:** Project Based Lessons **Need:** The 2025 California School Dashboard data indicate academic performance challenges in English Language Arts (ELA) and mathematics, particularly among unduplicated pupil groups. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist. In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points, indicating that not all student groups are benefiting equally from current instructional approaches.	Through this action, teachers will be provided with funding to purchase supplemental instructional materials that support more hands-on, experiential learning activities in core academic areas such as mathematics, literacy, science, and history. This action is provided on an LEA-wide basis, but it is principally directed toward unduplicated students, who benefit significantly from multisensory and engaging leaning approaches. Feedback from educational partners and classroom observations indicate that low-income students and English learners, in particular, show improved engagement and understanding when academic concepts are reinforced through hands-on materials and activities. By equipping classrooms across the district with interactive instructional tools, the district aims to enhance access to differentiated, culturally responsive instruction that supports deeper learning for all students, especially those from underserved populations. **Metricts to Monitor Effectiveness:** 1.5: Implementation of CA state standards by classroom observations. 1.14: Percent of pupils who score proficient on the California Science Test (CAST).	1.5: Implementation of CA state standards by classroom observations. 1.14: Percent of pupils who score proficient on the California Science Test (CAST).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	These data demonstrate that unduplicated pupils, particularly English Learners, Long-Term English Learners, and low-income students, continue to experience barriers to accessing and mastering grade-level academic content. Educational partner input from students, teachers, and paraprofessionals consistently identified a need for more engaging, hands-on instructional approaches to increase student participation and understanding in core academic subjects. **Scope:** LEA-wide		
1.11	**Action:** Extended Learning Time **Need:** The 2025 California School Dashboard data indicate academic performance challenges in English Language Arts (ELA) and mathematics, particularly among unduplicated pupil groups. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist.	Through this action, teachers and paraprofessionals will provide before-school and afterschool academic tutoring, homework assistance, and access to extracurricular enrichment activities. These services are designed to increase academic achievement by offering extended leaning time and personalized academic support. This action is being implemented on an LEA-wide basis, but is principally directed toward unduplicated students, including low-income students, English learners, and foster your, who disproportionately face barriers to academic success such as lack of access to academic support at home, language development needs, or unstable living conditions. Feedback from families and educators has highlighted the importance of	1.7: Distance from Standard in ELA. 1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA. 1.9: Distance from Standard in math as measured by CA Dashboard.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points, indicating that not all student groups are benefiting equally from current instructional approaches. **Scope:** LEA-wide	extended learning opportunities to reinforce core academic skills and support student engagement. Providing these services districtwide ensures equitable access and removes potential stigma while prioritizing sites and students with the highest needs. Sites with higher concentrations of unduplicated pupils will receive increased staffing and targeted scheduling to ensure impact.	1.10: Percent of students in grades 3-8 who meet or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard in literacy 1.12: Percent of pupils in K-8th performing at or above standard on math. 1.13: Percent of pupils in 2nd -8th who score proficient in writing. 1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.12	**Action:** Professional Development **Need:** The 2025 California School Dashboard data indicate academic performance challenges in English Language Arts (ELA) and mathematics, particularly among unduplicated pupil groups. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist. In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points, indicating that not all student groups are benefiting equally from current instructional approaches. **Scope:**	Through this action, one additional professional development (PD) day will be added to the regular teacher work year, and teachers and paraprofessionals will receive ongoing high-quality professional development focused on increasing student academic achievement in literacy, mathematics, English Language Development (ELD), history, and science. This action is implemented on an LEA-wide basis but is principally directed toward unduplicated students, who face persistent achievement gaps in core academic subjects. Professional leaning will focus on instructional strategies that are specifically effective for English Learners, low-income students, and foster youth, such as culturally and linguistically responsive teaching, formative assessment practices, and differentiation to meet diverse learning needs. Providing this action LEA-wide supports systematic instructional improvement, ensures continuity of practice across classrooms, and removes disparities in teacher access to training. Sites with higher concentrations of unduplicated students will receive additional support to monitor implementation and effectiveness.	1.7: Distance from Standard in ELA. 1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA. 1.9: Distance from Standard in math as measured by CA Dashboard. 1.10: Percent of students in grades 3-8 who meet or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard. 1.12: Percent of pupils in K-8th performing at or above standard on math.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		1.13: Percent of pupils in 2nd -8th who score proficient in writing. 1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate. 1.22: Programs and services developed and provided to low-income, ELs, and foster youth.
1.13	**Action:** Professional Learning Communities **Need:** The 2025 California School Dashboard data indicate academic performance challenges in English Language Arts (ELA) and mathematics, particularly among unduplicated pupil groups. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in	Through this action, teachers will be provided with one hour per week of structured collaboration time with grade-level colleagues and the site principal. During these sessions, teachers will analyze disaggregated student performance data, engage in lesson planning, and share evidence-based instructional practices. This action is provided on an LEA-wide basis but is principally directed toward unduplicated	1.7: Distance from Standard in ELA. 1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist. In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points, indicating that not all student groups are benefiting equally from current instructional approaches. **Scope:** LEA-wide	students, including low-income students, English learners, and foster youth. These students are more likely to experience inconsistent instructional quality due to frequent staffing turnover, access disparities, or gaps in differentiated instruction. Collaborative time will be used to focus on targeted instructional strategies that support these students' academic growth, particularly in ELA, math, and English Language Development. By implementing this action across all school sites, the district ensures a systemwide culture of data-driven instruction and equity-focused collaboration.	1.9: Distance from Standard in math as measured by CA Dashboard. 1.10: Percent of students in grades 3-8 who meet or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard, Acadience Literacy 1.12: Percent of pupils in K-8th performing at or above standard on math. 1.13: Percent of pupils in 2nd -8th who score proficient in writing. 1.18: Percent of English Learners (EL) making Annual Progress in Learning English.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			1.19: EL Reclassification Rate. 1.22: Programs and services developed and provided to low-income, ELs, and foster youth.
1.14	**Action:** Supplemental Educational Experiences and Student Incentives **Need:** The 2025 California School Dashboard data indicate academic performance challenges in English Language Arts (ELA) and mathematics, particularly among unduplicated pupil groups. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist.	Through the implementation of this action, the district will provide a student recognition and incentive system that promotes academic achievement, regular attendance, and positive behavior. Students who meet individualized academic, attendance, or behavior goals will be eligible to participate in recognition activities, including school field trips and incentive-based rewards. This action is being provided on an LEA-wide basis but is principally directed toward unduplicated students, including low-income students, English learners, and foster youth. These students often face systemic barriers that affect consistent school attendance, academic performance, and engagement in school culture. Data from attendance and behavior records, as well as input from educational partners, indicate that positive reinforcement and tangible recognition strategies are effective in	1.8: Percent of students in grades 3-8 who meet or exceed standard in ELA. 1.10: Percent of students in grades 3-8 who meet or exceed standard in math. 1.11: Percent of pupils in K-6th performing at or above standard. Acadience Literacy

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points, indicating that not all student groups are benefiting equally from current instructional approaches. **Scope:** LEA-wide	increasing motivation and improving outcomes for these student groups. Providing this action LEA-wide promotes equity without stigma and encourages a positive, inclusive school climate. Schools serving higher proportions of unduplicated students will receive additional supports and may tailor incentives to meet the cultural and community context of their students.	1.12: Percent of pupils in K-8th performing at or above standard on math. 1.13: Percent of pupils in 2nd -8th who score proficient in writing. 1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate.
1.15	**Action:** LTELs Committee **Need:** An analysis of the 2025 California School Dashboard data reveals substantial academic disparities between Long-Term English Learners (LTELs) and the overall student population in LHUESD. Across multiple content areas, LTELs are among the lowest-performing student groups, indicating a critical	2025 CA Dashboard data reveals that Long-Term English Learners (LTELs) face critical and persistent academic underperformance across all core content areas: ELA: LTELs score 90.1 points below standard, compared to 14.8 points below for all students (a gap of 75.3 points).	1.7 ELA Distance from Standard 1.9 Math Distance from Standard 1.14 Percent of students met or exceeded standard on the California Science Test (CAST)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	need for targeted instructional support, intervention, and engagement strategies. **English Language Arts (ELA)- Distance from Standard** - All students: 14.8 points below standard -Long-Term English Learners: 90.1 points below standard GAP: 75.3 points This data shows that LTELs are performing significantly below their peers, with a gap exceeding 75 points, placing them multiple performance levels below the district average. **Mathematics- Distance from Standard** - All Students: 49.5 points below standard - Long-Term English Learners: 153.6 points below standard GAP: 104.1 points In mathematics, LTELs are performing more than 100 points below their peers and over 150 points below standard, demonstrating a severe and persistent achievement gap. **Scope:** LEA-wide	Math: LTELs scored 153.6 points below standard, compared to 49.5 points below for all students (a gap of 104.1 points) These disparities indicate that LTELs are struggling with foundational language development, content access, and engagement, factors that often lead to long-term academic disengagement and social-emotional challenges. Traditional ELD structures have not sufficiently closed these gaps. Additionally, stakeholder feedback from parents, staff, and school leaders reinforces the urgent need for coordinated, districtwide focus on LTEL outcomes. Although the action is implemented on a districtwide basis, it is principally directed toward supporting Long-Term English Learners, a high-need subgroup. Teh LTEL Committee creates a structure, data-driven mechanism to: • Ensure consistent cross-role collaboration (administrators, teachers, classified staff, parents) focused exclusively on the unique needs of LTELs) • Analyse disaggregated performance data including (ELPAC, CAASPP, attendance, discipline, and engagement to identify root causes	1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		• Develop site-specific and districtwide recommendations for instructional and social-emotional supports • Build staff capacity to recognize and respond to barriers facing LTELs through targeted professional learning and instructional refinement • Elevate the voice of parents of LTELs in district decision-making and continuous improvement cycles.	
2.1	**Action:** Student Wellnesss and Support **Need:** Based on our 2026 school climate survey, 90% of students in grades 3-8 reported that the school social worker program is helpful to their school experience. Student comments highlight the multi-dimensional support provided: 140 students stated, "social workers provide help, emotional support, and advice." These findings affirm that social workers play a vital role in fostering emotional well-being, which is especially important for English Learners and low-income students, who often face additional social and emotional challenges related to trauma, housing instability, or language access. Survey data also showed that 63% of 3rd-8th grade students found the AmeriCorps mentor	This action funds the position of Tier II and Tier III mental health supports delivered by school social workers, counselor, and AmeriCorps mentors. These staff members provide direct mental health services to at-risk students, coordinate individualized support plans with school personnel, and other training for staff and parents on social-emotional well-being, trauma-informed practices, and behavior intervention strategies. This action is implemented on an LEA-basis, but it is principally directed toward unduplicated students, including foster youth, English learners, and low-income students. These student groups disproportionately experience barriers to accessing mental health care and are more likely to face challenges related to trauma, attendance, and behavior. By expanding access to coordinated mental health services, the district seeks to improve school climate, student well-being, and academic achievement of these students.	2.1: Attendance Rate as measured by local data. 2.2: Chronic Absenteeism Rate. 2.3: Middle school dropout rate as measured by local SIS data. 2.4: Pupil suspension rate as measured by CA Dashboard. 2.5: Pupil expulsion rate.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	helpful during the past year, with 75% stating that the mentor provides support. while 25% responded "Don't Know," this indicates an opportunity for deeper engagement and clearer mentor-student connections, particularly for unduplicated students who may benefit from consistent, trusted adult relationships. Despite a consistent decrease in chronic absenteeism in recent years, the district remains 2.3% above pre-pandemic levels (current 11.8%). Our 2024-25 attendance rate was 95.4%, a slight increase from 95.2% in 2023-24, and current data shows only a 0.09% improvement over the previous year. We did not meet our goal of 98% attendance, suggesting that barriers persist, especially for low-income students and English Learners who are more likely to experience transportation, health, or family-related attendance challenges. Because of the demonstrated impact of our student wellness staff and the ongoing need to reduce chronic absenteeism and suspensions, especially among unduplicated pupils, the district will continue to fund and prioritize social worker and AmeriCorps mentor services. These supports are critical in creating a safe, responsive, and equitable school environment that meets the holistic needs of our most vulnerable students. **Scope:**	Offering these supports across all school sites ensures that unduplicated students are served equitably while promoting a positive environment for all students.	2.6: Percentage of pupils reporting feeling safe, welcomed, and connected to their school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
2.2	**Action:** PBIS and SEL Implementation **Need:** The district began implementing Positive Behavioral Interventions and Supports (PBIS) in 2019-20 as a systemic strategy to improve school climate and reduce exclusionary discipline practices. Since implementation, measurable progress has been made, particularly among unduplicated student groups. From 2019 to 2025, the overall student suspension rate declined from 3.8% to 0.6%. Notably, suspension rates for English Learners (EL) dropped to 0.6%, and Socioeconomically Disadvantaged (SED) students to 0.7%. Both groups moving to Green on the California Data Dashboard, demonstrating that PBIS has contributed significantly to creating more inclusive and supportive school environments for these student groups. In terms of attendance, chronic absenteeism for all students decreased by 2.2 percentage points, from 14.0% in 2024 and 11.8% in 2025. This improvement also extends to SED students, whose attendance data mirror these gains. These trends highlight the continuing need for targeted school climate and attendance interventions, especially for unduplicated	Through this action, the district will continue implementation of a Positive Behavioral Interventions and Supports (PBIS) framework at all school sites. This includes setting and reinforcing schoolwide behavioral expectations, providing staff training on PBIS strategies, recognizing students who demonstrate desired behaviors, and regularly using behavioral data to monitor impact and adjust strategies as needed. This action is implemented on an LEA-wide basis, but is principally directed toward unduplicated students, particularly low-income students, English learners, and foster youth, who are disproportionately affected by exclusionary discipline and inconsistent behavior expectations. Input from educational partners and analysis of suspension and chronic absenteeism data indicate that these students benefit significantly from consistent behavioral systems, social-emotional support, and positive reinforcement. By applying the PBIS framework districtwide, the district ensures that unduplicated students receive equitable and consistent behavioral support across both campuses, while promoting a safe and inclusive school climate for all students.	2.4: Pupil suspension rate as measured by CA Dashboard. 2.5: Pupil expulsion rate. 2.6: Percentage of pupils reporting feeling safe, welcomed, and connected to their school. 2.7: Percentage of staff reporting feeling that the school inspires them to do the very best at their jobs. Percentage of staff feeling satisfied with the recognition they get for doing a good job.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	pupils who remain disproportionately impacted by both suspensions and absenteeism. The district believes that sustaining and enhancing PBIS implementation will further reduce chronic absenteeism and disciplinary disparities, particularly for English Learners and SED students, while continuing to improve overall school connectedness. As a result, actions tied to PBIS are being provided on an ELA-wide basis but are principally directed to address the unique needs of unduplicated students. These actions are monitored using disaggregated metrics for suspensions and chronic absenteeism to evaluate effectiveness in providing outcomes for those groups. **Scope:** LEA-wide		Percentage of staff reporting feeling like they belong.
2.3	**Action:** Chronic Absenteeism, Additional Transportation **Need:** While chronic absenteeism has improved for the "All Students" group, our current rate remains 2.3 percentage points higher than the pre-COVID-19 baseline. However, disaggregated data from the California School Dashboard reveals that unduplicated pupils continue to face disproportionate challenges. Both Hispanic and Low-Income (LI) student subgroups are currently performing at the	Community school coordinators will monitor student attendance with a focus on students identified as at risk of becoming chronically absent. When students are not in school and are not reported ill, coordinators will initiate home visits, offer transportation assistance (including picking up students), and work with families to identify and address barriers to consistent attendance. Coordinators will also maintain ongoing communication with families and collaborate with school personnel to implement early intervention strategies.	2.1: Attendance Rate as measured by local data. 2.2: Chronic Absenteeism Rate.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	"Yellow" level on the Dashboard's Chronic Absenteeism Indicator, indicating persistent attendance issues that demand targeted interventions. More concerning, Students with Disabilities SWD) are identified in the "Red" performance level, reflecting the most urgent level of need. These indicators highlight a significant and ongoing need to provide increased and improved services particularly in the form of culturally responsive, linguistically appropriate, and family-centered attendance supports. The district recognizes that chronic absenteeism among unduplicated students is often influenced by a combination of language barriers, economic hardship, and access to school-connected support services. Accordingly, planned actions in the LCAP are designed to directly address these barriers, and will include metrics specifically monitoring attendance for Hispanic and Low-Income students to ensure services are effectively reducing chronic absenteeism gaps. **Scope:** LEA-wide	This action is implemented on an LEA-wide basis, but it is principally directed toward unduplicated students. particularly low-income students, foster youth, and English learners, who disproportionately face attendance challenges due to transportation barriers, unstable housing, or lack family resources. Educational partner input and attendance data confirm that Transportation support and personal outreach are effective strategies for re-engaging students and reducing chronic absenteeism. While available districtwide to ensure equitable access, this action prioritizes support to students with the highest rates of chronic absences.	
2.4	**Action:** Additional Student Supervision **Need:** To maximize instructional access to unduplicated pupils, the elementary and middle school site offers before-school tutoring	Through this action, students are able to arrive as early a 6:00 a.m. to participate in before-school tutoring designed to provide academic support in core subjects. This action is provided on an ELA-wide basis because unduplicated pupils, including low-income students, English learners, and foster youth benefit from expanded access to	2.6: Percentage of pupils reporting feeling safe, welcomed, and connected to their school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and homework assistance programs specifically for English Learners (ELs) and Socioeconomically Disadvantaged (SED) students. Participation in this program begins as early as 6:00 a.m., allowing students to receive academic support before the start of the regular school day. Many families rely on this option due to work-related constraints. However, because regular staff begin their day at 7:15 a.m., program staffing and sustainability remain a challenge, especially for students who are most in need of individualized instructional time. Assessment data from 2025 underscores the critical importance of maintaining and strengthening these supports. In ELA, overall performance for All students remained in the Orange performance level at 14.8 points below standard. English Learners also remained in Orange, while Long-Term English Learners declined significantly by 32.3 points and remained in the Red performance level, indicating substantial gaps in literacy development. Although Socioeconomically Disadvantaged students improved by 8.6 points and moved into Yellow, performance gaps persist. In mathematics, All Students improved to the Yellow performance level (+14.8 points), and both English Learners (+18 points) and Socioeconomically Disadvantaged students (+21.9 points) showed growth. However, Long-Term English Learners declined by 3.8 points	instructional support outside of the regular school day. However, it is being offered to all students to maximize access and promote equity. This action is principally directed toward addressing the academic needs of unduplicated pupils, who face demonstrated achievement gaps and may lack access to private tutoring resources outside of school.	1.11 Percent of pupils in K-6th performing at or above standard.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	This data trends confirm a substantial and growing need for targeted academic interventions, particularly in early-morning academic support programs for ELs, SED, and LTEL students. Addressing these gaps requires not only sustaining the current before-school programs but also improving staffing and instructional quality to ensure that unduplicated pupils, especially Long-Term English Learners, receive focused support aligned to their language development and academic recovery needs. **Scope:** LEA-wide		
2.5	**Action:** Extracurricular Activities and Career Learning Opportunities and Exploration **Need:** While chronic absenteeism has improved for the "All Students" group, the current rate remains 2.3 percentage points below the pre-COVID-19 baseline. Disaggregated data from the California School Dashboard reveals persistent and disproportionate challenges for unduplicated pupils. SED students remain at the "Yellow" performance level on the Chronic Absenteeism Indicator, while Students with Disabilities (SWD) are in the "Red", indicating the highest level of need.	This action provides career learning and exploration opportunities for middle school students, including access to art instruction, visits to colleges and universities, and participation in a districtwide career day. These experiences are designed to expose students, particularly those from underserved backgrounds to opportunities and environments they may not typically access before high school. This action is provided on an LEA-wide basis because it addresses the demonstrated need for early exposure to postsecondary pathways and career options among unduplicated pupils, including low-income students, English learners,	2.6: Percentage of pupils reporting feeling safe, welcomed, and connected to their school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Chronic absenteeism among these groups is often linked to a lack of meaningful engagement and limited access to enrichment opportunities that build connection to school. In response, the district is implementing actions that expand extracurricular activities and career learning experiences. These actions are designed to address the specific needs of unduplicated pupils by increasing their sense of belonging, motivation, and connection to future pathways. During educational partner consultation, teachers and paraprofessionals emphasized the need for more elective offerings, such as music, art, life skills, and computer literacy, especially during and after school. Students share that they are more likely to attend school when field trips are engaging events are offered. particularly around breaks when absenteeism spikes. School Site Council (SSC) members recommend the addition of career exploration activities such as "Career Day" to inspire purpose and engagement. **Scope:** LEA-wide	and foster youth. However, it is made available to all students to ensure equitable access to foster a culture of college and career readiness across the district. The action is principally directed toward increasing engagement and preparedness among unduplicated students by mitigating opportunity gaps that exist prior to high school.	
2.6	**Action:** Supplemental School Safety **Need:** Approximately, 80% of students participate in extracurricular programs offered before schools, after school, during the summer, and on Saturdays. These programs are particularly	Through this action, the district will ensure that all supplemental programs, including after-school and extended learning opportunities, are equipped with adequate safety supplies and that staff are properly trained to respond to emergencies. This includes training in basic first aid, emergency procedures, and crisis response protocols to	2.6: Percentage of pupils reporting feeling safe, welcomed, and connected to their school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	critical for unduplicated pupils, ELs, SED, LTELs, and Foster Youth, who often benefit from extended learning time, structured environments, and opportunities to build positive peer and adult relationships. Because these programs rely on outside staff, there is an ongoing need for funding to ensure all personnel are properly trained in trauma-informed practices, cultural responsiveness, and strategies to support the academic and social-emotional needs of unduplicated pupils. Additionally, to ensure the safety and supervision of students across nontraditional hours, investment in safety supplies and materials remain a priority. Results from the district's 2026 student survey showed that 95% of students reported feeling safe, welcomed, and connected to school. Maintaining and enhancing this climate is especially important for unduplicated students, who may face greater challenges related to school engagement and attendance. Continued funding for staff training and program safety ensures that the district can sustain before-and after-school programs as a key strategy to support equity, reduce chronic absenteeism, and promote school connectedness among its highest-need population.	ensure a safe learning environment beyond regular school hours. This action is provided on an LEA-wide basis because all students and staff benefit from enhanced safety measures. However, it is principally directed toward unduplicated pupils, particularly ow-income students, English learners, and foster youth, who are more likely to participate in after-school programs due to supervision needs and limited access to private enrichment opportunities. By prioritizing safety in these settings, the district ensures equitable access to secure, supportive environments for students most in need.	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
3.1	**Action:** Parent Center **Need:** In our 2026 Parent Survey, parents reported parental involvement as being the second highest priority for the district. In this same survey, 95% of parents reported, "I feel comfortable participating in school activities for parents." 92% reported, "I feel that the school/district values my participation or input." 95% reported, 'My children's school encourages involvement from community organizations," and 86% reported, "I feel like I have a say in the decision-making process at my child's school." In order to maintain these positive outcomes, the district will continue to provide a parent center to facilitate communication between the school and parents. **Scope:** LEA-wide	The Parent Center will serve as a dedicated space on campus where families can access support with school-related documentation, digital platforms and apps, and receive training on educational software. In addition, the Center will offer regular workshops to help parents engage more effectively in their children's education and participate meaningfully in school and district decision-making. This action is provided on an LEA-wide basis because all families benefit from improved access to resources and training that foster deeper school engagement. However, it is principally directed toward unduplicated pupils, especially low-income families, English learners, and foster youth, whose parents may face barriers to engagement due to language, access to technology, or unfamiliarity with school systems. The Parent Center addresses these challenges by providing inclusive, culturally responsive, and multilingual support.	3.3: Rate of parents reporting that they feel like they have a say in the decision making process at their children's school.
3.2	**Action:** Community School Coordinator **Need:**	The community school coordinator, based in the Parent Center, serves as a vital liaison between families and the school. The coordinator builds trust with parents through consistent outreach and	3.3: Rate of parents reporting that they feel like they have a say in the

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	This year's parent survey reported a positive improvement on the way parents feel about their participation in the decision-making process and in how comfortable they feel in their participation in school activities. n our 2026 Parent Survey, parents reported parental involvement as being the second highest priority for the district. In this same survey, 95% of parents reported, "I feel comfortable participating in school activities for parents." 92% reported, "I feel that the school/district values my participation or input." 95% reported, 'My children's school encourages involvement from community organizations," and 86% reported, "I feel like I have a say in the decision-making process at my child's school." In order to maintain these positive outcomes, the district will continue to provide a parent center to facilitate communication between the school and parents. **Scope:** LEA-wide	communication, including home visits, facilitation of culturally responsive workshops, and individualized support in identifying and addressing barriers to school participation. This action is provided on an LEA-wide basis because all families benefit from increased engagement opportunities and support systems that strengthen their role in their children's education and school decision-making. However, it is principally directed toward unduplicated pupils, especially families of low-income students, English Learners, and foster youth, who are more likely to face systemic barriers to engagement due to socioeconomic, linguistic, or housing-related challenges. This action addresses those needs through targeted support strategies that remove access barriers and promote inclusive participation.	decision making process at their children's school.
3.3	**Action:** Parent and Family Resources and Training **Need:**	To promote sustained and meaningful family engagement, the district will continue to explore and provide resources and training opportunities that empower parents to support their children's learning at home. These may include academic	3.3: Rate of parents reporting that they feel like they have a say in the decision making process at their children's school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	During the educational partners process, parents express that they would like to see the continued implementation of this action. Additionally, the 2026 Parent Survey reported that 32% of parents want more information on how to support students at home. **Scope:** LEA-wide	support materials, workshops on instructional strategies, and technology trainings aligned with classroom tools. This action is provided on an LEA-wide basis because all families benefit from resources that strengthen the home-school connection. However, it is principally directed toward unduplicated pupils, particularly families of low-income students, English learners, and foster youth, who may not have this support universally, the district ensures that the most underserved families are reached through inclusive and accessible delivery methods.	
3.4	**Action:** Interpretation/Translation **Need:** Rate of parents reporting that they feel like they have a say in the decision-making process at their children's schools- 86%. In order to continue this high percentage of parent satisfaction and as a way to encourage parental involvement, the district will provide interpretation and translation services for all parent-teacher conferences and meetings. **Scope:** LEA-wide	This action enhances access and engagement for English Learner (EL) families by providing translation and interpretation support during parent-teacher conferences and school events, including those held outside regular work hours. Paraprofessionals and trained staff serve as interpreters to ensure that language is not a barrier to understanding student progress, accessing school services, or participating in decision-making. This action is provided on an LEA-wide basis because all families can benefit from clear communication with school personnel in their	3.3: Rate of parents reporting that they feel like they have a say in the decision making process at their children's school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		home language. However, it is principally directed toward unduplicated pupils, particularly English learners and their families, who require language access services to meaningfully participate in their children's education. This approach promotes equity and ensures inclusive, culturally responsive communication across the district.	
3.5	**Action:** Childcare and Snacks for Parent Meetings **Need:** Rate of parents reporting that they feel like they have a say in the decision-making process at their children's schools- 86%. In order to continue this high percentage of parent satisfaction and as a way to encourage parental involvement, the district will provide childcare and snacks. The district believes providing snacks and childcare facilitates parent participation in meetings, trainings and workshops. Since the implementation of this strategy, we have experienced increased participation in workshops and the LCAP process. For example: 97 parents completed the Parent Institute for Quality Education- parents expressed their appreciation for childcare and snacks. Additionally, 39 parents participated in the LCAP focus group in 2022-23, 24 parents in 2023-24, and 20 in 2025-26. During our Educational Partners consultation process classified staff, teachers, administrators, students, and parents express the importance of providing snacks and childcare for parent engagement meetings. These groups would like the district to continue to provide this action in the 2026-27 LCAP. **Scope:**	To support increased parent engagement, especially among families of unduplicated students, the district will provide snacks and childcare during all evening parent workshops and trainings. These sessions are strategically scheduled outside regular work hours to accommodate working families. Educational partners have consistently indicated that access to childcare and food removes key barriers to participation for many families, particularly those from low-income households or those experiencing housing instability. This action is provided on an LEA-wide basis because all families benefit from supportive services that make engagement more accessible. However, it is principally directed toward unduplicated pupils by addressing the specific logistical challenges that often prevent their families from participating in school-based events and decision-making processes.	3.3: Rate of parents reporting that they feel like they have a say in the decision making process at their children's school.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
3.6	**Action:** Parent Recognitions for Parental Engagement **Need:** In the 2026 Parent Survey, 86% of parents reported that they feel like they have a say in the decision-making process at their children's schools. Additionally, participation rate in school level parent committees were the following: SS Committee- 6 meetings (100% attendance rate) MPAC- 6 meetings (86% participation rate) ELAC- 10 meetings (86% attendance rate) DELAC- 4 meetings (100%). In order to maintain this positive level of parent participation in school and district level committees, we will provide recognition and incentives for parents. To continue to encourage positive participation of parents in school and district committees, the district will recognize and incentivize parent participation. **Scope:** LEA-wide	To foster greater parent involvement in school and district decision-making, the district will recognize parents who have been selected by their peers to serve on the School Site Council (SSC), English Learner Advisory Committee (ELAC), and Migrant Parent Advisory Committee (MPAC). Recognition will occur at an annual Parent Banquet, where participants will receive certificates, school shirts plaques, and other tokens of appreciation. This action is provided on an LEA-wide basis to motivate broader family engagement in governance and advisory roles. However, it is principally directed toward the families of unduplicated pupils, especially English learners and low-income families, whose voices are essential in shaping school programs and who have historically faced barriers to sustained participation in school leadership roles. Publicly acknowledging their contributions strengthens representation and builds trust between schools and families.	3.1: Number of meetings per school year where parents have the opportunity to make decisions for district and/or school sites. 3.2: Participation rate of parent committee meetings.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
3.7	**Action:** Family Engagement Events **Need:** The district believes that when families are connected and feel comfortable attending and participating in school events, they are more likely to actively engage in their children's education. In the 2026 Parent Survey, 93% of parents rated the participation of parents overall level of involvement in their children's school as either very involved or moderately involved. 98% of parents reported that they are able to speak with teachers and staff when they need to. Also, 94% of parents reported that they prefer to attend school events in person. Additionally, during the educational partners process parents and staff expressed that all actions in Goal 3 were important and they would like to see them continue. Students expressed the district should continue to host events that involve everyone and bring the community together. To continue to encourage positive communication and interactions between school staff and families, the district will host	The Community School Coordinator will collaborate with administrators and school staff to organize events and opportunities that foster positive, relationship- building interactions between families and school personnel. These activities may include family engagement nights, informal meet-and-greets, and culturally responsive community events held outside of the regular school day. This action is provided on an LEA-wide basis because all families and staff benefit from strengthening home-school relationships that build trust and improve communication. However, it is principally directed toward unduplicated pupils, particularly low-income families, English learners, and foster youth, whose families may face barriers such as work schedules, language access, or prior negative experiences with schools. These targeted efforts are designed to promote inclusive environments that encourage sustained family engagement and equitable participation in school life.	3.4: Promotion of participation of parents of unduplicated pupils. Flyers, letters, automated phone system (text messages, voice mails, emails, and personal telephone calls)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	monthly family's events such as a Fall Harvest Festival, Thanksgiving Dinner, Winter Program, Paint Nights and others. **Scope:** LEA-wide		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.7	**Action:** Supplemental Personnel/ LREBG **Need:** Dashboard and local assessment data highlight persistent academic and language development needs among English Learners (ELs). In 2025, ELs remained in the "Orange" performance level in English Language Arts (ELA) and "Yellow" in mathematics on the California School Dashboard, indicating continued underperformance relative to state standards. While there have been incremental gains, progress remains limited:	Through this action, ELs will receive strategic support from two (2) paraprofessionals and one (1) ELD teacher. The ELD teacher will provide direct services to EL students and will also provide classroom support. EL will also have access to dedicated computer programs and curriculum.	1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	• ELA CAASPP proficiency for ELs increased by 2.57 percentage points, from 10.94% to 13.51% between 2023-24 and 2024-25 • Math CAASPP proficiency for ELs increased by 2.78 percentage points, from 9.38% to 12.6% • The percentage of ELs making progress toward English language proficiency increased by 6.5 percentage points, from 46.9% in 2024 to 53.4% in 2025 (ELPAC) Despite these improvements, overall proficiency levels remain low, and current rates of growth are not sufficient to close achievement gaps within the LCAP cycle. This indicates that existing instructional supports are not yet producing the intensity or acceleration needed for EL students to reach grade-level standards. Educational partner input, including feedback from teachers and paraprofessionals, identified a need to continue targeted and sustained academic and language development support during and beyond core instruction.		

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)		
1.8	**Action:** Extending Instructional Minutes **Need:** Recent data indicates that English Learner (EL) students continue to perform significantly below grade-level standards in English Language Arts and mathematics. In 2024-25, EL proficiency rates remained low despite modest growth, increasing to 13.51% in ELA (from 10.94%) and 12.16% in mathematics (from 9.38%). Additionally, while 53.4% of ELs made progress towards English language proficiency on the ELPAC (a 6.5 percentage point increase), nearly half of EL students are still not progressing toward proficiency. **Scope:** Limited to Unduplicated Student Group(s)	LHUESD will continue to implement an additional 15 minutes of daily Designated English Language Development (ELD) instruction across all school sites. This expanded instructional time is provides on an LEA-wide basis but is principally directed toward English Learner (EL) students to accelerate language acquisition and improve academic outcomes. State and local data indicate that English Learners remain one of the lowest-performing student groups in the district and continue to require intensified language support. In 2024-25, EL proficiency rates remained low despite modest growth, with 13.51% of EL students meeting or exceeding standards in ELA (up from 10.94% in 2023-24) and 12.16% in mathematics (up from 9.38%). Additionally, 53.4% of EL students made progress toward English language proficiency on the English Learner Progress Indicator, reflecting a 6.5% percentage point increase from the previous year. While these gains show improvement, overall performance levels remain low.	1.18: Percent of English Learners (EL) making Annual Progress in Learning English. 1.19: EL Reclassification Rate.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		Educational partner input, including feedback from parents, teachers, and site administrators, consistently identified the need for increased targeted instructional time during the school day to support English Learners, prevent long-term English Learner designation, and improved access to grade-level content. The additional ELD instructional time is designed to address these needs because it provides structured, standards-aligned language instruction tailored to students' proficiency levels, which increases opportunities for guided practice, academic discourse, and language development. This expanded time allows teachers to deliver differentiated instruction based on ELPAC and formative assessment data, which improves students' ability to develop reading, writing, listening, and speaking skills aligned to the California ELD Standards. Although this action is implemented LEA-wide, English Learners are the primary beneficiaries because the additional instructional time is specifically designed to meet their identified language development needs.	
1.9	**Action:** ELD Instruction **Need:**	Through this action, we will utilize the Data Wise process to organize and improve our work with ELs. Teachers will receive ELD training, conduct learning walks, and analyze student data to	1.18: Percent of English Learners (EL) making Annual Progress in Learning English.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	2024-25 Data: ELs CAASPP ELA Proficiency- 13.51% compared to 10.61% in 2023-24, CAASPP math proficiency- 12.16% compared to 9.38% the previous year. CA Dashboard- 53.4% (6.5% improvement from the previous year). **Scope:** Limited to Unduplicated Student Group(s)	improve their practices. Funding will be used to cover training costs.	1.19: EL Reclassification Rate.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

In the 2026-27, the district will use additional concentration grant add-on funding to increase the number of staff providing direct services to students at school sites where more than 55 percent of students are foster youth, English Learners, and/or low-income. Specifically, the district will:

Add 2.0 FTE paraprofessionals and English Language Development (ELD) teachers to provide targeted academic and language acquisition support for English Learners. These staff will be assigned to school sites where the English Learner population exceeds 55% and where student performance on the ELPAC and local benchmarks indicates needs. Goal 1 Action 1.7

Hire 4.0 FTE credentialed teachers to reduced student-to-teacher ratios at schools with high concentrations of unduplicated pupils. These positions will enhance classroom instruction and allow for more differentiated and small-group instruction to support struggling learners. Goal 1 Action 1.3

Expand career learning opportunities (1.0 FTE in art, college visits, and career exposures activities) prioritizing students identified as low-income, English Learners, and foster youth. Priority registration and transportation will be provided to remove access barriers. These programs will occur primarily at high concentration sites to address opportunity gaps and post-secondary readiness. Goal 2 Action 2.5

Fund an additional 1.0 FTE Community School Coordinator to lead family engagement at high concentration sites. This role will focus on strengthening home-school partnerships, particularly for low-income, English Learner, and foster youth families, through culturally responsive outreach and coordination of services. Goal 3 Action 3.2

Each staffing increase and service expansion is designed to meet the distant needs of unduplicated students and will be monitored using disaggregated metrics such as chronic absenteeism, reclassification rates, and participation in enrichment opportunities to evaluate effectiveness.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	1:18
Staff-to-student ratio of certificated staff providing direct services to students	N/A	1:18

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
